#	ARTICLE	IF	CITATIONS
1	HLA-DPB1 E69 genotype and exposure in beryllium sensitisation and disease. Occupational and Environmental Medicine, 2021, , oemed-2021-107736.	2.8	1
2	Associations of burnout with awakening and diurnal cortisol among police officers. Comprehensive Psychoneuroendocrinology, 2020, 4, 100016.	1.7	2
3	The CHARGE study: an assessment of parental occupational exposures and autism spectrum disorder. Occupational and Environmental Medicine, 2019, 76, 644-651.	2.8	11
4	Police stress and depressive symptoms: role of coping and hardiness. Policing, 2019, 43, 247-261.	1.2	20
5	The effect of social support, gratitude, resilience and satisfaction with life on depressive symptoms among police officers following Hurricane Katrina. International Journal of Social Psychiatry, 2018, 64, 63-72.	3.1	56
6	Stressful life events and posttraumatic growth among police officers: <scp>A</scp> cross-sectional study. Stress and Health, 2018, 34, 175-186.	2.6	30
7	Combined Prenatal Pesticide Exposure and Folic Acid Intake in Relation to Autism Spectrum Disorder. Environmental Health Perspectives, 2017, 125, 097007.	6.0	72
8	Association of peritraumatic dissociation with symptoms of depression and posttraumatic stress disorder.. Psychological Trauma: Theory, Research, Practice, and Policy, 2017, 9, 479-484.	2.1	17
9	Police stressors and health: a state-of-the-art review. Policing, 2017, 40, 642-656.	1.2	173
10	Resilience mediates the relationship between social support and post-traumatic stress symptoms in police officers. Journal of Emergency Management, 2017, 15, 107-116.	0.3	24
11	Research to Practice Implications of High-Risk Genotypes for Beryllium Sensitization and Disease. Journal of Occupational and Environmental Medicine, 2016, 58, 855-860.	1.7	9
12	Law Enforcement Officers Involvement Level in Hurricane Katrina and Alcohol Use. International Journal of Emergency Mental Health, 2015, 17, 267-273.	0.3	5
13	Positive Psychological Factors are Associated with Lower PTSD Symptoms among Police Officers: Post Hurricane Katrina. Stress and Health, 2014, 30, 405-415.	2.6	94
14	Chronic Beryllium Disease, HLA-DPB1, and the DP Peptide Binding Groove. Journal of Immunology, 2012, 189, 4014-4023.	0.8	28
15	Metabolic syndrome and sleep duration in police officers. Work, 2012, 43, 133-139.	1.1	32
16	Parental Occupational Exposures and Autism Spectrum Disorder. Journal of Autism and Developmental Disorders, 2012, 42, 2323-2334.	2.7	39
17	C-reactive protein, Interleukin-6, and posttraumatic stress disorder symptomology in urban police officers. Cytokine, 2011, 55, 74-78.	3.2	50
18	Association Between IL-1A Single Nucleotide Polymorphisms and Chronic Beryllium Disease and Beryllium Sensitization. Journal of Occupational and Environmental Medicine, 2010, 52, 680-684.	1.7	11

#	ARTICLE	IF	CITATIONS
19	Impact of negatively charged patches on the surface of MHC class II antigen-presenting proteins on risk of chronic beryllium disease. <i>Journal of the Royal Society Interface</i> , 2008, 5, 749-758.	3.4	23
20	TNF- α Polymorphisms in Chronic Beryllium Disease and Beryllium Sensitization. <i>Journal of Occupational and Environmental Medicine</i> , 2007, 49, 446-452.	1.7	15
21	Immunogenetic factors in beryllium sensitization and chronic beryllium disease. <i>Mutation Research - Fundamental and Molecular Mechanisms of Mutagenesis</i> , 2005, 592, 68-78.	1.0	25
22	The association between HLA-DPB1Glu69 and chronic beryllium disease and beryllium sensitization. <i>American Journal of Industrial Medicine</i> , 2004, 46, 95-103.	2.1	75
23	HLA-DPB1 and Chronic Beryllium Disease: A HuGE Review. <i>American Journal of Epidemiology</i> , 2003, 157, 388-398.	3.4	71
24	Significance of Genetic Information in Risk Assessment and Individual Classification Using Silicosis as a Case Model. <i>Annals of Occupational Hygiene</i> , 2002, 46, 375-81.	1.9	12
25	Racial differences in prevalence of a supratypic HLA-genetic marker immaterial to pre-employment testing for susceptibility to chronic beryllium disease. <i>American Journal of Industrial Medicine</i> , 2002, 41, 457-465.	2.1	22
