

Bo Melin

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/6227691/bo-melin-publications-by-year.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
65	Curiosity might not help after all: Predicted trajectories for need for cognition and anxiety and depression symptoms based on findings by Zainal and Newman (2022).. <i>Journal of Affective Disorders</i> , 2022 , 302, 412-414	6.6	0
64	Lord's paradox in latent change score modeling: An example involving facilitating longitudinal effects between intelligence and academic achievement. <i>Personality and Individual Differences</i> , 2022 , 189, 111520	3.3	1
63	Spurious correlations in research on the effects of specific cognitive abilities. <i>Personality and Individual Differences</i> , 2022 , 187, 111417	3.3	0
62	Spurious correlations in research on ability tilt. <i>Personality and Individual Differences</i> , 2022 , 185, 111268	3.3	2
61	An extended version of Necessary Condition Analysis (NCA) allows more specific conclusions: an example involving well-being and resilience.. <i>BMC Psychiatry</i> , 2022 , 22, 121	4.2	0
60	Regression to the mean in latent change score models: an example involving breastfeeding and intelligence.. <i>BMC Pediatrics</i> , 2022 , 22, 283	2.6	0
59	Educational qualification differences and early labor market exit among men: the contribution of labor market marginalization—measured across the working life.. <i>BMC Public Health</i> , 2022 , 22, 1015	4.1	
58	The new accounting for expected adjusted effect test (AEAE test) has higher positive predictive value than a zero-order significance test. <i>BMC Research Notes</i> , 2021 , 14, 129	2.3	
57	Diminishing returns as a function of the association between within-individual average performance and variance. <i>Heliyon</i> , 2021 , 7, e06989	3.6	1
56	A comparison of models with weight, height, and BMI as predictors of mortality. <i>Obesity Science and Practice</i> , 2021 , 7, 168-175	2.6	0
55	Further evidence that the worst performance rule is a special case of the correlation of sorted scores rule. <i>Intelligence</i> , 2021 , 84, 101516	3	2
54	Dangers of residual confounding: a cautionary tale featuring cognitive ability, socioeconomic background, and education. <i>BMC Psychology</i> , 2021 , 9, 145	2.8	
53	Personality trait by intelligence interaction effects on grades tend to be synergistic.. <i>BMC Psychology</i> , 2021 , 9, 202	2.8	2
52	The Correlation of Sorted Scores Rule. <i>Intelligence</i> , 2020 , 80, 101454	3	3
51	Diminishing returns as a function of disturbance. <i>PeerJ</i> , 2020 , 8, e9490	3.1	1
50	Accounting for Expected Adjusted Effect. <i>Frontiers in Psychology</i> , 2020 , 11, 542082	3.4	3
49	Intelligence, consistency, and Emerson's dilemma. <i>Personality and Individual Differences</i> , 2020 , 160, 109943	3.3	2

48	Predicting the Effect of a Predictor When Controlling for Baseline. <i>Educational and Psychological Measurement</i> , 2019 , 79, 688-698	3.1	2
47	Predicting the Significance of Necessity. <i>Frontiers in Psychology</i> , 2019 , 10, 283	3.4	3
46	Threshold-like associations as a function of disturbance. <i>PeerJ</i> , 2019 , 7, e7891	3.1	7
45	Using Logistic Regression to Predict Onset and Recovery With Tau Equivalency. <i>Frontiers in Psychology</i> , 2018 , 9, 1849	3.4	
44	The evolving relationship between premorbid intelligence and serious depression across the lifespan - A longitudinal study of 43,540 Swedish men. <i>Journal of Affective Disorders</i> , 2017 , 211, 37-43	6.6	5
43	Refractive state, intelligence, education, and Lord's paradox. <i>Intelligence</i> , 2017 , 61, 115-119	3	3
42	Predicting group differences from the correlation of vectors. <i>Intelligence</i> , 2017 , 64, 67-70	3	1
41	Male height and marital status. <i>Personality and Individual Differences</i> , 2017 , 104, 336-338	3.3	
40	Internet-Delivered Cognitive Behavior Therapy for Adolescents With Irritable Bowel Syndrome: A Randomized Controlled Trial. <i>American Journal of Gastroenterology</i> , 2017 , 112, 152-162	0.7	68
39	Necessity as a Function of Skewness. <i>Frontiers in Psychology</i> , 2017 , 8, 2192	3.4	7
38	Is poor self-rated health associated with low-grade inflammation in 43,110 late adolescent men of the general population? A cross-sectional study. <i>BMJ Open</i> , 2016 , 6, e009440	3	21
37	Fathers' intelligence measured at age 18-20 years is associated with offspring smoking: linking the Swedish 1969 conscription cohort to the Swedish Survey of Living Conditions. <i>Journal of Epidemiology and Community Health</i> , 2016 , 70, 396-401	5.1	1
36	Associations between genetics, medical status, physical exercise and psychological well-being in adults with cystic fibrosis. <i>BMJ Open Respiratory Research</i> , 2016 , 3, e000141	5.6	7
35	Does high intelligence improve prognosis? The association of intelligence with recurrence and mortality among Swedish men with coronary heart disease. <i>Journal of Epidemiology and Community Health</i> , 2015 , 69, 347-53	5.1	3
34	Mediation of the gravitational influence of intelligence on socio-economic outcomes. <i>Intelligence</i> , 2015 , 53, 8-15	3	5
33	Anxiety and depression in adults with cystic fibrosis: a comparison between patients and the general population in Sweden and three other European countries. <i>BMC Pulmonary Medicine</i> , 2015 , 15, 121	3.5	12
32	Eighteen-Month Follow-Up of Internet-Based Parent Management Training for Children with Conduct Problems and the Relation of Homework Compliance to Outcome. <i>Child Psychiatry and Human Development</i> , 2015 , 46, 577-88	3.3	18
31	Neck/shoulder and back pain in new graduate nurses: A growth mixture modeling analysis. <i>International Journal of Nursing Studies</i> , 2014 , 51, 625-39	5.8	32

30	Intelligence moderates how education mediates the effect of social background on own attained occupational position. <i>Intelligence</i> , 2013 , 41, 529-536	3	3
29	Getting personal with teacher burnout: A longitudinal study on the development of burnout using a person-based approach. <i>Teaching and Teacher Education</i> , 2013 , 32, 75-86	2.9	55
28	Psychosocial functioning and intelligence both partly explain socioeconomic inequalities in premature death. A population-based male cohort study. <i>PLoS ONE</i> , 2013 , 8, e82031	3.7	11
27	Cognitive ability in late adolescence and disability pension in middle age: follow-up of a national cohort of Swedish males. <i>PLoS ONE</i> , 2013 , 8, e78268	3.7	13
26	Intelligence, socioeconomic background, emotional capacity, and level of education as predictors of attained socioeconomic position in a cohort of Swedish men. <i>Intelligence</i> , 2012 , 40, 269-277	3	20
25	How social position of origin relates to intelligence and level of education when adjusting for attained social position. <i>Scandinavian Journal of Psychology</i> , 2011 , 52, 277-81	2.2	6
24	How does IQ affect onset of smoking and cessation of smoking--linking the Swedish 1969 conscription cohort to the Swedish survey of living conditions. <i>Psychosomatic Medicine</i> , 2008 , 70, 805-10	3.7	35
23	The association between cognitive ability measured at ages 18-20 and coronary heart disease in middle age among men: a prospective study using the Swedish 1969 conscription cohort. <i>Social Science and Medicine</i> , 2007 , 65, 1410-9	5.1	58
22	Interference between work and outside-work demands relative to health: unwinding possibilities among full-time and part-time employees. <i>International Journal of Behavioral Medicine</i> , 2007 , 14, 229-36	2.6	47
21	The association between cognitive ability measured at ages 18-20 and mortality during 30 years of follow-up--a prospective observational study among Swedish males born 1949-51. <i>International Journal of Epidemiology</i> , 2006 , 35, 665-70	7.8	99
20	Visuospatial and verbal memory in chronic pain patients: an explorative study. <i>Pain Practice</i> , 2006 , 6, 179-85	3	12
19	Effects of experimentally induced mental and physical stress on motor unit recruitment in the trapezius muscle. <i>Work and Stress</i> , 2002 , 16, 166-178	6.1	122
18	Psychophysiological stress reactions, trapezius muscle activity, and neck and shoulder pain among female cashiers before and after introduction of job rotation. <i>Work and Stress</i> , 2002 , 16, 127-137	6.1	52
17	Catecholamine and cortisol reaction to childbirth. <i>International Journal of Behavioral Medicine</i> , 2001 , 8, 50-65	2.6	24
16	Surface EMG and psychophysiological stress reactions in women during repetitive work. <i>European Journal of Applied Physiology</i> , 2000 , 83, 215-22	3.4	60
15	Trapezius muscle activity, neck and shoulder pain, and subjective experiences during monotonous work in women. <i>European Journal of Applied Physiology</i> , 2000 , 83, 235-8	3.4	55
14	Trapezius Muscle Activity of Cash Register Work Compared to Department Work in the Supermarket. <i>Proceedings of the Human Factors and Ergonomics Society</i> , 2000 , 44, 185-188	0.4	7
13	Psychophysiological stress responses, muscle tension, and neck and shoulder pain among supermarket cashiers.. <i>Journal of Occupational Health Psychology</i> , 1999 , 4, 245-255	5.7	101

12	Psychological and physiological stress reactions of male and female assembly workers: a comparison between two different forms of work organization. <i>Journal of Organizational Behavior</i> , 1999 , 20, 47-61	6.9	58
11	An Attempt to Temporary Diminish the Bilateral Reflex between Hands by a Classical Conditioning Procedure. <i>Cognitive Behaviour Therapy</i> , 1996 , 25, 49-55		1
10	A One Year Follow-Up of a Placebo Controlled Behavioural Treatment of Peripheral Vasospasm. <i>Cognitive Behaviour Therapy</i> , 1996 , 25, 27-35		2
9	Effects of Thematically Relevant Visual Stimuli in Raynaud's Disease. <i>Cognitive Behaviour Therapy</i> , 1994 , 23, 53-60		4
8	Psychophysiological stress and EMG activity of the trapezius muscle. <i>International Journal of Behavioral Medicine</i> , 1994 , 1, 354-70	2.6	229
7	Physiological deactivation after two contrasting tasks at a video display terminal: learning vs repetitive data entry. <i>Ergonomics</i> , 1993 , 36, 601-11	2.9	40
6	Association Between Serum Triglyceride Levels and Diastolic Blood Pressure During Rest and Exercise in Healthy Males and Females. <i>Cognitive Behaviour Therapy</i> , 1993 , 22, 159-169		2
5	Comparison of neuroendocrine measurements under laboratory and naturalistic conditions. <i>Pharmacology Biochemistry and Behavior</i> , 1990 , 37, 697-702	3.9	18
4	Blood pressure in healthy men and women under laboratory and naturalistic conditions. <i>Journal of Psychosomatic Research</i> , 1990 , 34, 675-86	4.1	21
3	Stress on and off the job as related to sex and occupational status in white-collar workers. <i>Journal of Organizational Behavior</i> , 1989 , 10, 321-346	6.9	244
2	Blood lipids as related to cardiovascular and neuroendocrine functions under different conditions in healthy males and females. <i>Pharmacology Biochemistry and Behavior</i> , 1989 , 33, 381-6	3.9	17
1	Behandling av perifer vasospasm. <i>Cognitive Behaviour Therapy</i> , 1981 , 10, 97-111		5
