#	ARTICLE	IF	CITATIONS
1	Acceptability of a novel device to improve child patient experience during venepuncture for blood sampling: Intervention with "MyShield"™. <i>Journal of Child Health Care</i> , 2024, 28, 53-68.	0.7	0
2	Culture, cognisance, capacity and capability: The interrelationship of individual and organisational factors in developing a research hospital. <i>Journal of Clinical Nursing</i> , 2022, 31, 362-377.	1.4	4
3	Increased admissions to paediatric wards with a primary mental health diagnosis: results of a survey of a network of eating disorder paediatricians in England. <i>Archives of Disease in Childhood</i> , 2022, 107, 309-310.	1.0	14
4	Nutritional support practices and opinions toward gastrostomy use in pediatric bone marrow transplant centers: A national survey. <i>Nutrition</i> , 2022, 95, 111556.	1.1	7
5	The experiences and perceptions of users of an electronic patient record system in a pediatric hospital setting: a systematic review. <i>International Journal of Medical Informatics</i> , 2022, 160, 104691.	1.6	13
6	Associations between diagnostic time intervals and health-related quality of life, clinical anxiety and depression in adolescents and young adults with cancer: cross-sectional analysis of the BRIGHTLIGHT cohort. <i>British Journal of Cancer</i> , 2022, 126, 1725-1734.	2.9	10
7	Developing, Nurturing, and Sustaining an Adolescent and Young Adult-Centered Culture of Care. <i>Qualitative Health Research</i> , 2022, 32, 956-969.	1.0	2
8	Nutritional assessment and dietetic resource for children and young people with cancer in the United Kingdom. <i>Pediatric Blood and Cancer</i> , 2022, 69, e29743.	0.8	7
9	QOL-34. The relationship between Psychological Flexibility, Quality-of-Life and psychological health in young people who have experienced a brain tumour. <i>Neuro-Oncology</i> , 2022, 24, i141-i141.	0.6	2
10	QOL-26. Exploring the experience of young people receiving remotely delivered Acceptance and Commitment Therapy following treatment for a brain tumour. <i>Neuro-Oncology</i> , 2022, 24, i139-i139.	0.6	0
11	Equal access to hospital care for children with learning disabilities and their families: a mixed-methods study. , 2022, 10, 1-168.		3
12	Care coordination, consistency and continuity: the case of the key worker role in children's cancer care. <i>International Journal of Qualitative Studies on Health and Well-being</i> , 2022, 17, .	0.6	1
13	Supporting families of children with an undiagnosed genetic condition: Using co-design to ensure the right person is in the right post doing the right job. <i>Child: Care, Health and Development</i> , 2021, 47, 300-310.	0.8	4
14	The BRIGHTLIGHT National Survey of the Impact of Specialist Teenage and Young Adult Cancer Care on Caregivers' Information and Support Needs. <i>Cancer Nursing</i> , 2021, 44, 235-243.	0.7	9
15	Mapping the current psychology provision for children and young people with juvenile dermatomyositis. <i>Rheumatology Advances in Practice</i> , 2021, 5, rkab062.	0.3	4
16	"Holistic Competence": How Is it Developed, Shared, and Shaped by Health Care Professionals Caring for Adolescents and Young Adults with Cancer?. <i>Journal of Adolescent and Young Adult Oncology</i> , 2021, 10, 503-511.	0.7	5
17	"We don't know what tomorrow will bring": Parents' experiences of caring for a child with an undiagnosed genetic condition. <i>Child: Care, Health and Development</i> , 2021, 47, 588-596.	0.8	6
18	Processes of care and survival associated with treatment in specialist teenage and young adult cancer centres: results from the BRIGHTLIGHT cohort study. <i>BMJ Open</i> , 2021, 11, e044854.	0.8	5

#	ARTICLE	IF	CITATIONS
19	Parent values and preferences underpinning treatment decision making in poor prognosis childhood cancer: a scoping review protocol. <i>BMJ Open</i> , 2021, 11, e046284.	0.8	2
20	Access to and experience of education for children and adolescents with cancer: a scoping review protocol. <i>Systematic Reviews</i> , 2021, 10, 167.	2.5	5
21	Support interventions provided during palliative care to families with dependent children when a parent has terminal illness: a scoping review protocol. <i>JBI Evidence Synthesis</i> , 2021, 19, 3163-3173.	0.6	0
22	Acceptance and commitment therapy for young brain tumour survivors: study protocol for an acceptability and feasibility trial. <i>BMJ Open</i> , 2021, 11, e051091.	0.8	2
23	Systematic review of gastrostomy complications and outcomes in pediatric cancer and bone marrow transplant. <i>Nutrition in Clinical Practice</i> , 2021, 36, 1185-1197.	1.1	4
24	Reporting the whole story: Analysis of the "out-of-scope" questions from the James Lind Alliance Teenage and Young Adult Cancer Priority Setting Partnership Survey. <i>Health Expectations</i> , 2021, 24, 1593-1606.	1.1	8
25	Specialist cancer services for teenagers and young adults in England: BRIGHTLIGHT research programme. <i>Programme Grants for Applied Research</i> , 2021, 9, 1-82.	0.4	3
26	97...The experiences and perceptions of users of an electronic patient record system in a paediatric hospital setting: a systematic review. , 2021, , .		0
27	96...The going digital study: the views and perceptions of children and young people, parents, and staff before and after electronic patient record implementation " trust-wide survey findings. , 2021, , .		0
28	14...Systematic review of gastrostomy complications and outcomes in paediatric cancer and bone marrow transplant. , 2021, , .		0
29	GPs and paediatric oncology palliative care: a Q methodological study. <i>BMJ Supportive and Palliative Care</i> , 2020, 10, e11-e11.	0.8	5
30	Relationships among resilience, self-esteem, and depressive symptoms in Chinese adolescents. <i>Journal of Health Psychology</i> , 2020, 25, 2396-2405.	1.3	21
31	Reducing unintentional injuries in under fives: Development and testing of a mobile phone app. <i>Child: Care, Health and Development</i> , 2020, 46, 203-212.	0.8	7
32	Renegotiation of identity in young adults with cancer: A longitudinal narrative study. <i>International Journal of Nursing Studies</i> , 2020, 102, 103465.	2.5	7
33	You give me a name that I can't say, but I have to explain what it is every day: the power of poetry to share stories from young people with a rare disease. <i>Journal of Poetry Therapy</i> , 2020, 33, 20-29.	0.4	3
34	Staying Connected: I Wonder, What Does Nurse Presence Look Like During This COVID-19 Pandemic?. <i>Cancer Nursing</i> , 2020, 43, 425-426.	0.7	2
35	BRIGHTLIGHT researchers as "dramaturgs": creating There is a Light from complex research data. <i>Research Involvement and Engagement</i> , 2020, 6, 48.	1.1	3
36	Association of Self-reported Presenting Symptoms With Timeliness of Help-Seeking Among Adolescents and Young Adults With Cancer in the BRIGHTLIGHT Study. <i>JAMA Network Open</i> , 2020, 3, e2015437.	2.8	10

#	ARTICLE	IF	CITATIONS
37	Untellable tales and uncertain futures: the unfolding narratives of young adults with cancer. <i>International Journal of Social Research Methodology: Theory and Practice</i> , 2020, 23, 377-390.	2.3	6
38	Psychometric evaluation of the traditional Chinese version of the resilience Scale-14 and assessment of resilience in Hong Kong adolescents. <i>Health and Quality of Life Outcomes</i> , 2020, 18, 33.	1.0	9
39	Hospitalized children with intellectual disability: Parents as partners in their care. <i>Journal of Applied Research in Intellectual Disabilities</i> , 2020, 33, 917-926.	1.3	12
40	Longitudinal cohort study of the impact of specialist cancer services for teenagers and young adults on quality of life: outcomes from the BRIGHTLIGHT study. <i>BMJ Open</i> , 2020, 10, e038471.	0.8	17
41	Best Practice for Healthcare Transition: Development and Use of the Benchmarks for Transition. , 2020, , 127-146.		1
42	Bereavement support after the death of a child with cancer: implications for practice. <i>Bereavement Care</i> , 2020, 39, 12-20.	0.3	0
43	Gathering expert opinion to inform benchmarks to support transitional care. <i>Journal of Child Health Care</i> , 2019, 23, 131-146.	0.7	6
44	Health professional perceptions of communicating with adolescents and young adults about bone cancer clinical trial participation. <i>Supportive Care in Cancer</i> , 2019, 27, 467-475.	1.0	13
45	Children with Cancer: Communication, an Essential Component of Care. <i>Principles of Specialty Nursing</i> , 2019, , 329-341.	0.2	1
46	To flag or not to flag: Identification of children and young people with learning disabilities in English hospitals. <i>Journal of Applied Research in Intellectual Disabilities</i> , 2019, 32, 1176-1183.	1.3	22
47	Understanding care when cure is not likely for young adults who face cancer: a realist analysis of data from patients, families and healthcare professionals. <i>BMJ Open</i> , 2019, 9, e024397.	0.8	10
48	Being on the juvenile dermatomyositis rollercoaster: a qualitative study. <i>Pediatric Rheumatology</i> , 2019, 17, 30.	0.9	19
49	The culture of young people's cancer care: A narrative review and synthesis of the UK literature. <i>European Journal of Cancer Care</i> , 2019, 28, e13099.	0.7	6
50	Description of the BRIGHTLIGHT cohort: the evaluation of teenage and young adult cancer services in England. <i>BMJ Open</i> , 2019, 9, e027797.	0.8	17
51	Reducing pain in children with cancer: Methodology for the development of a clinical practice guideline. <i>Pediatric Blood and Cancer</i> , 2019, 66, e27698.	0.8	14
52	Measurement properties of instruments to assess pain in children and adolescents with cancer: a systematic review protocol. <i>Systematic Reviews</i> , 2019, 8, 33.	2.5	1
53	Research priorities for young people with cancer: a UK priority setting partnership with the James Lind Alliance. <i>BMJ Open</i> , 2019, 9, e028119.	0.8	42
54	How Far Do Research Priority Setting Exercises Influence What Research Is Undertaken: A Little, a Lot, or Not at All?. <i>Cancer Nursing</i> , 2019, 42, 89-90.	0.7	7

#	ARTICLE	IF	CITATIONS
55	Studying Children's Experiences in Interactions With Clinicians: Identifying Methods Fit for Purpose. <i>Qualitative Health Research</i> , 2019, 29, 393-403.	1.0	17
56	Consult, Negotiate, and Involve: Evaluation of an Advanced Communication Skills Program for Health Care Professionals. <i>Journal of Pediatric Oncology Nursing</i> , 2018, 35, 296-307.	1.5	10
57	Diagnostic timeliness in adolescents and young adults with cancer: a cross-sectional analysis of the BRIGHTLIGHT cohort. <i>The Lancet Child and Adolescent Health</i> , 2018, 2, 180-190.	2.7	42
58	Physical activity reduces fatigue in patients with cancer and hematopoietic stem cell transplant recipients: A systematic review and meta-analysis of randomized trials. <i>Critical Reviews in Oncology/Hematology</i> , 2018, 122, 52-59.	2.0	111
59	LEARN: Learning what is important to children and young people with intellectual disabilities when they are in hospital. <i>Journal of Applied Research in Intellectual Disabilities</i> , 2018, 31, 792-803.	1.3	11
60	Management of fatigue in children and adolescents with cancer and in paediatric recipients of haemopoietic stem-cell transplants: a clinical practice guideline. <i>The Lancet Child and Adolescent Health</i> , 2018, 2, 371-378.	2.7	44
61	Protecting an adult identity: A grounded theory of supportive care for young adults recently diagnosed with cancer. <i>International Journal of Nursing Studies</i> , 2018, 81, 40-48.	2.5	27
62	The perceptions of teenagers, young adults and professionals in the participation of bone cancer clinical trials. <i>European Journal of Cancer Care</i> , 2018, 27, e12476.	0.7	24
63	Preventing work-related stress among staff working in children's cancer Principal Treatment Centres in the UK: a brief survey of staff support systems and practices. <i>European Journal of Cancer Care</i> , 2018, 27, e12535.	0.7	9
64	Understanding juvenile dermatomyositis from a young person's perspective. <i>Rheumatology</i> , 2018, 57, .	0.9	0
65	Involving young people in BRIGHTLIGHT from study inception to secondary data analysis: insights from 10 years of user involvement. <i>Research Involvement and Engagement</i> , 2018, 4, 50.	1.1	17
66	How should health service researchers respect children's personal data under GDPR?. <i>The Lancet Child and Adolescent Health</i> , 2018, 2, 696-697.	2.7	2
67	Conceptualizing age-appropriate care for teenagers and young adults with cancer: a qualitative mixed-methods study. <i>Adolescent Health, Medicine and Therapeutics</i> , 2018, Volume 9, 149-166.	0.7	25
68	Pharmacologic Interventions for Fatigue in Cancer and Transplantation: A Meta-Analysis. <i>Current Oncology</i> , 2018, 25, 152-167.	0.9	50
69	Mapping staff perspectives towards the delivery of hospital care for children and young people with and without learning disabilities in England: a mixed methods national study. <i>BMC Health Services Research</i> , 2018, 18, 203.	0.9	22
70	Insights from parents of a child with leukaemia and healthcare professionals about sharing illness and treatment information: A qualitative research study. <i>International Journal of Nursing Studies</i> , 2018, 83, 91-102.	2.5	11
71	Parents' Experiences of Caring for Their Child at the Time of Discharge After Cardiac Surgery and During the Postdischarge Period: Qualitative Study Using an Online Forum. <i>Journal of Medical Internet Research</i> , 2018, 20, e155.	2.1	34
72	Transitional Care: Best Practices for Adolescent Cancer Care. , 2018, , 133-151.		1

#	ARTICLE	IF	CITATIONS
73	Experiences and Preferences for End-of-Life Care for Young Adults with Cancer and Their Informal Carers: A Narrative Synthesis. <i>Journal of Adolescent and Young Adult Oncology</i> , 2017, 6, 200-212.	0.7	28
74	Multi-Professional Perspectives on Adolescent and Young Adult Oncology Across Europe: An e-Delphi Survey. <i>Journal of Adolescent and Young Adult Oncology</i> , 2017, 6, 178-185.	0.7	6
75	Cancer-Related Fatigue in Adolescents and Young Adults After Cancer Treatment: Persistent and Poorly Managed. <i>Journal of Adolescent and Young Adult Oncology</i> , 2017, 6, 489-493.	0.7	38
76	Mind and body practices for fatigue reduction in patients with cancer and hematopoietic stem cell transplant recipients: A systematic review and meta-analysis. <i>Critical Reviews in Oncology/Hematology</i> , 2017, 120, 210-216.	2.0	39
77	Qualitative study to understand the barriers to recruiting young people with cancer to BRIGHTLIGHT: a national cohort study in England. <i>BMJ Open</i> , 2017, 7, e018291.	0.8	13
78	Identifying research priorities with nurses at a tertiary children's hospital in the United Kingdom. <i>Child: Care, Health and Development</i> , 2017, 43, 211-221.	0.8	7
