

Erin D Giles

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/6547829/erin-d-giles-publications-by-year.pdf>

Version: 2024-04-26

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

38
papers

1,134
citations

#	Paper	IF	Citations
38	Noxious Stimulation Induces Acute Hemorrhage and Impairs Long-Term Recovery after Spinal Cord Injury (SCI) in Female Rats: Evidence Estrous Cycle May Have a Modulatory Effect.. <i>Neurotrauma Reports</i> , 2022 , 3, 70-86	1.6	
37	Lipoprotein Lipase Overexpression in Skeletal Muscle Attenuates Weight Regain by Potentiating Energy Expenditure. <i>Diabetes</i> , 2021 , 70, 867-877	0.9	0
36	Change in Blood and Benign Breast Biomarkers in Women Undergoing a Weight-Loss Intervention Randomized to High-Dose ω Fatty Acids versus Placebo. <i>Cancer Prevention Research</i> , 2021 , 14, 893-904	3.2	1
35	Designing Relevant Preclinical Rodent Models for Studying Links Between Nutrition, Obesity, Metabolism, and Cancer. <i>Annual Review of Nutrition</i> , 2021 , 41, 253-282	9.9	0
34	Preclinical Models to Study Obesity and Breast Cancer in Females: Considerations, Caveats, and Tools. <i>Journal of Mammary Gland Biology and Neoplasia</i> , 2020 , 25, 237-253	2.4	4
33	Regular exercise potentiates energetically expensive hepatic de novo lipogenesis during early weight regain. <i>American Journal of Physiology - Regulatory Integrative and Comparative Physiology</i> , 2019 , 317, R684-R695	3.2	3
32	Validation of Sensor-Based Food Intake Detection by Multicamera Video Observation in an Unconstrained Environment. <i>Nutrients</i> , 2019 , 11,	6.7	17
31	Compensation for cold-induced thermogenesis during weight loss maintenance and regain. <i>American Journal of Physiology - Endocrinology and Metabolism</i> , 2019 , 316, E977-E986	6	5
30	The In Vivo Net Energy Content of Resistant Starch and Its Effect on Macronutrient Oxidation in Healthy Adults. <i>Nutrients</i> , 2019 , 11,	6.7	8
29	Impact of Exercise and Activity on Weight Regain and Musculoskeletal Health Post-Ovariectomy. <i>Medicine and Science in Sports and Exercise</i> , 2019 , 51, 2465-2473	1.2	5
28	Is regular exercise an effective strategy for weight loss maintenance?. <i>Physiology and Behavior</i> , 2018 , 188, 86-93	3.5	51
27	Metformin inhibits stromal aromatase expression and tumor progression in a rodent model of postmenopausal breast cancer. <i>Breast Cancer Research</i> , 2018 , 20, 50	8.3	29
26	Metformin Accumulation Correlates with Organic Cation Transporter 2 Protein Expression and Predicts Mammary Tumor Regression. <i>Cancer Prevention Research</i> , 2017 , 10, 198-207	3.2	27
25	Ibuprofen before Exercise Does Not Prevent Cortical Bone Adaptations to Training. <i>Medicine and Science in Sports and Exercise</i> , 2017 , 49, 888-895	1.2	6
24	The Androgen Receptor Supports Tumor Progression After the Loss of Ovarian Function in a Preclinical Model of Obesity and Breast Cancer. <i>Hormones and Cancer</i> , 2017 , 8, 269-285	5	9
23	Prior weight loss exacerbates the biological drive to gain weight after the loss of ovarian function. <i>Physiological Reports</i> , 2017 , 5, e13272	2.6	7
22	Weight restoration on a high carbohydrate refeeding diet promotes rapid weight regain and hepatic lipid accumulation in female anorexic rats. <i>Nutrition and Metabolism</i> , 2016 , 13, 18	4.6	6

21	Modeling Diet-Induced Obesity with Obesity-Prone Rats: Implications for Studies in Females. <i>Frontiers in Nutrition</i> , 2016 , 3, 50	6.2	37
20	Exercise Decreases Lipogenic Gene Expression in Adipose Tissue and Alters Adipocyte Cellularity during Weight Regain After Weight Loss. <i>Frontiers in Physiology</i> , 2016 , 7, 32	4.6	18
19	The role for adipose tissue in weight regain after weight loss. <i>Obesity Reviews</i> , 2015 , 16 Suppl 1, 45-54	10.6	114
18	Developmental windows of breast cancer risk provide opportunities for targeted chemoprevention. <i>Experimental Cell Research</i> , 2013 , 319, 1671-8	4.2	32
17	Obesity and overfeeding affecting both tumor and systemic metabolism activates the progesterone receptor to contribute to postmenopausal breast cancer. <i>Cancer Research</i> , 2012 , 72, 6490-501	10.1	41
16	Novel Anorexia Nervosa Refeeding Strategies: From Human to Rat and Back Again. <i>FASEB Journal</i> , 2012 , 26, lb442	0.9	
15	Resistant starch and exercise independently attenuate weight regain on a high fat diet in a rat model of obesity. <i>Nutrition and Metabolism</i> , 2011 , 8, 49	4.6	30
14	Exercise reduces appetite and traffics excess nutrients away from energetically efficient pathways of lipid deposition during the early stages of weight regain. <i>American Journal of Physiology - Regulatory Integrative and Comparative Physiology</i> , 2011 , 301, R656-67	3.2	30
13	A surprising link between the energetics of ovariectomy-induced weight gain and mammary tumor progression in obese rats. <i>Obesity</i> , 2010 , 18, 696-703	8	19
12	Effect of the estrous cycle and surgical ovariectomy on energy balance, fuel utilization, and physical activity in lean and obese female rats. <i>American Journal of Physiology - Regulatory Integrative and Comparative Physiology</i> , 2010 , 299, R1634-42	3.2	27
11	Regular exercise attenuates the metabolic drive to regain weight after long-term weight loss. <i>American Journal of Physiology - Regulatory Integrative and Comparative Physiology</i> , 2009 , 297, R793-802	3.2	56
10	Weight regain after sustained weight reduction is accompanied by suppressed oxidation of dietary fat and adipocyte hyperplasia. <i>American Journal of Physiology - Regulatory Integrative and Comparative Physiology</i> , 2008 , 294, R1117-29	3.2	64
9	Peripheral metabolic responses to prolonged weight reduction that promote rapid, efficient regain in obesity-prone rats. <i>American Journal of Physiology - Regulatory Integrative and Comparative Physiology</i> , 2006 , 290, R1577-88	3.2	108
8	Consumption of resistant starch decreases postprandial lipogenesis in white adipose tissue of the rat. <i>Nutrition Journal</i> , 2006 , 5, 25	4.3	23
7	Role of TGF- β and IGF in Tumor Progression and Bone Metastases 2005 , 59-74		
6	Metabolic adjustments with the development, treatment, and recurrence of obesity in obesity-prone rats. <i>American Journal of Physiology - Regulatory Integrative and Comparative Physiology</i> , 2004 , 287, R288-97	3.2	79
5	Enhanced metabolic efficiency contributes to weight regain after weight loss in obesity-prone rats. <i>American Journal of Physiology - Regulatory Integrative and Comparative Physiology</i> , 2004 , 287, R1306-15	3.2	115
4	Resistant starch consumption promotes lipid oxidation. <i>Nutrition and Metabolism</i> , 2004 , 1, 8	4.6	107

3	The use of proliferating cell nuclear antigen immunohistochemistry with a unique functional marker to detect postnatal neurogenesis in paraffin-embedded sections of the mature pig brain. <i>Brain Research Protocols</i> , 2004 , 13, 69-75		18
2	Role of insulin-like growth factor binding proteins (IGFBPs) in breast cancer proliferation and metastasis. <i>Clinical and Experimental Metastasis</i> , 2003 , 20, 481-7	4-7	9
1	Postnatal neurogenesis in the vasopressin and oxytocin-containing nucleus of the pig hypothalamus. <i>Brain Research</i> , 2003 , 971, 189-96	3-7	26
