

John W Berketa

List of Publications by Citations

Source: <https://exaly.com/author-pdf/6474046/john-w-berketa-publications-by-citations.pdf>
Version: 2024-04-26

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.
The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

17 papers	140 citations	6 h-index	11 g-index
17 ext. papers	167 ext. citations	1.5 avg, IF	2.79 L-index

#	Paper	IF	Citations
17	Forensic odontology involvement in disaster victim identification. <i>Forensic Science, Medicine, and Pathology</i> , 2012 , 8, 148-56	1.5	33
16	Radiographic recognition of dental implants as an aid to identifying the deceased. <i>Journal of Forensic Sciences</i> , 2010 , 55, 66-70	1.8	25
15	Dental implant changes following incineration. <i>Forensic Science International</i> , 2011 , 207, 50-4	2.6	19
14	Disaster Victim Identification: quality management from an odontology perspective. <i>Forensic Science, Medicine, and Pathology</i> , 2012 , 8, 157-63	1.5	16
13	Maximizing postmortem oral-facial data to assist identification following severe incineration. <i>Forensic Science, Medicine, and Pathology</i> , 2014 , 10, 208-16	1.5	11
12	A study of osseointegrated dental implants following cremation. <i>Australian Dental Journal</i> , 2014 , 59, 149-55	2.3	9
11	The utilization of incinerated hip and knee prostheses for identification. <i>Forensic Science, Medicine, and Pathology</i> , 2015 , 11, 432-7	1.5	5
10	Use of a non-volatile agent to stabilize severely incinerated dental remains. <i>Forensic Science, Medicine, and Pathology</i> , 2015 , 11, 228-34	1.5	4
9	Locard's Principle of Exchange, Dental Examination and Fragments of Skin. <i>Journal of Forensic Sciences</i> , 2016 , 61, 545-547	1.8	4
8	Stabilisation of dental structures of severely incinerated victims at disaster scenes to facilitate human identification. <i>Journal of Clinical Forensic and Legal Medicine</i> , 2017 , 51, 45-49	1.7	3
7	A pilot study in the recovery and recognition of non-osseointegrated dental implants following cremation. <i>Journal of Forensic Odonto-Stomatology</i> , 2011 , 29, 38-44	0.4	3
6	Cochlear implants in the forensic identification process. <i>Forensic Science, Medicine, and Pathology</i> , 2013 , 9, 422-6	1.5	2
5	The utilization of a commercial gloss spray in stabilization of incinerated dental structures. <i>Journal of Clinical Forensic and Legal Medicine</i> , 2015 , 33, 76-9	1.7	2
4	A case of Jack Russel Terrier scavenging: Images and three dimensional models for forensic interpretation. <i>Journal of Clinical Forensic and Legal Medicine</i> , 2019 , 65, 105-107	1.7	1
3	Dentures in dementia: the oral health management of patients in institutional care. <i>Forensic Science, Medicine, and Pathology</i> , 2015 , 11, 630	1.5	1
2	The use of incinerated pig head in dental identification simulation. <i>Journal of Forensic Odonto-Stomatology</i> , 2015 , 33, 1-8	0.4	1
1	The use of gelling agents to preserve burnt teeth within the dental alveoli for dental human identification - a study utilising sheep mandibles. <i>Forensic Science, Medicine, and Pathology</i> , 2021 , 17, 72-77	1.5	1
