#	ARTICLE	IF	CITATIONS
1	Outcomes in hypertensive patients at high cardiovascular risk treated with regimens based on valsartan or amlodipine: the VALUE randomised trial. <i>Lancet, The</i> , 2004, 363, 2022-2031.	6.3	2,422
2	Benazepril plus Amlodipine or Hydrochlorothiazide for Hypertension in High-Risk Patients. <i>New England Journal of Medicine</i> , 2008, 359, 2417-2428.	13.9	1,849
3	Hemodynamic Patterns of Age-Related Changes in Blood Pressure. <i>Circulation</i> , 1997, 96, 308-315.	1.6	1,795
4	Clinical Practice Guidelines for the Management of Hypertension in the Community. <i>Journal of Clinical Hypertension</i> , 2014, 16, 14-26.	1.0	768
5	Principal Results of the Controlled Onset Verapamil Investigation of Cardiovascular End Points (CONVINCE) Trial. <i>JAMA - Journal of the American Medical Association</i> , 2003, 289, 2073.	3.8	646
6	Catheter-based renal denervation in patients with uncontrolled hypertension in the absence of antihypertensive medications (SPYRAL HTN-OFF MED): a randomised, sham-controlled, proof-of-concept trial. <i>Lancet, The</i> , 2017, 390, 2160-2170.	6.3	597
7	Effect of renal denervation on blood pressure in the presence of antihypertensive drugs: 6-month efficacy and safety results from the SPYRAL HTN-ON MED proof-of-concept randomised trial. <i>Lancet, The</i> , 2018, 391, 2346-2355.	6.3	597
8	Blood pressure dependent and independent effects of antihypertensive treatment on clinical events in the VALUE Trial. <i>Lancet, The</i> , 2004, 363, 2049-2051.	6.3	540
9	Endovascular ultrasound renal denervation to treat hypertension (RADIANCE-HTN SOLO): a multicentre, international, single-blind, randomised, sham-controlled trial. <i>Lancet, The</i> , 2018, 391, 2335-2345.	6.3	526
10	Clinical Practice Guidelines for the Management of Hypertension in the Community. <i>Journal of Hypertension</i> , 2014, 32, 3-15.	0.3	498
11	ACCF/AHA 2011 Expert Consensus Document on Hypertension in the Elderly. <i>Journal of the American College of Cardiology</i> , 2011, 57, 2037-2114.	1.2	419
12	ACCF/AHA 2011 Expert Consensus Document on Hypertension in the Elderly. <i>Circulation</i> , 2011, 123, 2434-2506.	1.6	381
13	Efficacy of catheter-based renal denervation in the absence of antihypertensive medications (SPYRAL) Tj ETQq1 1 0.784314 rgBT /Over 1444-1451.	6.3	351
14	Prognostic value of blood pressure in patients with high vascular risk in the Ongoing Telmisartan Alone and in combination with Ramipril Global Endpoint Trial study. <i>Journal of Hypertension</i> , 2009, 27, 1360-1369.	0.3	311
15	A selective endothelin-receptor antagonist to reduce blood pressure in patients with treatment-resistant hypertension: a randomised, double-blind, placebo-controlled trial. <i>Lancet, The</i> , 2009, 374, 1423-1431.	6.3	277
16	Achieved blood pressure and cardiovascular outcomes in high-risk patients: results from ONTARGET and TRANSCEND trials. <i>Lancet, The</i> , 2017, 389, 2226-2237.	6.3	263
17	Global Burden of Cardiovascular Disease and Stroke: Hypertension at the Core. <i>Canadian Journal of Cardiology</i> , 2015, 31, 569-571.	0.8	249
18	May Measurement Month 2017: an analysis of blood pressure screening results worldwide. <i>The Lancet Global Health</i> , 2018, 6, e736-e743.	2.9	245

#	ARTICLE	IF	CITATIONS
19	Cardiovascular Events During Differing Hypertension Therapies in Patients With Diabetes. Journal of the American College of Cardiology, 2010, 56, 77-85.	1.2	215
20	Ultrasound renal denervation for hypertension resistant to a triple medication pill (RADIANCE-HTN) Tj ETQq0 0 0 rgBT /Overlock 10 Tf 50	8.3	197
21	May Measurement Month 2018: a pragmatic global screening campaign to raise awareness of blood pressure by the International Society of Hypertension. European Heart Journal, 2019, 40, 2006-2017.	1.0	193
22	Effects of the Angiotensin Receptor Blocker Azilsartan Medoxomil Versus Olmesartan and Valsartan on Ambulatory and Clinic Blood Pressure in Patients With Stages 1 and 2 Hypertension. Hypertension, 2011, 57, 413-420.	1.3	192
23	Blood pressure and glycaemic effects of dapagliflozin versus placebo in patients with type 2 diabetes on combination antihypertensive therapy: a randomised, double-blind, placebo-controlled, phase 3 study. Lancet Diabetes and Endocrinology, the, 2016, 4, 211-220.	5.5	185
24	Divergent Results Using Clinic and Ambulatory Blood Pressures. Hypertension, 2010, 56, 824-830.	1.3	169
25	Safety and Efficacy of Low Blood Pressures Among Patients With Diabetes. Journal of the American College of Cardiology, 2012, 59, 74-83.	1.2	164
26	Combination therapy in hypertension. Journal of the American Society of Hypertension, 2010, 4, 90-98.	2.3	156
27	Blood pressure variability and risk of cardiovascular events and death in patients with hypertension and different baseline risks. European Heart Journal, 2018, 39, 2243-2251.	1.0	156
28	Outcomes in subgroups of hypertensive patients treated with regimens based on valsartan and amlodipine: an analysis of findings from the VALUE trial. Journal of Hypertension, 2006, 24, 2163-2168.	0.3	138
29	The Valsartan Antihypertensive Long-Term Use Evaluation (VALUE) Trial. Hypertension, 2006, 48, 385-391.	1.3	138
30	Evaluation of antihypertensive therapy with the combination of olmesartan medoxomil and hydrochlorothiazide. American Journal of Hypertension, 2004, 17, 252-259.	1.0	133
31	Effects of body size and hypertension treatments on cardiovascular event rates: subanalysis of the ACCOMPLISH randomised controlled trial. Lancet, The, 2013, 381, 537-545.	6.3	132
32	The SPYRAL HTN Global Clinical Trial Program: Rationale and design for studies of renal denervation in the absence (SPYRAL HTN OFF-MED) and presence (SPYRAL HTN ON-MED) of antihypertensive medications. American Heart Journal, 2016, 171, 82-91.	1.2	132
33	The circadian blood pressure pattern in ambulatory normal subjects. American Journal of Cardiology, 1984, 54, 115-119.	0.7	128
34	The Comparative Effects of Azilsartan Medoxomil and Olmesartan on Ambulatory and Clinic Blood Pressure. Journal of Clinical Hypertension, 2011, 13, 81-88.	1.0	127
35	ACCF/AHA 2011 Expert Consensus Document on Hypertension in the Elderly. Journal of the American Society of Hypertension, 2011, 5, 259-352.	2.3	125
36	Exceptional early blood pressure control rates: The ACCOMPLISH trial. Blood Pressure, 2007, 16, 80-86.	0.7	114

#	ARTICLE	IF	CITATIONS
37	Long-term efficacy and safety of renal denervation in the presence of antihypertensive drugs (SPYRAL) Tj ETQq1 1 0.784314 rgBT /Overlock 10 Tf 5	6.3	114
38	Lead-Induced Hypertension: Possible Role of Endothelial Factors. American Journal of Hypertension, 1993, 6, 723-729.	1.0	110
39	Contrasting clinical properties and exercise responses in obese and lean hypertensive patients. Journal of the American College of Cardiology, 2001, 37, 169-174.	1.2	107
40	Reduced blood pressure-lowering effect of catheter-based renal denervation in patients with isolated systolic hypertension: data from SYMPLICITY HTN-3 and the Global SYMPLICITY Registry. European Heart Journal, 2016, 38, ehw325.	1.0	104
41	The Role of the New \hat{I}^2 -Blockers in Treating Cardiovascular Disease. American Journal of Hypertension, 2005, 18, 169-176.	1.0	101
42	Rationale and design of the avoiding cardiovascular events through combination therapy in patients living with systolic hypertension (ACCOMPLISH) trial: the first randomized controlled trial to compare the clinical outcome effects of first-line combination therapies in hypertension. American Journal of Hypertension, 2004, 17, 793-801.	1.0	97
43	Six-Month Results of Treatment-Blinded Medication Titration for Hypertension Control After Randomization to Endovascular Ultrasound Renal Denervation or a Sham Procedure in the RADIANCE-HTN SOLO Trial. Circulation, 2019, 139, 2542-2553.	1.6	97
44	Changes in ventricular septal thickness during diuretic therapy. Clinical Pharmacology and Therapeutics, 1982, 32, 283-288.	2.3	96
45	Cardiovascular outcomes at different on-treatment blood pressures in the hypertensive patients of the VALUE trial. European Heart Journal, 2016, 37, 955-964.	1.0	95
46	Achieved diastolic blood pressure and pulse pressure at target systolic blood pressure (120 \hat{a} €“140) Tj ETQq0 0 0 rgBT /Overlock 10 Tf 5 trials. European Heart Journal, 2018, 39, 3105-3114.	1.0	92
47	Effects of dapagliflozin on blood pressure in hypertensive diabetic patients on renin \hat{a} €“angiotensin system blockade. Blood Pressure, 2016, 25, 93-103.	0.7	90
48	Rationale and Design for the Controlled ONset Verapamil INvestigation of Cardiovascular Endpoints (CONVINCE) Trial. Contemporary Clinical Trials, 1998, 19, 370-390.	2.0	88
49	Efficacy and Safety of Darusentan in Patients With Resistant Hypertension: Results From a Randomized, Double \hat{a} €“Blind, Placebo \hat{a} €“Controlled Dose \hat{a} €“Ranging Study. Journal of Clinical Hypertension, 2007, 9, 760-769.	1.0	88
50	Clinical Experience With the Angiotensin II Receptor Antagonist Losartan. American Journal of Hypertension, 1992, 5, 247S-251S.	1.0	85
51	\hat{I}^2 -Blockers and Cardiovascular Events in Patients With and Without Myocardial Infarction. Circulation: Cardiovascular Quality and Outcomes, 2014, 7, 872-881.	0.9	84
52	Nocturnal blood pressure measured by home devices. Journal of Hypertension, 2019, 37, 905-916.	0.3	84
53	Home blood pressure monitoring: methodology, clinical relevance and practical application: a 2021 position paper by the Working Group on Blood Pressure Monitoring and Cardiovascular Variability of the European Society of Hypertension. Journal of Hypertension, 2021, 39, 1742-1767.	0.3	82
54	Characterization of Antihypertensive Therapy by Whole-Day Blood Pressure Monitoring. JAMA - Journal of the American Medical Association, 1988, 259, 3281.	3.8	78

#	ARTICLE	IF	CITATIONS
55	Cardiac muscle mass during vasodilation therapy of hypertension. <i>Clinical Pharmacology and Therapeutics</i> , 1983, 33, 727-732.	2.3	74
56	Antihypertensive Efficacy of Hydrochlorothiazide vs Chlorthalidone Combined with Azilsartan Medoxomil. <i>American Journal of Medicine</i> , 2012, 125, 1229.e1-1229.e10.	0.6	71
57	Efficacy and safety of nebivolol and valsartan as fixed-dose combination in hypertension: a randomised, multicentre study. <i>Lancet, The</i> , 2014, 383, 1889-1898.	6.3	71
58	Ambulatory heart rate reduction after catheter-based renal denervation in hypertensive patients not receiving anti-hypertensive medications: data from SPYRAL HTN-OFF MED, a randomized, sham-controlled, proof-of-concept trial. <i>European Heart Journal</i> , 2019, 40, 743-751.	1.0	70
59	Baseline characteristics in the Avoiding Cardiovascular events through Combination therapy in Patients Living with Systolic Hypertension (ACCOMPLISH) trial: A hypertensive population at high cardiovascular risk. <i>Blood Pressure</i> , 2007, 16, 13-19.	0.7	65
60	The technical report on sodium intake and cardiovascular disease in low- and middle-income countries by the joint working group of the World Heart Federation, the European Society of Hypertension and the European Public Health Association. <i>European Heart Journal</i> , 2017, 38, ehw549.	1.0	65
61	Arterial compliance abnormalities in isolated systolic hypertension. <i>American Journal of Hypertension</i> , 2001, 14, 1007-1011.	1.0	64
62	A multinational clinical approach to assessing the effectiveness of catheter-based ultrasound renal denervation: The RADIANCE-HTN and REQUIRE clinical study designs. <i>American Heart Journal</i> , 2018, 195, 115-129.	1.2	64
63	Changes in Plasma Renin Activity After Renal Artery Sympathetic Denervation. <i>Journal of the American College of Cardiology</i> , 2021, 77, 2909-2919.	1.2	63
64	Emergence of Home Blood Pressure-Guided Management of Hypertension Based on Global Evidence. <i>Hypertension</i> , 2019, 74, 229-236.	1.3	62
65	Renal Denervation for Treating Hypertension. <i>JACC: Cardiovascular Interventions</i> , 2019, 12, 1095-1105.	1.1	61
66	Azilsartan Medoxomil Plus Chlorthalidone Reduces Blood Pressure More Effectively Than Olmesartan Plus Hydrochlorothiazide in Stage 2 Systolic Hypertension. <i>Hypertension</i> , 2012, 60, 310-318.	1.3	59
67	No evidence for a J-shaped curve in treated hypertensive patients with increased cardiovascular risk: The VALUE trial. <i>Blood Pressure</i> , 2016, 25, 83-92.	0.7	59
68	Disparate Patterns of Aldosterone Response During Diuretic Treatment of Hypertension. <i>Annals of Internal Medicine</i> , 1977, 87, 558.	2.0	58
69	Measuring the efficacy of antihypertensive therapy by ambulatory blood pressure monitoring in the primary care setting. <i>American Heart Journal</i> , 2006, 151, 176-184.	1.2	58
70	Systolic Blood Pressure and Cardiovascular Outcomes During Treatment of Hypertension. <i>American Journal of Medicine</i> , 2013, 126, 501-508.	0.6	56
71	Efficacy and Duration of Benazepril Plus Amlodipine or Hydrochlorothiazide on 24-Hour Ambulatory Systolic Blood Pressure Control. <i>Hypertension</i> , 2011, 57, 174-179.	1.3	55
72	Effect of antihypertensive monotherapy and combination therapy on arterial distensibility and left ventricular mass. <i>American Journal of Hypertension</i> , 2004, 17, 37-42.	1.0	54

#	ARTICLE	IF	CITATIONS
73	Systemic hemodynamic atherothrombotic syndrome (SHATS) – Coupling vascular disease and blood pressure variability: Proposed concept from pulse of Asia. <i>Progress in Cardiovascular Diseases</i> , 2020, 63, 22-32.	1.6	54
74	São Paulo call to action for the prevention and control of high blood pressure: 2020. <i>Journal of Clinical Hypertension</i> , 2019, 21, 1744-1752.	1.0	53
75	The REDUCE HTN: REINFORCE. <i>JACC: Cardiovascular Interventions</i> , 2020, 13, 461-470.	1.1	53
76	The 24-hour blood pressure pattern: does it have implications for morbidity and mortality?. <i>American Journal of Cardiology</i> , 2002, 89, 27-33.	0.7	51
77	The ALLHAT Report: A Case of Information and Misinformation. <i>Journal of Clinical Hypertension</i> , 2003, 5, 9-13.	1.0	49
