#	ARTICLE	IF	CITATIONS
1	Online synchronous focus group interviews: Practical considerations. <i>Qualitative Research</i> , 2023, 23, 1810-1820.	2.2	12
2	Direct Access for Patients to Diagnostic Testing and Results Using eHealth: Systematic Review on eHealth and Diagnostics. <i>Journal of Medical Internet Research</i> , 2022, 24, e29303.	2.1	13
3	Digital Education for Health Professionals: An Evidence Map, Conceptual Framework, and Research Agenda. <i>Journal of Medical Internet Research</i> , 2022, 24, e31977.	2.1	21
4	Mapping low-resource contexts to prepare for lung health interventions in four countries (FRESH) Tj ETQq0 0 0 rgBTJ /Overlock 10 Tf 50	2.9	7
5	Reducing Inappropriate Urinary Catheter Use by Involving Patients Through the Participatient App: Before-and-After Study. <i>JMIR Formative Research</i> , 2022, 6, e28983.	0.7	1
6	Prioritising primary care respiratory research needs: results from the 2020 International Primary Care Respiratory Group (IPCRG) global e-Delphi exercise. <i>Npj Primary Care Respiratory Medicine</i> , 2022, 32, 6.	1.1	9
7	Clarifying responsibility: professional digital health in the doctor-patient relationship, recommendations for physicians based on a multi-stakeholder dialogue in the Netherlands. <i>BMC Health Services Research</i> , 2022, 22, 129.	0.9	7
8	Impact of a Machine Learning-Based Decision Support System for Urinary Tract Infections: Prospective Observational Study in 36 Primary Care Practices. <i>JMIR Medical Informatics</i> , 2022, 10, e27795.	1.3	3
9	A Preoperative Virtual Reality App for Patients Scheduled for Cardiac Catheterization: Pre-Post Questionnaire Study Examining Feasibility, Usability, and Acceptability. <i>JMIR Cardio</i> , 2022, 6, e29473.	0.7	8
10	Smoking cessation strategy in the national cervical cancer screening program (SUCCESS): study protocol for a pragmatic cluster randomised trial and process evaluation in Dutch general practice. <i>BMJ Open</i> , 2022, 12, e055812.	0.8	0
11	Stop smoking advice by practice assistants after routine cervical screening in general practice: A qualitative exploration of potential barriers and enablers. <i>European Journal of General Practice</i> , 2022, 28, 56-65.	0.9	0
12	Outcomes, Measurement Instruments, and Their Validity Evidence in Randomized Controlled Trials on Virtual, Augmented, and Mixed Reality in Undergraduate Medical Education: Systematic Mapping Review. <i>JMIR Serious Games</i> , 2022, 10, e29594.	1.7	12
13	Beliefs, Perceptions, and Behaviors Regarding Chronic Respiratory Diseases of Roma in Crete, Greece: A Qualitative FRESH AIR Study. <i>Frontiers in Public Health</i> , 2022, 10, 812700.	1.3	3
14	A Pharmacy-Based eHealth Intervention Promoting Correct Use of Medication in Patients With Asthma and COPD: Nonrandomized Pre-Post Study. <i>Journal of Medical Internet Research</i> , 2022, 24, e32396.	2.1	11
15	Medication availability and economic barriers to adherence in asthma and COPD patients in low-resource settings. <i>Npj Primary Care Respiratory Medicine</i> , 2022, 32, .	1.1	10
16	<scp>REducing</scp> delay through <scp>edUcation</scp> on <scp>eXacerbations</scp> for people with chronic lung disease: Study protocol of a single-arm pre-post study. <i>Journal of Advanced Nursing</i> , 2022, 78, 2656-2663.	1.5	2
17	COVID-box Experiences of Patients and Health Care Professionals (COVID-box Project): Single-Center, Retrospective, Observational Study. <i>JMIR Formative Research</i> , 2022, 6, e38263.	0.7	4
18	Development of a Quality Management Model and Self-assessment Questionnaire for Hybrid Health Care: Concept Mapping Study. <i>JMIR Formative Research</i> , 2022, 6, e38683.	0.7	1

#	ARTICLE	IF	CITATIONS
19	Facilitators and barriers to the implementation of improved solid fuel cookstoves and clean fuels in low-income and middle-income countries: an umbrella review. <i>Lancet Planetary Health</i> , The, 2022, 6, e601-e612.	5.1	11
20	eHealth Interventions for Dutch Cancer Care: Systematic Review Using the Triple Aim Lens. <i>JMIR Cancer</i> , 2022, 8, e37093.	0.9	5
21	Digital tools/eHealth to support CKD self-management: A qualitative study of perceptions, attitudes and needs of patients and health care professionals in China. <i>International Journal of Medical Informatics</i> , 2022, 165, 104811.	1.6	4
22	Developing a Smartphone Application That Promotes Responsible Short-Acting Beta2-Agonist Use in People with Asthma: A Participatory Design. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 8496.	1.2	5
23	ARIA digital anamorphosis: Digital transformation of health and care in airway diseases from research to practice. <i>Allergy: European Journal of Allergy and Clinical Immunology</i> , 2021, 76, 168-190.	2.7	46
24	Cabbage and fermented vegetables: From death rate heterogeneity in countries to candidates for mitigation strategies of severe COVID-19. <i>Allergy: European Journal of Allergy and Clinical Immunology</i> , 2021, 76, 735-750.	2.7	83
25	Gaps in COPD Guidelines of Low- and Middle-Income Countries. <i>Chest</i> , 2021, 159, 575-584.	0.4	41
26	Lacking willpower? A latent class analysis of healthcare providers' perceptions of smokers' responsibility for smoking. <i>Patient Education and Counseling</i> , 2021, 104, 620-626.	1.0	5
27	The successes and lessons of a Dutch University Hospitals' eHealth program: An evaluation study protocol. <i>Clinical EHealth</i> , 2021, 4, 30-36.	4.1	1
28	Systematic development of an mHealth app to prevent healthcare-associated infections by involving patients: 'Participatient'. <i>Clinical EHealth</i> , 2021, 4, 37-44.	4.1	6
29	Optimal patient protocols in regional acute stroke care. <i>Health Care Management Science</i> , 2021, 24, 515-530.	1.5	4
30	Are smokers protected against SARS-CoV-2 infection (COVID-19)? The origins of the myth. <i>Npj Primary Care Respiratory Medicine</i> , 2021, 31, 10.	1.1	51
31	The Computer Will See You Now: Overcoming Barriers to Adoption of Computer-Assisted History Taking (CAHT) in Primary Care. <i>Journal of Medical Internet Research</i> , 2021, 23, e19306.	2.1	7
32	A multi-stakeholder approach to eHealth development: Promoting sustained healthy living among cardiovascular patients. <i>International Journal of Medical Informatics</i> , 2021, 147, 104364.	1.6	24
33	eHealth Program to Reduce Hospitalizations Due to Acute Exacerbation of Chronic Obstructive Pulmonary Disease: Retrospective Study. <i>JMIR Formative Research</i> , 2021, 5, e24726.	0.7	5
34	Patients' and healthcare professionals' beliefs, perceptions and needs towards chronic kidney disease self-management in China: a qualitative study. <i>BMJ Open</i> , 2021, 11, e044059.	0.8	8
35	Provision of Palliative Care in Patients with COPD: A Survey Among Pulmonologists and General Practitioners. <i>International Journal of COPD</i> , 2021, Volume 16, 783-794.	0.9	7
36	Online Tool for the Assessment of the Burden of COVID-19 in Patients: Development Study. <i>JMIR Formative Research</i> , 2021, 5, e22603.	0.7	2

#	ARTICLE	IF	CITATIONS
37	A Smartphone App for Engaging Patients With Catheter-Associated Urinary Tract Infections: Protocol for an Interrupted Time-Series Analysis. <i>JMIR Research Protocols</i> , 2021, 10, e28314.	0.5	1
38	Blended Self-Management Interventions to Reduce Disease Burden in Patients With Chronic Obstructive Pulmonary Disease and Asthma: Systematic Review and Meta-analysis. <i>Journal of Medical Internet Research</i> , 2021, 23, e24602.	2.1	22
39	The impact of the involvement of a healthcare professional on the usage of an eHealth platform: a retrospective observational COPD study. <i>Respiratory Research</i> , 2021, 22, 88.	1.4	12
40	Home monitoring reduced short stay admissions in suspected COVID-19 patients: COVID-box project. <i>European Respiratory Journal</i> , 2021, 58, 2100636.	3.1	33
41	The Challenge of Integrating eHealth Into Health Care: Systematic Literature Review of the Donabedian Model of Structure, Process, and Outcome. <i>Journal of Medical Internet Research</i> , 2021, 23, e27180.	2.1	56
42	The referral of patients to smoking cessation counselling: perceptions and experiences of healthcare providers in general practice. <i>BMC Health Services Research</i> , 2021, 21, 583.	0.9	5
43	eHealth for the prevention of healthcare-associated infections: a scoping review. <i>Journal of Hospital Infection</i> , 2021, 113, 96-103.	1.4	9
44	“At least someone thinks I’m doing well” a real-world evaluation of the quit-smoking app StopCoach for lower socio-economic status smokers. <i>Addiction Science &amp; Clinical Practice</i> , 2021, 16, 48.	1.2	10
45	Digital Health Training Programs for Medical Students: Scoping Review. <i>JMIR Medical Education</i> , 2021, 7, e28275.	1.2	34
46	Attitudes Toward Health, Healthcare, and eHealth of People With a Low Socioeconomic Status: A Community-Based Participatory Approach. <i>Frontiers in Digital Health</i> , 2021, 3, 690182.	1.5	19
47	COVID-19’s impact on the future of digital health technology in primary care. <i>Family Practice</i> , 2021, 38, 845-847.	0.8	13
48	Selective prevention of cardiovascular disease using integrated lifestyle intervention in primary care: protocol of the Healthy Heart stepped-wedge trial. <i>BMJ Open</i> , 2021, 11, e043829.	0.8	3
49	eHealth in Geriatric Rehabilitation: Systematic Review of Effectiveness, Feasibility, and Usability. <i>Journal of Medical Internet Research</i> , 2021, 23, e24015.	2.1	31
50	Factors associated with physical activity among COPD patients with mild or moderate airflow obstruction. <i>Monaldi Archives for Chest Disease</i> , 2021, . .	0.3	1
51	Study Protocol for the Development of a European eHealth Platform to Improve Quality of Life in Individuals With Huntington’s Disease and Their Partners (HD-eHelp Study): A User-Centered Design Approach. <i>Frontiers in Neurology</i> , 2021, 12, 719460.	1.1	3
52	Integrated disease management interventions for patients with chronic obstructive pulmonary disease. <i>The Cochrane Library</i> , 2021, 2021, CD009437.	1.5	24
53	The Role of Health Technologies in Multicomponent Primary Care Interventions: Systematic Review. <i>Journal of Medical Internet Research</i> , 2021, 23, e20195.	2.1	12
54	A systematic approach to context-mapping to prepare for health interventions: development and validation of the SETTING-tool in four countries. <i>BMJ Global Health</i> , 2021, 6, e003221.	2.0	6

#	ARTICLE	IF	CITATIONS
55	SERIES: eHealth in primary care. Part 5: A critical appraisal of five widely used eHealth applications for primary care – opportunities and challenges. <i>European Journal of General Practice</i> , 2021, 27, 248-256.	0.9	10
56	Socioeconomic status is not associated with the delivery of care in people with diabetes but does modify HbA1c levels: An observational cohort study (Elzha – cohort 1). <i>International Journal of Clinical Practice</i> , 2021, 75, e13962.	0.8	5
57	Clinical Characteristics, Treatment Patterns and Economic Burden of COPD in Kyrgyzstan: A FRESH AIR Study. <i>International Journal of COPD</i> , 2021, Volume 16, 2833-2843.	0.9	2
58	Household Air Pollution and Respiratory Health in Rural Crete, Greece: A Cross-Sectional FRESH AIR Study. <i>Atmosphere</i> , 2021, 12, 1369.	1.0	0
59	Effectiveness and implementation of palliative care interventions for patients with chronic obstructive pulmonary disease: A systematic review. <i>Palliative Medicine</i> , 2021, 35, 486-502.	1.3	15
60	Successes of and Lessons From the First Joint eHealth Program of the Dutch University Hospitals: Evaluation Study. <i>Journal of Medical Internet Research</i> , 2021, 23, e25170.	2.1	4
61	Experiences with tailoring of primary diabetes care in well-organised general practices: a mixed-methods study. <i>BMC Health Services Research</i> , 2021, 21, 1218.	0.9	2
62	Effectiveness of Telemonitoring for Respiratory and Systemic Symptoms of Asthma and COPD: A Narrative Review. <i>Life</i> , 2021, 11, 1215.	1.1	9
63	Revisiting the four core functions (4Cs) of primary care: operational definitions and complexities. <i>Primary Health Care Research and Development</i> , 2021, 22, e68.	0.5	13
64	SERIES: eHealth in primary care. Part 2: Exploring the ethical implications of its application in primary care practice. <i>European Journal of General Practice</i> , 2020, 26, 26-32.	0.9	45
65	Cost-effectiveness and cost-utility analysis of a work-place smoking cessation intervention with and without financial incentives. <i>Addiction</i> , 2020, 115, 534-545.	1.7	16
66	A national eHealth vision developed by University Medical Centres: A concept mapping study. <i>International Journal of Medical Informatics</i> , 2020, 133, 104032.	1.6	8
67	Placebo Effects in the Neuroendocrine System: Conditioning of the Oxytocin Responses. <i>Psychosomatic Medicine</i> , 2020, 82, 47-56.	1.3	3
68	Prevalence and Economic Burden of Respiratory Diseases in Central Asia and Russia: A Systematic Review. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 7483.	1.2	7
69	Digital health competencies for primary healthcare professionals: A scoping review. <i>International Journal of Medical Informatics</i> , 2020, 143, 104260.	1.6	43
70	Effects of Technology Use on Ageing in Place: The iZi Pilots. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 5052.	1.2	8
71	eHealth only interventions and blended interventions to support self-management in adolescents with asthma: A systematic review. <i>Clinical EHealth</i> , 2020, 3, 49-62.	4.1	12
72	Development and evaluation of an eHealth self-management intervention for patients with chronic kidney disease in China: protocol for a mixed-method hybrid type 2 trial. <i>BMC Nephrology</i> , 2020, 21, 495.	0.8	11

#	ARTICLE	IF	CITATIONS
73	REducing Delay through edUcation on eXacerbations (REDUX) in patients with COPD: a pilot study. <i>Clinical EHealth</i> , 2020, 3, 63-68.	4.1	2
74	SERIES: eHealth in primary care. Part 3: eHealth education in primary care. <i>European Journal of General Practice</i> , 2020, 26, 108-118.	0.9	23
75	SERIES: eHealth in primary care. Part 4: Addressing the challenges of implementation. <i>European Journal of General Practice</i> , 2020, 26, 140-145.	0.9	35
76	A cluster randomized controlled trial on a multifaceted implementation strategy to promote integrated palliative care in COPD: study protocol of the COMPASSION study. <i>BMC Palliative Care</i> , 2020, 19, 155.	0.8	5
77	Implementing a context-driven awareness programme addressing household air pollution and tobacco: a FRESH AIR study. <i>Npj Primary Care Respiratory Medicine</i> , 2020, 30, 42.	1.1	5
78	Association between GP participation in a primary care group and monitoring of biomedical and lifestyle target indicators in people with type 2 diabetes: a cohort study (ELZHA cohort-1). <i>BMJ Open</i> , 2020, 10, e033085.	0.8	4
79	Correlation between fractional exhaled nitric oxide and Asthma Control Test score and spirometry parameters in on-treatment- asthmatics in Ho Chi Minh City. <i>Journal of Thoracic Disease</i> , 2020, 12, 2197-2209.	0.6	6
80	Factors critical to implementation success of cleaner cooking interventions in low-income and middle-income countries: protocol for an umbrella review. <i>BMJ Open</i> , 2020, 10, e041821.	0.8	2
81	Treatment of allergic rhinitis during and outside the pollen season using mobile technology. A MASK study. <i>Clinical and Translational Allergy</i> , 2020, 10, 62.	1.4	34
82	Implementing lung health interventions in low- and middle-income countries: a FRESH AIR systematic review and meta-synthesis. <i>European Respiratory Journal</i> , 2020, 56, 2000127.	3.1	14
83	Combination of Fractional Exhaled Nitric Oxide (FeNO) Level and Asthma Control Test (ACT) in Detecting GINA-Defined Asthma Control in Treated Asthmatic Patients in Vietnam. <i>Canadian Respiratory Journal</i> , 2020, 2020, 1-9.	0.8	2
84	Cross-Sectional Analysis of University Students's Health Using a Digitised Health Survey. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 3009.	1.2	4
85	A systematic review on the use of mHealth to increase physical activity in older people. <i>Clinical EHealth</i> , 2020, 3, 31-39.	4.1	27
86	Exploring characteristics of COPD patients with clinical improvement after integrated disease management or usual care: post-hoc analysis of the RECODE study. <i>BMC Pulmonary Medicine</i> , 2020, 20, 176.	0.8	1
87	Effects of oxytocin administration and conditioned oxytocin on brain activity: An fMRI study. <i>PLoS ONE</i> , 2020, 15, e0229692.	1.1	6
88	&lt;p&gt;Associations Between Obesity and Multidimensional Frailty in Older Chinese People with Hypertension&lt;/p&gt;. <i>Clinical Interventions in Aging</i> , 2020, Volume 15, 811-820.	1.3	17
89	Let's stop dumping cookstoves in local communities. It's time to get implementation right. <i>Npj Primary Care Respiratory Medicine</i> , 2020, 30, 3.	1.1	12
90	Asthma phenotypes in primary care. <i>Npj Primary Care Respiratory Medicine</i> , 2020, 30, 13.	1.1	0
