#	ARTICLE	IF	CITATIONS
1	The impact of routine Edmonton symptom assessment system use on receiving palliative care services: results of a population-based retrospective-matched cohort analysis. <i>BMJ Supportive and Palliative Care</i> , 2023, 13, e144-e149.	1.6	9
2	Effect of Early Palliative Care on End-of-Life Health Care Costs: A Population-Based, Propensity Score-Matched Cohort Study. <i>JCO Oncology Practice</i> , 2022, 18, e183-e192.	2.9	25
3	Increasing Demand on Human Capital and Resource Utilization in Radiation Therapy: The Past Decade. <i>International Journal of Radiation Oncology Biology Physics</i> , 2022, 112, 457-462.	0.8	10
4	Diagnostic timelines and self-reported symptoms of patients with lung and gastrointestinal cancers undergoing radiation therapy. Retrospective case control study. <i>Supportive Care in Cancer</i> , 2022, 30, 1501-1509.	2.2	1
5	Comparing the M.D. Anderson Symptom and Dysphagia Inventories for Head and Neck Cancer Patients. <i>Laryngoscope</i> , 2022, 132, 2388-2395.	2.0	1
6	The impact of symptom screening on survival among patients with cancer across varying levels of pre-diagnosis psychiatric care. <i>Cancer Medicine</i> , 2022, 11, 838-846.	2.8	3
7	Striving to Fill in Gaps between Clinical Practice and Standards: The Evolution of a Pan-Canadian Approach to Patient-Reported Outcomes Use. <i>Current Oncology</i> , 2022, 29, 3698-3707.	2.2	3
8	Feasibility of implementing a cervix cancer-specific patient-reported outcome measure in routine ambulatory clinics. <i>Supportive Care in Cancer</i> , 2021, 29, 499-507.	2.2	6
9	Multistate Models for Examining the Progression of Intermittently Measured Patient-Reported Symptoms Among Patients With Cancer: The Importance of Accounting for Interval Censoring. <i>Journal of Pain and Symptom Management</i> , 2021, 61, 54-62.	1.2	5
10	End-of-life outcomes with or without early palliative care: a propensity score matched, population-based cancer cohort study. <i>BMJ Open</i> , 2021, 11, e041432.	1.9	15
11	I'm here because I was told to come: a study of cancer patients' reasons for attending the emergency department. <i>Supportive Care in Cancer</i> , 2021, 29, 6565-6578.	2.2	2
12	Comparison of Patient-Reported Experience of Patients Receiving Radiotherapy Measured by Two Validated Surveys. <i>Current Oncology</i> , 2021, 28, 2180-2189.	2.2	7
13	Development and validation of a prediction model of poor performance status and severe symptoms over time in cancer patients (PROVIEW+). <i>Palliative Medicine</i> , 2021, 35, 1713-1723.	3.1	7
14	Higher-risk breast cancer in women aged 80 and older: Exploring the effect of treatment on survival. <i>Breast</i> , 2021, 59, 203-210.	2.2	6
15	Patient-Reported Outcomes-Guided Adaptive Radiation Therapy for Head and Neck Cancer. <i>Frontiers in Oncology</i> , 2021, 11, 759724.	2.8	4
16	Acute Care Use by Breast Cancer Patients on Adjuvant Chemotherapy in Alberta: Demonstrating the Importance of Measurement to Improving Quality. <i>Current Oncology</i> , 2021, 28, 4420-4431.	2.2	4
17	Patient-Reported Symptom Severity Among 22,650 Cancer Outpatients in the Last Six Months of Life. <i>Journal of Pain and Symptom Management</i> , 2020, 59, 58-66.e4.	1.2	22
18	Are population-based patient-reported outcomes associated with overall survival in patients with advanced pancreatic cancer?. <i>Cancer Medicine</i> , 2020, 9, 215-224.	2.8	13

#	ARTICLE	IF	CITATIONS
19	Impact of Standardized Edmonton Symptom Assessment System Use on Emergency Department Visits and Hospitalization: Results of a Population-Based Retrospective Matched Cohort Analysis. JCO Oncology Practice, 2020, 16, e958-e965.	2.9	40
20	The impact of routine Edmonton Symptom Assessment System (ESAS) use on overall survival in cancer patients: Results of a population-based retrospective matched cohort analysis. Cancer Medicine, 2020, 9, 7107-7115.	2.8	52
21	Adapting Radiation Therapy Treatments for Patients with Breast Cancer During the COVID-19 Pandemic: Hypo-Fractionation and Accelerated Partial Breast Irradiation to Address World Health Organization Recommendations. Advances in Radiation Oncology, 2020, 5, 575-576.	1.2	35
22	Comparing an Artificial Neural Network to Logistic Regression for Predicting ED Visit Risk Among Patients With Cancer: A Population-Based Cohort Study. Journal of Pain and Symptom Management, 2020, 60, 1-9.	1.2	35
23	Operationalizing Outpatient Palliative Care Referral Criteria in Lung Cancer Patients: A Population-Based Cohort Study Using Health Administrative Data. Journal of Palliative Medicine, 2020, 23, 670-677.	1.1	5
24	Development and Validation of a Prognostic Survival Model With Patient-Reported Outcomes for Patients With Cancer. JAMA Network Open, 2020, 3, e201768.	5.9	16
25	Integration of patient-reported outcomes (PROs) for personalized symptom management in "real-world" oncology practices: a population-based cohort comparison study of impact on healthcare utilization. Supportive Care in Cancer, 2020, 28, 4933-4942.	2.2	28
26	Selecting, implementing and evaluating patient-reported outcome measures for routine clinical use in cancer: the Cancer Care Ontario approach. Journal of Patient-Reported Outcomes, 2020, 4, 101.	1.9	32
27	MRI-based interstitial brachytherapy for vaginal tumors: A multi-institutional study on practice patterns, contouring, and consensus definitions of target volumes. Brachytherapy, 2019, 18, 598-605.	0.5	9
28	Patient-Reported Symptoms Improve Performance of Risk Prediction Models for Emergency Department Visits Among Patients With Cancer: A Population-Wide Study in Ontario Using Administrative Data. Journal of Pain and Symptom Management, 2019, 58, 745-755.	1.2	20
29	Vaginal brachytherapy alone for patients with Stage II endometrial cancer with inner half cervical stromal invasion. Brachytherapy, 2019, 18, 606-611.	0.5	7
30	Symptom burden among head and neck cancer patients in the first year after diagnosis: Association with primary treatment modality. Oral Oncology, 2019, 99, 104434.	1.5	32
31	Population-Level Symptom Assessment Following Pancreaticoduodenectomy for Adenocarcinoma. JAMA Surgery, 2019, 154, e193348.	4.3	30
32	Symptom trajectories and predictors of severe symptoms in pancreatic adenocarcinoma at the end-of-life: a population based analysis of 2,538 patients. Hpb, 2019, 21, 1744-1752.	0.3	5
33	Quality Indicator Rates for Seriously Ill Home Care Clients: Analysis of Resident Assessment Instrument for Home Care Data in Six Canadian Provinces. Journal of Palliative Medicine, 2019, 22, 1346-1356.	1.1	12
34	Patient-reported symptoms following mastectomy alone or lumpectomy plus radiation for early stage breast cancer: a cohort study. Breast Cancer Research and Treatment, 2019, 175, 721-731.	2.5	12
35	Factors Associated With Opioid Use in Long-term Cancer Survivors. Journal of Pain and Symptom Management, 2019, 58, 100-107.e2.	1.2	18
36	Uptake of sentinel lymph node procedures in women with vulvar cancer over time in a population based study. Gynecologic Oncology, 2019, 153, 574-579.	1.4	5

#	ARTICLE	IF	CITATIONS
37	Use of patient-reported outcomes in regional cancer centres over time: a retrospective study. CMAJ Open, 2019, 7, E101-E108.	2.4	20
38	A Decade in Review. Medical Care, 2019, 57, S80-S84.	2.4	9
39	A prospective analysis of catheter complications for gynecological cancers treated with interstitial brachytherapy in the 3D era. Brachytherapy, 2019, 18, 44-49.	0.5	8
40	Reply to Opioid use among cancer survivors: A call to action for oncology and primary care providers. Cancer, 2018, 124, 649-649.	4.1	0
41	Characterizing the impact of adaptive planning on image-guided perineal interstitial brachytherapy for gynecologic malignancies. Brachytherapy, 2018, 17, 352-359.	0.5	7
42	Comparison of Opioid Prescribing Among Cancer and Noncancer Patients Aged 18â€“64: Analysis Using Administrative Data. Journal of Pain and Symptom Management, 2018, 56, 72-79.	1.2	9
43	Implementation of Patient-Reported Outcomes in Routine Medical Care. American Society of Clinical Oncology Educational Book / ASCO American Society of Clinical Oncology Meeting, 2018, 38, 122-134.	3.8	260
44	Symptom Burden in the First Year After Cancer Diagnosis: An Analysis of Patient-Reported Outcomes. Journal of Clinical Oncology, 2018, 36, 1103-1111.	1.6	121
45	Circulating Human Papillomavirus DNA as a Biomarker of Response in Patients With Locally Advanced Cervical Cancer Treated With Definitive Chemoradiation. JCO Precision Oncology, 2018, 2, 1-8.	3.0	26
46	Improving patient outcomes and radiotherapy systems: A panâ€“Canadian approach to patientâ€“reported outcome use. Medical Physics, 2018, 45, e841-e844.	3.0	8
47	Patient-reported symptoms after breast cancer diagnosis and treatment: A retrospective cohort study. European Journal of Cancer, 2018, 101, 1-11.	2.8	39
48	Going Lean to Improve the Patient Experience in a High-Throughput Brachytherapy Program. Journal of Medical Imaging and Radiation Sciences, 2018, 49, 130-135.	0.3	0
49	Oncologistsâ€™ negative attitudes towards expressing emotion over patient death and burnout. Supportive Care in Cancer, 2017, 25, 1607-1614.	2.2	22
50	Opioid consumption and pain in gynecological cancer patients treated with interstitial brachytherapy. Brachytherapy, 2017, 16, 870-876.	0.5	12
51	Three-dimensional-guided perineal-based interstitial brachytherapy in cervical cancer: A systematic review of technique, local control and toxicities. Radiotherapy and Oncology, 2017, 123, 312-318.	0.6	34
52	Opioid Prescribing Among Cancer and Non-cancer Patients: Time Trend Analysis in the Elderly Using Administrative Data. Journal of Pain and Symptom Management, 2017, 54, 484-492.e1.	1.2	23
53	Determinants of Home Death in Patients With Cancer. Journal of Palliative Care, 2017, 32, 11-18.	1.0	9
54	Cancer survivorship and opioid prescribing rates: A populationâ€“based matched cohort study among individuals with and without a history of cancer. Cancer, 2017, 123, 4286-4293.	4.1	80

#	ARTICLE	IF	CITATIONS
55	The Added Value of Pathology Review in Vulvar Cancer. International Journal of Gynecological Pathology, 2017, 36, 107-110.	1.4	7
56	Dosimetric comparison of interstitial brachytherapy with multi-channel vaginal cylinder plans in patients with vaginal tumors. Radiation Oncology, 2017, 12, 84.	2.7	5
57	Does a groin node dissection in vulvar cancer affect groin recurrence and overall survival?: Results from a population-based cohort study. Gynecologic Oncology, 2017, 144, 318-323.	1.4	4
58	Interventions to Address Sexual Problems in People with Cancer. Current Oncology, 2017, 24, 192-200.	2.2	50
59	Has Province-Wide Symptom Screening Changed Opioid Prescribing Rates in Older Patients With Cancer?. Journal of Oncology Practice, 2017, 13, e927-e934.	2.5	3
60	Gender differences in the effect of grief reactions and burnout on emotional distress among clinical oncologists. Cancer, 2016, 122, 3705-3714.	4.1	22
61	Radiation therapy quality-of-care indicators for locally advanced cervical cancer: A consensus guideline. Practical Radiation Oncology, 2016, 6, 315-323.	2.1	12
62	Using Markov Multistate Models to Examine the Progression of Symptom Severity Among an Ambulatory Population of Cancer Patients: Are Certain Symptoms Better Managed Than Others?. Journal of Pain and Symptom Management, 2016, 51, 232-239.	1.2	12
63	Does Increasing Home Care Nursing Reduce Emergency Department Visits at the End of Life? A Population-Based Cohort Study of Cancer Decedents. Journal of Pain and Symptom Management, 2016, 51, 204-212.	1.2	48
64	Impact of aggressive management and palliative care on cancer costs in the final month of life. Cancer, 2015, 121, 3307-3315.	4.1	133
65	An international comparison of costs of end-of-life care for advanced lung cancer patients using health administrative data. Palliative Medicine, 2015, 29, 918-928.	3.1	43
66	Identification of the physician workforce providing palliative care in Ontario using administrative claims data. CMAJ Open, 2015, 3, E292-E298.	2.4	36
67	Customized vaginal vault brachytherapy with computed tomography imaging-derived applicator prototyping. Brachytherapy, 2015, 14, 380-384.	0.5	28
68	Do repeated assessments of performance status improve predictions for risk of death among patients with cancer? A population-based cohort study. Palliative Medicine, 2015, 29, 547-553.	3.1	9
69	Patient, tumor, and health system factors affecting groin node dissection rates in vulvar carcinoma: A population-based cohort study. Gynecologic Oncology, 2015, 139, 465-470.	1.4	5
70	Factors associated with not receiving homecare, end-of-life homecare, or early homecare referral among cancer decedents: A population-based cohort study. Health Policy, 2015, 119, 831-839.	3.0	16
71	Impact of community based, specialist palliative care teams on hospitalisations and emergency department visits late in life and hospital deaths: a pooled analysis. BMJ, The, 2014, 348, g3496-g3496.	6.0	169
72	Repeated Assessments of Symptom Severity Improve Predictions for Risk of Death Among Patients With Cancer. Journal of Pain and Symptom Management, 2014, 48, 1041-1049.	1.2	16

#	ARTICLE	IF	CITATIONS
73	Do Patient-Reported Symptoms Predict Emergency Department Visits in Cancer Patients? A Population-Based Analysis. <i>Annals of Emergency Medicine</i> , 2013, 61, 427-437.e5.	0.6	102
74	Opioid Prescription After Pain Assessment: A Population-Based Cohort of Elderly Patients With Cancer. <i>Journal of Clinical Oncology</i> , 2012, 30, 1095-1099.	1.6	56
75	Symptom burden and performance status in a population-based cohort of ambulatory cancer patients. <i>Cancer</i> , 2010, 116, 5767-5776.	4.1	181
76	Why do patients with cancer visit the emergency department near the end of life?. <i>Cmaj</i> , 2010, 182, 563-568.	2.0	323
77	Erythropoiesis stimulating agents, thrombosis and cancer. <i>Radiotherapy and Oncology</i> , 2010, 95, 269-276.	0.6	20
78	Factors Associated with End-of-Life Health Service Use in Patients Dying of Cancer. <i>Healthcare Policy</i> , 2010, 5, e125-43.	0.6	31
79	Management of Early and Locally Advanced Cervical Cancer. <i>Seminars in Oncology</i> , 2009, 36, 155-169.	2.2	57
80	End-of-Life Care in Lung Cancer Patients in Ontario: Aggressiveness of Care in the Population and a Description of Hospital Admissions. <i>Journal of Pain and Symptom Management</i> , 2008, 35, 267-274.	1.2	70
81	Venous thromboembolism in cervical cancer. <i>Lancet Oncology</i> , The, 2008, 9, 54-60.	10.7	26
82	Indicators of poor quality end-of-life cancer care in Ontario. <i>Journal of Palliative Care</i> , 2006, 22, 12-7.	1.0	100
83	Estimating the benefit and cost of radiotherapy for lung cancer. <i>International Journal of Technology Assessment in Health Care</i> , 2004, 20, 545-551.	0.5	19
84	The role of computed tomography in the T classification of laryngeal carcinoma. <i>Cancer</i> , 2001, 91, 394-407.	4.1	32
