#	ARTICLE	IF	CITATIONS
1	Association between fat mass by bioelectrical impedance analysis and bone mass by quantitative ultrasound in relation to grip strength and serum 25-hydroxyvitamin D in postmenopausal Japanese women: the Unzen study. <i>Journal of Physiological Anthropology</i> , 2022, 41, 7.	1.0	1
2	Cost-effectiveness of dual influenza and pneumococcal vaccination among the elderly in Shenzhen, China. <i>Vaccine</i> , 2021, 39, 2237-2245.	1.7	7
3	Association between serum 25-hydroxyvitamin D and physical performance measures in middle-aged and old Japanese men and women: The Unzen study. <i>PLoS ONE</i> , 2021, 16, e0261639.	1.1	5
4	Individual variations and sex differences in hemodynamics with percutaneous arterial oxygen saturation (SpO ₂) in young Andean highlanders in Bolivia. <i>Journal of Physiological Anthropology</i> , 2020, 39, 31.	1.0	6
5	Association between self-reported walking speed and calcaneal stiffness index in postmenopausal Japanese women. <i>BMC Geriatrics</i> , 2020, 20, 466.	1.1	7
6	Effect of EGLN1 Genetic Polymorphisms on Hemoglobin Concentration in Andean Highlanders. <i>BioMed Research International</i> , 2020, 2020, 1-16.	0.9	3
7	Epidemiology of the association between serum 25-hydroxyvitamin D levels and musculoskeletal conditions among elderly individuals: a literature review. <i>Journal of Physiological Anthropology</i> , 2020, 39, 38.	1.0	14
8	Vitamin K deficiency, evaluated with higher serum ucOC, was correlated with poor bone status in women. <i>Journal of Physiological Anthropology</i> , 2020, 39, 9.	1.0	9
9	Relationship between bone turnover markers and the heel stiffness index measured by quantitative ultrasound in post-menopausal Japanese women. <i>Annals of Human Biology</i> , 2019, 46, 330-334.	0.4	3
10	Relationship between bone turnover markers and the heel stiffness index measured by quantitative ultrasound in middle-aged and elderly Japanese men. <i>Medicine (United States)</i> , 2018, 97, e9962.	0.4	2
11	Effect of self-reported walking difficulty on bone mass and bone resorption marker in Japanese people aged 40 years and over. <i>Journal of Physiological Anthropology</i> , 2016, 35, 25.	1.0	3
12	Relationship Between Urinary Cross-Linked N-Telopeptide of Type-I Collagen and Heel Stiffness Index Measured by Quantitative Ultrasound in Middle-Aged and Elderly Men. <i>Medicine (United States)</i> , 2015, 94, e1797.	0.4	2
13	Association between hemoglobin A1c and carotid atherosclerosis in rural community-dwelling elderly Japanese men. <i>Journal of Physiological Anthropology</i> , 2015, 34, 16.	1.0	5
14	Relationship between adult height and body weight and risk of carotid atherosclerosis assessed in terms of carotid intima-media thickness: The Nagasaki Islands study. <i>Journal of Physiological Anthropology</i> , 2013, 32, 19.	1.0	25
15	Association of arterial stiffness and diabetes with triglycerides-to-HDL cholesterol ratio for Japanese men: The Nagasaki Islands Study. <i>Atherosclerosis</i> , 2013, 228, 491-495.	0.4	62
16	Falls Are Associated with Stroke, Arthritis and Multiple Medications among Community-Dwelling Elderly Persons in Japan. <i>Tohoku Journal of Experimental Medicine</i> , 2013, 231, 299-303.	0.5	25
17	Evaluation of clinical markers of atherosclerosis in young and elderly Japanese adults. <i>Clinical Chemistry and Laboratory Medicine</i> , 2006, 44, 824-9.	1.4	44
