#	ARTICLE	IF	CITATIONS
1	The DISCO App: A pilot test of a multi-level intervention to reduce the financial burden of cancer through improved cost communication. <i>PEC Innovation</i> , 2022, 1, 100002.	0.3	9
2	Development and pilot test of a physician-focused cancer clinical trials communication training intervention. <i>PEC Innovation</i> , 2022, 1, 100012.	0.3	3
3	Nonverbal Synchrony: An Indicator of Clinical Communication Quality in Racially-Concordant and Racially-Discordant Oncology Interactions. <i>Cancer Control</i> , 2022, 29, 107327482211139.	0.7	6
4	Examining the dynamic nature of nonverbal communication between Black patients with cancer and their oncologists. <i>Cancer</i> , 2021, 127, 1080-1090.	2.0	9
5	Characterizing patient-oncologist communication in genomic tumor testing: The 21-gene recurrence score as an exemplar. <i>Patient Education and Counseling</i> , 2021, 104, 250-256.	1.0	3
6	Redefining Attribution From Patient to Health System—How the Notion of “Mistrust” Places Blame on Black Patients—Reply. <i>JAMA Oncology</i> , 2021, 7, 780.	3.4	1
7	Impact of Patients' Companions on Clinical Encounters Between Black Patients and Their Non-Black Oncologists. <i>JCO Oncology Practice</i> , 2021, 17, e676-e685.	1.4	7
8	A Review of Research on Disparities in the Care of Black and White Patients With Cancer in Detroit. <i>Frontiers in Oncology</i> , 2021, 11, 690390.	1.3	7
9	DISCO App: study protocol for a randomized controlled trial to test the effectiveness of a patient intervention to reduce the financial burden of cancer in a diverse patient population. <i>Trials</i> , 2021, 22, 636.	0.7	9
10	The influence of a question prompt list on patient-oncologist information exchange in an African-American population. <i>Patient Education and Counseling</i> , 2020, 103, 505-513.	1.0	12
11	Understanding parents' informational needs in the pediatric intensive care unit: A qualitative study. <i>Progress in Pediatric Cardiology</i> , 2020, 57, 101172.	0.2	3
12	Unpacking Trial Offers and Low Accrual Rates: A Qualitative Analysis of Clinic Visits With Physicians and Patients Potentially Eligible for a Prostate Cancer Clinical Trial. <i>JCO Oncology Practice</i> , 2020, 16, e124-e131.	1.4	9
13	Decoding the Role of Companions in Supporting the Health Communication of Older African-American Men With Cancer. <i>Journal of Patient Experience</i> , 2020, 7, 324-330.	0.4	7
14	Improving Diabetes Management in Emerging Adulthood: An Intervention Development Study Using the Multiphase Optimization Strategy. <i>JMIR Research Protocols</i> , 2020, 9, e20191.	0.5	1
15	Review of the patient-centered communication landscape in multiple myeloma and other hematologic malignancies. <i>Patient Education and Counseling</i> , 2019, 102, 1602-1612.	1.0	24
16	Identifying Effective Motivational Interviewing Communication Sequences Using Automated Pattern Analysis. <i>Journal of Healthcare Informatics Research</i> , 2019, 3, 86-106.	5.3	1
17	Latent Semantic Analysis: A new measure of patient-physician communication. <i>Social Science and Medicine</i> , 2018, 198, 22-26.	1.8	20
18	Nonverbal synchrony as a behavioural marker of patient and physician race-related attitudes and a predictor of outcomes in oncology interactions: protocol for a secondary analysis of video-recorded cancer treatment discussions. <i>BMJ Open</i> , 2018, 8, e203648.	0.8	12

#	ARTICLE	IF	CITATIONS
19	The influence of affective behavior on impression formation in interactions between black cancer patients and their oncologists. <i>Social Science and Medicine</i> , 2018, 211, 243-250.	1.8	4
20	Physician Racial Bias and Word Use during Racially Discordant Medical Interactions. <i>Health Communication</i> , 2017, 32, 401-408.	1.8	102
21	Associations between thin slice ratings of affect and rapport and perceived patient-centeredness in primary care: Comparison of audio and video recordings. <i>Patient Education and Counseling</i> , 2017, 100, 1128-1135.	1.0	11
22	Randomized trial of a question prompt list to increase patient active participation during interactions with black patients and their oncologists. <i>Patient Education and Counseling</i> , 2017, 100, 818-826.	1.0	61
23	Communication Among Melanoma Family Members. <i>Journal of Health Communication</i> , 2017, 22, 198-204.	1.2	13
24	Active surveillance for low-risk localized prostate cancer: what do men and their partners think?. <i>Family Practice</i> , 2017, 34, 90-97.	0.8	16
25	The impact of Black cancer patients' race-related beliefs and attitudes on racially-discordant oncology interactions: A field study. <i>Social Science and Medicine</i> , 2017, 191, 99-108.	1.8	29
26	Discussing prognosis and treatment goals with patients with advanced cancer: A qualitative analysis of oncologists' language. <i>Health Expectations</i> , 2017, 20, 1073-1080.	1.1	53
27	Partnering around cancer clinical trials (PACCT): study protocol for a randomized trial of a patient and physician communication intervention to increase minority accrual to prostate cancer clinical trials. <i>BMC Cancer</i> , 2017, 17, 807.	1.1	26
28	Do Patients and Oncologists Discuss the Cost of Cancer Treatment? An Observational Study of Clinical Interactions Between African American Patients and Their Oncologists. <i>Journal of Oncology Practice</i> , 2017, 13, e249-e258.	2.5	37
29	An Analysis of Race-related Attitudes and Beliefs in Black Cancer Patients: Implications for Health Care Disparities. <i>Journal of Health Care for the Poor and Underserved</i> , 2016, 27, 1503-1520.	0.4	35
30	Observed Trauma in the PICU and Parental Meaning Making*. <i>Pediatric Critical Care Medicine</i> , 2016, 17, 375-376.	0.2	0
31	The effects of racial attitudes on affect and engagement in racially discordant medical interactions between non-Black physicians and Black patients. <i>Group Processes and Intergroup Relations</i> , 2016, 19, 509-527.	2.4	47
32	Barriers to Clinical Trial Enrollment in Racial and Ethnic Minority Patients with Cancer. <i>Cancer Control</i> , 2016, 23, 327-337.	0.7	303
33	The Effects of Oncologist Implicit Racial Bias in Racially Discordant Oncology Interactions. <i>Journal of Clinical Oncology</i> , 2016, 34, 2874-2880.	0.8	234
34	Exploring ambivalence in motivational interviewing with obese African American adolescents and their caregivers: A mixed methods analysis. <i>Patient Education and Counseling</i> , 2016, 99, 1162-1169.	1.0	7
35	Clinician empathy is associated with differences in patient-clinician communication behaviors and higher medication self-efficacy in HIV care. <i>Patient Education and Counseling</i> , 2016, 99, 220-226.	1.0	89
36	Strategies of persuasion in offers to participate in cancer clinical trials II: Appeals to altruism. <i>Communication and Medicine</i> , 2016, 11, .	0.1	1

#	ARTICLE	IF	CITATIONS
37	Meaning making during parentâ€™ physician bereavement meetings after a childâ€™s death.. Health Psychology, 2015, 34, 453-461.	1.3	38
38	A disparity of words: racial differences in oncologistâ€™ patient communication about clinical trials. Health Expectations, 2015, 18, 1316-1326.	1.1	86
39	Critical Shortage of African American Medical Oncologists in the United States. Journal of Clinical Oncology, 2015, 33, 3697-3700.	0.8	30
40	Patient- and Family-Centered Care as an approach to reducing disparities in asthma outcomes in urban African American children: A review of the literature. Journal of the National Medical Association, 2015, 107, 4-17.	0.6	9
41	Comparing thin slices of verbal communication behavior of varying number and duration. Patient Education and Counseling, 2015, 98, 150-155.	1.0	10
42	Language Analysis as a Window to Bereaved Parentsâ€™ Emotions During a Parentâ€™ Physician Bereavement Meeting. Journal of Language and Social Psychology, 2015, 34, 181-199.	1.2	9
43	If You Did Not Document It, It Did Not Happen: Rates of Documentation of Discussion of Infertility Risk in Adolescent and Young Adult Oncology Patients' Medical Records. Journal of Oncology Practice, 2015, 11, 137-144.	2.5	92
44	A mixed methods study of patientâ€™ provider communication about opioid analgesics. Patient Education and Counseling, 2015, 98, 453-461.	1.0	33
45	Impact of a brief patient and provider intervention to improve the quality of communication about medication adherence among HIV patients. Patient Education and Counseling, 2015, 98, 1078-1083.	1.0	49
46	Strategies of persuasion in offers to participate in cancer clinical trials I: Topic placement and topic framing. Communication and Medicine, 2015, 11, 1-14.	0.1	6
47	Abstract A49: Correlates of race-related thoughts and feelings among black cancer patients. , 2015, , .		0
48	Prosocial Behavior in Cancer Research. , 2014, , .		2
49	Feasibility and Perceived Benefits of a Framework for Physician-Parent Follow-Up Meetings After a Childâ€™s Death in the PICU*. Critical Care Medicine, 2014, 42, 148-157.	0.4	15
50	Measuring the Use of Examination Room Time in Oncology Clinics: A Novel Approach to Assessing Clinic Efficiency and Patient Flow. Journal of Oncology Practice, 2014, 10, e385-e389.	2.5	14
51	Barriers to Cancer Screening Among Orthodox Jewish Women. Journal of Community Health, 2014, 39, 1200-1208.	1.9	18
52	Abstract C44: Gender disparities in documentation of fertility risks among adolescents and young adults with cancer. , 2014, , .		0
53	Patient, companion, and oncologist agreement regarding information discussed during triadic oncology clinical interactions. Psycho-Oncology, 2013, 22, 637-645.	1.0	30
54	Translational genomic research: protocol development and initial outcomes following SNP testing for colon cancer risk. Translational Behavioral Medicine, 2013, 3, 17-29.	1.2	22

#	ARTICLE	IF	CITATIONS
55	“It’s up to you and God” understanding health behavior change in older African American survivors of colorectal cancer. <i>Translational Behavioral Medicine</i> , 2013, 3, 94-103.	1.2	33
56	Development of a Question Prompt List as a Communication Intervention to Reduce Racial Disparities in Cancer Treatment. <i>Journal of Cancer Education</i> , 2013, 28, 282-289.	0.6	47
