#	ARTICLE	IF	CITATIONS
1	Medication adherence among patients with apparent treatment-resistant hypertension. <i>Journal of Hypertension</i> , 2017, 35, 2346-2357.	0.3	129
2	State Versus Trait: Validating State Assessment of Child and Parental Catastrophic Thinking About Children's Acute Pain. <i>Journal of Pain</i> , 2017, 18, 385-395.	0.7	34
3	Effectiveness and content analysis of interventions to enhance medication adherence and blood pressure control in hypertension: A systematic review and meta-analysis. <i>Psychology and Health</i> , 2017, 32, 1195-1232.	1.2	34
4	Medication adherence for resistant hypertension: Assessing theoretical predictors of adherence using direct and indirect adherence measures. <i>British Journal of Health Psychology</i> , 2018, 23, 949-966.	1.9	33
5	Prevalence and Impact of Dysmenorrhea Among University Students in Ireland. <i>Pain Medicine</i> , 2021, 22, 2835-2845.	0.9	31
6	A scoping review of research on the determinants of adherence to social distancing measures during the COVID-19 pandemic. <i>Health Psychology Review</i> , 2021, 15, 350-370.	4.4	20
7	Prevalence of treatment-resistant hypertension after considering pseudo-resistance and morbidity: a cross-sectional study in Irish primary care. <i>British Journal of General Practice</i> , 2018, 68, e394-e400.	0.7	19
8	Effectiveness and content analysis of interventions to enhance medication adherence in hypertension: a systematic review and meta-analysis protocol. <i>Systematic Reviews</i> , 2016, 5, 96.	2.5	14
9	Measuring adherence to therapy in apparent treatment-resistant hypertension: a feasibility study in Irish primary care. <i>British Journal of General Practice</i> , 2019, 69, e621-e628.	0.7	9
10	Identifying and addressing psychosocial determinants of adherence to physical distancing guidance during the COVID-19 pandemic " project protocol. <i>HRB Open Research</i> , 2020, 3, 58.	0.3	9
11	A group dynamics framework for 21st century collective intelligence facilitators. <i>Systems Research and Behavioral Science</i> , 2021, 38, 572-576.	0.9	7
12	Identifying and addressing psychosocial determinants of adherence to physical distancing guidance during the COVID-19 pandemic " project protocol. <i>HRB Open Research</i> , 2020, 3, 58.	0.3	7
13	Adherence to physical distancing guidance in Ireland: a nationally representative analysis from the International COVID-19 Awareness and Responses Evaluation (iCARE) study. <i>HRB Open Research</i> , 0, 4, 36.	0.3	6
14	Investigating and evaluating evidence of the behavioural determinants of adherence to social distancing measures " A protocol for a scoping review of COVID-19 research. <i>HRB Open Research</i> , 2020, 3, 46.	0.3	6
15	Effects of Biopsychosocial Education on the Clinical Judgments of Medical Students and GP Trainees Regarding Future Risk of Disability in Chronic Lower Back Pain: A Randomized Control Trial. <i>Pain Medicine</i> , 2020, 21, 939-950.	0.9	5
16	Exploring barriers and facilitators of physical distancing in the context of the COVID-19 pandemic: a qualitative interview study. <i>HRB Open Research</i> , 2021, 4, 50.	0.3	5
17	Investigating and evaluating evidence of the behavioural determinants of adherence to social distancing measures " A protocol for a scoping review of COVID-19 research. <i>HRB Open Research</i> , 2020, 3, 46.	0.3	5
18	A qualitative comparison of high and low adherers with apparent treatment-resistant hypertension. <i>Psychology, Health and Medicine</i> , 2020, 25, 64-77.	1.3	4

#	ARTICLE	IF	CITATIONS
19	Exploring barriers and facilitators of physical distancing in the context of the COVID-19 pandemic: a qualitative interview study. HRB Open Research, 2021, 4, 50.	0.3	4
20	Judgement analysis of case severity and future risk of disability regarding chronic low back pain by general practitioners in Ireland. PLoS ONE, 2018, 13, e0194387.	1.1	4
21	Effectiveness of a biopsychosocial e-learning intervention on the clinical judgements of medical students and GP trainees regarding future risk of disability in patients with chronic lower back pain: study protocol for a randomised controlled trial. BMJ Open, 2016, 6, e010407.	0.8	3
22	Designing an e-learning tool to support health practitioners caring for patients taking multiple medications. HRB Open Research, 2020, 3, 59.	0.3	3
23	Being a parent of a child with Downâ€™s arthritis: an interpretative phenomenological analysis. Disability and Rehabilitation, 2022, 44, 7030-7038.	0.9	3
24	Factors Influencing the Application of a Biopsychosocial Perspective in Clinical Judgement of Chronic Pain: Interactive Management with Medical Students. Pain Physician, 2017, 20, E951-E960.	0.3	3
25	Designing an e-learning tool to support health practitioners caring for patients taking multiple medications. HRB Open Research, 2020, 3, 59.	0.3	2
26	The identification of needs and development of best practice guidance for the psychological support of frontline healthcare workers during and after COVID-19: A protocol for the FLoWS project. HRB Open Research, 2020, 3, 54.	0.3	2
27	Prognosis of patients with apparent treatment-resistant hypertensionâ€™a feasibility study. Pilot and Feasibility Studies, 2018, 4, 43.	0.5	1
28	Content analysis of behaviour change techniques in government physical distancing communications for the reopening of schools during the COVID-19 pandemic in Ireland. HRB Open Research, 0, 4, 78.	0.3	1
29	The identification of needs and development of best practice guidance for the psychological support of frontline healthcare workers during and after COVID-19: A protocol for the FLoWS project. HRB Open Research, 2020, 3, 54.	0.3	1
30	Understanding the stress and coping experiences of undergraduate university students in the COVID-19 context: A qualitative study. HRB Open Research, 0, 5, 51.	0.3	1
31	Who asked you? Young People and practitioners identify ways to facilitate access to mental health supports. HRB Open Research, 0, 4, 74.	0.3	0
