#	ARTICLE	IF	CITATIONS
1	Circulating ghrelin changes as a biomarker of the stress response and craving in abstinent smokers. <i>Pharmacology Biochemistry and Behavior</i> , 2022, 218, 173423.	1.3	2
2	Social and early life adversity and chronic health conditions among Tunisian adults. <i>Translational Behavioral Medicine</i> , 2020, 10, 949-958.	1.2	9
3	Article Commentary: Women and Substance Use Disorders in Low- and Middle-Income Countries: A Call for Advancing Research Equity in Prevention and Treatment. <i>Substance Abuse</i> , 2020, 41, 6-10.	1.1	5
4	Using novel mobile sensors to assess stress and smoking lapse. <i>International Journal of Psychophysiology</i> , 2020, 158, 411-418.	0.5	13
5	Circulating orexin changes during withdrawal are associated with nicotine craving and risk for smoking relapse. <i>Addiction Biology</i> , 2019, 24, 743-753.	1.4	11
6	Impact of social violence and childhood adversities on pregnancy outcomes: a longitudinal study in Tunisia. <i>Journal of Global Health</i> , 2019, 9, 020435.	1.2	6
7	Childhood exposure to violence is associated with risk for mental disorders and adult's weight status: a community-based study in Tunisia. <i>Journal of Public Health</i> , 2019, 41, 502-510.	1.0	10
8	Stressful life events are associated with perinatal cigarette smoking. <i>Preventive Medicine</i> , 2019, 118, 264-271.	1.6	27
9	Anger, anxiety, and depressive affect as predictors of stress-induced cortisol production in khat and tobacco users. <i>Addictive Behaviors</i> , 2018, 82, 195-201.	1.7	5
10	Changes in circulating peptide YY and ghrelin are associated with early smoking relapse. <i>Biological Psychology</i> , 2018, 131, 43-48.	1.1	21
11	Exposure to community and collective violence during childhood and tobacco use patterns among young adults in Tunisia. <i>Health and Social Care in the Community</i> , 2018, 26, 935-945.	0.7	11
12	Impact of early life adversity on the stress biobehavioral response during nicotine withdrawal. <i>Psychoneuroendocrinology</i> , 2018, 98, 108-118.	1.3	9
13	Gender differences in adverse childhood experiences, collective violence, and the risk for addictive behaviors among university students in Tunisia. <i>Preventive Medicine</i> , 2017, 99, 99-104.	1.6	54
14	Correlates of khat use during pregnancy: A cross-sectional study. <i>Addictive Behaviors</i> , 2017, 73, 178-184.	1.7	22
15	Early life adversity influences stress response association with smoking relapse. <i>Psychopharmacology</i> , 2017, 234, 3375-3384.	1.5	12
16	Smokers report lower intake of key nutrients than nonsmokers, yet both fall short of meeting recommended intakes. <i>Nutrition Research</i> , 2017, 45, 30-37.	1.3	22
17	Effects of 6-Week Use of Reduced-Nicotine Content Cigarettes in Smokers With and Without Elevated Depressive Symptoms. <i>Nicotine and Tobacco Research</i> , 2017, 19, 59-67.	1.4	49
18	Life adversity is associated with smoking relapse after a quit attempt. <i>Addictive Behaviors</i> , 2016, 60, 71-77.	1.7	10

#	ARTICLE	IF	CITATIONS
19	Evaluation of a reduced nicotine product standard: Moderating effects of and impact on cannabis use. <i>Drug and Alcohol Dependence</i> , 2016, 167, 228-232.	1.6	23
20	Stress psychobiology in the context of addiction medicine. <i>Progress in Brain Research</i> , 2016, 223, 43-62.	0.9	25
21	Household food insecurity and mental distress among pregnant women in Southwestern Ethiopia: a cross sectional study design. <i>BMC Pregnancy and Childbirth</i> , 2015, 15, 250.	0.9	43
22	Circulating leptin and pain perception among tobacco-dependent individuals. <i>Biological Psychology</i> , 2015, 107, 10-15.	1.1	5
23	Sex Differences in Hormonal Responses to Stress and Smoking Relapse: A Prospective Examination. <i>Nicotine and Tobacco Research</i> , 2015, 17, 382-389.	1.4	52
24	Changes in circulating leptin levels during the initial stage of cessation are associated with smoking relapse. <i>Psychopharmacology</i> , 2015, 232, 3355-3361.	1.5	14
25	Khat use and appetite: An overview and comparison of amphetamine, khat and cathinone. <i>Journal of Ethnopharmacology</i> , 2015, 160, 78-85.	2.0	37
26	Opioid prescribing patterns for non-malignant chronic pain for rural versus non-rural US adults: a population-based study using 2010 NAMCS data. <i>BMC Health Services Research</i> , 2014, 14, 563.	0.9	92
27	A population-based study of edentulism in the US: does depression and rural residency matter after controlling for potential confounders?. <i>BMC Public Health</i> , 2014, 14, 65.	1.2	26
28	Peptide YY and ghrelin predict craving and risk for relapse in abstinent smokers. <i>Psychoneuroendocrinology</i> , 2014, 49, 253-259.	1.3	45
29	Men and suicide in primary care. <i>Disease-a-Month</i> , 2014, 60, 155-161.	0.4	7
30	A review of the current epidemiology and treatment options for prostate cancer. <i>Disease-a-Month</i> , 2014, 60, 150-154.	0.4	20
31	Symptom severity predicts degree of T cell activation in adult women following childhood maltreatment. <i>Brain, Behavior, and Immunity</i> , 2008, 22, 994-1003.	2.0	70
32	Inflammatory and hormonal measures predict neuropsychological functioning in systemic lupus erythematosus and rheumatoid arthritis patients. <i>Journal of the International Neuropsychological Society</i> , 2001, 7, 745-754.	1.2	78
33	Surgical and Psychological Stressors Differentially Affect Cytolytic Responses in the Rhesus Monkey. <i>Brain, Behavior, and Immunity</i> , 1996, 10, 27-43.	2.0	11
34	Abuse-Related Posttraumatic Stress Disorder. <i>Psychosomatic Medicine</i> , 1995, 57, 105-115.	1.3	351
35	Self-discrepancy and natural killer cell activity: Immunological consequences of negative self-evaluation.. <i>Journal of Personality and Social Psychology</i> , 1993, 64, 1042-1052.	2.6	67
