

Fran J Bragg

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/6309679/fran-j-bragg-publications-by-year.pdf>

Version: 2024-04-26

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
25	DeepMIP: model intercomparison of early Eocene climatic optimum (EECO) large-scale climate features and comparison with proxy data. <i>Climate of the Past</i> , 2021 , 17, 203-227	3.9	26
24	Global mean surface temperature and climate sensitivity of the early Eocene Climatic Optimum (EECO), Paleocene-Eocene Thermal Maximum (PETM), and latest Paleocene. <i>Climate of the Past</i> , 2020 , 16, 1953-1968	3.9	29
23	Simulating the climate response to atmospheric oxygen variability in the Phanerozoic: a focus on the Holocene, Cretaceous and Permian. <i>Climate of the Past</i> , 2019 , 15, 1463-1483	3.9	5
22	Past East Asian monsoon evolution controlled by paleogeography, not CO ₂ . <i>Science Advances</i> , 2019 , 5, eaax1697	14.3	79
21	Pollen-derived biomes in the Eastern Mediterranean-Black Sea-Caspian-Corridor. <i>Journal of Biogeography</i> , 2018 , 45, 484-499	4.1	16
20	The BRIDGE HadCM3 family of climate models: HadCM3@Bristol v1.0 2017 ,		9
19	The BRIDGE HadCM3 family of climate models: HadCM3@Bristol v1.0. <i>Geoscientific Model Development</i> , 2017 , 10, 3715-3743	6.3	106
18	Arctic sea ice simulation in the PlioMIP ensemble. <i>Climate of the Past</i> , 2016 , 12, 749-767	3.9	15
17	Using results from the PlioMIP ensemble to investigate the Greenland Ice Sheet during the mid-Pliocene Warm Period. <i>Climate of the Past</i> , 2015 , 11, 403-424	3.9	29
16	Evaluating the dominant components of warming in Pliocene climate simulations. <i>Climate of the Past</i> , 2014 , 10, 79-90	3.9	47
15	Challenges in quantifying Pliocene terrestrial warming revealed by data-model discord. <i>Nature Climate Change</i> , 2013 , 3, 969-974	21.4	110
14	Sea surface temperature of the mid-Piacenzian ocean: a data-model comparison. <i>Scientific Reports</i> , 2013 , 3, 2013	4.9	108
13	Stable isotope and modelling evidence for CO ₂ as a driver of glacial-interglacial vegetation shifts in southern Africa. <i>Biogeosciences</i> , 2013 , 10, 2001-2010	4.6	25
12	Mid-Pliocene East Asian monsoon climate simulated in the PlioMIP. <i>Climate of the Past</i> , 2013 , 9, 2085-2099	3.9	49
11	Large-scale features of Pliocene climate: results from the Pliocene Model Intercomparison Project. <i>Climate of the Past</i> , 2013 , 9, 191-209	3.9	237
10	Mid-pliocene Atlantic Meridional Overturning Circulation not unlike modern. <i>Climate of the Past</i> , 2013 , 9, 1495-1504	3.9	48
9	Assessing confidence in Pliocene sea surface temperatures to evaluate predictive models. <i>Nature Climate Change</i> , 2012 , 2, 365-371	21.4	144

8	Mid-Pliocene climate modelled using the UK Hadley Centre Model: PlioMIP Experiments 1 and 2. <i>Geoscientific Model Development</i> , 2012 , 5, 1109-1125	6.3	52
7	Density and crystallinity of poly (3-hydroxybutyrate/3-hydroxyvalerate) copolymers. <i>Journal of Materials Science</i> , 1990 , 25, 1952-1956	4.3	43
6	DeepMIP: Model intercomparison of early Eocene climatic optimum (EECO) large-scale climate features and comparison with proxy data		5
5	Simulating the Climate Response to Atmospheric Oxygen Variability in the Phanerozoic		2
4	Global mean surface temperature and climate sensitivity of the EECO, PETM and latest Paleocene		3
3	Arctic sea ice in the PlioMIP ensemble: is model performance for modern climates a reliable guide to performance for the past or the future?		2
2	Mid-pliocene Atlantic meridional overturning circulation not unlike modern?		3
1	Using results from the PlioMIP ensemble to investigate the Greenland Ice Sheet during the warm Pliocene		2
