

Lucas S Aparicio

List of Publications by Citations

Source: <https://exaly.com/author-pdf/6560952/lucas-s-aparicio-publications-by-citations.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
36	First International Consensus on the diagnosis and management of fibromuscular dysplasia. <i>Vascular Medicine</i> , 2019 , 24, 164-189	3.3	121
35	Risk stratification by self-measured home blood pressure across categories of conventional blood pressure: a participant-level meta-analysis. <i>PLoS Medicine</i> , 2014 , 11, e1001591	11.6	57
34	First international consensus on the diagnosis and management of fibromuscular dysplasia. <i>Journal of Hypertension</i> , 2019 , 37, 229-252	1.9	48
33	Outcome-Driven Thresholds for Increased Home Blood Pressure Variability. <i>Hypertension</i> , 2017 , 69, 599-607	8.9	44
32	Predictors of masked hypertension among treated hypertensive patients: an interesting association with orthostatic hypertension. <i>American Journal of Hypertension</i> , 2013 , 26, 872-8	2.3	27
31	Challenges associated with peripheral arterial disease in women. <i>Vascular Health and Risk Management</i> , 2014 , 10, 115-28	4.4	26
30	Defining thresholds for home blood pressure monitoring in octogenarians. <i>Hypertension</i> , 2015 , 66, 865-875	7.5	25
29	Postprandial hypotension detected through home blood pressure monitoring: a frequent phenomenon in elderly hypertensive patients. <i>Hypertension Research</i> , 2014 , 37, 438-43	4.7	16
28	The European/International Fibromuscular Dysplasia Registry and Initiative (FEIRI)-clinical phenotypes and their predictors based on a cohort of 1000 patients. <i>Cardiovascular Research</i> , 2021 , 117, 950-959	9.9	16
27	Cardiovascular End Points and Mortality Are Not Closer Associated With Central Than Peripheral Pulsatile Blood Pressure Components. <i>Hypertension</i> , 2020 , 76, 350-358	8.5	14
26	Opposing Age-Related Trends in Absolute and Relative Risk of Adverse Health Outcomes Associated With Out-of-Office Blood Pressure. <i>Hypertension</i> , 2019 , 74, 1333-1342	8.5	13
25	Reference frame for home pulse pressure based on cardiovascular risk in 6470 subjects from 5 populations. <i>Hypertension Research</i> , 2014 , 37, 672-8	4.7	13
24	Predictive value of non-invasive hemodynamic measurement by means of impedance cardiography in hypertensive subjects older than 50 years of age. <i>Clinical and Experimental Hypertension</i> , 2014 , 36, 280-4	2.2	9
23	Prevalence and Determinants of Masked Hypertension Among Black Nigerians Compared With a Reference Population. <i>Hypertension</i> , 2016 , 67, 1249-55	8.5	9
22	Hypertension: The Neglected Complication of Transplantation. <i>ISRN Hypertension</i> , 2013 , 2013, 1-10		8
21	Validation of a new piezo-electronic device for non-invasive measurement of arterial pulse wave velocity according to the artery society guidelines. <i>Artery Research</i> , 2015 , 10, 32	2.2	7
20	Arterial Stiffness in Treated Hypertensive Patients With White-Coat Hypertension. <i>Journal of Clinical Hypertension</i> , 2017 , 19, 6-10	2.3	7

19	Hemodynamic characterization of hypertensive patients with an exaggerated orthostatic blood pressure variation. <i>Clinical and Experimental Hypertension</i> , 2018 , 40, 287-291	2.2	5
18	Determinants of the Morning-Evening Home Blood Pressure Difference in Treated Hypertensives: The HIBA-Home Study. <i>International Journal of Hypertension</i> , 2014 , 2014, 569259	2.4	5
17	Comparison of atenolol versus bisoprolol with noninvasive hemodynamic and pulse wave assessment. <i>Journal of the American Society of Hypertension</i> , 2015 , 9, 390-6		4
16	Risk Associated with Pulse Pressure on Out-of-Office Blood Pressure Measurement. <i>Pulse</i> , 2014 , 2, 42-51	1.6	4
15	Prevalence and clinical profile of resistant hypertension among treated hypertensive subjects. <i>Clinical and Experimental Hypertension</i> , 2013 , 35, 412-7	2.2	4
14	Prevalence and related factors of office and home hypotension in older treated hypertensive patients. <i>Aging Clinical and Experimental Research</i> , 2019 , 31, 1011-1017	4.8	4
13	The International Database of Central Arterial Properties for Risk Stratification: Research Objectives and Baseline Characteristics of Participants. <i>American Journal of Hypertension</i> , 2021 ,	2.3	3
12	Home blood pressure profile in very elderly hypertensives: should we use the same thresholds as in younger patients?. <i>Journal of the American Society of Hypertension</i> , 2015 , 9, 184-90		2
11	Meal-induced blood pressure fall in patients with isolated morning hypertension. <i>Clinical and Experimental Hypertension</i> , 2015 , 37, 364-8	2.2	2
10	Novel Indices of Home Blood Pressure Variability and Hypertension-Mediated Organ Damage in Treated Hypertensive Patients. <i>High Blood Pressure and Cardiovascular Prevention</i> , 2021 , 28, 365-372	2.9	2
9	Prognostic value of masked uncontrolled apparent resistant hypertension detected through home blood pressure monitoring. <i>Journal of Hypertension</i> , 2021 , 39, 2141-2146	1.9	2
8	Risk Stratification by Cross-Classification of Central and Brachial Systolic Blood Pressure.. <i>Hypertension</i> , 2022 , HYPERTENSIONAHA12118773	8.5	2
7	Dependence of thoracic fluid content with anthropometric-geometric factors in impedance cardiography. <i>Clinical and Experimental Pharmacology and Physiology</i> , 2016 , 43, 1151-1152	3	1
6	Comparing Office, Central, Home and Ambulatory Blood Pressure in Predicting Left Ventricular Mass. <i>Hipertension Y Riesgo Vascular</i> , 2019 , 36, 5-13	0.5	1
5	Advances in noninvasive methods for functional evaluation of renovascular disease. <i>Journal of the American Society of Hypertension</i> , 2009 , 3, 42-51		1
4	The Influence of Resting Heart Rate on Central Pulse Pressure is Age-Dependent. <i>High Blood Pressure and Cardiovascular Prevention</i> , 2021 , 28, 27-34	2.9	1
3	Validation of a new piezoelectric device for noninvasive measurement of central aortic systolic blood pressure. <i>Blood Pressure Monitoring</i> , 2018 , 23, 49-51	1.3	0
2	Alerting Reaction in Office Blood Pressure and Target Organ Damage: An Innocent Phenomenon?. <i>Current Hypertension Reviews</i> , 2017 , 13, 104-108	2.3	

- 1 Outcome-Driven Thresholds for Pulse Pressure on Office and Out-of-the-Office Blood Pressure Measurement **2014**, 447-457
