#	ARTICLE	IF	CITATIONS
1	The impact of a social prescribing service on patients in primary care: a mixed methods evaluation. BMC Health Services Research, 2017, 17, 835.	0.9	81
2	Ethnic differences in the progression of chronic kidney disease and risk of death in a UK diabetic population: an observational cohort study. BMJ Open, 2018, 8, e020145.	0.8	56
3	Asthma prescribing, ethnicity and risk of hospital admission: an analysis of 35,864 linked primary and secondary care records in East London. Npj Primary Care Respiratory Medicine, 2016, 26, 16049.	1.1	45
4	“Test me and treat me” attitudes to vitamin D deficiency and supplementation: a qualitative study. BMJ Open, 2015, 5, e007401.	0.8	37
5	How do primary care doctors in England and Wales code and manage people with chronic kidney disease? Results from the National Chronic Kidney Disease Audit. Nephrology Dialysis Transplantation, 2018, 33, 1373-1379.	0.4	34
6	Improving outcomes for patients with type 2 diabetes using general practice networks: a quality improvement project in east London. BMJ Quality and Safety, 2014, 23, 171-176.	1.8	33
7	NHS Health Check comorbidity and management: an observational matched study in primary care. British Journal of General Practice, 2017, 67, e86-e93.	0.7	26
8	Recording ethnicity in primary care: assessing the methods and impact. British Journal of General Practice, 2011, 61, e290-e294.	0.7	25
9	Improving outcomes for people with COPD by developing networks of general practices: evaluation of a quality improvement project in east London. Npj Primary Care Respiratory Medicine, 2014, 24, 14082.	1.1	24
10	Population and patient factors affecting emergency department attendance in London: retrospective cohort analysis of linked primary and secondary care records. British Journal of General Practice, 2018, 68, e157-e167.	0.7	24
11	The NHS Health Check programme: implementation in east London 2009-2011. BMJ Open, 2015, 5, e007578-e007578.	0.8	23
12	Ethnic differences in smoking intensity and COPD risk: an observational study in primary care. Npj Primary Care Respiratory Medicine, 2017, 27, 50.	1.1	23
13	Statin prescribing for primary prevention of cardiovascular disease: a cross-sectional, observational study. British Journal of General Practice, 2015, 65, e538-e544.	0.7	22
14	Evaluating ethnic differences in the prescription of NSAIDs for chronic kidney disease: a cross-sectional survey of patients in general practice. British Journal of General Practice, 2014, 64, e448-e455.	0.7	18
15	Prostate-specific antigen testing in inner London general practices: are those at higher risk most likely to get tested?. BMJ Open, 2016, 6, e011356.	0.8	16
16	Improving coding and primary care management for patients with chronic kidney disease: an observational controlled study in East London. British Journal of General Practice, 2019, 69, e454-e461.	0.7	16
17	Building managed primary care practice networks to deliver better clinical care: a qualitative semi-structured interview study. British Journal of General Practice, 2017, 67, e764-e774.	0.7	13
18	Research into practice: understanding ethnic differences in healthcare usage and outcomes in general practice. British Journal of General Practice, 2014, 64, 653-655.	0.7	12

#	ARTICLE	IF	CITATIONS
19	Reduction in self-monitoring of blood glucose in type 2 diabetes: an observational controlled study in east London. <i>British Journal of General Practice</i> , 2015, 65, e256-e263.	0.7	12
20	Reducing liver function tests for statin monitoring: an observational comparison of two clinical commissioning groups. <i>British Journal of General Practice</i> , 2017, 67, e194-e200.	0.7	11
21	Health equity audits in general practice: a strategy to reduce health inequalities. <i>Primary Health Care Research and Development</i> , 2014, 15, 80-95.	0.5	10
22	Is individual smoking behaviour influenced by area-level ethnic density? A cross-sectional electronic health database study of inner south-east London. <i>ERJ Open Research</i> , 2017, 3, 00130-2016.	1.1	8
23	Using chronic kidney disease trigger tools for safety and learning: a qualitative evaluation in East London primary care. <i>British Journal of General Practice</i> , 2019, 69, e715-e723.	0.7	8
24	Progress in using the electronic health record to improve primary care. <i>British Journal of General Practice</i> , 2020, 70, e215-e220.	0.7	8
25	Unmasking quality: exploring meanings of health by doing art. <i>BMC Family Practice</i> , 2015, 16, 28.	2.9	6
26	Using the electronic health record to build a culture of practice safety: evaluating the implementation of trigger tools in one general practice. <i>British Journal of General Practice</i> , 2018, 68, e279-e285.	0.7	6
27	Predictors of late presentation to renal dialysis: a cohort study of linked primary and secondary care records in East London. <i>BMJ Open</i> , 2019, 9, e028431.	0.8	6
28	Accounting for overdispersion when determining primary care outliers for the identification of chronic kidney disease: learning from the National Chronic Kidney Disease Audit. <i>Nephrology Dialysis Transplantation</i> , 2017, 32, ii151-ii158.	0.4	5
29	Does the ethnic density effect extend to obesity? A cross-sectional study of 415 166 adults in east London. <i>BMJ Open</i> , 2019, 9, e024779.	0.8	5
30	Obesity Predicts Liver Function Testing and Abnormal Liver Results. <i>Obesity</i> , 2020, 28, 132-138.	1.5	5
31	Reducing SABA overprescribing in asthma: lessons from a Quality Improvement prescribing project in East London. <i>British Journal of General Practice</i> , 0, , BJGP.2021.0725.	0.7	5
32	Measuring continuity of care in general practice: a comparison of two methods using routinely collected data. <i>British Journal of General Practice</i> , 0, , BJGP.2022.0043.	0.7	5
33	Reducing the use of inhaled corticosteroids in mild-moderate COPD: an observational study in east London. <i>Npj Primary Care Respiratory Medicine</i> , 2020, 30, 34.	1.1	4
34	Feasibility of evaluation of the natural history of kidney disease in the general population using electronic healthcare records. <i>CKJ: Clinical Kidney Journal</i> , 2021, 14, 1603-1609.	1.4	1
35	Health inequalities worsen with the drop in hospital referrals. <i>Journal of the Royal Society of Medicine</i> , 2021, 114, 158-159.	1.1	1
36	Four patients with a history of acute exacerbations of COPD: implementing the CHEST/Canadian Thoracic Society guidelines for preventing exacerbations. <i>Npj Primary Care Respiratory Medicine</i> , 2015, 25, 15023.	1.1	0
