#	ARTICLE	IF	CITATIONS
1	Designing local air pollution policies focusing on mobility and heating to avoid a targeted number of pollution-related deaths: Forward and backward approaches combining air pollution modeling, health impact assessment and cost-benefit analysis. <i>Environment International</i> , 2022, 159, 107030.	4.8	13
2	Breast Cancer Risk in Association with Atmospheric Pollution Exposure: A Meta-Analysis of Effect Estimates Followed by a Health Impact Assessment. <i>Environmental Health Perspectives</i> , 2021, 129, 57012.	2.8	35
3	Which specific urban policies should be implemented by local authorities to achieve a health objective seeking reducing air pollution-attributable mortality?. <i>ISEE Conference Abstracts</i> , 2021, 2021, .	0.0	0
4	Lung and upper aero-digestive tract cancers and exposure to PM2.5 in the ICARE study (France). <i>ISEE Conference Abstracts</i> , 2021, 2021, .	0.0	0
5	Breast cancer risk in relation to ambient concentrations of nitrogen dioxide and particulate matter: results of a population-based case-control study corrected for potential selection bias (the CECILE) <i>Tj ETQq1 1 0.784314 rgBT0 Overlock</i>	1.1	14
6	Asthma and allergic rhinitis risk depends on house dust mite specific IgE levels in PARIS birth cohort children. <i>World Allergy Organization Journal</i> , 2019, 12, 100057.	1.6	30
7	Unsupervised trajectories of respiratory/allergic symptoms throughout childhood in the PARIS cohort. <i>Pediatric Allergy and Immunology</i> , 2019, 30, 315-324.	1.1	19
8	Which decreases in air pollution should be targeted to bring health and economic benefits and improve environmental justice?. <i>Environment International</i> , 2019, 129, 538-550.	4.8	21
9	Short-term exposure to ultrafine particles is associated with bronchial inflammation in schoolchildren. <i>Pediatric Allergy and Immunology</i> , 2019, 30, 657-661.	1.1	4
10	Traffic-related Air Pollution, Lung Function, and Host Vulnerability. New Insights from the PARIS Birth Cohort. <i>Annals of the American Thoracic Society</i> , 2018, 15, 599-607.	1.5	28
11	Allergic sensitisation in early childhood: Patterns and related factors in PARIS birth cohort. <i>International Journal of Hygiene and Environmental Health</i> , 2016, 219, 792-800.	2.1	31
12	Early polysensitization is associated with allergic multimorbidity in PARIS birth cohort infants. <i>Pediatric Allergy and Immunology</i> , 2016, 27, 831-837.	1.1	46
