|----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | An Examination of Very Low Efficiency Scores in Data Envelopment Analysis in the Pension Funds Industry. Journal of Service Science and Management, 2022, 15, 71-88.                          | 0.4 | 1         |
| 2  | Measuring short-term risk of initial public offering of equity securities: a hybrid Bayesian and Data-Envelopment-Analysis-based approach. Annals of Operations Research, 2020, 288, 733-753. | 2.6 | 3         |
| 3  | Bank Branch Productivity Applications: Basic Applications $\hat{a} \in \text{Efficiency Measurement.}$ Profiles in Operations Research, 2018, , 87-100.                                       | 0.3 | 0         |
| 4  | Bank Branch Productivity Applications: Strategic Branch Management Issues Addressed with DEA. Profiles in Operations Research, 2018, , 129-143.                                               | 0.3 | 0         |
| 5  | Financial Services Beyond Banking: Risk Tolerance Measures for Portfolio Investors. Profiles in Operations Research, 2018, , 313-325.                                                         | 0.3 | 1         |
| 6  | Objective identification of technological returns to scale for data envelopment analysis models. European Journal of Operational Research, 2018, 266, 678-688.                                | 3.5 | 3         |
| 7  | Financial Services Beyond Banking: Corporate Failure Prediction. Profiles in Operations Research, 2018, , 283-311.                                                                            | 0.3 | 0         |
| 8  | Securities Market Applications: Pension, Mutual and Hedge Fund Insights with DEA. Profiles in Operations Research, 2018, , 207-231.                                                           | 0.3 | 2         |
| 9  | Survey of the Banking Literature. Profiles in Operations Research, 2018, , 41-50.                                                                                                             | 0.3 | 0         |
| 10 | Data Envelopment Analysis in the Financial Services Industry. Profiles in Operations Research, 2018, , .                                                                                      | 0.3 | 16        |
| 11 | Bank Branch Operational Studies Using DEA. Profiles in Operations Research, 2018, , 145-158.                                                                                                  | 0.3 | 0         |
| 12 | Bankruptcy Prediction of Companies in the Retail-Apparel Industry Using Data Envelopment Analysis. Profiles in Operations Research, 2016, , 299-329.                                          | 0.3 | 5         |
| 13 | Bank branch operational performance: A robust multivariate and clustering approach. Expert Systems<br>With Applications, 2016, 50, 107-119.                                                   | 4.4 | 25        |
| 14 | A dynamic benchmarking system for assessing the recovery of inpatients: Evidence from the neurorehabilitation process. European Journal of Operational Research, 2015, 240, 582-591.          | 3.5 | 7         |
| 15 | Evaluating Canadian Bank Branch Operational Efficiency from Staff Allocation: A DEA Approach.<br>Management and Organizational Studies, 2014, 2, .                                            | 0.2 | 4         |
| 16 | A data envelopment analysis approach for measuring the efficiency of Canadian acute care hospitals. Health Services Management Research, 2014, 27, 57-69.                                     | 1.0 | 12        |
| 17 | Two-stage financial risk tolerance assessment using data envelopment analysis. European Journal of Operational Research, 2014, 233, 273-280.                                                  | 3.5 | 44        |
| 18 | Seeking Greater Practitioner and Managerial Use of DEA for Benchmarking. Data Envelopment Analysis<br>Journal, 2014, 1, 29-55.                                                                | 0.6 | 3         |

| #  | Article                                                                                                                                                                                                                                    | IF  | Citations |
|----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 19 | Ensuring units invariant slack selection in radial data envelopment analysis models, and incorporating slacks into an overall efficiency score. Omega, 2013, 41, 31-40.                                                                    | 3.6 | 6         |
| 20 | A survey on bank branch efficiency and performance research with data envelopment analysis. Omega, 2013, 41, 61-79.                                                                                                                        | 3.6 | 274       |
| 21 | A Distribution-Free Approach to Stochastic Efficiency Measurement with Inclusion of Expert Knowledge. Journal of Applied Mathematics, 2013, 2013, 1-21.                                                                                    | 0.4 | 3         |
| 22 | Analysis of available software products in the North American cabinet industry. International Journal of Applied Management Science, 2013, 5, 281.                                                                                         | 0.1 | 1         |
| 23 | DEA based models for reallocations of police personnel. OR Spectrum, 2012, 34, 921-941.                                                                                                                                                    | 2.1 | 20        |
| 24 | Identifying managerial groups in a large Canadian bank branch network with a DEA approach. European Journal of Operational Research, 2012, 219, 178-187.                                                                                   | 3.5 | 33        |
| 25 | The examination of pseudo-allocative and pseudo-overall efficiencies in DEA using shadow prices. Journal of Productivity Analysis, 2012, 37, 115-123.                                                                                      | 0.8 | 6         |
| 26 | Evaluation of Strategic Software Investments for the Canadian Cabinet Industry. Forest Products Journal, 2012, 62, 597-606.                                                                                                                | 0.2 | 1         |
| 27 | Risk-adjusted efficiency of the insurance industry: evidence from China. Service Industries Journal, 2011, 31, 1871-1885.                                                                                                                  | 5.0 | 12        |
| 28 | Two-stage evaluation of bank branch efficiency using data envelopment analysis. Omega, 2011, 39, 99-109.                                                                                                                                   | 3.6 | 231       |
| 29 | Using equity options to imply credit information. Annals of Operations Research, 2011, 185, 45-73.                                                                                                                                         | 2.6 | 4         |
| 30 | Assessing Bank and Bank Branch Performance. Profiles in Operations Research, 2011, , 315-361.                                                                                                                                              | 0.3 | 29        |
| 31 | Information Technology Adoption in US and Canadian Forest Products Industries. Forest Products Journal, 2011, 61, 161-169.                                                                                                                 | 0.2 | 8         |
| 32 | Developing a mathematical programming model for sensitivity analysis in analytic hierarchy process. International Journal of Mathematics in Operational Research, 2010, 2, 290.                                                            | 0.1 | 14        |
| 33 | Adjusting for cultural differences, a new DEA model applied to a merged bank. Journal of Productivity Analysis, 2010, 33, 109-123.                                                                                                         | 0.8 | 25        |
| 34 | Multi-criteria evaluation of design and manufacturing software packages considering the interdependencies among criteria: the analytic network process approach. International Journal of Information and Decision Sciences, 2009, 1, 397. | 0.1 | 9         |
| 35 | Introduction to a Special Issue on Productivity Measurement if Complex Services Industries. Journal of Productivity Analysis, 2007, 27, 85-86.                                                                                             | 0.8 | 0         |
| 36 | Intra- and inter-country bank branch assessment using DEA. Journal of Productivity Analysis, 2007, 27, 123-136.                                                                                                                            | 0.8 | 28        |

| #  | Article                                                                                                                                                                              | IF  | Citations |
|----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 37 | DEA-R: ratio-based comparative efficiency model, its mathematical relation to DEA and its use in applications. Journal of Productivity Analysis, 2007, 28, 33-44.                    | 0.8 | 57        |
| 38 | Measuring overall efficiency and effectiveness using DEA. European Journal of Operational Research, 2007, 178, 305-321.                                                              | 3.5 | 84        |
| 39 | Using Data Envelopment Analysis in software development productivity measurement. Software Process Improvement and Practice, 2006, 11, 561-572.                                      | 1.1 | 28        |
| 40 | Evaluating alternative DEA models used to control for non-discretionary inputs. Computers and Operations Research, 2006, 33, 1173-1183.                                              | 2.4 | 78        |
| 41 | Theoretical perspectives of trade-off analysis using DEA. Omega, 2006, 34, 337-343.                                                                                                  | 3.6 | 30        |
| 42 | ASSESSING FINANCIAL RISK TOLERANCE OF PORTFOLIO INVESTORS USING DATA ENVELOPMENT ANALYSIS. International Journal of Information Technology and Decision Making, 2005, 04, 491-519.   | 2.3 | 20        |
| 43 | Assessing Bank and Bank Branch Performance. Profiles in Operations Research, 2004, , 349-394.                                                                                        | 0.3 | 24        |
| 44 | Establishing the "practical frontier―in data envelopment analysis. Omega, 2004, 32, 261-272.                                                                                         | 3.6 | 47        |
| 45 | Combining DEA Window Analysis with the Malmquist Index Approach in a Study of the Canadian Banking Industry. Journal of Productivity Analysis, 2004, 21, 67-89.                      | 0.8 | 272       |
| 46 | Using DEA and Worst Practice DEA in Credit Risk Evaluation. Journal of Productivity Analysis, 2004, 21, 153-165.                                                                     | 0.8 | 107       |
| 47 | Commercial branch performance evaluation and results communication in a Canadian bank––a DEA application. European Journal of Operational Research, 2004, 156, 719-735.              | 3.5 | 121       |
| 48 | Financial performance analysis of Ontario (Canada) Credit Unions: An application of DEA in the regulatory environment. European Journal of Operational Research, 2002, 139, 339-350. | 3.5 | 60        |
| 49 | Marginal Rates and Two-dimensional Level Curves in DEA. Journal of Productivity Analysis, 1998, 9, 205-232.                                                                          | 0.8 | 42        |
| 50 | Best practice analysis of bank branches: An application of DEA in a large Canadian bank. European Journal of Operational Research, 1997, 98, 269-289.                                | 3.5 | 264       |
