#	ARTICLE	IF	CITATIONS
1	Exercise training program in patients with NYHA III class systolic heart failure - Parallel comparison to the effects of resynchronization therapy. <i>Advances in Medical Sciences</i> , 2019, 64, 241-245.	0.9	5
2	No benefits from exercise training and worse outcomes in heart failure patients with atrial fibrillation and cardiovascular implantable electronic devices.. <i>Heart Beat Journal</i> , 2018, 3, 61-68.	0.2	0
3	Improvement of exercise tolerance in cardiopulmonary testing with sustained safety after regular training in outpatients with systolic heart failure (NYHA III) and an implantable cardioverter-defibrillator. Prospective 18-month randomized study. <i>Archives of Medical Science</i> , 2017, 5, 1094-1101.	0.4	11
4	Prospective assessment of cytokine IL-15 activity in patients with refractory atrial fibrillation episodes. <i>Cytokine</i> , 2015, 74, 164-170.	1.4	8
5	Hospital-based and telemonitoring guided home-based training programs: Effects on exercise tolerance and quality of life in patients with heart failure (NYHA class III) and cardiac resynchronization therapy. A randomized, prospective observation.. <i>International Journal of Cardiology</i> , 2015, 199, 442-447.	0.8	58
6	New methods in diagnosis and therapy Beneficial triple-site cardiac resynchronization in a patient supported with an intra-aortic balloon pump for end-stage heart failure. <i>Postepy W Kardiologii Interwencyjnej</i> , 2014, 1, 40-42.	0.1	0
7	Effectiveness of antitachycardia pacing therapy after primary prophylaxis implantation of implantable defibrillators in coronary artery disease patients. <i>Advances in Medical Sciences</i> , 2014, 59, 161-165.	0.9	0
8	Wpływ wystąpienia incydentów burzy elektrycznej na jakość życia i aktywność fizyczną... u pacjentów po implantacji kardiowertera- defibrylatora / The influence of electrical storm incidents on the quality of life and physical activity in patients after cardioverter defibrillator implantation. <i>Advances in Rehabilitation</i> , 2014, 28, 35-41.	0.2	0
9	Potential Prevention of Pacing-Induced Heart Failure Using Simple Pacemaker Programming Algorithm. <i>Annals of Noninvasive Electrocardiology</i> , 2013, 18, 369-378.	0.5	3
10	Physical activity long-term after liver transplantation yields better quality of life. <i>Annals of Transplantation</i> , 2011, 16, 126-131.	0.5	20
11	Effect of Combined Spironolactone ² -Blocker ± Enalapril Treatment on Occurrence of Symptomatic Atrial Fibrillation Episodes in Patients With a History of Paroxysmal Atrial Fibrillation (SPIR-AF Study). <i>American Journal of Cardiology</i> , 2010, 106, 1609-1614.	0.7	64
