#	ARTICLE	IF	CITATIONS
1	Competitive Reduction by Satyrization? Evidence for Interspecific Mating in Nature and Asymmetric Reproductive Competition between Invasive Mosquito Vectors. <i>American Journal of Tropical Medicine and Hygiene</i> , 2011, 85, 265-270.	1.4	107
2	Habitat Segregation of Mosquito Arbovirus Vectors in South Florida. <i>Journal of Medical Entomology</i> , 2006, 43, 1134-1141.	1.8	101
3	Habitat Segregation of Mosquito Arbovirus Vectors in South Florida. <i>Journal of Medical Entomology</i> , 2006, 43, 1134-1141.	1.8	78
4	Coexistence of <i>Aedes aegypti</i> and <i>Aedes albopictus</i> (Diptera: Culicidae) in Peninsular Florida Two Decades After Competitive Displacements. <i>Journal of Medical Entomology</i> , 2016, 53, 1385-1390.	1.8	57
5	Your worst enemy could be your best friend: predator contributions to invasion resistance and persistence of natives. <i>Oecologia</i> , 2010, 162, 709-718.	2.0	41
6	Community Ecology of Container Mosquitoes (Diptera: Culicidae) in Virginia Following Invasion by <i>Aedes japonicus</i> . <i>Journal of Medical Entomology</i> , 2012, 49, 1318-1327.	1.8	35
7	Larval competition between <i>Aedes japonicus</i> and <i>Aedes atropalpus</i> (Diptera: Culicidae) in simulated rock pools. <i>Journal of Vector Ecology</i> , 2008, 33, 238-246.	1.0	34
8	Nightly biting cycles of malaria vectors in a heterogeneous transmission area of eastern Amazonian Brazil. <i>Malaria Journal</i> , 2013, 12, 262.	2.3	25
9	Male origin determines satyrization potential of <i>Aedes aegypti</i> by invasive <i>Aedes albopictus</i> . <i>Biological Invasions</i> , 2018, 20, 653-664.	2.4	14
10	Diapause influenced oviposition behavior and physical egg hatch cues of <i>Aedes atropalpus</i> (Diptera: Culicidae): traits that may influence successful colonization of riverine rock pools. <i>Journal of Vector Ecology</i> , 2020, 45, 197-203.	1.0	2
