João C F Correa

List of Publications by Year in descending order

Source: https://exaly.com/author-pdf/6531597/publications.pdf Version: 2024-02-01

#	Article	IF	CITATIONS
1	Red (660 nm) and infrared (830 nm) low-level laser therapy in skeletal muscle fatigue in humans: what is better?. Lasers in Medical Science, 2012, 27, 453-458.	1.0	97
2	Kinematic and Kinetic Analysis of the Single-Leg Triple Hop Test in Women With and Without Patellofemoral Pain. Journal of Orthopaedic and Sports Physical Therapy, 2015, 45, 799-807.	1.7	45
3	Social participation following a stroke: an assessment in accordance with the international classification of functioning, disability and health. Disability and Rehabilitation, 2019, 41, 879-886.	0.9	45
4	Propulsion Phase of the Single Leg Triple Hop Test in Women with Patellofemoral Pain Syndrome: A Biomechanical Study. PLoS ONE, 2014, 9, e97606.	1.1	42
5	Evaluation of post-stroke functionality based on the International Classification of Functioning, Disability, and Health: a proposal for use of assessment tools. Journal of Physical Therapy Science, 2015, 27, 1665-1670.	0.2	34
6	Peripheral muscle strength and functional capacity in patients with moderate to severe asthma. Multidisciplinary Respiratory Medicine, 2015, 10, 3.	0.6	29
7	Assessment of plantar pressure and balance in patients with diabet. Archives of Medical Science, 2010, 1, 43-48.	0.4	26
8	Neurophysiological Aspects and their relationship to clinical and functional impairment in patients with Chronic Obstructive Pulmonary Disease. Clinics, 2011, 66, 125-129.	0.6	26
9	Effect of transcranial direct current stimulation combined with gait and mobility training on functionality in children with cerebral palsy: study protocol for a double-blind randomized controlled clinical trial. BMC Pediatrics, 2013, 13, 168.	0.7	25
10	Gait profile score and movement analysis profile in patients with Parkinson's disease during concurrent cognitive load. Brazilian Journal of Physical Therapy, 2014, 18, 315-322.	1.1	25
11	Impact of depression following a stroke on the participation component of the International Classification of Functioning, Disability and Health. Disability and Rehabilitation, 2016, 38, 1830-1835.	0.9	25
12	Comparison of quality-of-life instruments for assessing the participation after stroke based on the International Classification of Functioning, Disability and Health (ICF). Brazilian Journal of Physical Therapy, 2013, 17, 470-478.	1.1	24
13	Validation of GDI, GPS and GVS for use in Parkinson's disease through evaluation of effects of subthalamic deep brain stimulation and levodopa. Gait and Posture, 2014, 39, 1142-1145.	0.6	22
14	Psychometric properties of the stroke specific quality of life scale for the assessment of participation in stroke survivors using the rasch model: a preliminary study. Journal of Physical Therapy Science, 2015, 27, 389-392.	0.2	22
15	Three-dimensional analysis of performance of an upper limb functional task among adults with dyskinetic cerebral palsy. Gait and Posture, 2014, 39, 875-881.	0.6	21
16	Immediate effect of transcranial direct current stimulation combined with functional electrical stimulation on activity of the tibialis anterior muscle and balance of individuals with hemiparesis stemming from a stroke. Journal of Physical Therapy Science, 2017, 29, 2138-2146.	0.2	18
17	Kinematic and electromyographic analysis in patients with patellofemoral pain syndrome during single leg triple hop test. Gait and Posture, 2016, 49, 246-251.	0.6	17
18	Validation and reliability of a modified sphygmomanometer for the assessment of handgrip strength in ParkinsonA´s disease. Brazilian Journal of Physical Therapy, 2015, 19, 137-145.	1.1	16

#	Article	IF	CITATIONS
19	Effects of Transcranial Direct Current Stimulation (tDCS) and Exercises Treadmill on Autonomic Modulation of Hemiparetic Patients Due To Stroke—Clinic Test, Controlled, Randomized, Double-Blind. Frontiers in Neurology, 2020, 10, 1402.	1.1	14
20	Construct validity of the items on the Stroke Specific Quality of Life (SS-QOL) questionnaire that evaluate the participation component of the International Classification of Functioning, Disability and Health. Disability and Rehabilitation, 2018, 40, 225-231.	0.9	13
21	Reproducibility of the items on the Stroke Specific Quality of Life questionnaire that evaluate the participation component of the International Classification of Functioning, Disability and Health. Disability and Rehabilitation, 2016, 38, 2413-2418.	0.9	11
22	The effect of a six-week osteopathic visceral manipulation in patients with non-specific chronic low back pain and functional constipation: study protocol for a randomized controlled trial. Trials, 2018, 19, 151.	0.7	11
23	Repeatability of a 3D multi-segment foot model during anterior and lateral step down tests. Gait and Posture, 2016, 43, 9-16.	0.6	9
24	Translation and Cross-Cultural Adaptation of SATIS-Stroke for Use in Brazil: A Satisfaction Measure of Activities and Participation in Stroke Survivors. BioMed Research International, 2019, 2019, 1-11.	0.9	9
25	Use a Portable Device for Measuring Spasticity in Individuals with Cerebral Palsy. Journal of Physical Therapy Science, 2013, 25, 271-275.	0.2	8
26	Female PFP patients present alterations in eccentric muscle activity but not the temporal order of activation of the vastus lateralis muscle during the single leg triple hop test. Gait and Posture, 2018, 62, 445-450.	0.6	8
27	Effects of myogenic precursor cells (C2C12) transplantation and lowâ€level laser therapy on muscle repair. Lasers in Surgery and Medicine, 2018, 50, 781-791.	1.1	8
28	Static balance and function in children with cerebral palsy submitted to neuromuscular block and neuromuscular electrical stimulation: Study protocol for prospective, randomized, controlled trial. BMC Pediatrics, 2012, 12, 53.	0.7	7
29	Descending stairs: Good or bad task to discriminate women with patellofemoral pain?. Gait and Posture, 2018, 65, 26-32.	0.6	7
30	Clinimetric properties of the SATIS-Stroke questionnaire in the Brazilian population: A satisfaction assessment measure addressing activities and participation after a stroke. Brazilian Journal of Physical Therapy, 2021, 25, 719-726.	1.1	6
31	Effects of transcranial direct current stimulation on the rehabilitation of painful shoulder following a stroke: protocol for a randomized, controlled, double-blind, clinical trial. Trials, 2019, 20, 165.	0.7	5
32	Effect of transcranial direct current stimulation and multicomponent training on functional capacity in older adults: protocol for a randomized, controlled, double-blind clinical trial. Trials, 2020, 21, 203.	0.7	5
33	Determination of muscle fatigue index for strength training in patients with Duchenne dystrophy. Fisioterapia Em Movimento, 2010, 23, 351-360.	0.4	4
34	Additive effect of transcranial direct current stimulation (tDCS) in combination with multicomponent training on elderly physical function capacity: a randomized, triple blind, controlled trial. Physiotherapy Theory and Practice, 2023, 39, 2352-2365.	0.6	4
35	Analysis of the Applicability of an Ankle-Foot Orthosis during Gait in Poststroke Patients. Journal of Physical Therapy Science, 2013, 25, 1001-1005.	0.2	3
36	Adult dyskinetic cerebral palsy: Upper limb movement and muscle function. Acta Neurologica Scandinavica, 2019, 139, 505-511.	1.0	2

JOãO C F CORREA

#	Article	IF	CITATIONS
37	Acute Effects Using Light-Emitting Diode Therapy (LEDT) for Muscle Function during Isometric Exercise in Asthma Patients: A Pilot Study. BioMed Research International, 2019, 2019, 1-10.	0.9	2
38	Effect of transcranial direct current stimulation combined with a virtual reality exercise on balance in a patient with multiple sclerosis: a case report. Adaptive Behavior, 2020, 28, 307-313.	1.1	2
39	Protocol for a controlled, randomized, blind, clinical trial to assess the effects of transcranial direct current stimulation associated with balance training using games in the postural balance of elderly people. F1000Research, 2020, 9, 1018.	0.8	2
40	Discriminatory power of Stroke Specific Quality of Life questionnaire items to evaluate the participation component of the International Classification of Functioning, Disability and Health. International Journal of Therapy and Rehabilitation, 2020, 27, 1-9.	0.1	1
41	Linking of concepts measured by SATIS-Stroke and the PM-Scale to the international classification of functioning, disability and health. Physiotherapy Theory and Practice, 2022, 38, 3055-3071.	0.6	1
42	Protocol for a controlled, randomized, blind, clinical trial to assess the effects of anodal transcranial direct current stimulation dorsolateral prefrontal cortex associated with balance training using games in the postural balance of older people. F1000Research, 2020, 9, 1018.	0.8	0
43	Effect of Transcranial Direct Current Stimulation associated with aerobic exercise on the autonomic modulation of hemiparetic individuals due to stroke: a study protocol for a double-blind randomized controlled trial. F1000Research, 0, 10, 191.	0.8	Ο
44	The immediate effect of different loads does not alter muscle co-activation of the upper limb in young adults with dyskinetic cerebral palsy. Gait and Posture, 2021, 90, 161-166.	0.6	0
45	Effect of Transcranial Direct Current Stimulation associated with aerobic exercise on the autonomic modulation of hemiparetic individuals due to stroke: a study protocol for a double-blind randomized controlled trial. F1000Research, 0, 10, 191.	0.8	Ο
46	Projeto de pesquisa multic $ ilde{A}^{a}$ ntrico: um desafio. Brazilian Journal of Physical Therapy, 0, , .	1.1	0
47	Functional capacity categorization of individuals with idiopathic pulmonary fibrosis: a proposal to use the qualifiers of the International Classification of Functioning, Disability and Health. , 2019, , .		ο
48	Association between body function and functional capacity of individuals with difficult-to-control asthma: relationship between the domains of the International Classification of Functioning, Disability and Health. , 2019, , .		0
49	Validation and reproducibility of the Glittre activities of the daily living test for evaluation of functional capacity after a stroke. Physiotherapy Theory and Practice, 2022, , 1-8.	0.6	О
50	Shuttle walk test categorization according to the qualifiers of the International Classification of Functioning, Disability, and Health: proposal for use in patients with difficult-to-treat asthma, a cross-sectional study. Physiotherapy Theory and Practice, 2022, , 1-8.	0.6	0
