#	ARTICLE	IF	CITATIONS
1	Ethical challenges and complexities of including people with intellectual disability as participants in research. <i>Journal of Intellectual and Developmental Disability</i> , 2006, 31, 173-179.	1.6	133
2	A systematic review of hospital experiences of people with intellectual disability. <i>BMC Health Services Research</i> , 2014, 14, 505.	2.2	131
3	Health issues for adults with developmental disability. <i>Research in Developmental Disabilities</i> , 2002, 23, 422-445.	2.2	118
4	The assessment of sexual knowledge in people with intellectual disability. <i>Journal of Intellectual and Developmental Disability</i> , 2004, 29, 350-365.	1.6	103
5	Phonological Awareness and Oral Reading Skill in Children With Down Syndrome. <i>Journal of Speech, Language, and Hearing Research</i> , 2000, 43, 595-608.	1.6	102
6	The experiences of people with developmental disability in Emergency Departments and hospital wards. <i>Research in Developmental Disabilities</i> , 2003, 24, 247-264.	2.2	93
7	Identification of intentional communication in students with severe and multiple disabilities. <i>AAC: Augmentative and Alternative Communication</i> , 1998, 14, 102-114.	1.4	88
8	Issues of Informed Consent in Conducting Medical Research Involving People with Intellectual Disability. <i>Journal of Applied Research in Intellectual Disabilities</i> , 2003, 16, 41-51.	2.0	86
9	Communication Options for Persons with Severe and Profound Disabilities: State of the Art and Future Directions. <i>Research and Practice for Persons With Severe Disabilities</i> , 1990, 15, 3-21.	0.6	83
10	Pre-emptive intervention versus treatment as usual for infants showing early behavioural risk signs of autism spectrum disorder: a single-blind, randomised controlled trial. <i>The Lancet Child and Adolescent Health</i> , 2019, 3, 605-615.	5.6	83
11	A systematic review of research into aided AAC to increase social-communication functions in children with autism spectrum disorder. <i>AAC: Augmentative and Alternative Communication</i> , 2017, 33, 51-64.	1.4	78
12	People with developmental disabilities teaching medical students â€œ Does it make a difference?. <i>Journal of Intellectual and Developmental Disability</i> , 2008, 33, 345-348.	1.6	75
13	A few well-chosen words. <i>AAC: Augmentative and Alternative Communication</i> , 1998, 14, 147-161.	1.4	70
14	The role of augmentative and alternative communication for children with autism: current status and future trends. <i>Neuropsychiatric Disease and Treatment</i> , 2016, Volume 12, 2349-2361.	2.2	68
15	The efficacy of `whole word' versus `analytic' reading instruction for children with Down syndrome. <i>Reading and Writing</i> , 2002, 15, 549-574.	1.7	59
16	Crews, Wusses, and Whoppas: core and fringe vocabularies of Australian meal-break conversations in the workplace. <i>AAC: Augmentative and Alternative Communication</i> , 1999, 15, 95-109.	1.4	56
17	Australian Speech-Language Pathologists' Perceptions and Experiences of Augmentative and Alternative Communication in Early Childhood Intervention. <i>AAC: Augmentative and Alternative Communication</i> , 2009, 25, 236-249.	1.4	56
18	Social Interaction with Adults with Severe Intellectual Disability: Having Fun and Hanging Out. <i>Journal of Applied Research in Intellectual Disabilities</i> , 2012, 25, 329-341.	2.0	56

#	ARTICLE	IF	CITATIONS
19	Intellectual disability health content within nursing curriculum: An audit of what our future nurses are taught. <i>Nurse Education Today</i> , 2016, 45, 72-79.	3.3	54
20	Comparison of Sign alone and in combination with an electronic communication device in early language intervention: Case study. <i>AAC: Augmentative and Alternative Communication</i> , 1995, 11, 249-259.	1.4	53
21	Facilitated Communication and Authorship: A Systematic Review. <i>AAC: Augmentative and Alternative Communication</i> , 2014, 30, 359-368.	1.4	50
22	Professional judgments of the intentionality of communicative acts. <i>AAC: Augmentative and Alternative Communication</i> , 2002, 18, 177-191.	1.4	48
23	A scoping review of Australian allied health research in ehealth. <i>BMC Health Services Research</i> , 2016, 16, 543.	2.2	48
24	Disability support workers's experience of interaction with a person with profound intellectual disability. <i>Journal of Intellectual and Developmental Disability</i> , 2008, 33, 137-147.	1.6	47
25	Secondary Conditions in People With Developmental Disability. <i>American Journal on Intellectual and Developmental Disabilities</i> , 2011, 116, 36-47.	1.6	45
26	Further examination of relationships between life events and psychiatric symptoms in adults with intellectual disability. <i>Journal of Intellectual Disability Research</i> , 2005, 49, 839-844.	2.0	44
27	The effect of active support training on engagement, opportunities for choice, challenging behaviour and support needs. <i>Journal of Intellectual and Developmental Disability</i> , 2008, 33, 247-256.	1.6	43
28	Intellectual disability health content within medical curriculum: an audit of what our future doctors are taught. <i>BMC Medical Education</i> , 2016, 16, 105.	2.4	41
29	Gesture and word production in children with down syndrome. <i>AAC: Augmentative and Alternative Communication</i> , 2001, 17, 73-87.	1.4	38
30	Taking each day as it comes: staff experiences of supporting people with <sc>D</sc>own syndrome and <sc>A</sc>lzheimer's disease in group homes. <i>Journal of Intellectual Disability Research</i> , 2014, 58, 521-533.	2.0	38
31	Weight, nutrition, food choice, and physical activity in adults with intellectual disability. <i>Journal of Intellectual Disability Research</i> , 2016, 60, 355-364.	2.0	38
32	Relationships amongst age, language and related skills in adults with Down syndrome. <i>Research in Developmental Disabilities</i> , 2010, 31, 568-576.	2.2	35
33	Health care service provision for country people with developmental disability: an Australian perspective. <i>Research in Developmental Disabilities</i> , 2004, 25, 265-284.	2.2	34
34	Efficacy of a parent-implemented early language intervention based on collaborative consultation. <i>International Journal of Language and Communication Disorders</i> , 1998, 33, 281-303.	1.5	33
35	Health Screening and Developmental Disabilities. <i>Journal of Policy and Practice in Intellectual Disabilities</i> , 2006, 3, 155-163.	2.7	33
36	The human rights context for ethical requirements for involving people with intellectual disability in medical research. <i>Journal of Intellectual Disability Research</i> , 2012, 56, 1122-1132.	2.0	33

#	ARTICLE	IF	CITATIONS
37	GP and support people's concerns and priorities for meeting the health care needs of individuals with developmental disabilities: a metropolitan and non-metropolitan comparison. <i>Journal of Intellectual and Developmental Disability</i> , 2003, 28, 353-368.	1.6	32
38	PICTURE IT: an evaluation of a training program for carers of adults with severe and multiple disabilities. <i>Journal of Intellectual and Developmental Disability</i> , 2003, 28, 260-282.	1.6	32
39	Selecting augmentative communication devices for persons with severe disabilities: Some factors for educational teams to consider. <i>Journal of Intellectual & Developmental Disability</i> , 1993, 18, 133-146.	0.3	30
40	Teaching a child with multiple disabilities to use a tactile augmentative communication device. <i>AAC: Augmentative and Alternative Communication</i> , 1989, 5, 249-256.	1.4	29
41	Accurate or Assumed: Visual Learning in Children with ASD. <i>Journal of Autism and Developmental Disorders</i> , 2015, 45, 3276-3287.	2.7	28
42	Reliability and validity of the revised Triple C: Checklist of Communicative Competencies for adults with severe and multiple disabilities. <i>Journal of Intellectual Disability Research</i> , 2009, 53, 44-53.	2.0	27
43	A Document Review of Exclusionary Practices in the Context of Australian School Education Policy. <i>Journal of Policy and Practice in Intellectual Disabilities</i> , 2019, 16, 264-272.	2.7	27
44	AAC and Australian speech pathologists: report on a national survey. <i>AAC: Augmentative and Alternative Communication</i> , 1998, 14, 239-249.	1.4	26
45	Addressing increasing demands on Australian disability support workers. <i>Journal of Intellectual and Developmental Disability</i> , 2010, 35, 290-295.	1.6	25
46	Experiences of adults with complex communication needs receiving and using low tech AAC: an Australian context. <i>Disability and Rehabilitation: Assistive Technology</i> , 2013, 8, 392-401.	2.2	25
47	The nature of affect attunement used by disability support workers interacting with adults with profound intellectual and multiple disabilities. <i>Journal of Intellectual Disability Research</i> , 2014, 58, 1105-1120.	2.0	24
48	The Interaction with Disabled Persons scale: Revisiting its internal consistency and factor structure, and examining item-level properties. <i>Research in Developmental Disabilities</i> , 2009, 30, 1490-1501.	2.2	23
49	Experiences of supporting people with Down syndrome and Alzheimer's disease in aged care and family environments. <i>Journal of Intellectual and Developmental Disability</i> , 2012, 37, 54-60.	1.6	22
50	Acquisition and generalization of key word signing by three children with autism. <i>Developmental Neurorehabilitation</i> , 2014, 17, 125-136.	1.1	22
51	A scoping review of the working alliance in acquired brain injury rehabilitation. <i>Disability and Rehabilitation</i> , 2019, 41, 489-497.	1.8	22
52	Assessment of Phonemic Awareness and Word Reading Skills of People With Complex Communication Needs. <i>Journal of Speech, Language, and Hearing Research</i> , 2004, 47, 437-449.	1.6	20
53	Challenging behaviour and associated risk factors: an overview (part I). <i>Advances in Mental Health and Intellectual Disabilities</i> , 2012, 6, 199-214.	1.1	20
54	Individual language learning styles and Augmentative and Alternative Communication. <i>AAC: Augmentative and Alternative Communication</i> , 1992, 8, 33-40.	1.4	19

#	ARTICLE	IF	CITATIONS
55	Maximizing community inclusion through mainstream communication services for adults with severe disabilities. <i>International Journal of Speech-Language Pathology</i> , 2009, 11, 180-190.	1.2	19
56	DVD-based stories of people with developmental disabilities as resources for inter-professional education. <i>Disability and Rehabilitation</i> , 2011, 33, 1010-1021.	1.8	19
57	Intellectual disability content within pre-registration nursing curriculum: How is it taught?. <i>Nurse Education Today</i> , 2018, 69, 48-52.	3.3	19
58	Intellectual disability content within tertiary medical curriculum: how is it taught and by whom?. <i>BMC Medical Education</i> , 2018, 18, 182.	2.4	19
59	The pearl in the middle: A case study of social interactions in an individual with a severe intellectual disability. <i>Journal of Intellectual and Developmental Disability</i> , 2010, 35, 175-186.	1.6	18
60	A comparison of Malaysian and Australian speech-language pathologists' practices with children with developmental disabilities who are pre-symbolic. <i>International Journal of Speech-Language Pathology</i> , 2011, 13, 389-398.	1.2	18
61	The Challenges and Benefits of Using Participant Observation to Understand the Social Interaction of Adults with Intellectual Disabilities. <i>AAC: Augmentative and Alternative Communication</i> , 2011, 27, 267-278.	1.4	18
62	A model of processes that underpin positive relationships for adults with severe intellectual disability. <i>Journal of Intellectual and Developmental Disability</i> , 2012, 37, 324-336.	1.6	18
63	Factors that predict good Active Support in services for people with intellectual disabilities: A multilevel model. <i>Journal of Applied Research in Intellectual Disabilities</i> , 2020, 33, 334-344.	2.0	18
64	Topics of meal-break conversations. <i>AAC: Augmentative and Alternative Communication</i> , 1998, 14, 131-146.	1.4	17
65	Access to dental services for children with intellectual and developmental disabilities – A scoping review. <i>Research in Developmental Disabilities</i> , 2018, 74, 1-13.	2.2	17
66	AAC and scripting activities to facilitate communication and play. <i>International Journal of Speech-Language Pathology</i> , 2003, 5, 79-93.	0.5	16
67	Augmentative and alternative communication supports for adults with autism spectrum disorders. <i>Autism</i> , 2014, 18, 891-902.	4.1	16
68	Language Intervention in Early Childhood. <i>International Journal of Disability Development and Education</i> , 1999, 46, 383-420.	1.1	15
69	Family caring of older adults with intellectual disability and coping according to loci of responsibility. <i>Research in Developmental Disabilities</i> , 2016, 57, 170-180.	2.2	15
70	Has teaching about intellectual disability healthcare in Australian medical schools improved? A 20-year comparison of curricula audits. <i>BMC Medical Education</i> , 2020, 20, 321.	2.4	15
71	Sampling communicative behaviours in children with intellectual disability in structured and unstructured situations. <i>International Journal of Language and Communication Disorders</i> , 1996, 31, 106-120.	1.5	14
72	Non-electronic communication aids for people with complex communication needs. <i>International Journal of Speech-Language Pathology</i> , 2011, 13, 399-410.	1.2	14

#	ARTICLE	IF	CITATIONS
73	Interactions of pre-symbolic children with developmental disabilities with their mothers and siblings. <i>International Journal of Language and Communication Disorders</i> , 2015, 50, 202-214.	1.5	14
74	Public Awareness of Speech/Language Pathologists and the Services they Provide. <i>Australian Journal of Human Communication Disorders</i> , 1983, 11, 51-59.	0.2	13
