#	ARTICLE	IF	CITATIONS
1	Developing habit-based health behaviour change interventions: twenty-one questions to guide future research. <i>Psychology and Health</i> , 2023, 38, 518-540.	1.2	26
2	The common sense model of illness self-regulation: a conceptual review and proposed extended model. <i>Health Psychology Review</i> , 2022, 16, 347-377.	4.4	69
3	Attitudes, Habits, and Behavior Change. <i>Annual Review of Psychology</i> , 2022, 73, 327-352.	9.9	72
4	Psychological benefits of outdoor physical activity in natural versus urban environments: A systematic review and meta-analysis of experimental studies. <i>Applied Psychology: Health and Well-Being</i> , 2022, 14, 1037-1061.	1.6	27
5	Differences between decisions made using verbal or numerical quantifiers. <i>Thinking and Reasoning</i> , 2021, 27, 69-96.	2.1	3
6	Psychometric properties of the stress control mindset measure in university students from Australia and the UK. <i>Brain and Behavior</i> , 2021, 11, e01963.	1.0	7
7	Loosening the GRIP (Gender Roles Inhibiting Prosociality) to Promote Gender Equality. <i>Personality and Social Psychology Review</i> , 2021, 25, 66-92.	3.4	18
8	Effect of information on reducing inappropriate expectations and requests for antibiotics. <i>British Journal of Psychology</i> , 2021, 112, 804-827.	1.2	12
9	Patterns of Genital Sexual Arousal in Transgender Men. <i>Psychological Science</i> , 2021, 32, 485-495.	1.8	6
10	The Impact of Illness Perceptions and Coping Strategies on Use of Supportive Care for Cancer. <i>Cancers</i> , 2021, 13, 2501.	1.7	4
11	Changing Behavior Using Habit Theory. , 2020, , 178-192.		11
12	Changing Behavior Using the Health Belief Model and Protection Motivation Theory. , 2020, , 46-59.		12
13	“Always take your doctor’s advice”: Does trust moderate the effect of information on inappropriate antibiotic prescribing expectations?. <i>British Journal of Health Psychology</i> , 2020, 25, 358-376.	1.9	8
14	The intuitive use of contextual information in decisions made with verbal and numerical quantifiers. <i>Quarterly Journal of Experimental Psychology</i> , 2020, 73, 481-494.	0.6	8
15	Treatment preferences in fibromyalgia patients: A cross-sectional web-based survey. <i>European Journal of Pain</i> , 2020, 24, 1290-1300.	1.4	7
16	Action bias in the public’s clinically inappropriate expectations for antibiotics.. <i>Journal of Experimental Psychology: Applied</i> , 2020, 26, 422-431.	0.9	7
17	Outdoor recreational activity experiences improve psychological wellbeing of military veterans with post-traumatic stress disorder: Positive findings from a pilot study and a randomised controlled trial. <i>PLoS ONE</i> , 2020, 15, e0241763.	1.1	20
18	Title is missing!. , 2020, 15, e0241763.		0

#	ARTICLE	IF	CITATIONS
19	Title is missing!. , 2020, 15, e0241763.		0
20	Title is missing!. , 2020, 15, e0241763.		0
21	Title is missing!. , 2020, 15, e0241763.		0
22	Title is missing!. , 2020, 15, e0241763.		0
23	Title is missing!. , 2020, 15, e0241763.		0
24	Automatic processes and self-regulation of illness. <i>Health Psychology Review</i> , 2019, 13, 378-405.	4.4	18
25	People overestimate verbal quantities of nutrients on nutrition labels. <i>Food Quality and Preference</i> , 2019, 78, 103739.	2.3	7
26	The contribution of a negative colorectal screening test result to symptom appraisal and help-seeking behaviour among patients subsequently diagnosed with an interval colorectal cancer. <i>Health Expectations</i> , 2018, 21, 764-773.	1.1	16
27	Dental flossing and automaticity: a longitudinal moderated mediation analysis. <i>Psychology, Health and Medicine</i> , 2018, 23, 619-627.	1.3	10
28	Development of an evidence-based brief "talking"™ intervention for non-responders to bowel screening for use in primary care: stakeholder interviews. <i>BMC Family Practice</i> , 2018, 19, 105.	2.9	4
29	Sexual Arousal Patterns of Identical Twins with Discordant Sexual Orientations. <i>Scientific Reports</i> , 2018, 8, 14970.	1.6	12
30	Finger Length Ratios of Identical Twins with Discordant Sexual Orientations. <i>Archives of Sexual Behavior</i> , 2018, 47, 2435-2444.	1.2	10
31	Transfer or Compensation?. <i>Swiss Journal of Psychology</i> , 2018, 77, 59-67.	0.9	9
32	Gender nonconformity of identical twins with discordant sexual orientations: Evidence from childhood photographs.. <i>Developmental Psychology</i> , 2018, 54, 788-801.	1.2	12
33	Reflective and impulsive processes underlying saving behavior and the additional roles of self-control and habit.. <i>Journal of Neuroscience, Psychology, and Economics</i> , 2018, 11, 135-146.	0.4	18
34	Understanding of a negative bowel screening result and potential impact on future symptom appraisal and help-seeking behaviour: a focus group study. <i>Health Expectations</i> , 2017, 20, 584-592.	1.1	7
35	Is an opportunistic primary care-based intervention for non-responders to bowel screening feasible and acceptable? A mixed-methods feasibility study in Scotland. <i>BMJ Open</i> , 2017, 7, e016307.	0.8	7
36	The common sense model of self-regulation: Meta-analysis and test of a process model.. <i>Psychological Bulletin</i> , 2017, 143, 1117-1154.	5.5	397

#	ARTICLE	IF	CITATIONS
37	South Asian ethnicity, socioeconomic status, and psychological mediators of faecal occult blood colorectal screening participation: A prospective test of a process model.. Health Psychology, 2017, 36, 1161-1172.	1.3	69
38	Automatic effects of illness schema activation on behavioral manifestations of illness.. Health Psychology, 2016, 35, 1144-1153.	1.3	10
39	The Role of Habit and Perceived Control on Health Behavior among Pregnant Women. American Journal of Health Behavior, 2016, 40, 291-301.	0.6	26
40	The strength of habit. Health Psychology Review, 2015, 9, 311-317.	4.4	119
41	Illness Schema Activation and the Effects of Illness Seasonality on Accessibility of Implicit Illness-Related Information. Annals of Behavioral Medicine, 2015, 49, 918-923.	1.7	9
42	Trait Versus State. Zeitschrift Fur Gesundheitspsychologie, 2014, 22, 156-164.	0.4	8
43	Temporal perspective and parental intention to accept the human papillomavirus vaccination for their daughter. British Journal of Health Psychology, 2010, 15, 151-165.	1.9	44
44	The automatic component of habit in health behavior: Habit as cue-contingent automaticity.. Health Psychology, 2010, 29, 374-383.	1.3	415
45	Social cognitive beliefs, alcohol, and tobacco use: A prospective community study of change following a ban on smoking in public places.. Health Psychology, 2009, 28, 753-761.	1.3	38
46	Illness schema activation and attentional bias to coping procedures.. Health Psychology, 2009, 28, 101-107.	1.3	25
47	Illness representations and coping following an abnormal colorectal cancer screening result. Social Science and Medicine, 2008, 67, 1465-1474.	1.8	48
48	Temporal framing and persuasion to adopt preventive health behavior: Moderating effects of individual differences in consideration of future consequences on sunscreen use.. Health Psychology, 2008, 27, 770-779.	1.3	138
49	Does priming a specific illness schema result in an attentional information-processing bias for specific illnesses?. Health Psychology, 2007, 26, 165-173.	1.3	31
50	"When No Means No": Can Reactance Augment the Theory of Planned Behavior?. Health Psychology, 2006, 25, 586-594.	1.3	20
51	Comparing two theories of health behavior: A prospective study of noncompletion of treatment following cervical cancer screening.. Health Psychology, 2006, 25, 604-615.	1.3	68
52	Social-cognitive determinants of hoist usage among health care workers.. Journal of Occupational Health Psychology, 2006, 11, 182-196.	2.3	67
53	Temporal framing and the decision to take part in type 2 diabetes screening: Effects of individual differences in consideration of future consequences on persuasion.. Health Psychology, 2006, 25, 537-548.	1.3	175
54	Illness representations and emotion in people with abnormal screening results. Psychology and Health, 2006, 21, 183-209.	1.2	24

#	ARTICLE	IF	CITATIONS
55	A confirmatory factor analysis of the revised illness perception questionnaire (IPQ-R) in a cervical screening context. <i>Psychology and Health</i> , 2005, 20, 161-173.	1.2	88
56	Prospective Research in Health Service Settings: Health Psychology, Science and the "Hawthorne" Effect. <i>Journal of Health Psychology</i> , 2004, 9, 355-359.	1.3	38
57	Appraisal theory and emotional sequelae of first visit to colposcopy following an abnormal cervical screening result. <i>British Journal of Health Psychology</i> , 2004, 9, 533-555.	1.9	33
58	Individual Differences in Sensitivity to Health Communications: Consideration of Future Consequences.. <i>Health Psychology</i> , 2004, 23, 388-396.	1.3	190
59	Personality systems interactions theory and the theory of planned behaviour: Evidence that self-regulatory volitional components enhance enactment of studying behaviour. <i>British Journal of Social Psychology</i> , 2003, 42, 95-112.	1.8	31
60	Does State Versus Action Orientation Moderate the Intention-Behavior Relationship?. <i>Journal of Applied Social Psychology</i> , 2003, 33, 536-553.	1.3	25
61	Reflections on Past Behavior: A Self-Report Index of Habit Strength1. <i>Journal of Applied Social Psychology</i> , 2003, 33, 1313-1330.	1.3	1,399
62	A Meta-Analytic Review of the Common-Sense Model of Illness Representations. <i>Psychology and Health</i> , 2003, 18, 141-184.	1.2	1,254
63	Combining motivational and volitional interventions to promote exercise participation: Protection motivation theory and implementation intentions. <i>British Journal of Health Psychology</i> , 2002, 7, 163-184.	1.9	504
64	Antecedents of children's physical activity intentions and behaviour: Predictive validity and longitudinal effects. <i>Psychology and Health</i> , 2001, 16, 391-407.	1.2	105
65	Self-efficacy and goal importance in the prediction of physical disability in people following hospitalization: A prospective study. <i>British Journal of Health Psychology</i> , 2001, 6, 25-40.	1.9	59
66	The Theory of Planned Behavior and Ecstasy Use: Roles for Habit and Perceived Control Over Taking Versus Obtaining Substances. <i>Journal of Applied Social Psychology</i> , 2001, 31, 31-47.	1.3	88
67	Exploring the relationship between different psychosocial determinants of depression: a multidimensional scaling analysis. <i>Journal of Affective Disorders</i> , 2001, 64, 53-67.	2.0	17
68	Self-schemas and the theory of planned behaviour. <i>European Journal of Social Psychology</i> , 2000, 30, 533-550.	1.5	97
69	Prediction and Intervention in Health-Related Behavior: A Meta-Analytic Review of Protection Motivation Theory. <i>Journal of Applied Social Psychology</i> , 2000, 30, 106-143.	1.3	1,044
70	Motivational and Volitional Processes in Action Initiation: A Field Study of the Role of Implementation Intentions1. <i>Journal of Applied Social Psychology</i> , 2000, 30, 780-797.	1.3	208
71	Augmenting the theory of planned behaviour: Motivation to provide practical assistance and emotional support to parents. <i>Psychology and Health</i> , 2000, 15, 309-324.	1.2	38
72	The Role of Social "Cognitive Research in Informal Care. <i>Journal of Health Psychology</i> , 1999, 4, 41-44.	1.3	1

#	ARTICLE	IF	CITATIONS
73	Does the Temporal Stability of Behavioral Intentions Moderate Intention-Behavior and Past Behavior-Future Behavior Relations?. <i>Personality and Social Psychology Bulletin</i> , 1999, 25, 724-734.	1.9	199
74	Towards a psychology of service use in informal care: Social and psychological variables associated with service need and uptake amongst carers of learning disabled adults. <i>Psychology and Health</i> , 1999, 14, 217-239.	1.2	5
75	Augmenting the Theory of Planned Behavior: Roles for Anticipated Regret and Descriptive Norms1. <i>Journal of Applied Social Psychology</i> , 1999, 29, 2107-2142.	1.3	332
76	Predicting perceived recovered activity in older people after a fall. <i>Disability and Rehabilitation</i> , 1999, 21, 555-562.	0.9	16
77	Psychosocial correlates of heterosexual condom use: A meta-analysis.. <i>Psychological Bulletin</i> , 1999, 125, 90-132.	5.5	727
78	Psychosocial determinants of ecstasy use in young people in the UK. <i>British Journal of Health Psychology</i> , 1998, 3, 295-317.	1.9	49
79	â€œInclined abstainersâ€™: A problem for predicting healthâ€™related behaviour. <i>British Journal of Social Psychology</i> , 1998, 37, 151-165.	1.8	361
80	Do intentions predict condom use? Metaanalysis and examination of six moderator variables. <i>British Journal of Social Psychology</i> , 1998, 37, 231-250.	1.8	317
81	Can social cognitive models contribute to the effectiveness of HIV-preventive behavioural interventions? A brief review of the literature and a reply to Joffe (1996; 1997) and Fife-Schaw (1997). <i>The British Journal of Medical Psychology</i> , 1998, 71, 297-310.	0.6	29
82	Can protection motivation theory predict behaviour? A longitudinal test exploring the role of previous behaviour. <i>Psychology and Health</i> , 1998, 13, 237-250.	1.2	97
83	Implementation Intentions and the Theory of Planned Behavior. <i>Personality and Social Psychology Bulletin</i> , 1997, 23, 945-954.	1.9	533
84	Social cognition and social structure in the prediction of cervical screening uptake. <i>British Journal of Health Psychology</i> , 1996, 1, 35-50.	1.9	102
85	How confidently can we infer health beliefs from questionnaire responses?. <i>Psychology and Health</i> , 1996, 11, 273-290.	1.2	38
86	Informal care in social context: A social psychological analysis of participation, impact and intervention in care of the elderly. <i>Psychology and Health</i> , 1996, 11, 155-178.	1.2	23
87	Women's preferences for cervical screening: who, where and when. <i>Health Education Journal</i> , 1996, 55, 84-91.	0.6	10
88	Unemployment, Self-Esteem, and Depression: A Social Comparison Theory Approach. <i>Basic and Applied Social Psychology</i> , 1995, 17, 65-82.	1.2	21
89	Measuring the impact of informal caring. <i>Journal of Community and Applied Social Psychology</i> , 1993, 3, 149-163.	1.4	46
90	Integrating sociological and psychological perspectives on informal care. <i>Journal of Community and Applied Social Psychology</i> , 1993, 3, 225-230.	1.4	0

#	ARTICLE	IF	CITATIONS
91	Conceptual and methodological issues in care research. Journal of Community and Applied Social Psychology, 1993, 3, 231-232.	1.4	1
92	What's Stressful About Caring?1. Journal of Applied Social Psychology, 1993, 23, 272-290.	1.3	22
93	Health psychology and uptake of preventive health services: A review of 30 years' research on cervical screening. Psychology and Health, 1993, 8, 417-433.	1.2	22
