#	ARTICLE	IF	CITATIONS
1	Interleukin-6 Receptor Antagonists in Critically Ill Patients with Covid-19. <i>New England Journal of Medicine</i> , 2021, 384, 1491-1502.	13.9	1,419
2	Therapeutic Anticoagulation with Heparin in Noncritically Ill Patients with Covid-19. <i>New England Journal of Medicine</i> , 2021, 385, 790-802.	13.9	778
3	Therapeutic Anticoagulation with Heparin in Critically Ill Patients with Covid-19. <i>New England Journal of Medicine</i> , 2021, 385, 777-789.	13.9	712
4	Effect of Hydrocortisone on Mortality and Organ Support in Patients With Severe COVID-19. <i>JAMA - Journal of the American Medical Association</i> , 2020, 324, 1317.	3.8	671
5	Association Between Administration of IL-6 Antagonists and Mortality Among Patients Hospitalized for COVID-19. <i>JAMA - Journal of the American Medical Association</i> , 2021, 326, 499.	3.8	498
6	Effect of Convalescent Plasma on Organ Support and Free Days in Critically Ill Patients With COVID-19. <i>JAMA - Journal of the American Medical Association</i> , 2021, 326, 1690.	3.8	169
7	Association of the Quick Sequential (Sepsis-Related) Organ Failure Assessment (qSOFA) Score With Excess Hospital Mortality in Adults With Suspected Infection in Low- and Middle-Income Countries. <i>JAMA - Journal of the American Medical Association</i> , 2018, 319, 2202.	3.8	147
8	Recommendations for sepsis management in resource-limited settings. <i>Intensive Care Medicine</i> , 2012, 38, 557-574.	3.9	143
9	Current challenges in the management of sepsis in ICUs in resource-poor settings and suggestions for the future. <i>Intensive Care Medicine</i> , 2017, 43, 612-624.	3.9	140
10	Critical Care Bed Capacity in Asian Countries and Regions. <i>Critical Care Medicine</i> , 2020, 48, 654-662.	0.4	133
11	Effect of Antiplatelet Therapy on Survival and Organ Support and Free Days in Critically Ill Patients With COVID-19. <i>JAMA - Journal of the American Medical Association</i> , 2022, 327, 1247.	3.8	83
12	Clinical features of, and risk factors for, severe or fatal COVID-19 among people living with HIV admitted to hospital: analysis of data from the WHO Global Clinical Platform of COVID-19. <i>Lancet HIV</i> , 2022, 9, e486-e495.	2.1	80
13	Lopinavir-ritonavir and hydroxychloroquine for critically ill patients with COVID-19: REMAP-CAP randomized controlled trial. <i>Intensive Care Medicine</i> , 2021, 47, 867-886.	3.9	65
14	Performance of critical care prognostic scoring systems in low and middle-income countries: a systematic review. <i>Critical Care</i> , 2018, 22, 18.	2.5	54
15	Symptom burden in chronic kidney disease; a population based cross sectional study. <i>BMC Nephrology</i> , 2017, 18, 228.	0.8	53
16	Quality metrics for the evaluation of Rapid Response Systems: Proceedings from the third international consensus conference on Rapid Response Systems. <i>Resuscitation</i> , 2019, 141, 1-12.	1.3	52
17	Simplified prognostic model for critically ill patients in resource limited settings in South Asia. <i>Critical Care</i> , 2017, 21, 250.	2.5	45
18	A cross-sectional survey of critical care services in Sri Lanka: A lower middle-income country. <i>Journal of Critical Care</i> , 2014, 29, 764-768.	1.0	41

#	ARTICLE	IF	CITATIONS
19	Global outbreak research: harmony not hegemony. <i>Lancet Infectious Diseases</i> , The, 2020, 20, 770-772.	4.6	40
20	International Surviving Sepsis Campaign guidelines 2016: the perspective from low-income and middle-income countries. <i>Lancet Infectious Diseases</i> , The, 2017, 17, 893-895.	4.6	36
21	Clinical characteristics, risk factors and outcomes in patients with severe COVID-19 registered in the International Severe Acute Respiratory and Emerging Infection Consortium WHO clinical characterisation protocol: a prospective, multinational, multicentre, observational study. <i>ERJ Open Research</i> , 2022, 8, 00552-2021.	1.1	33
22	Nursing intensive care skills training: A nurse led, short, structured, and practical training program, developed and tested in a resource-limited setting. <i>Journal of Critical Care</i> , 2015, 30, 438.e7-438.e11.	1.0	29
23	Addressing the information deficit in global health: lessons from a digital acute care platform in Sri Lanka. <i>BMJ Global Health</i> , 2019, 4, e001134.	2.0	29
24	Establishing a critical care network in Asia to improve care for critically ill patients in low- and middle-income countries. <i>Critical Care</i> , 2020, 24, 608.	2.5	29
25	Pakistan Registry of Intensive CarE (PRICE): Expanding a lower middle-income, clinician-designed critical care registry in South Asia. <i>Journal of the Intensive Care Society</i> , 2019, 20, 190-195.	1.1	26
26	Intensive care for COVID-19 in low- and middle-income countries: research opportunities and challenges. <i>Intensive Care Medicine</i> , 2021, 47, 226-229.	3.9	26
27	Improving ICU services in resource-limited settings: Perceptions of ICU workers from low-middle-, and high-income countries. <i>Journal of Critical Care</i> , 2018, 44, 352-356.	1.0	25
28	Evaluation of the feasibility and performance of early warning scores to identify patients at risk of adverse outcomes in a low-middle income country setting. <i>BMJ Open</i> , 2018, 8, e019387.	0.8	24
29	The risk of mental illness in people living with HIV in the UK: a propensity score-matched cohort study. <i>Lancet HIV</i> , the, 2022, 9, e172-e181.	2.1	24
30	Developing a clinically relevant classification to predict mortality in severe leptospirosis. <i>Journal of Emergencies, Trauma and Shock</i> , 2010, 3, 213.	0.3	23
31	A cross sectional survey on social, cultural and economic determinants of obesity in a low middle income setting. <i>International Journal for Equity in Health</i> , 2015, 14, 6.	1.5	23
32	Operationalisation of the Randomized Embedded Multifactorial Adaptive Platform for COVID-19 trials in a low and lower-middle income critical care learning health system.. <i>Wellcome Open Research</i> , 2021, 6, 14.	0.9	23
33	Impact of a structured ICU training programme in resource-limited settings in Asia. <i>PLoS ONE</i> , 2017, 12, e0173483.	1.1	23
34	Linking of global intensive care (LOGIC): An international benchmarking in critical care initiative. <i>Journal of Critical Care</i> , 2020, 60, 305-310.	1.0	22
35	Critical care and severe sepsis in resource poor settings. <i>Transactions of the Royal Society of Tropical Medicine and Hygiene</i> , 2014, 108, 453-454.	0.7	21
36	Traumatic brain injury (TBI) outcomes in an LMIC tertiary care centre and performance of trauma scores. <i>BMC Anesthesiology</i> , 2018, 18, 4.	0.7	20

#	ARTICLE	IF	CITATIONS
37	Applicability of the APACHE II model to a lower middle income country. <i>Journal of Critical Care</i> , 2017, 42, 178-183.	1.0	19
38	Implementing an intensive care registry in India: preliminary results of the case-mix program and an opportunity for quality improvement and research. <i>Wellcome Open Research</i> , 2020, 5, 182.	0.9	19
39	Epidemiological Characteristics, Ventilator Management, and Clinical Outcome in Patients Receiving Invasive Ventilation in Intensive Care Units from 10 Asian Middle-Income Countries (PRoVENT-iMiC): An International, Multicenter, Prospective Study. <i>American Journal of Tropical Medicine and Hygiene</i> , 2021, ...	0.6	18
40	Leveraging a Cloud-Based Critical Care Registry for COVID-19 Pandemic Surveillance and Research in Low- and Middle-Income Countries. <i>JMIR Public Health and Surveillance</i> , 2020, 6, e21939.	1.2	18
41	Intensive Care in Sub-Saharan Africa: A National Review of the Service Status in Ethiopia. <i>Anesthesia and Analgesia</i> , 2022, 134, 930-937.	1.1	18
42	Inequalities in the prevalence of diabetes mellitus and its risk factors in Sri Lanka: a lower middle income country. <i>International Journal for Equity in Health</i> , 2018, 17, 45.	1.5	17
43	Experiences of ICU survivors in a low middle income country- a multicenter study. <i>BMC Anesthesiology</i> , 2018, 18, 30.	0.7	16
44	National Profile of Physical Therapists in Critical Care Units of Sri Lanka: Lower Middle-Income Country. <i>Physical Therapy</i> , 2016, 96, 933-939.	1.1	15
45	A data platform to improve rabies prevention, Sri Lanka. <i>Bulletin of the World Health Organization</i> , 2017, 95, 646-651.	1.5	15
46	Capacity building for critical care training delivery: Development and evaluation of the Network for Improving Critical care Skills Training (NICST) programme in Sri Lanka. <i>Intensive and Critical Care Nursing</i> , 2017, 39, 28-36.	1.4	14
47	PRactice of VENTilation in Middle-Income Countries (PRoVENT-iMiC): rationale and protocol for a prospective international multicentre observational study in intensive care units in Asia. <i>BMJ Open</i> , 2018, 8, e020841.	0.8	14
48	A national survey of critical care services in hospitals accredited for training in a lower-middle income country: Pakistan. <i>Journal of Critical Care</i> , 2020, 60, 273-278.	1.0	14
49	A scoping review of registry captured indicators for evaluating quality of critical care in ICU. <i>Journal of Intensive Care</i> , 2021, 9, 48.	1.3	13
50	A survey on socioeconomic determinants of diabetes mellitus management in a lower middle income setting. <i>International Journal for Equity in Health</i> , 2016, 15, 74.	1.5	12
51	ICU beds: less is more? Not sure. <i>Intensive Care Medicine</i> , 2020, 46, 1600-1602.	3.9	12
52	Validation of a simplified risk prediction model using a cloud based critical care registry in a lower-middle income country. <i>PLoS ONE</i> , 2020, 15, e0244989.	1.1	12
53	Closing the theory to practice gap for newly qualified doctors: evaluation of a peer-delivered practical skills training course for newly qualified doctors in preparation for clinical practice. <i>Postgraduate Medical Journal</i> , 2017, 93, 592-596.	0.9	11
54	Pre-event quality of life and its influence on the post-event quality of life among patients with ST elevation and non-ST elevation myocardial infarctions of a premier province of Sri Lanka. <i>Health and Quality of Life Outcomes</i> , 2017, 15, 154.	1.0	10

#	ARTICLE	IF	CITATIONS
55	Epidemiology, Outcomes, and Risk Factors for Mortality in Critically Ill Women Admitted to an Obstetric High-Dependency Unit in Sierra Leone. American Journal of Tropical Medicine and Hygiene, 2020, 103, 2142-2148.	0.6	8
56	Implementing an intensive care registry in India: preliminary results of the case-mix program and an opportunity for quality improvement and research. Wellcome Open Research, 2020, 5, 182.	0.9	8
57	Barriers and facilitators to the conduct of critical care research in low and lower-middle income countries: A scoping review. PLoS ONE, 2022, 17, e0266836.	1.1	8
58	Performance evaluation of a multinational data platform for critical care in Asia. Wellcome Open Research, 0, 6, 251.	0.9	8
59	A sustainable approach to training nurses in acute care skills in a resource limited setting (Network) Tj ETQq1 1 0.784314 rgBT /Overl	1.3	7
60	A short, structured skills training course for critical care physiotherapists in a lower-middle income country. Physiotherapy Theory and Practice, 2018, 34, 714-722.	0.6	7
61	What intensive care registries can teach us about outcomes. Current Opinion in Critical Care, 2021, 27, 537-543.	1.6	7
62	To: The Epimed Monitor ICU Database®: a cloud-based national registry for adult intensive care unit patients in Brazil. Revista Brasileira De Terapia Intensiva, 2018, 30, 251-252.	0.1	7
63	Impact of COVID-19 on non-COVID intensive care unit service utilization, case mix and outcomes: A registry-based analysis from India. Wellcome Open Research, 0, 6, 159.	0.9	7
64	Performance evaluation of a multinational data platform for critical care in Asia. Wellcome Open Research, 2021, 6, 251.	0.9	6
65	A retrospective study of physiological observation-reporting practices and the recognition, response, and outcomes following cardiopulmonary arrest in a low-to-middle-income country. Indian Journal of Critical Care Medicine, 2017, 21, 343-345.	0.3	6
66	Development and external validation of prognostic models for COVID-19 to support risk stratification in secondary care. BMJ Open, 2022, 12, e049506.	0.8	6
67	A learning health systems approach to improving the quality of care for patients in South Asia. Global Health Action, 2019, 12, 1587893.	0.7	5
68	Collateral Impact of the COVID-19 Pandemic on Acute Care of Non-COVID Patients: An Internet-based Survey of Critical Care and Emergency Personnel. Indian Journal of Critical Care Medicine, 2021, 25, 374-381.	0.3	5
69	Surgical surveillance in resource-poor settings. Lancet, The, 2018, 391, 1571.	6.3	4
70	Commentary: Challenges and Priorities for Pediatric Critical Care Clinician-Researchers in Low- and Middle-Income Countries. Frontiers in Pediatrics, 2018, 6, 38.	0.9	4
71	Current Challenges in the Management of Sepsis in ICUs in Resource-Poor Settings and Suggestions for the Future. , 2019, , 1-24.		4
72	Quality evaluation and future priorities for delivering acute myocardial infarction care in Sri Lanka. Heart, 2020, 106, 603-608.	1.2	4

#	ARTICLE	IF	CITATIONS
73	Time to Revisit Treatment Limitations in Critical Care Benchmarking. <i>Critical Care Medicine</i> , 2021, 49, e472-e473.	0.4	4
74	Outcome of early coronary intervention for acute ST elevation myocardial infarction in a tertiary care cardiac centre in Sri Lanka. <i>Ceylon Medical Journal</i> , 2016, 61, 26.	0.1	4
75	Global Critical Care: Add Essentials to the Roadmap. <i>Annals of Global Health</i> , 2019, 85, .	0.8	4
76	A comparison of rescue and primary percutaneous coronary interventions for acute ST elevation myocardial infarction. <i>Indian Heart Journal</i> , 2017, 69, S57-S62.	0.2	3
77	Lessons and risks of medical device deployment in a global pandemic. <i>The Lancet Global Health</i> , 2021, 9, e395-e396.	2.9	3
78	Impact of COVID-19 on non-COVID intensive care unit service utilization, case mix and outcomes: A registry-based analysis from India. <i>Wellcome Open Research</i> , 2021, 6, 159.	0.9	3
79	Comparison of Quick Sequential Organ Failure Assessment and Modified Systemic Inflammatory Response Syndrome Criteria in a Lower Middle Income Setting. <i>Journal of Acute Medicine</i> , 2017, 7, 141-148.	0.2	3
80	Worldwide clinical intensive care registries response to the pandemic: An international survey. <i>Journal of Critical Care</i> , 2022, 71, 154111.	1.0	3
81	Capacity building for critical care skills training provision in resource limited settings: the nursing intensive care skills training (nicst) project. <i>Intensive Care Medicine Experimental</i> , 2015, 3, .	0.9	2
82	A collaborative approach to training ward nurses in acute care skills in resource limited settings: the nursing intensive care skills training (nicts) project. <i>Intensive Care Medicine Experimental</i> , 2015, 3, .	0.9	2
83	Development and internal validation of the Simplified Mortality Score for the Intensive Care Unit (<sc>SMS</sc> â€‹<sc>ICU</sc>). <i>Acta Anaesthesiologica Scandinavica</i> , 2018, 62, 407-408.	0.7	2
84	SAT-231 QUALITY OF LIFE AND BURDEN OF SYMPTOMS IN CHRONIC KIDNEY DISEASE PATIENTS UNDERGOING DIALYSIS IN SRI LANKA, A POPULATION-BASED STUDY USING AN ELECTRONIC RENAL REGISTRY.. <i>Kidney International Reports</i> , 2019, 4, S103.	0.4	2
85	Point of care ultrasound for sepsis management in resource-limited settings: response to Via et al.. <i>Intensive Care Medicine</i> , 2012, 38, 1408-1409.	3.9	1
86	Is the Tail Wagging the Dog in Sepsis?. <i>Critical Care Medicine</i> , 2018, 46, e818.	0.4	1
87	Developing a feasible and valid scoring system for critically ill patients in resource-limited settings. <i>Critical Care</i> , 2018, 22, 2.	2.5	1
88	Future perspectives for Clinical Quality Registries in critical care. <i>Journal of Critical Care</i> , 2021, 63, 279.	1.0	1
89	Initial Management Of Patients With Community-Acquired Pneumonia In A Tertiary Hospital In Sri Lanka. <i>Sri Lanka Journal of Critical Care</i> , 2009, 1, 32-34.	0.0	1
90	Recognising the deterioration of patients in acute care wards: a qualitative study. <i>Wellcome Open Research</i> , 0, 7, 137.	0.9	1

#	ARTICLE	IF	CITATIONS
91	Patient-centred perioperative outcomes after major abdominal surgery in Sri Lanka: a multicentre registry. <i>British Journal of Surgery</i> , 2020, 107, e603-e604.	0.1	1
92	Decision-making in the detection and management of patients with sepsis in resource-limited settings: the importance of clinical examination. <i>Critical Care</i> , 2018, 22, 53.	2.5	0
93	Critical care junior doctors' profile in a lower middle-income country: A national cross-sectional survey. <i>Indian Journal of Critical Care Medicine</i> , 2017, 21, 733-739.	0.3	0
94	Practices and perspectives in cardiopulmonary resuscitation attempts and the use of do not attempt resuscitation orders: A cross-sectional survey in Sri Lanka. <i>Indian Journal of Critical Care Medicine</i> , 2017, 21, 865-868.	0.3	0
95	Recognition of Sepsis in Resource-Limited Settings. , 2019, , 69-84.		0
96	Recognising the deterioration of patients in acute care wards: a qualitative study. <i>Wellcome Open Research</i> , 0, 7, 137.	0.9	0
