

Tullio de Rubeis

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/6480317/tullio-de-rubeis-publications-by-year.pdf>

Version: 2024-04-25

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
36	3D-Printed Blocks: Thermal Performance Analysis and Opportunities for Insulating Materials. <i>Sustainability</i> , 2022 , 14, 1077	3.6	0
35	On the influence of environmental boundary conditions on surface thermal resistance of walls: Experimental evaluation through a Guarded Hot Box. <i>Case Studies in Thermal Engineering</i> , 2022 , 34, 101915	5.6	1
34	Energy optimization analysis of archetype public buildings [Results from SHERPA European Project. <i>E3S Web of Conferences</i> , 2021 , 312, 02007	0.5	
33	Influence of environmental boundary conditions on convective heat transfer coefficients of wall internal surface. <i>E3S Web of Conferences</i> , 2021 , 312, 02012	0.5	
32	Preliminary analysis of the influence of environmental boundary conditions on convective heat transfer coefficients. <i>Journal of Physics: Conference Series</i> , 2021 , 1868, 012024	0.3	4
31	Building energy performance analysis at urban scale: A supporting tool for energy strategies and urban building energy rating identification. <i>Sustainable Cities and Society</i> , 2021 , 74, 103220	10.1	3
30	Learning lighting models for optimal control of lighting system via experimental and numerical approach. <i>Science and Technology for the Built Environment</i> , 2020 , 1-13	1.8	
29	Sensitivity of heating performance of an energy self-sufficient building to climate zone, climate change and HVAC system solutions. <i>Sustainable Cities and Society</i> , 2020 , 61, 102300	10.1	16
28	On Field Infrared Thermography Sensing for PV System Efficiency Assessment: Results and Comparison with Electrical Models. <i>Sensors</i> , 2020 , 20,	3.8	7
27	The restoration of severely damaged churches [Implications and opportunities on cultural heritage conservation, thermal comfort and energy efficiency. <i>Journal of Cultural Heritage</i> , 2020 , 43, 186-203	2.9	20
26	Spice Model of Photovoltaic Panel for Electronic System Design. <i>Lecture Notes in Electrical Engineering</i> , 2020 , 425-431	0.2	0
25	Structural Health Monitoring: An IoT Sensor System for Structural Damage Indicator Evaluation. <i>Sensors</i> , 2020 , 20,	3.8	16
24	A Cost-Effective System for Aerial 3D Thermography of Buildings. <i>Journal of Imaging</i> , 2020 , 6,	3.1	7
23	Sensor monitoring system for PV plant with active load 2019 ,		1
22	Integrated Measuring and Control System for Thermal Analysis of Buildings Components in Hot Box Experiments. <i>Energies</i> , 2019 , 12, 2053	3.1	8
21	The Potential of Optical Profilometry in the Study of Cultural Stone Weathering. <i>Journal of Imaging</i> , 2019 , 5,	3.1	1
20	Structural health continuous monitoring of buildings [A modal parameters identification system 2019 ,		1

19	A New Simplified Five-Parameter Estimation Method for Single-Diode Model of Photovoltaic Panels. <i>Energies</i> , 2019 , 12, 4271	3.1	21
18	Effects of energy efficiency measures on building performance: an analysis in seven European cities. <i>IOP Conference Series: Materials Science and Engineering</i> , 2019 , 609, 072076	0.4	1
17	Influence of insulation defects on the thermal performance of walls. An experimental and numerical investigation. <i>Journal of Building Engineering</i> , 2019 , 21, 355-365	5.2	5
16	Is a self-sufficient building energy efficient? Lesson learned from a case study in Mediterranean climate. <i>Applied Energy</i> , 2018 , 218, 131-145	10.7	22
15	Data-driven model predictive control using random forests for building energy optimization and climate control. <i>Applied Energy</i> , 2018 , 226, 1252-1272	10.7	126
14	Room and window geometry influence for daylight harvesting maximization [Effects on energy savings in an academic classroom. <i>Energy Procedia</i> , 2018 , 148, 1090-1097	2.3	23
13	Quantification of heat energy losses through the building envelope: A state-of-the-art analysis with critical and comprehensive review on infrared thermography. <i>Building and Environment</i> , 2018 , 146, 190-205	6.5	83
12	The energy efficiency challenge for a historical building undergone to seismic and energy refurbishment. <i>Energy Procedia</i> , 2017 , 133, 231-242	2.3	19
11	A proposal of a new material for greenhouses on the basis of numerical, optical, thermal and mechanical approaches. <i>Construction and Building Materials</i> , 2017 , 155, 332-347	6.7	12
10	A first approach to universal daylight and occupancy control system for any lamps: Simulated case in an academic classroom. <i>Energy and Buildings</i> , 2017 , 152, 24-39	7	28
9	Development of a low-cost temperature data monitoring. An upgrade for hot box apparatus. <i>Journal of Physics: Conference Series</i> , 2017 , 923, 012039	0.3	11
8	Energetic performance analysis of a commercial water-based photovoltaic thermal system (PV/T) under summer conditions. <i>Journal of Physics: Conference Series</i> , 2017 , 923, 012040	0.3	5
7	Digital Multi-Probe Temperature Monitoring System for Long-Term on Field Measurements. <i>Proceedings (mdpi)</i> , 2017 , 1, 596	0.3	2
6	U-value assessment by infrared thermography: A comparison of different calculation methods in a Guarded Hot Box. <i>Energy and Buildings</i> , 2016 , 122, 211-221	7	62
5	Modeling and Optimization of the Thermal Performance of a Wood-Cement Block in a Low-Energy House Construction. <i>Energies</i> , 2016 , 9, 677	3.1	10
4	Ageing Effects on the Thermal Performance of Two Different Well-insulated Buildings. <i>Energy Procedia</i> , 2016 , 101, 1050-1057	2.3	7
3	Multi-year consumption analysis and innovative energy perspectives: The case study of Leonardo da Vinci International Airport of Rome. <i>Energy Conversion and Management</i> , 2016 , 128, 261-272	10.6	24
2	A comparison between thermographic and flow-meter methods for the evaluation of thermal transmittance of different wall constructions. <i>Journal of Physics: Conference Series</i> , 2015 , 655, 012007	0.3	29

- 1 Validation of quantitative IR thermography for estimating the U-value by a hot box apparatus. 0.3 10
Journal of Physics: Conference Series, **2015**, 655, 012006
