|----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | Correlates of anxiety and depression in a community cohort of people who smoke methamphetamine. Australian and New Zealand Journal of Psychiatry, 2022, 56, 964-973.                                                                            | 1.3 | 14        |
| 2  | Prioritising and reflecting on context in medical education. Medical Education, 2022, 56, 20-22.                                                                                                                                                | 1.1 | 5         |
| 3  | Interventions to support parents who use methamphetamine: A narrative systematic review. Children and Youth Services Review, 2022, 139, 106525.                                                                                                 | 1.0 | 0         |
| 4  | Parent and child co-resident status among an Australian community-based sample of methamphetamine smokers. Drug and Alcohol Review, 2021, 40, 1275-1280.                                                                                        | 1.1 | 5         |
| 5  | A prospective cohort of people who use methamphetamine in Melbourne and non-metropolitan Victoria, Australia: Baseline characteristics and correlates of methamphetamine dependence. Drug and Alcohol Review, 2021, 40, 1239-1248.              | 1.1 | 13        |
| 6  | A realist review of scholarly experiences in medical education. Medical Education, 2021, 55, 159-166.                                                                                                                                           | 1.1 | 15        |
| 7  | Understanding local government responses to alcohol-related harm. Drug and Alcohol Review, 2021, 40, 761-770.                                                                                                                                   | 1.1 | 0         |
| 8  | Supervision training in healthcare: a realist synthesis. Advances in Health Sciences Education, 2020, 25, 523-561.                                                                                                                              | 1.7 | 20        |
| 9  | Communication of advance care planning decisions: a retrospective cohort study of documents in general practice. BMC Palliative Care, 2020, 19, 108.                                                                                            | 0.8 | 4         |
| 10 | Family-focused recovery: Perspectives from individuals with a mental illness. International Journal of Mental Health Nursing, 2019, 28, 247-255.                                                                                                | 2.1 | 35        |
| 11 | Supervision training interventions in the health and human services: realist synthesis protocol. BMJ Open, 2019, 9, e025777.                                                                                                                    | 0.8 | 8         |
| 12 | Rural health services' relationships with patients: An enabler and a barrier to advance care planning. Australian Journal of Rural Health, 2019, 27, 563-567.                                                                                   | 0.7 | 5         |
| 13 | Evaluation of a local government shelter and van intervention to improve safety and reduce alcohol-related harm. BMC Public Health, 2018, 18, 1370.                                                                                             | 1.2 | 6         |
| 14 | Awareness of alcohol as a risk factor for cancer is associated with public support for alcohol policies. BMC Public Health, 2018, 18, 688.                                                                                                      | 1.2 | 53        |
| 15 | Liquor licences issued to Australian schools. BMC Public Health, 2018, 18, 72.                                                                                                                                                                  | 1.2 | 2         |
| 16 | Developing a model of family focused practice with consumers, families, practitioners and managers: a community based participatory research approach. BMC Health Services Research, 2018, 18, 66.                                              | 0.9 | 25        |
| 17 | Comparing visual acuity, range of vision and spectacle independence in the extended range of vision and monofocal intraocular lens. Clinical and Experimental Ophthalmology, 2018, 46, 854-860.                                                 | 1.3 | 47        |
| 18 | Context matters for primary health care access: a multi-method comparative study of contextual influences on health service access arrangements across models of primary health care. International Journal for Equity in Health, 2018, 17, 78. | 1.5 | 9         |

| #  | ARTICLE                                                                                                                                                                              | IF  | CITATIONS |
|----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 19 | Whatâ€™s in a name? An overview of organisational health literacy terminology. Australian Health Review, 2018, 42, 21.                                                               | 0.5 | 65        |
| 20 | Compositional, Contextual, and Collective Community Factors in Mental Health and Well-Being in Australian Rural Communities. Qualitative Health Research, 2017, 27, 677-687.         | 1.0 | 40        |
| 21 | Older men's experiences of accessing general practitioner services in rural areas. Australian Journal of Rural Health, 2017, 25, 252-253.                                            | 0.7 | 3         |
| 22 | Identification of cancer risk and associated behaviour: implications for social marketing campaigns for cancer prevention. BMC Cancer, 2017, 17, 550.                                | 1.1 | 16        |
| 23 | Family-focused practice within a recovery framework: practitionersâ€™ qualitative perspectives. BMC Health Services Research, 2017, 17, 234.                                         | 0.9 | 28        |
| 24 | Acceptability of alcohol supply to children â€™ associations with adultsâ€™ own age of initiation and social norms. Health Promotion Journal of Australia, 2017, 28, 151-155.        | 0.6 | 4         |
| 25 | Factors associated with public support for alcohol policy in England: a population-based survey. Lancet, The, 2016, 388, S31.                                                        | 6.3 | 6         |
| 26 | Are schools and alcohol a good mix? A qualitative study of school principals' experiences of adults' alcohol use in Australian secondary schools. BMJ Open, 2016, 6, e010904.        | 0.8 | 4         |
| 27 | Principalsâ€™ reports of adultsâ€™ alcohol use in Australian secondary schools. BMC Public Health, 2016, 16, 195.                                                                    | 1.2 | 3         |
| 28 | ARCADO - Adding random case analysis to direct observation in workplace-based formative assessment of general practice registrars. BMC Medical Education, 2015, 15, 218.             | 1.0 | 1         |
| 29 | Public support for alcohol policies associated with knowledge of cancer risk. International Journal of Drug Policy, 2015, 26, 371-379.                                               | 1.6 | 69        |
| 30 | Accessing doctors at times of needâ€™ measuring the distance tolerance of rural residents for health-related travel. BMC Health Services Research, 2015, 15, 212.                    | 0.9 | 47        |
| 31 | Parents' level of support for adults' purchase and consumption of alcohol at primary school events when children are present. Drug and Alcohol Review, 2015, 34, 202-206.            | 1.1 | 5         |
| 32 | Which dimensions of access are most important when rural residents decide to visit a general practitioner for non-emergency care?. Australian Health Review, 2015, 39, 121.          | 0.5 | 26        |
| 33 | Adult drinking in Australian schools. Australian and New Zealand Journal of Public Health, 2014, 38, 205-208.                                                                        | 0.8 | 7         |
| 34 | Review of policies and guidelines concerning adultsâ€™ alcohol consumption and promotion in Australian government schools. Health Promotion Journal of Australia, 2014, 25, 125-128. | 0.6 | 6         |
| 35 | Staff perceptions of primary healthcare service change: influences on staff satisfaction. Australian Health Review, 2014, 38, 580.                                                   | 0.5 | 5         |
| 36 | Investing in longitudinal studies of primary healthcare: what can we learn about service performance, sustainability and quality?. Rural and Remote Health, 2014, 14, 3059.          | 0.4 | 2         |
