#	Paper	IF	Citations
223	Work changes and employee age, maladaptive coping expectations, and well-being: a Swedish cohort study.. <i>International Archives of Occupational and Environmental Health</i> , 2022 , 1	3.2	0
222	It's giving me the blues: A fixed-effects and g-formula approach to understanding job insecurity, sleep disturbances, and major depression.. <i>Social Science and Medicine</i> , 2022 , 297, 114805	5.1	1
221	Job Quality in the Late Career in Sweden, Japan and the United States.. <i>Research on Aging</i> , 2022 , 1640275221075985	3.3	0
220	Association of alcohol use with years lived without major chronic diseases: A multicohort study from the IPD-Work consortium and UK Biobank. <i>Lancet Regional Health - Europe, The</i> , 2022 , 19, 100417	3.3	0
219	How does work impact daily sleep quality? A within-individual study using actigraphy and self-reports over the retirement transition. <i>Journal of Sleep Research</i> , 2021 , e13513	5.8	0
218	Characteristics of Workplace Psychosocial Resources and Risk of Diabetes: A Prospective Cohort Study. <i>Diabetes Care</i> , 2021 ,	14.6	1
217	Health- and Age-Related Workplace Factors as Predictors of Preferred, Expected, and Actual Retirement Timing: Findings from a Swedish Cohort Study. <i>International Journal of Environmental Research and Public Health</i> , 2021 , 18,	4.6	5
216	Sexual and gender harassment in Swedish workplaces: A prospective cohort study on implications for long-term sickness absence. <i>Scandinavian Journal of Work, Environment and Health</i> , 2021 , 47, 466-474	4.3	0
215	Does workplace social capital predict care quality through job satisfaction and stress at the clinic? A prospective study. <i>BMC Public Health</i> , 2021 , 21, 1320	4.1	0
214	Technostress operationalised as information and communication technology (ICT) demands among managers and other occupational groups (Results from the Swedish Longitudinal Occupational Survey of Health (SLOSH). <i>Computers in Human Behavior</i> , 2021 , 114, 106486	7.7	9
213	How does cessation of work affect sleep? Prospective analyses of sleep duration, timing and efficiency from the Swedish Retirement Study. <i>Journal of Sleep Research</i> , 2021 , 30, e13157	5.8	3
212	Home and Workplace Neighborhood Socioeconomic Status and Behavior-related Health: A Within-individual Analysis. <i>Annals of Behavioral Medicine</i> , 2021 , 55, 779-790	4.5	1
211	Long working hours and risk of 50 health conditions and mortality outcomes: a multicohort study in four European countries.. <i>Lancet Regional Health - Europe, The</i> , 2021 , 11, 100212	3.3	4
210	How consistently does sleep quality improve at retirement? Prospective analyses with group-based trajectory models. <i>Journal of Sleep Research</i> , 2021 , e13474	5.8	0
209	Commuting distance and behavior-related health: A longitudinal study. <i>Preventive Medicine</i> , 2021 , 150, 106665	4.3	5
208	Job Strain as a Risk Factor for Peripheral Artery Disease: A Multi-Cohort Study. <i>Journal of the American Heart Association</i> , 2020 , 9, e013538	6	5
207	Validation of the Copenhagen Psychosocial Questionnaire Version III and Establishment of Benchmarks for Psychosocial Risk Management in Sweden. <i>International Journal of Environmental Research and Public Health</i> , 2020 , 17,	4.6	13

206	Does staff-assessed care quality predict early failure of dental fillings? A prospective study. <i>Community Dentistry and Oral Epidemiology</i> , 2020 , 48, 387-394	2.8	0
205	Socioeconomic Inequalities in Disability-free Life Expectancy in Older People from England and the United States: A Cross-national Population-Based Study. <i>Journals of Gerontology - Series A Biological Sciences and Medical Sciences</i> , 2020 , 75, 906-913	6.4	25
204	Sickness absence and sickness presence in relation to office type: An observational study of employer-recorded and self-reported data from Sweden. <i>PLoS ONE</i> , 2020 , 15, e0231934	3.7	1
203	Association of Healthy Lifestyle With Years Lived Without Major Chronic Diseases. <i>JAMA Internal Medicine</i> , 2020 , 180, 760-768	11.5	59
202	Psychotropic medication before and after disability retirement by pre-retirement perceived work-related stress. <i>European Journal of Public Health</i> , 2020 , 30, 158-163	2.1	1
201	Psychosocial working characteristics before retirement and depressive symptoms across the retirement transition: a longitudinal latent class analysis. <i>Scandinavian Journal of Work, Environment and Health</i> , 2020 , 46, 488-497	4.3	2
200	Psychosocial job strain and polypharmacy: a national cohort study. <i>Scandinavian Journal of Work, Environment and Health</i> , 2020 , 46, 589-598	4.3	2
199	Job insecurity and risk of coronary heart disease: Mediation analyses of health behaviors, sleep problems, physiological and psychological factors. <i>Psychoneuroendocrinology</i> , 2020 , 118, 104706	5	6
198	Reciprocal relations between work stress and insomnia symptoms: A prospective study. <i>Journal of Sleep Research</i> , 2020 , 29, e12949	5.8	16
197	Long working hours and change in body weight: analysis of individual-participant data from 19 cohort studies. <i>International Journal of Obesity</i> , 2020 , 44, 1368-1375	5.5	7
196	Workplace Violence and Long-term Sickness Absence: Assessment of the Potential Buffering Effect of Social Support in Two Occupational Cohort Studies. <i>Journal of Occupational and Environmental Medicine</i> , 2020 , 62, 830-838	2	0
195	Onset of Workplace Bullying and Risk of Weight Gain: A Multicohort Longitudinal Study. <i>Obesity</i> , 2020 , 28, 2216-2223	8	0
194	Benchmarks for Evidence-Based Risk Assessment with the Swedish Version of the 4-Item Psychosocial Safety Climate Scale. <i>International Journal of Environmental Research and Public Health</i> , 2020 , 17,	4.6	5
193	Labor market exit around retirement age in Sweden and trajectories of psychotropic drugs in a context of downsizing. <i>BMC Public Health</i> , 2020 , 20, 618	4.1	1
192	Informal Caregiving and Quality of Life Among Older Adults: Prospective Analyses from the Swedish Longitudinal Occupational Survey of Health (SLOSH). <i>Social Indicators Research</i> , 2020 , 1	2.7	2
191	Stuck at a workplace: What work control, demands and learning got to do with it? A longitudinal multilevel study on Swedish permanent employees in situations of workplace locked-in. <i>International Journal of Human Resource Management</i> , 2020 , 31, 1771-1792	3.6	1
190	A comparison of the B-spline group-based trajectory model with the polynomial group-based trajectory model for identifying trajectories of depressive symptoms around old-age retirement. <i>Ageing and Mental Health</i> , 2020 , 24, 445-452	3.5	6
189	Reduction in sleep disturbances at retirement: evidence from the Swedish Longitudinal Occupational Survey of Health. <i>Ageing and Society</i> , 2020 , 40, 2155-2173	1.7	3

188	Construct validity of a global scale for Workplace Social Capital based on COPSOQ III. <i>PLoS ONE</i> , 2019 , 14, e0221893	3.7	5
187	Birth size is not associated with depressive symptoms from adolescence to middle-age: results from the Northern Swedish Cohort study. <i>Journal of Developmental Origins of Health and Disease</i> , 2019 , 10, 376-383	2.4	
186	Does inflammation provide a link between psychosocial work characteristics and diabetes? Analysis of the role of interleukin-6 and C-reactive protein in the Whitehall II cohort study. <i>Brain, Behavior, and Immunity</i> , 2019 , 78, 153-160	16.6	11
185	Repeated exposure to high ICT demands at work, and development of suboptimal self-rated health: findings from a 4-year follow-up of the SLOSH study. <i>International Archives of Occupational and Environmental Health</i> , 2019 , 92, 717-728	3.2	8
184	Physical inactivity, cardiometabolic disease, and risk of dementia: an individual-participant meta-analysis. <i>BMJ, The</i> , 2019 , 365, l1495	5.9	80
183	Staying in or switching between permanent, temporary and self-employment during 2008-2010: Associations with changing job characteristics and emotional exhaustion. <i>Economic and Industrial Democracy</i> , 2019 , 40, 215-237	1.1	7
182	Does Labor Market Position Explain the Differences in Self-Rated Health between Employed Immigrants and Native Swedes: a Population-Based Study from Southern Sweden. <i>Journal of International Migration and Integration</i> , 2019 , 20, 703-715	1.1	0
181	Psychosocial work demands and physical workload decrease with ageing in blue-collar and white-collar workers: a prospective study based on the SLOSH cohort. <i>BMJ Open</i> , 2019 , 9, e030918	3	8
180	Multicohort study of change in job strain, poor mental health and incident cardiometabolic disease. <i>Occupational and Environmental Medicine</i> , 2019 , 76, 785-792	2.1	10
179	Does social and professional establishment at age 30 mediate the association between school connectedness and family climate at age 16 and mental health symptoms at age 43?. <i>Journal of Affective Disorders</i> , 2019 , 246, 52-61	6.6	4
178	Socioeconomic differences in healthy and disease-free life expectancy between ages 50 and 75: a multi-cohort study. <i>European Journal of Public Health</i> , 2019 , 29, 267-272	2.1	16
177	Workplace bullying and workplace violence as risk factors for cardiovascular disease: a multi-cohort study. <i>European Heart Journal</i> , 2019 , 40, 1124-1134	9.5	40
176	Long working hours, anthropometry, lung function, blood pressure and blood-based biomarkers: cross-sectional findings from the CONSTANCES study. <i>Journal of Epidemiology and Community Health</i> , 2019 , 73, 130-135	5.1	11
175	Group activity participation at age 21 and depressive symptoms during boom and recession in Sweden: a 20-year follow-up. <i>European Journal of Public Health</i> , 2019 , 29, 475-481	2.1	
174	Socio-economic predictors of depressive symptoms around old age retirement in Swedish women and men. <i>Aging and Mental Health</i> , 2019 , 23, 558-565	3.5	12
173	Sleep Duration and Sleep Disturbances as Predictors of Healthy and Chronic Disease-Free Life Expectancy Between Ages 50 and 75: A Pooled Analysis of Three Cohorts. <i>Journals of Gerontology - Series A Biological Sciences and Medical Sciences</i> , 2019 , 74, 204-210	6.4	19
172	Job demands, control and social support as predictors of trajectories of depressive symptoms. <i>Journal of Affective Disorders</i> , 2018 , 235, 535-543	6.6	9
171	Associations between onset of effort-reward imbalance at work and onset of musculoskeletal pain: analyzing observational longitudinal data as pseudo-trials. <i>Pain</i> , 2018 , 159, 1477-1483	8	6

170	Informal caregiving as a risk factor for type 2 diabetes in individuals with favourable and unfavourable psychosocial work environments: A longitudinal multi-cohort study. <i>Diabetes and Metabolism</i> , 2018 , 44, 38-44	5.4	4
169	Aging and the Change in Fatigue and Sleep - A Longitudinal Study Across 8 Years in Three Age Groups. <i>Frontiers in Psychology</i> , 2018 , 9, 234	3.4	16
168	Cohort Profile: The Swedish Longitudinal Occupational Survey of Health (SLOSH). <i>International Journal of Epidemiology</i> , 2018 , 47, 691-692i	7.8	56
167	Copenhagen Psychosocial Questionnaire - A validation study using the Job Demand-Resources model. <i>PLoS ONE</i> , 2018 , 13, e0196450	3.7	34
166	Work stress and risk of death in men and women with and without cardiometabolic disease: a multicohort study. <i>Lancet Diabetes and Endocrinology</i> , 2018 , 6, 705-713	18.1	61
165	Job strain and atrial fibrillation - Results from the Swedish Longitudinal Occupational Survey of Health and meta-analysis of three studies. <i>European Journal of Preventive Cardiology</i> , 2018 , 25, 1142-1149	3.9	20
164	Job strain and loss of healthy life years between ages 50 and 75 by sex and occupational position: analyses of 64 934 individuals from four prospective cohort studies. <i>Occupational and Environmental Medicine</i> , 2018 , 75, 486-493	2.1	20
163	Long working hours and depressive symptoms: systematic review and meta-analysis of published studies and unpublished individual participant data. <i>Scandinavian Journal of Work, Environment and Health</i> , 2018 , 44, 239-250	4.3	67
162	Body mass index and risk of dementia: Analysis of individual-level data from 1.3 million individuals. <i>Alzheimer's and Dementia</i> , 2018 , 14, 601-609	1.2	163
161	Workplace bullying and violence as risk factors for type 2 diabetes: a multicohort study and meta-analysis. <i>Diabetologia</i> , 2018 , 61, 75-83	10.3	44
160	Trajectories of job demands and control: risk for subsequent symptoms of major depression in the nationally representative Swedish Longitudinal Occupational Survey of Health (SLOSH). <i>International Archives of Occupational and Environmental Health</i> , 2018 , 91, 263-272	3.2	11
159	Paid and unpaid working hours among Swedish men and women in relation to depressive symptom trajectories: results from four waves of the Swedish Longitudinal Occupational Survey of Health. <i>BMJ Open</i> , 2018 , 8, e017525	3	9
158	Downsizing and purchases of psychotropic drugs: A longitudinal study of stayers, changers and unemployed. <i>PLoS ONE</i> , 2018 , 13, e0203433	3.7	6
157	Prevailing over Adversity: Factors Counteracting the Long-Term Negative Health Influences of Social and Material Disadvantages in Youth. <i>International Journal of Environmental Research and Public Health</i> , 2018 , 15,	4.6	7
156	Obesity and loss of disease-free years owing to major non-communicable diseases: a multicohort study. <i>Lancet Public Health</i> , 2018 , 3, e490-e497	22.4	138
155	Body mass index as a predictor of healthy and disease-free life expectancy between ages 50 and 75: a multicohort study. <i>International Journal of Obesity</i> , 2017 , 41, 769-775	5.5	59
154	Job strain as a risk factor for clinical depression: systematic review and meta-analysis with additional individual participant data. <i>Psychological Medicine</i> , 2017 , 47, 1342-1356	6.9	195
153	Psychosocial work characteristics, sleep disturbances and risk of subsequent depressive symptoms: a study of time-varying effect modification. <i>Journal of Sleep Research</i> , 2017 , 26, 266-276	5.8	7

152	Effort-Reward Imbalance at Work and Incident Coronary Heart Disease: A Multicohort Study of 90,164 Individuals. <i>Epidemiology</i> , 2017 , 28, 619-626	3.1	161
151	It is not just about occupation, but also about where you work. <i>Community Dentistry and Oral Epidemiology</i> , 2017 , 45, 372-379	2.8	13
150	Overweight, obesity, and risk of cardiometabolic multimorbidity: pooled analysis of individual-level data for 120 813 adults from 16 cohort studies from the USA and Europe. <i>Lancet Public Health</i> , 2017 , 2, e277-e285	22.4	214
149	Interactional justice at work is related to sickness absence: a study using repeated measures in the Swedish working population. <i>BMC Public Health</i> , 2017 , 17, 912	4.1	9
148	Work stress, anthropometry, lung function, blood pressure, and blood-based biomarkers: a cross-sectional study of 43,593 French men and women. <i>Scientific Reports</i> , 2017 , 7, 9282	4.9	29
147	The negative effects on mental health of being in a non-desired occupation in an increasingly precarious labour market. <i>SSM - Population Health</i> , 2017 , 3, 516-524	3.8	13
146	Accuracy of a Single Item on Mentally Tiring Work as Proxy Measure of Job Demands and Efforts in the Gazel Cohort. <i>Journal of Occupational and Environmental Medicine</i> , 2017 , 59, e156-e158	2	1
145	Long working hours as a risk factor for atrial fibrillation: a multi-cohort study. <i>European Heart Journal</i> , 2017 , 38, 2621-2628	9.5	49
144	Temporal relationships between job strain and low-back pain. <i>Scandinavian Journal of Work, Environment and Health</i> , 2017 , 43, 396-404	4.3	8
143	Does job promotion affect men's and women's health differently? Dynamic panel models with fixed effects. <i>International Journal of Epidemiology</i> , 2017 , 46, 1137-1146	7.8	10
142	Trajectories of self-rated health in the last 15 years of life by cause of death. <i>European Journal of Epidemiology</i> , 2016 , 31, 177-85	12.1	43
141	Unemployment in the teens and trajectories of alcohol consumption in adulthood. <i>BMJ Open</i> , 2016 , 6, e006430	3	6
140	Addressing challenges of validity and internal consistency of mental health measures in a 27-year longitudinal cohort study - the Northern Swedish Cohort study. <i>BMC Medical Research Methodology</i> , 2016 , 16, 4	4.7	26
139	Social adversities in adolescence predict unfavourable trajectories of internalized mental health symptoms until middle age: results from the Northern Swedish Cohort. <i>European Journal of Public Health</i> , 2016 , 26, 23-9	2.1	7
138	Purchases of Prescription Antidepressants in the Swedish Population in Relation to Major Workplace Downsizing. <i>Epidemiology</i> , 2016 , 27, 257-64	3.1	13
137	Does Personality Have a Different Impact on Self-Rated Distraction, Job Satisfaction, and Job Performance in Different Office Types?. <i>PLoS ONE</i> , 2016 , 11, e0155295	3.7	15
136	Longitudinal Mediation Modeling of Unhealthy Behaviors as Mediators between Workplace Demands/Support and Depressive Symptoms. <i>PLoS ONE</i> , 2016 , 11, e0169276	3.7	6
135	A Qualitative Study on the Content Validity of the Social Capital Scales in the Copenhagen Psychosocial Questionnaire (COPSOQ II). <i>Scandinavian Journal of Work and Organizational Psychology</i> , 2016 , 1,	1.8	16

134	Validation of Online Versions of Tinnitus Questionnaires Translated into Swedish. <i>Frontiers in Aging Neuroscience</i> , 2016 , 8, 272	5.3	21
133	Smoking, physical inactivity and obesity as predictors of healthy and disease-free life expectancy between ages 50 and 75: a multicohort study. <i>International Journal of Epidemiology</i> , 2016 , 45, 1260-1270	7.8	64
132	Sickness presence in the Swedish Police in 2007 and in 2010: Associations with demographic factors, job characteristics, and health. <i>Work</i> , 2016 , 54, 379-87	1.6	11
131	Nurses' practice environment and satisfaction with schedule flexibility is related to intention to leave due to dissatisfaction: A multi-country, multilevel study. <i>International Journal of Nursing Studies</i> , 2016 , 58, 47-58	5.8	60
130	Information and communication technology demands at work: the association with job strain, effort-reward imbalance and self-rated health in different socio-economic strata. <i>International Archives of Occupational and Environmental Health</i> , 2016 , 89, 1049-58	3.2	25
129	Long working hours and cancer risk: a multi-cohort study. <i>British Journal of Cancer</i> , 2016 , 114, 813-8	8.7	12
128	Job insecurity and risk of diabetes: a meta-analysis of individual participant data. <i>Cmaj</i> , 2016 , 188, E447-E455	5.5	29
127	Long working hours, socioeconomic status, and the risk of incident type 2 diabetes: a meta-analysis of published and unpublished data from 222 120 individuals. <i>Lancet Diabetes and Endocrinology</i> , 2015 , 3, 27-34	18.1	141
126	Self-rated health amongst male and female employees in Sweden: a nationally representative study. <i>International Archives of Occupational and Environmental Health</i> , 2015 , 88, 849-59	3.2	8
125	Mental health in adolescence as determinant of alcohol consumption trajectories in the Northern Swedish Cohort. <i>International Journal of Public Health</i> , 2015 , 60, 335-42	4	21
124	Comorbidity and functional trajectories from midlife to old age: the Health and Retirement Study. <i>Journals of Gerontology - Series A Biological Sciences and Medical Sciences</i> , 2015 , 70, 332-8	6.4	90
123	The impact of involuntary exit from employment in later life on the risk of major depression and being prescribed anti-depressant medication. <i>Aging and Mental Health</i> , 2015 , 19, 381-9	3.5	24
122	Patterns of weight gain in middle-aged and older US adults, 1992-2010. <i>Epidemiology</i> , 2015 , 26, 165-8	3.1	28
121	The effect of noise absorption variation in open-plan offices: A field study with a cross-over design. <i>Journal of Environmental Psychology</i> , 2015 , 44, 34-44	6.7	29
120	Parental academic involvement in adolescence as predictor of mental health trajectories over the life course: a prospective population-based cohort study. <i>BMC Public Health</i> , 2015 , 15, 653	4.1	7
119	Long working hours and risk of coronary heart disease and stroke: a systematic review and meta-analysis of published and unpublished data for 603,838 individuals. <i>Lancet, The</i> , 2015 , 386, 1739-46	4.0	368
118	Depressive symptoms as a cause and effect of job loss in men and women: evidence in the context of organisational downsizing from the Swedish Longitudinal Occupational Survey of Health. <i>BMC Public Health</i> , 2015 , 15, 1045	4.1	41
117	Work and Sleep--A Prospective Study of Psychosocial Work Factors, Physical Work Factors, and Work Scheduling. <i>Sleep</i> , 2015 , 38, 1129-36	1.1	60

116	How Visual Management for Continuous Improvement Might Guide and Affect Hospital Staff: A Case Study. <i>Quality Management in Health Care</i> , 2015 , 24, 222-8	1	11
115	Influence of Retirement on Adherence to Statins in the Insurance Medicine All-Sweden Total Population Data Base. <i>PLoS ONE</i> , 2015 , 10, e0130901	3.7	10
114	The association between office design and performance on demanding cognitive tasks. <i>Journal of Environmental Psychology</i> , 2015 , 42, 172-181	6.7	24
113	Job strain and the risk of stroke: an individual-participant data meta-analysis. <i>Stroke</i> , 2015 , 46, 557-9	6.7	75
112	Long working hours and alcohol use: systematic review and meta-analysis of published studies and unpublished individual participant data. <i>BMJ, The</i> , 2015 , 350, g7772	5.9	102
111	Does good leadership buffer effects of high emotional demands at work on risk of antidepressant treatment? A prospective study from two Nordic countries. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2014 , 49, 1209-18	4.5	20
110	Office design's impact on sick leave rates. <i>Ergonomics</i> , 2014 , 57, 139-47	2.9	84
109	Job strain as a risk factor for type 2 diabetes: a pooled analysis of 124,808 men and women. <i>Diabetes Care</i> , 2014 , 37, 2268-75	14.6	131
108	The Symptom Checklist-core depression (SCL-CD6) scale: psychometric properties of a brief six item scale for the assessment of depression. <i>Scandinavian Journal of Public Health</i> , 2014 , 42, 82-8	3	70
107	Concentration requirements modify the effect of office type on indicators of health and performance. <i>Journal of Environmental Psychology</i> , 2014 , 38, 167-174	6.7	76
106	The role of sleep disturbances in the longitudinal relationship between psychosocial working conditions, measured by work demands and support, and depression. <i>Sleep</i> , 2014 , 37, 1977-85	1.1	34
105	Life-course accumulation of neighborhood disadvantage and allostatic load: empirical integration of three social determinants of health frameworks. <i>American Journal of Public Health</i> , 2014 , 104, 904-10	5.1	65
104	Organizational downsizing and depressive symptoms in the European recession: the experience of workers in France, Hungary, Sweden and the United Kingdom. <i>PLoS ONE</i> , 2014 , 9, e97063	3.7	28
103	Cross-cultural validity of the demand-control questionnaire: Swedish and Brazilian workers. <i>Revista De Saude Publica</i> , 2014 , 48, 486-96	2.4	10
102	Job strain and depressive symptoms in men and women: a prospective study of the working population in Sweden. <i>Journal of Epidemiology and Community Health</i> , 2014 , 68, 78-82	5.1	68
101	Age-related trajectories of physical functioning in work and retirement: the role of sociodemographic factors, lifestyle and disease. <i>Journal of Epidemiology and Community Health</i> , 2014 , 68, 503-9	5.1	49
100	Does lean implementation interact with group functioning?. <i>Journal of Health Organization and Management</i> , 2014 , 28, 196-213	1.9	16
99	Job strain and the risk of severe asthma exacerbations: a meta-analysis of individual-participant data from 100 000 European men and women. <i>Allergy: European Journal of Allergy and Clinical Immunology</i> , 2014 , 69, 775-83	9.3	16

98	Interactions between lean management and the psychosocial work environment in a hospital setting - a multi-method study. <i>BMC Health Services Research</i> , 2014 , 14, 480	2.9	18
97	Is transition to disability pension in young people associated with changes in risk of attempted suicide?. <i>Psychological Medicine</i> , 2014 , 44, 2331-8	6.9	9
96	Hospital organizational factors influence work-family conflict in registered nurses: Multilevel modeling of a nation-wide cross-sectional survey in Sweden. <i>International Journal of Nursing Studies</i> , 2014 , 51, 744-51	5.8	26
