#	ARTICLE	IF	CITATIONS
1	Five-factor inventories have a major general factor related to social desirability which can be reduced by framing items neutrally. <i>Journal of Research in Personality</i> , 2009, 43, 335-344.	1.7	285
2	Structural Modeling of Generalized Prejudice. <i>Journal of Individual Differences</i> , 2007, 28, 10-17.	1.0	144
3	Will I Fit in and Do Well? The Importance of Social Belongingness and Self-Efficacy for Explaining Gender Differences in Interest in STEM and HEED Majors. <i>Sex Roles</i> , 2017, 77, 86-96.	2.4	141
4	S100 β after coronary artery surgery: release pattern, source of contamination, and relation to neuropsychological outcome. <i>Annals of Thoracic Surgery</i> , 1999, 68, 2202-2208.	1.3	140
5	Emotional reactions, perceived impact and perceived responsibility mediate the identifiable victim effect, proportion dominance effect and in-group effect respectively. <i>Organizational Behavior and Human Decision Processes</i> , 2015, 127, 1-14.	2.5	120
6	The Effect of Response Style on Self-Reported Conscientiousness Across 20 Countries. <i>Personality and Social Psychology Bulletin</i> , 2012, 38, 1423-1436.	3.0	71
7	Factors contributing to the perpetration of workplace incivility: the importance of organizational aspects and experiencing incivility from others. <i>Work and Stress</i> , 2016, 30, 115-131.	4.5	69
8	Personality traits and general intelligence as predictors of academic performance: A structural equation modelling approach. <i>Learning and Individual Differences</i> , 2011, 21, 590-596.	2.7	64
9	Higher-Order Factors in a Five-Factor Personality Inventory and its Relation to Social Desirability. <i>European Journal of Psychological Assessment</i> , 2007, 23, 63-70.	3.0	64
10	Individual differences in processing styles: validity of the Rational-Experiential Inventory. <i>Scandinavian Journal of Psychology</i> , 2008, 49, 439-446.	1.5	51
11	Models of Workplace Incivility: The Relationships to Instigated Incivility and Negative Outcomes. <i>BioMed Research International</i> , 2015, 2015, 1-10.	1.9	47
12	A model of subjective quality of life for outpatients with schizophrenia and other psychoses. <i>Quality of Life Research</i> , 2005, 14, 1157-1168.	3.1	42
13	Consequences of cyberbullying behaviour in working life. <i>International Journal of Workplace Health Management</i> , 2017, 10, 376-390.	1.9	41
14	The role of ability beliefs and agentic vs. communal career goals in adolescents' first educational choice. What explains the degree of gender-balance?. <i>Journal of Vocational Behavior</i> , 2018, 104, 1-13.	3.4	41
15	Social desirability in personality inventories: Symptoms, diagnosis and prescribed cure. <i>Scandinavian Journal of Psychology</i> , 2013, 54, 152-159.	1.5	40
16	Comparability of Self-Reported Conscientiousness across 21 Countries. <i>European Journal of Personality</i> , 2012, 26, 303-317.	3.1	38
17	Increased S100B in blood after cardiac surgery is a powerful predictor of late mortality. <i>Annals of Thoracic Surgery</i> , 2003, 75, 162-168.	1.3	36
18	In the eye of both patient and spouse: memory is poor 1 to 2 years after coronary bypass and angioplasty. <i>Annals of Thoracic Surgery</i> , 2002, 74, 689-693.	1.3	35

#	ARTICLE	IF	CITATIONS
19	Prediction of psychiatric comorbidity on premature death in a cohort of patients with substance use disorders: a 42-year follow-up. <i>BMC Psychiatry</i> , 2019, 19, 150.	2.6	34
20	The perception of the poor: Capturing stereotype content with different measures. <i>Nordic Psychology</i> , 2017, 69, 231-247.	0.8	33
21	Vulnerable adolescent participants'™ experience in surveys on sexuality and sexual abuse: Ethical aspects. <i>Child Abuse and Neglect</i> , 2010, 34, 438-447.	2.6	30
22	Perceived Utility (not Sympathy) Mediates the Proportion Dominance Effect in Helping Decisions. <i>Journal of Behavioral Decision Making</i> , 2014, 27, 37-47.	1.7	29
23	The Role of Perceived Control for the Perception of Health by Patients with Persistent Mental Illness. <i>Scandinavian Journal of Occupational Therapy</i> , 2006, 13, 249-256.	1.7	27
24	Criterion Validity is Maintained When Items Are Evaluatively Neutralized: Evidence from A Full'™Scale Five'™Factor Model Inventory. <i>European Journal of Personality</i> , 2014, 28, 620-633.	3.1	25
25	Who do you think you are? - Personality in eating disordered patients. <i>Journal of Eating Disorders</i> , 2015, 3, 3.	2.7	25
26	Psychometric evaluation of the Swedish version of Rosenberg'™s self-esteem scale. <i>Nordic Journal of Psychiatry</i> , 2018, 72, 318-324.	1.3	25
27	The unique contribution of learning approaches to academic performance, after controlling for IQ and personality: Are there gender differences?. <i>Learning and Individual Differences</i> , 2012, 22, 820-826.	2.7	24
28	Psychometric properties and factor structure of the 13-item satisfaction with daily occupations scale when used with people with mental health problems. <i>Health and Quality of Life Outcomes</i> , 2014, 12, 191.	2.4	24
29	Personality traits measured at baseline can predict academic performance in upper secondary school three years later. <i>Scandinavian Journal of Psychology</i> , 2014, 55, 611-618.	1.5	24
30	What makes authoritarian and socially dominant people more positive to using torture in the war on terrorism?. <i>Personality and Individual Differences</i> , 2016, 91, 98-101.	2.9	24
31	Is the general factor of personality based on evaluative responding? Experimental manipulation of item-popularity in personality inventories. <i>Personality and Individual Differences</i> , 2016, 96, 31-35.	2.9	22
32	Social Desirability in Personality Inventories. <i>Journal of Individual Differences</i> , 2014, 35, 144-157.	1.0	22
33	The Measures of Criminal Attitudes and Associates (MCAA). <i>Criminal Justice and Behavior</i> , 2008, 35, 1398-1410.	1.8	21
34	Trait anxiety, working memory capacity, and the effectiveness of memory suppression. <i>Scandinavian Journal of Psychology</i> , 2011, 52, 21-27.	1.5	19
35	Right-wing authoritarianism is a risk factor of torture-like abuse, but so is social dominance orientation. <i>Personality and Individual Differences</i> , 2012, 53, 927-929.	2.9	19
36	Exploring Nonverbal Behaviors in Elite Handball: How and When Do Players Celebrate?. <i>Journal of Applied Sport Psychology</i> , 2015, 27, 94-109.	2.3	19

#	ARTICLE	IF	CITATIONS
37	The interaction between baseline trait anxiety and trauma exposure as predictor of post-trauma symptoms of anxiety and insomnia. <i>Scandinavian Journal of Psychology</i> , 2008, 49, 447-450.	1.5	16
38	How a terror attack affects right-wing authoritarianism, social dominance orientation, and their relationship to torture attitudes. <i>Scandinavian Journal of Psychology</i> , 2018, 59, 547-552.	1.5	16
39	A Structural Validation of an Inventory Based on the Abridged Five Factor Circumplex Model (AB5C). <i>Journal of Personality Assessment</i> , 2009, 91, 462-472.	2.1	15
40	Company Norms Affect Which Traits are Preferred in Job Candidates and May Cause Employment Discrimination. <i>Journal of Psychology: Interdisciplinary and Applied</i> , 2012, 146, 579-594.	1.6	14
41	Self-control depletion impairs goal maintenance: A meta-analysis. <i>Scandinavian Journal of Psychology</i> , 2017, 58, 284-293.	1.5	14
42	Exploring mediators of the recovery process over time among mental health service users, using a mixed model regression analysis based on cluster RCT data. <i>BMC Psychiatry</i> , 2020, 20, 520.	2.6	14
43	Daily activities mediate the relationship between personality and quality of life in middle-aged women. <i>Quality of Life Research</i> , 2010, 19, 1477-1486.	3.1	13
44	Nonverbal post-shot celebrations and their relationship with performance in elite handball. <i>International Journal of Sport and Exercise Psychology</i> , 2018, 16, 235-249.	2.1	10
45	Confirmatory factor analysis of the Evidence-Based Practice Attitude Scale (EBPAS) in a large and representative Swedish sample: is the use of the total scale and subscale scores justified?. <i>BMC Medical Research Methodology</i> , 2020, 20, 254.	3.1	10
46	Longitudinal Outcomes of Witnessed Workplace Incivility: a Three-Wave Full Panel Study Exploring Mediators and Moderators. <i>Occupational Health Science</i> , 2021, 5, 189-216.	1.6	10
47	Hard fact or illusion? An investigation on momentum in female elite handball from a team perspective. <i>International Journal of Sport and Exercise Psychology</i> , 2014, 12, 106-120.	2.1	8
48	Factor Structure and Construct Validity of the Worker Role Self-Assessment (WRS) When Used for People With Psychiatric Disabilities in Sweden. <i>Evaluation and the Health Professions</i> , 2016, 39, 299-316.	1.9	8
49	Tools for fairness: Increased structure in the selection process reduces discrimination. <i>PLoS ONE</i> , 2017, 12, e0189512.	2.5	8
50	Protein S100B after cardiac surgery: An indicator of long-term anxiety?. <i>Scandinavian Cardiovascular Journal</i> , 2007, 41, 109-113.	1.2	7
51	The stability of alexithymia during work in a high-stress environment: A prospective study of Swedish peacekeepers serving in Kosovo. <i>Scandinavian Journal of Psychology</i> , 2010, 51, 350-5.	1.5	7
52	The impact of social influence on physical activity among adolescents – a longitudinal study. <i>European Journal of Sport Science</i> , 2013, 13, 86-95.	2.7	7
53	The Properties and Utility of Less Evaluative Personality Scales: Reduction of Social Desirability; Increase of Construct and Discriminant Validity. <i>Frontiers in Psychology</i> , 2020, 11, 560271.	2.1	7
54	Applicant Ethnicity Affects Which Questions Are Asked in a Job Interview. <i>Journal of Personnel Psychology</i> , 2018, 17, 66-74.	1.4	7

#	ARTICLE	IF	CITATIONS
55	Social influence in relation to current and intended physical activity among adolescents. <i>European Journal of Sport Science</i> , 2011, 11, 259-267.	2.7	5
56	A latent core of dark traits explains individual differences in peacekeepers' unethical attitudes and conduct. <i>Military Psychology</i> , 2019, 31, 499-509.	1.1	4
57	Bidirectional Correction in Social Judgments: How a Cue to the Risk of Bias Causes More Favorable Ratings of Some Groups But Less Favorable of Others. <i>Journal of Social Psychology</i> , 2013, 153, 131-148.	1.5	3
58	Is Reliability Compromised Towards the End of Long Personality Inventories?. <i>European Journal of Psychological Assessment</i> , 2019, 35, 14-21.	3.0	3
59	Validity of the Brief Child and Family Phone Interview by comparison with Longitudinal Expert All Data diagnoses in outpatients. <i>Scandinavian Journal of Child and Adolescent Psychiatry and Psychology</i> , 2018, 6, 83-90.	0.6	3
60	Increasing systematicity leads to better selection decisions: Evidence from a computer paradigm for evaluating selection tools. <i>PLoS ONE</i> , 2017, 12, e0178276.	2.5	2
61	Commentary on Demetriou et al. (2018): Methodological and Theoretical Considerations. <i>Journal of Intelligence</i> , 2018, 6, 53.	2.5	2
62	Five-Factor Personality Inventories Have a Competence-Related Higher-Order Factor Due to Item Phrasing. <i>Frontiers in Psychology</i> , 2020, 11, 557544.	2.1	2
63	Socially Desirable Responding in Experience Sampling. <i>Journal of Individual Differences</i> , 2021, 42, 157-166.	1.0	2
64	Investigating a Computerised Test of the Stroop Effect Extended by Inclusion of a Third, More Difficult Task. <i>Perceptual and Motor Skills</i> , 2007, 104, 445-458.	1.3	1
65	Is the General Factor of Personality Really Related to Frequency of Agreeable, Conscientious, Emotionally Stable, Extraverted, and Open Behavior?. <i>Journal of Individual Differences</i> , 0, , 1-8.	1.0	1
66	Accounting for the evaluative factor in self-ratings provides a more accurate estimate of the relationship between personality traits and well-being. <i>Journal of Research in Personality</i> , 2021, 93, 104120.	1.7	1
67	How do Swedish day center attendees with psychiatric disabilities view their worker role? A structural equation modeling study. <i>Scandinavian Journal of Occupational Therapy</i> , 2018, 25, 203-212.	1.7	1
68	In-Group Ratings Are Affected by Who Asks and How: Interactive Effects of Experimenter Group-Membership and Response Format. <i>Journal of Social Psychology</i> , 2011, 151, 625-634.	1.5	0
69	Judgments of warmth and competence in a computerized paradigm: Little evidence of proposed impression formation asymmetries. <i>PLoS ONE</i> , 2017, 12, e0175210.	2.5	0
