#	Article	IF	CITATIONS
1	Hemodynamic Responses to Crystalloid and Colloid Fluid Boluses during Noncardiac Surgery. Anesthesiology, 2022, 136, 127-137.	1.3	2
2	Perioperative supplemental oxygen and oxidative stress in patients undergoing moderate- to high-risk major abdominal surgery – A subanalysis of randomized clinical trial. Journal of Clinical Anesthesia, 2022, 77, 110614.	0.7	5
3	Effect of perioperative levosimendan administration on postoperative N-terminal pro-B-type natriuretic peptide concentration in patients with increased cardiovascular risk factors undergoing non-cardiac surgery: protocol for the double-blind, randomised, placebo-controlled IMPROVE trial. BMI Open. 2022. 12. e058216.	0.8	0
4	Effect of liver resection-induced increases in hepatic venous pressure gradient on development of postoperative acute kidney injury. BMC Nephrology, 2022, 23, 21.	0.8	3
5	Perioperative Supplemental Oxygen and Plasma Catecholamine Concentrations after Major Abdominal Surgery—Secondary Analysis of a Randomized Clinical Trial. Journal of Clinical Medicine, 2022, 11, 1767.	1.0	4
6	Perioperative Supplemental Oxygen and Postoperative Copeptin Concentrations in Cardiac-Risk Patients Undergoing Major Abdominal Surgery—A Secondary Analysis of a Randomized Clinical Trial. Journal of Clinical Medicine, 2022, 11, 2085.	1.0	3
7	The effect of mannitol on oxidationâ€reduction potential in patients undergoing deceased donor renal transplantation—A randomized controlled trial. Acta Anaesthesiologica Scandinavica, 2021, 65, 162-168.	0.7	4
8	Association between intraoperative mean arterial pressure and postoperative complications is independent of cardiac index in patients undergoing noncardiac surgery. British Journal of Anaesthesia, 2021, 127, e102-e104.	1.5	7
9	Perioperative supplemental oxygen and NT-proBNP concentrations after major abdominal surgery – A prospective randomized clinical trial. Journal of Clinical Anesthesia, 2021, 73, 110379.	0.7	18
10	A comparison of intraoperative goal-directed intravenous administration of crystalloid versus colloid solutions on the postoperative maximum N-terminal pro brain natriuretic peptide in patients undergoing moderate- to high-risk noncardiac surgery. BMC Anesthesiology, 2020, 20, 192.	0.7	4
11	Mannitol and renal graft injury in patients undergoing deceased donor renal transplantation – a randomized controlled clinical trial. BMC Nephrology, 2020, 21, 307.	0.8	4
12	The effect of intraoperative goal-directed crystalloid versus colloid administration on perioperative inflammatory markers - a substudy of a randomized controlled trial. BMC Anesthesiology, 2020, 20, 210.	0.7	8
13	The effect of supplemental oxygen on perioperative brain natriuretic peptide concentration in cardiac risk patients – a protocol for a prosprective randomized clinical trial. Trials, 2020, 21, 400.	0.7	9
14	Effect of goal-directed crystalloid- versus colloid-based fluid strategy on tissue oxygen tension: a randomised controlled trial. British Journal of Anaesthesia, 2019, 123, 768-776.	1.5	5
15	Heart rate variability analysis as a possible predictor of perioperative risk in patients undergoing general surgery. , 2018, , .		1
16	Acetate-buffered crystalloid infusate versus infusion of 0.9% saline and hemodynamic stability in patients undergoing renal transplantation. Wiener Klinische Wochenschrift, 2017, 129, 598-604.	1.0	14
17	Retromolar laryngoscopy: a randomized crossover vocal cords visualization study. Minerva Anestesiologica, 2017, 83, 798-803.	0.6	4
