5284 citing authors

#	Article	IF	CITATIONS
1	Taking the "Waste―Out of "Wastewater―for Human Water Security and Ecosystem Sustainability. Science, 2012, 337, 681-686.	12.6	513
2	Urban water management in cities: historical, current and future regimes. Water Science and Technology, 2009, 59, 847-855.	2.5	502
3	Impediments and Solutions to Sustainable, Watershed-Scale Urban Stormwater Management: Lessons from Australia and the United States. Environmental Management, 2008, 42, 344-359.	2.7	463
4	The water sensitive city: principles for practice. Water Science and Technology, 2009, 60, 673-682.	2.5	389
5	Delivering sustainable urban water management: a review of the hurdles we face. Water Science and Technology, 2009, 59, 839-846.	2.5	277
6	Rethinking urban water management: Experimentation as a way forward?. Global Environmental Change, 2011, 21, 721-732.	7.8	245
7	Interdisciplinarity: How to catalyse collaboration. Nature, 2015, 525, 315-317.	27.8	224
8	Actors working the institutions in sustainability transitions: The case of Melbourne's stormwater management. Global Environmental Change, 2013, 23, 701-718.	7.8	219
9	A design framework for creating social learning situations. Global Environmental Change, 2013, 23, 398-412.	7.8	186
10	Fit-for-purpose governance: A framework to make adaptive governance operational. Environmental Science and Policy, 2012, 22, 73-84.	4.9	185
11	A strategic program for transitioning to a Water Sensitive City. Landscape and Urban Planning, 2013, 117, 32-45.	7.5	184
12	Governance experimentation and factors of success in socio-technical transitions in the urban water sector. Technological Forecasting and Social Change, 2012, 79, 1340-1353.	11.6	166
13	Towards understanding governance for sustainable urban water management. Global Environmental Change, 2011, 21, 1117-1127.	7.8	161
14	Impediments to Integrated Urban Stormwater Management: The Need for Institutional Reform. Environmental Management, 2005, 36, 455-468.	2.7	159
15	Configuring transformative governance to enhance resilient urban water systems. Environmental Science and Policy, 2013, 25, 62-72.	4.9	155
16	The enabling institutional context for integrated water management: Lessons from Melbourne. Water Research, 2013, 47, 7300-7314.	11.3	134
17	Understanding the nature of publics and local policy commitment to Water Sensitive Urban Design. Landscape and Urban Planning, 2011, 99, 83-92.	7.5	101
18	Political and Professional Agency Entrapment: An Agenda for Urban Water Research. Water Resources Management, 2011, 25, 4037-4050.	3.9	101

#	Article	IF	Citations
19	An investigation of champion-driven leadership processes. Leadership Quarterly, 2011, 22, 412-433.	5.8	99
20	The needs of society: A new understanding of transitions, sustainability and liveability. Technological Forecasting and Social Change, 2014, 85, 121-132.	11.6	99
21	Strategic planning of urban infrastructure for environmental sustainability: Understanding the past to intervene for the future. Cities, 2015, 46, 67-75.	5.6	98
22	A transition scenario for leapfrogging to a sustainable urban water future in Port Vila, Vanuatu. Technological Forecasting and Social Change, 2016, 105, 129-139.	11.6	87
23	Local Institutional Development and Organizational Change for Advancing Sustainable Urban Water Futures. Environmental Management, 2008, 41, 221-233.	2.7	83
24	Building networks and coalitions to promote transformational change: Insights from an Australian urban water planning case study. Environmental Innovation and Societal Transitions, 2015, 15, 11-25.	5.5	83
25	Diagnosing transformative change in urban water systems: Theories and frameworks. Global Environmental Change, 2013, 23, 264-280.	7.8	79
26	Exploring institutional adaptive capacity in practice: examining water governance adaptation in Australia. Ecology and Society, $2015$ , $20$ , .	2.3	73
27	Integrated Approaches in Urban Storm Drainage: Where Do We Stand?. Environmental Management, 2005, 35, 396-409.	2.7	65
28	Practitioner Perceptions of Social and Institutional Barriers to Advancing a Diverse Water Source Approach in Australia. International Journal of Water Resources Development, 2009, 25, 15-28.	2.0	60
29	A Framework for Understanding Risk Perception, Explored from the Perspective of the Water Practitioner. Risk Analysis, 2014, 34, 294-308.	2.7	58
30	Fostering environmental champions: A process to build their capacity to drive change. Journal of Environmental Management, 2012, 98, 84-97.	7.8	54
31	Transforming Cities through Water-Sensitive Principles and Practices. One Earth, 2020, 3, 436-447.	6.8	53
32	Implementation impediments to institutionalising the practice of sustainable urban water management. Water Science and Technology, 2006, 54, 415-422.	2.5	50
33	Challenges ahead: social and institutional factors influencing sustainable urban stormwater management in Australia. Water Science and Technology, 2009, 59, 653-660.	2.5	47
34	Pathways of system transformation: Strategic agency to support regime change. Environmental Science and Policy, 2016, 66, 119-128.	4.9	47
35	Extreme events: being prepared for the pitfalls with progressing sustainable urban water management. Water Science and Technology, 2009, 59, 1271-1280.	2.5	43
36	Sustainable urban water futures in developing countries: the centralised, decentralised or hybrid dilemma. Urban Water Journal, 2015, 12, 543-558.	2.1	43

#	Article	IF	CITATIONS
37	Analysis of institutional work on innovation trajectories in water infrastructure systems of Melbourne, Australia. Environmental Innovation and Societal Transitions, 2015, 15, 42-64.	<b>5.</b> 5	42
38	Many roads to Rome: The emergence of pathways from patterns of change through exploratory modelling of sustainability transitions. Environmental Modelling and Software, 2016, 85, 279-292.	4.5	33
39	Risk governance in the water sensitive city: Practitioner perspectives on ownership, management and trust. Environmental Science and Policy, 2016, 55, 218-227.	4.9	30
40	Study design, rationale and methods of the Revitalising Informal Settlements and their Environments (RISE) study: a cluster randomised controlled trial to evaluate environmental and human health impacts of a water-sensitive intervention in informal settlements in Indonesia and Fiji. BMJ Open, 2021, 11, e042850.	1.9	29
41	Understanding institutional capacity for urban water transitions. Technological Forecasting and Social Change, 2015, 94, 65-79.	11.6	26
42	Understanding the factors that influence domestic water consumption within Melbourne. Australian Journal of Water Resources, 2006, 10, 261-268.	2.7	25
43	Enabling sustainable urban water management through governance experimentation. Water Science and Technology, 2013, 67, 1708-1717.	2.5	25
44	A Diagnostic Procedure for Transformative Change Based on Transitions, Resilience, and Institutional Thinking. Ecology and Society, 2013, 18, .	2.3	25
45	A methodology to enable exploratory thinking in strategic planning. Technological Forecasting and Social Change, 2016, 105, 192-202.	11.6	24
46	A planetary health model for reducing exposure to faecal contamination in urban informal settlements: Baseline findings from Makassar, Indonesia. Environment International, 2021, 155, 106679.	10.0	24
47	Strategies for developing transformative capacity in urban water management sectors: The case of Melbourne, Australia. Technological Forecasting and Social Change, 2018, 137, 147-159.	11.6	23
48	Making the implicit, explicit: time for renegotiating the urban water supply hydrosocial contract?. Urban Water Journal, 2014, 11, 392-404.	2.1	22
49	Improving human and environmental health in urban informal settlements: the Revitalising Informal Settlements and their Environments (RISE) programme. Lancet Planetary Health, The, 2018, 2, S29.	11.4	22
50	Preparing for disruptions: A diagnostic strategic planning intervention for sustainable development. Cities, 2017, 63, 58-69.	5.6	21
51	Monitoring of diverse enteric pathogens across environmental and host reservoirs with TaqMan array cards and standard qPCR: a methodological comparison study. Lancet Planetary Health, The, 2021, 5, e297-e308.	11.4	21
52	Working towards sustainable urban water management: the vulnerability blind spot. Water Science and Technology, 2011, 64, 2362-2369.	2.5	20
53	Water scarcity and institutional change: lessons in adaptive governance from the drought experience of Perth, Western Australia. Water Science and Technology, 2013, 67, 2160-2168.	2.5	20
54	Social construction of stormwater control measures in Melbourne and Copenhagen: A discourse analysis of technological change, embedded meanings and potential mainstreaming. Technological Forecasting and Social Change, 2017, 115, 198-209.	11.6	20

#	Article	IF	CITATIONS
55	A diagnostic framework of strategic agency: Operationalising complex interrelationships of agency and institutions in the urban infrastructure sector. Environmental Science and Policy, 2018, 83, 11-21.	4.9	20
56	Assessing organisational capacity for transition policy programs. Technological Forecasting and Social Change, 2014, 86, 188-206.	11.6	18
57	Delving into the "Institutional Black Box― Revealing the Attributes of Sustainable Urban Water Management Regimes <sup>1</sup> . Journal of the American Water Resources Association, 2009, 45, 1448-1464.	2.4	17
58	Transition to a water-cycle city: risk perceptions and receptivity of Australian urban water practitioners. Urban Water Journal, 2014, 11, 427-443.	2.1	17
59	Informal settlements in a COVID-19 world: moving beyond upgrading and envisioning revitalisation. Cities and Health, 2021, 5, S52-S55.	2.6	16
60	Exploring sustainable urban water governance: a case study of institutional capacity. Water Science and Technology, 2009, 59, 1921-1928.	2.5	15
61	Avoiding the presumptive policy errors of intergovernmental environmental planning programmes: a case analysis of urban stormwater management planning. Journal of Environmental Planning and Management, 2010, 53, 197-217.	4.5	15
62	Broad approaches to cholera control in Asia: Water, sanitation and handwashing. Vaccine, 2020, 38, A110-A117.	3.8	15
63	Co-governing decentralised water systems: an analytical framework. Water Science and Technology, 2012, 66, 2731-2736.	2.5	14
64	Transitioning to a waterways city: municipal context, capacity and commitment. Water Science and Technology, 2010, 62, 162-171.	2.5	13
65	Security through diversity: moving from rhetoric to practice. Water Science and Technology, 2011, 64, 781-788.	2.5	13
66	A Framework to Guide Transitions to Water Sensitive Cities. Theory and Practice of Urban Sustainability Transitions, 2018, , 129-148.	1.9	13
67	Capacity attributes of future urban water management regimes: projections from Australian sustainability practitioners. Water Science and Technology, 2010, 61, 2241-2250.	2.5	12
68	A socio-technical model to explore urban water systems scenarios. Water Science and Technology, 2013, 68, 714-721.	2.5	12
69	Interdisciplinary Research and Impact. Global Challenges, 2019, 3, 1900020.	3.6	12
70	Water sensitive urban design. , 0, , 483-504.		11
71	Transition to a water-cycle city: sociodemographic influences on Australian urban water practitioners' risk perceptions towards alternative water systems. Urban Water Journal, 2014, 11, 444-460.	2.1	10
72	Using Policy and Regulatory Frameworks to Facilitate Water Transitions. Water Resources Management, 2016, 30, 3653-3669.	3.9	10

#	Article	IF	CITATIONS
73	Transformative agency in co-producing sustainable development in the urban south. Cities, 2020, 102, 102747.	5.6	10
74	Realising sustainable urban water management: Can social theory help?. Water Science and Technology, 2013, 67, 109-116.	2.5	9
75	The Institutional Dynamics of Stability and Practice Change: The Urban Water Management Sector of Australia (1970–2015). Water Resources Management, 2017, 31, 2299-2314.	3.9	8
76	Insights and future directions of transdisciplinary practice in the urban water sector. Journal of Environmental Studies and Sciences, 2017, 7, 251-263.	2.0	7
77	Risk perceptions and receptivity of Australian urban water practitioners to stormwater harvesting and treatment systems. Water Science and Technology: Water Supply, 2012, 12, 888-894.	2.1	7
78	Receptivity to sustainable urban water management in the South West Pacific. Journal of Water and Climate Change, 2014, 5, 244-258.	2.9	5
79	Disruptions in strategic infrastructure planning – What do they mean for sustainable development?. Environment and Planning C: Politics and Space, 2017, 35, 1285-1303.	1.9	5
80	Toward multifunctional landscapes in Australian cities: What disciplinary dynamics and practitioner strategies inform transdisciplinary practice?. Urban Forestry and Urban Greening, 2017, 27, 15-23.	5.3	5
81	Institutional change to support regime transformation: Lessons from A ustralia's water sector. Water Resources Research, 2017, 53, 5845-5859.	4.2	5
82	Exploring the interplay between technological decline and deinstitutionalisation in sustainability transitions. Technological Forecasting and Social Change, 2022, 180, 121703.	11.6	4
83	The Increasing Organizational Uptake of Source Control Approaches for Sustainable Stormwater Management. , $2002$ , , $1$ .		2
84	12 Questions to Rebekah Brown. Gaia, 2020, 29, 76-77.	0.7	2
85	The Co-Evolution of Institutional Logics and Boundary Spanning in Sustainability Transitions: the Case of Urban Stormwater Management in Melbourne, Australia. Environment and Natural Resources Research, 2017, 7, 36.	0.1	1
86	Locating periods of institutional change agency: a mixed methods approach. International Journal of Sociology and Social Policy, 2018, 38, 510-525.	1.2	1
87	A multifunctional Sydney laneway: what's transdisciplinarity got to do with it?. Journal of Integrative Environmental Sciences, 2017, 14, 73-92.	2.5	0
