#	ARTICLE	IF	CITATIONS
1	Childhood constipation: longitudinal follow-up beyond puberty. <i>Gastroenterology</i> , 2003, 125, 357-363.	0.6	318
2	Efficacy of Proton-Pump Inhibitors in Children With Gastroesophageal Reflux Disease: A Systematic Review. <i>Pediatrics</i> , 2011, 127, 925-935.	1.0	196
3	Long-Term Prognosis for Childhood Constipation: Clinical Outcomes in Adulthood. <i>Pediatrics</i> , 2010, 126, e156-e162.	1.0	186
4	Rectal Fecal Impaction Treatment in Childhood Constipation: Enemas Versus High Doses Oral PEG. <i>Pediatrics</i> , 2009, 124, e1108-e1115.	1.0	150
5	Effect of Body Position Changes on Postprandial Gastroesophageal Reflux and Gastric Emptying in the Healthy Premature Neonate. <i>Journal of Pediatrics</i> , 2007, 151, 585-590.e2.	0.9	119
6	Oesophageal atresia. <i>Nature Reviews Disease Primers</i> , 2019, 5, 26.	18.1	92
7	Prognosis of constipation: clinical factors and colonic transit time. <i>Archives of Disease in Childhood</i> , 2004, 89, 723-727.	1.0	83
8	Role of the Multichannel Intraluminal Impedance Technique in Infants and Children. <i>Journal of Pediatric Gastroenterology and Nutrition</i> , 2009, 48, 2-12.	0.9	83
9	Review article: reflux and its consequences – the laryngeal, pulmonary and oesophageal manifestations. <i>Alimentary Pharmacology and Therapeutics</i> , 2011, 33, 1-71.	1.9	73
10	Gastroesophageal Reflux, Esophageal Function, Gastric Emptying, and the Relationship to Dysphagia before and after Antireflux Surgery in Children. <i>Journal of Pediatrics</i> , 2013, 162, 566-573.e2.	0.9	60
11	Prevalence of Gastroesophageal Reflux Disease Symptoms in Infants and Children. <i>Journal of Pediatric Gastroenterology and Nutrition</i> , 2019, 68, 811-817.	0.9	57
12	Development of pharyngo-oesophageal physiology during swallowing in the preterm infant. <i>Neurogastroenterology and Motility</i> , 2011, 23, e401-8.	1.6	54
13	Interobserver and Intraobserver Variability in pH-Impedance Analysis between 10 Experts and Automated Analysis. <i>Journal of Pediatrics</i> , 2012, 160, 441-446.e1.	0.9	54
14	Applying the Chicago Classification criteria of esophageal motility to a pediatric cohort: effects of patient age and size. <i>Neurogastroenterology and Motility</i> , 2014, 26, 1333-1341.	1.6	52
15	Pediatric Achalasia in the Netherlands: Incidence, Clinical Course, and Quality of Life. <i>Journal of Pediatrics</i> , 2016, 169, 110-115.e3.	0.9	51
16	Body Positioning and Medical Therapy for Infantile Gastroesophageal Reflux Symptoms. <i>Journal of Pediatric Gastroenterology and Nutrition</i> , 2014, 59, 237-243.	0.9	50
17	Efficacy and Safety of Histamine-2 Receptor Antagonists. <i>JAMA Pediatrics</i> , 2014, 168, 947.	3.3	49
18	Evaluation of gastroesophageal function and mechanisms underlying gastroesophageal reflux in infants and adults born with esophageal atresia. <i>Journal of Pediatric Surgery</i> , 2013, 48, 2496-2505.	0.8	46

#	ARTICLE	IF	CITATIONS
19	Small Volumes of Feed Can Trigger Transient Lower Esophageal Sphincter Relaxation and Gastroesophageal Reflux in the Right Lateral Position in Infants. <i>Journal of Pediatrics</i> , 2010, 156, 744-748.e1.	0.9	37
20	Measurement of Mucosal Conductivity by Mill Is a Potential Marker of Mucosal Integrity Restored in Infants on Acidâ€suppression Therapy. <i>Journal of Pediatric Gastroenterology and Nutrition</i> , 2011, 53, 120-123.	0.9	33
21	Magnetic Resonance Imaging of the Lumbosacral Spine in Children with Chronic Constipation or Non-Retentive Fecal Incontinence: A Prospective Study. <i>Journal of Pediatrics</i> , 2010, 156, 461-465.e1.	0.9	31
22	Esophageal impedance baselines in infants before and after placebo and proton pump inhibitor therapy. <i>Neurogastroenterology and Motility</i> , 2012, 24, 758.	1.6	31
23	Polyethylene Glycol 3350 With Electrolytes Versus Polyethylene Glycol 4000 for Constipation. <i>Journal of Pediatric Gastroenterology and Nutrition</i> , 2018, 66, 10-15.	0.9	29
24	Upper gastrointestinal motility: prenatal development and problems in infancy. <i>Nature Reviews Gastroenterology and Hepatology</i> , 2014, 11, 545-555.	8.2	28
25	Effect of lateral positioning on gastroesophageal reflux (GER) and underlying mechanisms in GER disease (GERD) patients and healthy controls. <i>Neurogastroenterology and Motility</i> , 2013, 25, 222.	1.6	27
26	Clinical management of pediatric achalasia. <i>Expert Review of Gastroenterology and Hepatology</i> , 2018, 12, 391-404.	1.4	27
27	Measurement of Salivary Pepsin to Detect Gastroesophageal Reflux Disease Is Not Ready for Clinical Application. <i>Clinical Gastroenterology and Hepatology</i> , 2019, 17, 563-565.	2.4	27
28	Association between gastroesophageal reflux and pathologic apneas in infants: a systematic review. <i>Neurogastroenterology and Motility</i> , 2014, 26, 1527-1538.	1.6	26
29	Novel Pressureâ€impedance Parameters for Evaluating Esophageal Function in Pediatric Achalasia. <i>Journal of Pediatric Gastroenterology and Nutrition</i> , 2018, 66, 37-42.	0.9	26
30	Interâ€and intrarater reliability of the Chicago classification in pediatric high-resolution esophageal manometry recordings. <i>Neurogastroenterology and Motility</i> , 2015, 27, 269-276.	1.6	23
31	Clinical Management of Pediatric Achalasia. <i>Journal of Pediatric Gastroenterology and Nutrition</i> , 2019, 68, 521-526.	0.9	23
32	Objectively diagnosing rumination syndrome in children using esophageal pHâ€impedance and manometry. <i>Neurogastroenterology and Motility</i> , 2017, 29, e12996.	1.6	22
33	Pressure-Flow Characteristics of Normal and Disordered Esophageal Motor Patterns. <i>Journal of Pediatrics</i> , 2015, 166, 690-696.e1.	0.9	21
34	Ulcerative Gastritis and Esophagitis in Two Children with <i>Sarcina ventriculi</i> Infection. <i>Frontiers in Medicine</i> , 2017, 4, 145.	1.2	21
35	Outcomes of Endoscopy and Novel pHâ€impedance Parameters in Children. <i>Journal of Pediatric Gastroenterology and Nutrition</i> , 2013, 56, 196-200.	0.9	19
36	An expert panelâ€based study on recognition of gastroesophageal reflux in difficult esophageal pHâ€impedance tracings. <i>Neurogastroenterology and Motility</i> , 2015, 27, 637-645.	1.6	19

#	ARTICLE	IF	CITATIONS
37	Evaluation of Gastroesophageal Reflux in Children Born With Esophageal Atresia Using pH and Impedance Monitoring. <i>Journal of Pediatric Gastroenterology and Nutrition</i> , 2019, 69, 515-522.	0.9	19
38	High-resolution esophageal manometry in pediatrics: Effect of esophageal length on diagnostic measures. <i>Neurogastroenterology and Motility</i> , 2020, 32, e13721.	1.6	19
39	Intra- and interrater reliability of the Chicago Classification of achalasia subtypes in pediatric high-resolution esophageal manometry (HRM) recordings. <i>Neurogastroenterology and Motility</i> , 2017, 29, e13113.	1.6	18
40	Development of the Reflux Finding Score for Infants and Its Observer Agreement. <i>Journal of Pediatrics</i> , 2014, 165, 479-484.	0.9	17
41	Characterization of intraluminal impedance patterns associated with gas reflux in healthy volunteers. <i>Neurogastroenterology and Motility</i> , 2009, 21, 825.	1.6	16
42	Variations in Definitions and Outcome Measures in Gastroesophageal Reflux Disease: A Systematic Review. <i>Pediatrics</i> , 2017, 140, .	1.0	14
43	Reliability of the reflux finding score for infants in flexible versus rigid laryngoscopy. <i>International Journal of Pediatric Otorhinolaryngology</i> , 2016, 86, 37-42.	0.4	12
44	Reflux monitoring in children. <i>Neurogastroenterology and Motility</i> , 2016, 28, 1452-1459.	1.6	11
45	Colonic Function Investigations in Children. <i>Journal of Pediatric Gastroenterology and Nutrition</i> , 2022, 74, 681-692.	0.9	11
46	Distension of the esophagogastric junction augments triggering of transient lower esophageal sphincter relaxation. <i>American Journal of Physiology - Renal Physiology</i> , 2011, 301, G713-G718.	1.6	10
47	Video Capsule Endoscopy to Diagnose Primary Intestinal Lymphangiectasia in a 14-Month-Old Child. <i>Journal of Pediatric Gastroenterology and Nutrition</i> , 2017, 64, e161.	0.9	8
48	OP-5 INTEROBSERVER VALIDITY OF THE REFLUX FINDING SCORE FOR INFANTS (RFS) IN FLEXIBLE VERSUS RIGID LARYNGOSCOPY.. <i>Journal of Pediatric Gastroenterology and Nutrition</i> , 2015, 61, 510-511.	0.9	7
49	Clinical Experience With Performing Esophageal Function Testing in Children. <i>Journal of Pediatric Gastroenterology and Nutrition</i> , 2021, 72, 226-231.	0.9	7
50	Follow-Up After pH-Metry and pH Impedance in Pediatric Gastroesophageal Reflux Disease. <i>Journal of Pediatric Gastroenterology and Nutrition</i> , 2015, 60, 224-229.	0.9	6
51	æEvaluation of Esophageal Motility Using Multichannel Intraluminal Impedance in Healthy Children and Children With Gastroesophageal Reflux: Comments. <i>Journal of Pediatric Gastroenterology and Nutrition</i> , 2011, 52, 784-784.	0.9	5
52	New Insights in Gastroesophageal Reflux, Esophageal Function and Gastric Emptying in Relation to Dysphagia Before and After Anti-Reflux Surgery in Children. <i>Current Gastroenterology Reports</i> , 2013, 15, 351.	1.1	5
53	Disappointing long term outcome of chronic childhood constipation after intensive medical and behavioral therapy. <i>Gastroenterology</i> , 2000, 118, A1202.	0.6	4
54	Letter in response to Rosen et al.: An interesting pediatric case of rumination syndrome. <i>Neurogastroenterology and Motility</i> , 2018, 30, e13452.	1.6	4

#	ARTICLE	IF	CITATIONS
55	Fundoplication in children with esophageal atresia: preoperative workup and outcome. <i>Ecological Management and Restoration</i> , 2022, , .	0.2	4
56	1128 Inter- and Intraobserver Reliability of the Reflux Finding Score for Infants (RFS-I) in Flexible Versus Rigid Laryngoscopy. <i>Gastroenterology</i> , 2016, 150, S228.	0.6	1
57	Efficacy of Proton Pump Inhibitors in Children From 0-18 Years With GERD: A Systematic Review. <i>Gastroenterology</i> , 2011, 140, S-745.	0.6	0
58	Effect of Lateral Positioning on Gastroesophageal Reflux (GER) and Underlying Mechanisms in GER Disease Patients and Healthy Controls. <i>Gastroenterology</i> , 2011, 140, S-623.	0.6	0
59	Endoscopy and pH-Impedance in Children With GERD. <i>Gastroenterology</i> , 2011, 140, S-745.	0.6	0
60	Inter- and Intra Observer Variability in pH-Impedance Measurements Between 10 Experts in Pediatric Gastroesophageal Reflux and Automated Analysis. <i>Gastroenterology</i> , 2011, 140, S-744.	0.6	0
61	Tu1748 Gastroesophageal Reflux Symptoms in Healthy Infants Measured by the Infant Gastroesophageal Reflux Questionnaire Revised (I-GERQ-R): A Cross-Sectional Study. <i>Gastroenterology</i> , 2016, 150, S933.	0.6	0
62	Sa1328 High-Resolution Impedance Manometry Measurement of Bolus Flow Time in Pediatric Achalasia. <i>Gastroenterology</i> , 2016, 150, S284.	0.6	0
63	Gatorade Â© is no Good Substitute for Liquid Saline in Pediatric High Resolution (Impedance) Manometry (HR(I)M) Measurement. <i>Gastroenterology</i> , 2017, 152, S652.	0.6	0
64	Intra- and Interrater Reliability of the Chi CAG + O Classification of Achalasia Subtypes in Pediatric High Resolution Esophageal Manometry (HRM) Recordings. <i>Gastroenterology</i> , 2017, 152, S651.	0.6	0
