#	ARTICLE	IF	CITATIONS
1	A fractional-order model of COVID-19 considering the fear effect of the media and social networks on the community. <i>Chaos, Solitons and Fractals</i> , 2021, 152, 111403.	5.1	23
2	Multistage Estimation of the Scale Parameter of Rayleigh Distribution with Simulation. <i>Symmetry</i> , 2020, 12, 1925.	2.2	3
3	Multistage Estimation of the Rayleigh Distribution Variance. <i>Symmetry</i> , 2020, 12, 2084.	2.2	2
4	Mathematical modeling of breast cancer in a mixed immune-chemotherapy treatment considering the effect of ketogenic diet. <i>European Physical Journal Plus</i> , 2020, 135, 1.	2.6	7
5	Analysis of the outbreak of the novel coronavirus COVID-19 dynamic model with control mechanisms. <i>Results in Physics</i> , 2020, 19, 103586.	4.1	15
6	A mathematical model of the evolution and spread of pathogenic coronaviruses from natural host to human host. <i>Chaos, Solitons and Fractals</i> , 2020, 138, 109931.	5.1	24
7	Performance of Three-Stage Sequential Estimation of the Normal Inverse Coefficient of Variation Under Type II Error Probability: A Monte Carlo Simulation Study. <i>Frontiers in Physics</i> , 2020, 8, .	2.1	5
8	Mathematical modeling of the immune-chemotherapeutic treatment of breast cancer under some control parameters. <i>Advances in Difference Equations</i> , 2020, 2020, .	3.5	11
9	Three-Stage Estimation of the Mean and Variance of the Normal Distribution with Application to an Inverse Coefficient of Variation with Computer Simulation. <i>Mathematics</i> , 2019, 7, 831.	2.2	5
10	Bifurcation and Stability Analysis of a System of Fractional-Order Differential Equations for a Plant-Herbivore Model with Allee Effect. <i>Mathematics</i> , 2019, 7, 454.	2.2	17
11	Three-Stage Sequential Estimation of the Inverse Coefficient of Variation of the Normal Distribution. <i>Computation</i> , 2019, 7, 69.	2.0	4
