citing authors

#	ARTICLE	IF	CITATIONS
1	Healthcare professional behaviour: health impact, prevalence of evidence-based behaviours, correlates and interventions. <i>Psychology and Health</i> , 2023, 38, 766-794.	1.2	14
2	Operationalizing a patient engagement plan for health research: Sharing a codesigned planning template from a national clinical trial. <i>Health Expectations</i> , 2022, 25, 697-711.	1.1	6
3	Antibiotic prescribing for respiratory tract infection across a national primary care network in 2019. <i>Canada Communicable Disease Report</i> , 2022, 48, 157-163.	0.6	2
4	Exploring factors influencing chiropractors' adherence to radiographic guidelines for low back pain using the Theoretical Domains Framework. <i>Chiropractic & Manual Therapies</i> , 2022, 30, 23.	0.6	1
5	Barriers to following imaging guidelines for the treatment and management of patients with low-back pain in primary care: a qualitative assessment guided by the Theoretical Domains Framework. , 2022, 23, .		7
6	Enabling Healthy Aging to AVOID Frailty in Community Dwelling Older Canadians. <i>Canadian Geriatrics Journal</i> , 2022, 25, 202-211.	0.7	2
7	Changing behaviour, 'more or less': do implementation and de-implementation interventions include different behaviour change techniques?. <i>Implementation Science</i> , 2021, 16, 20.	2.5	30
8	Vaccination in pregnancy: Challenges and evidence-based solutions. <i>Best Practice and Research in Clinical Obstetrics and Gynaecology</i> , 2021, 76, 83-95.	1.4	14
9	RAFF-3 Trial: A Stepped-Wedge Cluster Randomised Trial to Improve Care of Acute Atrial Fibrillation and Flutter in the Emergency Department. <i>Canadian Journal of Cardiology</i> , 2021, 37, 1569-1577.	0.8	5
10	What behaviour change techniques have been used to improve adherence to evidence-based low back pain imaging?. <i>Implementation Science</i> , 2021, 16, 68.	2.5	4
11	Barriers and enablers to the use of venous leg ulcer clinical practice guidelines in Australian primary care: A qualitative study using the theoretical domains framework. <i>International Journal of Nursing Studies</i> , 2020, 103, 103503.	2.5	17
12	Protocol for assessing the determinants of preoperative test-ordering behaviour for low-risk surgical procedures using a theoretically driven, qualitative design. <i>BMJ Open</i> , 2020, 10, e036511.	0.8	2
13	Understanding determinants of patients' decisions to attend their family physician and to take antibiotics for upper respiratory tract infections: a qualitative descriptive study. <i>BMC Family Practice</i> , 2020, 21, 119.	2.9	13
14	De-implementing wisely: developing the evidence base to reduce low-value care. <i>BMJ Quality and Safety</i> , 2020, 29, 409-417.	1.8	110
15	Exploring stakeholder perceptions around implementation of the Operating Room Black Box for patient safety research: a qualitative study using the theoretical domains framework. <i>BMJ Open Quality</i> , 2019, 8, e000686.	0.4	16
16	Professional barriers and facilitators to using stratified care approaches for managing non-specific low back pain: a qualitative study with Canadian physiotherapists and chiropractors. <i>Chiropractic & Manual Therapies</i> , 2019, 27, 68.	0.6	12
17	Barriers and Enablers to Direct Observation of Trainees' Clinical Performance: A Qualitative Study Using the Theoretical Domains Framework. <i>Academic Medicine</i> , 2019, 94, 101-114.	0.8	36
18	Action, actor, context, target, time (AACTT): a framework for specifying behaviour. <i>Implementation Science</i> , 2019, 14, 102.	2.5	160

#	ARTICLE	IF	CITATIONS
19	Using the theoretical domains framework to identify barriers and enablers to pediatric asthma management in primary care settings. <i>Journal of Asthma</i> , 2018, 55, 1223-1236.	0.9	16
20	Letter in response to: "CJEM Debate Series: #ChoosingWisely" The Choosing Wisely campaign will not impact physician behaviour and choices. <i>Canadian Journal of Emergency Medicine</i> , 2018, 20, 1-1.	0.5	3
21	Changing behaviour "more or less" do theories of behaviour inform strategies for implementation and de-implementation? A critical interpretive synthesis. <i>Implementation Science</i> , 2018, 13, 134.	2.5	48
22	Barriers and facilitators to the implementation of evidence-based practice by pediatric surgeons. <i>Journal of Pediatric Surgery</i> , 2017, 52, 1666-1673.	0.8	23
23	Factors that influence effective perioperative temperature management by anesthesiologists: a qualitative study using the Theoretical Domains Framework. <i>Canadian Journal of Anaesthesia</i> , 2017, 64, 581-596.	0.7	22
24	Physician performance feedback in a Canadian academic center. <i>Leadership in Health Services</i> , 2017, 30, 457-474.	0.5	2
25	A guide to using the Theoretical Domains Framework of behaviour change to investigate implementation problems. <i>Implementation Science</i> , 2017, 12, 77.	2.5	1,734
26	Intermittent auscultation versus continuous fetal monitoring: exploring factors that influence birthing unit nurses' fetal surveillance practice using theoretical domains framework. <i>BMC Pregnancy and Childbirth</i> , 2017, 17, 320.	0.9	18
27	Understanding the Canadian adult CT head rule trial: use of the theoretical domains framework for process evaluation. <i>Implementation Science</i> , 2013, 8, 25.	2.5	86
28	Anesthesiologists' and surgeons' perceptions about routine pre-operative testing in low-risk patients: application of the Theoretical Domains Framework (TDF) to identify factors that influence physicians' decisions to order pre-operative tests. <i>Implementation Science</i> , 2012, 7, 52.	2.5	159
29	Identifying factors likely to influence compliance with diagnostic imaging guideline recommendations for spine disorders among chiropractors in North America: a focus group study using the Theoretical Domains Framework. <i>Implementation Science</i> , 2012, 7, 82.	2.5	106
30	IL-7-dependent STAT-5 activation and CD8+ T cell proliferation are impaired in HIV infection. <i>Journal of Leukocyte Biology</i> , 2010, 89, 499-506.	1.5	25
31	Postnatal epigenetic influences on seizure susceptibility in seizure-prone versus seizure-resistant rat strains. <i>Behavioral Neuroscience</i> , 2009, 123, 337-346.	0.6	31
32	Ruling out postnatal origins to attention-deficit/hyperactivity disorder (ADHD)-like behaviors in a seizure-prone rat strain. <i>Behavioral Neuroscience</i> , 2007, 121, 370-379.	0.6	21
33	Self-formulated conditional plans for changing health behaviour among healthcare consumers and health professionals. <i>The Cochrane Library</i> , 0, , .	1.5	4
34	Exploring perceived barriers and enablers to fidelity of training and delivery of an intervention to reduce imaging for low back pain: a qualitative interview study protocol. <i>HRB Open Research</i> , 0, 4, 49.	0.3	2
