#	ARTICLE	IF	CITATIONS
1	Moving towards a multidimensional dynamic approach to nature and health: A bioavailability perspective. <i>People and Nature</i> , 2022, 4, 44-52.	1.7	3
2	Creating a social movement to engage communities in physical activity: A mixed methods study of motivations to engagement. <i>PLoS ONE</i> , 2022, 17, e0263414.	1.1	2
3	Co-Production at Work: The Process of Breaking Up Sitting Time to Improve Cardiovascular Health. A Pilot Study. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 361.	1.2	1
4	Cardiovascular disease risk communication in NHS Health Checks: a qualitative video-stimulated recall interview study with practitioners. <i>BJGP Open</i> , 2021, 5, BJGPO.2021.0049.	0.9	7
5	Cardiovascular disease risk communication in NHS Health Checks using QRISK ² and JBS3 risk calculators: the RICO qualitative and quantitative study. <i>Health Technology Assessment</i> , 2021, 25, 1-124.	1.3	8
6	Cohort profile: The UK COVID-19 Public Experiences (COPE) prospective longitudinal mixed-methods study of health and well-being during the SARSCoV2 coronavirus pandemic. <i>PLoS ONE</i> , 2021, 16, e0258484.	1.1	5
7	Using gamification to encourage active travel. <i>Journal of Transport and Health</i> , 2021, 23, 101275.	1.1	6
8	Factors associated with attendance, engagement and wellbeing change in an arts on prescription intervention. <i>Journal of Public Health</i> , 2020, 42, e88-e95.	1.0	11
9	“The group was the only therapy which supported my needs, because it helped me feel normal and I was able to speak out with a voice”: A qualitative study of an integrated group treatment for dual diagnosis service users within a community mental health setting. <i>International Journal of Mental Health Nursing</i> , 2020, 29, 406-413.	2.1	2
10	Pragmatic evaluation of a coproduced physical activity referral scheme: a UK quasi-experimental study. <i>BMJ Open</i> , 2020, 10, e034580.	0.8	13
11	Quantitative examination of video-recorded NHS Health Checks: comparison of the use of QRISK2 versus JBS3 cardiovascular risk calculators. <i>BMJ Open</i> , 2020, 10, e037790.	0.8	8
12	A qualitative exploration of two risk calculators using video-recorded NHS health check consultations. <i>BMC Family Practice</i> , 2020, 21, 250.	2.9	11
13	Assessing the broader social outcomes of a community health programme through a social-ecological framework. <i>International Journal of Health Promotion and Education</i> , 2020, 58, 137-151.	0.4	7
14	Motivations and barriers to engagement with a technology-enabled community wide physical activity intervention. <i>PLoS ONE</i> , 2020, 15, e0232317.	1.1	6
15	Mental health first aid for the UK Armed Forces. <i>Health Promotion International</i> , 2020, 35, 132-139.	0.9	3
16	“Light in dark places”: exploring qualitative data from a longitudinal study using creative arts as a form of social prescribing. <i>Arts and Health</i> , 2019, 11, 232-245.	0.6	22
17	A qualitative study of cardiovascular disease risk communication in NHS Health Check using different risk calculators: protocol for the Risk Communication in NHS Health Check (RICO) study. <i>BMC Family Practice</i> , 2019, 20, 11.	2.9	8
18	Preliminary effects and acceptability of a co-produced physical activity referral intervention. <i>Health Education Journal</i> , 2019, 78, 869-884.	0.6	12

#	ARTICLE	IF	CITATIONS
19	Artlift™ arts-on-referral intervention in UK primary care: updated findings from an ongoing observational study. <i>European Journal of Public Health</i> , 2018, 28, 404-409.	0.1	31
20	Physical activity promotion by health practitioners: a distance-learning training component to improve knowledge and counseling. <i>Primary Health Care Research and Development</i> , 2018, 19, 140-150.	0.5	5
21	Sports graduate capabilities and competencies: a comparison of graduate and employer perceptions in six EU countries. <i>European Journal for Sport and Society</i> , 2017, 14, 95-116.	1.2	11
22	Gender perceptions and their impact when referring obese patients for exercise. <i>Qualitative Research in Sport, Exercise and Health</i> , 2016, 8, 287-300.	3.3	1
23	Effectiveness of a tailored training programme in behaviour change counselling for community pharmacists: A pilot study. <i>Patient Education and Counseling</i> , 2016, 99, 132-138.	1.0	8
24	Awareness of automated external defibrillators in the community: a local study. <i>British Journal of Cardiac Nursing</i> , 2015, 10, 444-451.	0.0	1
25	Perceptions of health professionals involved in a NHS Health Check care pathway. <i>Practice Nursing</i> , 2015, 26, 608-612.	0.1	5
26	Supervised Exercise Therapy In Adults With Intermittent Claudication. <i>Medicine and Science in Sports and Exercise</i> , 2015, 47, 466.	0.2	0
27	Long-term engagement with a practice-based exercise referral scheme: Patients' perceptions of effectiveness. <i>European Journal for Person Centered Healthcare</i> , 2015, 3, 369.	0.3	1
28	Art Lift™ intervention to improve mental well-being: An observational study from <scp>UK</scp> general practice. <i>International Journal of Mental Health Nursing</i> , 2013, 22, 279-286.	2.1	43
29	Looking at the feasibility of using a physical activity pathway with children in school. <i>British Journal of School Nursing</i> , 2013, 8, 338-345.	0.1	1
30	Exploring the Perceptions of Success in an Exercise Referral Scheme. <i>Evaluation Review</i> , 2012, 36, 407-429.	0.4	20
31	Promoting health in 2012: embracing alternative evaluation designs, working practices and service delivery modes. <i>Zeitschrift Fur Gesundheitswissenschaften</i> , 2012, 20, 477-478.	0.8	1
32	Factors influencing participation in outdoor physical activity promotion schemes: the case of South Staffordshire, England. <i>Leisure Studies</i> , 2012, 31, 447-463.	1.2	5
33	The effects of physical activity on psychological well-being for those with schizophrenia: A systematic review. <i>British Journal of Clinical Psychology</i> , 2011, 50, 84-105.	1.7	81
34	A preliminary review of an outpatient dual diagnosis recovery group programme. <i>Groupwork</i> , 2011, 21, 78-91.	0.1	1
35	Improving health, well-being and cognition in schizophrenia: making the case for physical activity. <i>Journal of Public Mental Health</i> , 2010, 9, 32-35.	0.8	1
36	Physical activity and mental health in a student population. <i>Journal of Mental Health</i> , 2010, 19, 492-499.	1.0	97

#	ARTICLE	IF	CITATIONS
37	Factors associated with physical activity referral completion and health outcomes. <i>Journal of Sports Sciences</i> , 2009, 27, 1007-1017.	1.0	26
38	<i>I know it is only exercise, but to me it is something that keeps me going</i> : A qualitative approach to understanding mental health service users' experiences of sports therapy. <i>International Journal of Mental Health Nursing</i> , 2008, 17, 197-207.	2.1	68
39	Factors associated with physical activity referral uptake and participation. <i>Journal of Sports Sciences</i> , 2008, 26, 217-224.	1.0	64
40	State of the Art Reviews: Methods of Evaluation: Issues and Implications for Physical Activity Referral Schemes. <i>American Journal of Lifestyle Medicine</i> , 2008, 2, 46-50.	0.8	9
41	Uptake and Participation in Physical Activity Referral Schemes in the UK: An Investigation of Patients Referred with Mental Health Problems. <i>Issues in Mental Health Nursing</i> , 2008, 29, 1088-1097.	0.6	54
42	Socio-demographic patterning of referral, uptake and attendance in Physical Activity Referral Schemes. <i>Journal of Public Health</i> , 2007, 29, 107-113.	1.0	58
43	WALKING BACK TO HEALTH: A QUALITATIVE INVESTIGATION INTO SERVICE USERS' EXPERIENCES OF A WALKING PROJECT. <i>Issues in Mental Health Nursing</i> , 2007, 28, 167-183.	0.6	46
