citing authors

#	ARTICLE	IF	CITATIONS
1	Live birth rates in different subgroups of poor ovarian responders according to Bologna and POSEIDON group classification criteria. <i>Journal of Gynecology Obstetrics and Human Reproduction</i> , 2021, 50, 102169.	0.6	1
2	Assisted conception as a potential prognostic factor predicting insulin therapy in pregnancies complicated by gestational diabetes mellitus. <i>Reproductive Biology and Endocrinology</i> , 2019, 17, 83.	1.4	9
3	The effect of weight loss program on serum anti-MÅ¼llerian hormone level in obese and overweight infertile women with polycystic ovary syndrome. <i>Gynecological Endocrinology</i> , 2019, 35, 119-123.	0.7	7
4	The impact of the localisation of endometriosis lesions on ovarian reserve and assisted reproduction techniques outcomes. <i>Journal of Obstetrics and Gynaecology</i> , 2019, 39, 91-97.	0.4	19
5	The incidence rate of unresponsive thin endometrium in frozen embryo transfer cycles: A case-series of therapy with granulocyte colony stimulating factor. <i>International Journal of Reproductive BioMedicine</i> , 2019, 17, 923-928.	0.5	6
6	Diagnostic Accuracy of Body Mass Index and Fasting Glucose for The Prediction of Gestational Diabetes Mellitus after Assisted Reproductive Technology. <i>International Journal of Fertility &amp; Sterility</i> , 2019, 13, 32-37.	0.2	5
7	The effect of intrauterine human chorionic gonadotropin flushing on live birth rate after vitrified-warmed embryo transfer in programmed cycles: a randomized clinical trial. <i>Archives of Gynecology and Obstetrics</i> , 2018, 297, 1571-1576.	0.8	9
8	Comparison of the symptoms and localisation of endometriosis involvement according to fertility status of endometriosis patients. <i>Journal of Obstetrics and Gynaecology</i> , 2018, 38, 536-542.	0.4	8
9	The effects of superovulation with gonadotropins on autoantibody levels in patients undergoing assisted reproductive cycles. <i>Archives of Gynecology and Obstetrics</i> , 2018, 298, 183-189.	0.8	0
10	Does the "delayed start" protocol with gonadotropin-releasing hormone antagonist improve the pregnancy outcome in Bologna poor responders? a randomized clinical trial. <i>Reproductive Biology and Endocrinology</i> , 2018, 16, 124.	1.4	14
11	Obstetric and perinatal outcomes of singleton pregnancies conceived via assisted reproductive technology complicated by gestational diabetes mellitus: a prospective cohort study. <i>BMC Pregnancy and Childbirth</i> , 2018, 18, 495.	0.9	35
12	Predictive factors of gestational diabetes in pregnancies following assisted reproductive technology: a nested case-control study. <i>Archives of Gynecology and Obstetrics</i> , 2018, 298, 199-206.	0.8	21
13	Accuracy of Two-Dimensional Transvaginal Sonography and Office Hysteroscopy for Detection of Uterine Abnormalities in Patients with Repeated Implantation Failures or Recurrent Pregnancy Loss. <i>International Journal of Fertility &amp; Sterility</i> , 2018, 11, 287-292.	0.2	3
14	The role of conception type in the definition of primary and secondary infertility. <i>International Journal of Reproductive BioMedicine</i> , 2018, 16, 355-356.	0.5	2
15	The effect of endometrial scratch injury on pregnancy outcome in women with previous intrauterine insemination failure: A randomized clinical trial. <i>Journal of Obstetrics and Gynaecology Research</i> , 2017, 43, 1421-1427.	0.6	17
16	Predictive values of anti-MÅ¼llerian hormone, antral follicle count and ovarian response prediction index (ORPI) for assisted reproductive technology outcomes. <i>Journal of Obstetrics and Gynaecology</i> , 2017, 37, 82-88.	0.4	17
17	Oxidative Stress Statues in Serum and Follicular Fluid of Women with Endometriosis. <i>Cell Journal</i> , 2017, 18, 582-587.	0.2	43
18	Gestational Diabetes Mellitus and Metabolic Disorder Among the Different Phenotypes of Polycystic Ovary Syndrome. <i>Oman Medical Journal</i> , 2017, 32, 214-220.	0.3	15

#	ARTICLE	IF	CITATIONS
19	The Relationship Between the MTHFR C677T Genotypes to Serum Anti-Müllerian Hormone Concentrations and In Vitro Fertilization/Intracytoplasmic Sperm Injection Outcome. <i>Clinical Laboratory</i> , 2017, 63, 927-934.	0.2	7
20	Factors that Influence The Occurrence of Multiple Pregnancies after Intracytoplasmic Injection Cycles with Two or Three Fresh Embryo Transfers. <i>International Journal of Fertility &amp; Sterility</i> , 2017, 11, 191-196.	0.2	0
21	Hysteroscopic polypectomy without cycle cancellation in IVF/ICSI cycles: a cross-sectional study. <i>European Journal of Obstetrics, Gynecology and Reproductive Biology</i> , 2016, 205, 37-42.	0.5	20
22	Assisted reproductive outcomes in women with different polycystic ovary syndrome phenotypes: the predictive value of anti-Müllerian hormone. <i>Reproductive BioMedicine Online</i> , 2016, 32, 503-512.	1.1	48
23	Relationships between Serum Luteinizing Hormone Level, Endometrial Thickness and Body Mass Index in Polycystic Ovary Syndrome Patients with and without Endometrial Hyperplasia. <i>International Journal of Fertility &amp; Sterility</i> , 2016, 10, 36-41.	0.2	3
24	Effect of oocyte dysmorphisms on intracytoplasmic sperm injection cycle outcomes in normal ovarian responders. <i>Journal of Obstetrics and Gynaecology Research</i> , 2015, 41, 1912-1920.	0.6	23
25	A Rare Case of Primary Amenorrhea with Two Etiologies, Hypothalamic Amenorrhea, Transverse Vaginal Septum, and No Hematocolpos. <i>Case Reports in Obstetrics and Gynecology</i> , 2015, 2015, 1-3.	0.2	1
26	Zygote intrafallopian tube transfer versus intrauterine cleavage or blastocyst stage transfer after intracytoplasmic sperm injection cycles in patients with repeated implantation failure: A prospective follow-up study. <i>Journal of Obstetrics and Gynaecology Research</i> , 2015, 41, 1779-1784.	0.6	5
27	Predictive factors of early moderate/severe ovarian hyperstimulation syndrome in non-polycystic ovarian syndrome patients: a statistical model. <i>Archives of Gynecology and Obstetrics</i> , 2015, 292, 1145-1152.	0.8	22
28	Abdominal obesity can induce both systemic and follicular fluid oxidative stress independent from polycystic ovary syndrome. <i>European Journal of Obstetrics, Gynecology and Reproductive Biology</i> , 2015, 184, 112-116.	0.5	44
29	Increasing The Number of Embryos Transferred from Two to Three, Does not Increase Pregnancy Rates in Good Prognosis Patients. <i>International Journal of Fertility &amp; Sterility</i> , 2015, 9, 292-9.	0.2	2
30	Behavioral Intervention Program versus Vaginal Cones on Stress Urinary Incontinence and Related Quality of Life: A Randomized Clinical Trial. <i>Oman Medical Journal</i> , 2014, 29, 32-38.	0.3	8
31	Gestational diabetes mellitus risk factors in women with polycystic ovary syndrome (PCOS). <i>European Journal of Obstetrics, Gynecology and Reproductive Biology</i> , 2014, 181, 195-199.	0.5	44
32	Risk factors for recurrence rate of ovarian endometriomas following a laparoscopic cystectomy. <i>Minerva Medica</i> , 2014, 105, 295-301.	0.3	6
33	Assisted reproductive technique outcomes in hypogonadotropic hypogonadism women. <i>Annals of Saudi Medicine</i> , 2013, 33, 235-240.	0.5	16
34	The role of infertility etiology in success rate of intrauterine insemination cycles: an evaluation of predictive factors for pregnancy rate. <i>International Journal of Fertility &amp; Sterility</i> , 2013, 7, 100-7.	0.2	14
35	Comparison of cabergoline and intravenous albumin in the prevention of ovarian hyperstimulation syndrome: a randomized clinical trial. <i>Journal of Assisted Reproduction and Genetics</i> , 2012, 29, 259-264.	1.2	34
36	Comparison of Intracytoplasmic Sperm Injection Outcomes between Oligozoospermic, Obstructive Azoospermic and Non-Obstructive Azoospermic Patients. <i>International Journal of Fertility &amp; Sterility</i> , 2012, 6, 13-8.	0.2	3

#	ARTICLE	IF	CITATIONS
37	A possible role for familial thrombophilia in women with polycystic ovarian syndrome. Gynecological Endocrinology, 2011, 27, 80-85.	0.7	6
