#	ARTICLE	IF	CITATIONS
1	Tolerance of Bifidobacterium human isolates to bile, acid and oxygen. <i>Anaerobe</i> , 2013, 21, 39-42.	1.0	313
2	Conditions of Bifidobacterial Colonization in Preterm Infants: A Prospective Analysis. <i>Journal of Pediatric Gastroenterology and Nutrition</i> , 2007, 44, 577-582.	0.9	147
3	Nutritional strategies and gut microbiota composition as risk factors for necrotizing enterocolitis in very-preterm infants. <i>American Journal of Clinical Nutrition</i> , 2017, 106, 821-830.	2.2	71
4	Species delineation and clonal diversity in four Bifidobacterium species as revealed by multilocus sequencing. <i>Research in Microbiology</i> , 2010, 161, 82-90.	1.0	67
5	Clostridia in Premature Neonates' Gut: Incidence, Antibiotic Susceptibility, and Perinatal Determinants Influencing Colonization. <i>PLoS ONE</i> , 2012, 7, e30594.	1.1	60
6	Assessment of Neonatal Intensive Care Unit Practices and Preterm Newborn Gut Microbiota and 2-Year Neurodevelopmental Outcomes. <i>JAMA Network Open</i> , 2020, 3, e2018119.	2.8	44
7	New selective medium for selection of bifidobacteria from human feces. <i>Anaerobe</i> , 2010, 16, 469-471.	1.0	33
8	Proteomic comparison of the cytosolic proteins of three Bifidobacterium longum human isolates and B. longum NCC2705. <i>BMC Microbiology</i> , 2010, 10, 29.	1.3	30
9	Clostridial Strain-Specific Characteristics Associated with Necrotizing Enterocolitis. <i>Applied and Environmental Microbiology</i> , 2018, 84, .	1.4	24
10	Proteomics, human gut microbiota and probiotics. <i>Expert Review of Proteomics</i> , 2011, 8, 279-288.	1.3	22
11	16S rRNA Gene Sequencing, Multilocus Sequence Analysis, and Mass Spectrometry Identification of the Proposed New Species "Clostridium neonatale". <i>Journal of Clinical Microbiology</i> , 2014, 52, 4129-4136.	1.8	20
12	Bifidobacterium longum and Bifidobacterium breve isolates from preterm and full term neonates: Comparison of cell surface properties. <i>Anaerobe</i> , 2014, 28, 212-215.	1.0	19
13	Antimicrobial susceptibility and resistance determinants of Clostridium butyricum isolates from preterm infants. <i>International Journal of Antimicrobial Agents</i> , 2010, 36, 420-423.	1.1	16
14	Isolation of Robinsoniella peoriensis from the feces of premature neonates. <i>Anaerobe</i> , 2012, 18, 172-173.	1.0	16
15	Carriage and colonization of C. difficile in preterm neonates: A longitudinal prospective study. <i>PLoS ONE</i> , 2019, 14, e0212568.	1.1	15
16	Comparative phenotypic analysis of "Clostridium neonatale" and Clostridium butyricum isolates from neonates. <i>Anaerobe</i> , 2017, 48, 76-82.	1.0	11
17	First 1000 Days of Life: Consequences of Antibiotics on Gut Microbiota. <i>Frontiers in Microbiology</i> , 2021, 12, 681427.	1.5	10
18	Characterization of Non-Toxigenic Clostridioides difficile Strains Isolated from Preterm Neonates and In Vivo Study of Their Protective Effect. <i>Journal of Clinical Medicine</i> , 2020, 9, 3650.	1.0	7

#	ARTICLE	IF	CITATIONS
19	Consecutive human bifidobacteria isolates and acquired tet genes. International Journal of Antimicrobial Agents, 2009, 33, 291-293.	1.1	6
20	One-Step Multiplex PCR Assay for Differentiating Proposed New Species "Clostridium neonatale" from Closely Related Species. Journal of Clinical Microbiology, 2015, 53, 3621-3623.	1.8	5
21	Isolation and Characterization of Commensal Bifidobacteria Strains in Gut Microbiota of Neonates Born Preterm: A Prospective Longitudinal Study. Microorganisms, 2022, 10, 654.	1.6	5
22	Core-, pan- and accessory genome analyses of Clostridium neonatale: insights into genetic diversity. Microbial Genomics, 2022, 8, .	1.0	5
23	Editorial Commentary: Neonatal Necrotizing Enterocolitis: A Clostridial Disease?. Clinical Infectious Diseases, 2015, 61, 1116-1118.	2.9	3
24	Gut Microbiota Diversity of Preterm Neonates Is Associated With Clostridioides Difficile Colonization. Frontiers in Cellular and Infection Microbiology, 0, 12, .	1.8	2
25	LES SYSTÉMES D'EFFLUX ACTIFS BACTÉRIENS: CARACTÉRISATION ET MODÉLISATION POUR QUELLES PERSPECTIVES ?. Bulletin De L'Academie Veterinaire De France, 2011, , 265.	0.0	1
26	Usefulness of Probiotics for Neonates?. , 0, , .		1
27	Clostridium and pathophysiology of necrotizing enterocolitis in premature: clinical and molecular approaches. Impact, 2016, 2016, 69-71.	0.0	1
28	Antimicrobial Resistance and Drug Efflux Pumps in Bacteroides. , 2016, , 515-526.		0
