#	ARTICLE	IF	CITATIONS
1	Associations between pathological eating, relational attitudes and satisfaction in romantic relationships. <i>Eating and Weight Disorders</i> , 2022, 27, 1385-1393.	1.2	8
2	Interparental conflict and relational attitudes within romantic relationships: The mediating role of attachment orientations. <i>Journal of Social and Personal Relationships</i> , 2022, 39, 1648-1668.	1.4	7
3	Associations of self-repression with disordered eating and symptoms of other psychopathologies for men and women. <i>Journal of Eating Disorders</i> , 2022, 10, 41.	1.3	2
4	Sense of Relationship Entitlement of Aging Parents Toward Their Offspring (SRE-ao) – A New Concept and Measurement Tool. <i>Frontiers in Psychology</i> , 2022, 13, .	1.1	2
5	Attachment, Sense of Entitlement in Romantic Relationships, and Sexual Revictimization Among Adult CSA Survivors. <i>Journal of Interpersonal Violence</i> , 2021, 36, NP10720-NP10743.	1.3	14
6	Attitudes towards eating disorders clinicians with personal experience of an eating disorder. <i>Eating and Weight Disorders</i> , 2021, 26, 1881-1891.	1.2	2
7	Sexual orientation and disordered eating in women: a meta-analysis. <i>Eating and Weight Disorders</i> , 2021, 26, 13-25.	1.2	18
8	The Eating Disorders Recovery Questionnaire: psychometric properties and validity. <i>Eating and Weight Disorders</i> , 2021, 26, 2633-2643.	1.2	5
9	Two to Tango? The Dance of Maternal Authority and Feeding Practices with Child Eating Behavior. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 1650.	1.2	7
10	Eating Disorder Examination Questionnaire (EDE-Q-13): expanding on the short form. <i>Journal of Eating Disorders</i> , 2021, 9, 57.	1.3	13
11	Eating for numbing: a community-based study of trauma exposure, emotion dysregulation, dissociation, body dissatisfaction and eating disorder symptoms. <i>PeerJ</i> , 2021, 9, e11899.	0.9	8
12	Intergenerational Transmission of Child Feeding Practices. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 8183.	1.2	10
13	Refining the Assessment of Entitlement in Romantic Relationships: The Sense of Relational Entitlement Scale – Revised (SRE-R). <i>Frontiers in Psychology</i> , 2021, 12, 744618.	1.1	6
14	Trauma, Post-Traumatic Stress Disorder, and Mental Health Care of Asylum Seekers. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 10661.	1.2	4
15	Weight gain, feeding and eating in the first year of life of babies of smoking and non-smoking mothers. <i>Early Human Development</i> , 2020, 140, 104889.	0.8	2
16	A longitudinal study of maternal feeding and children's picky eating. <i>Appetite</i> , 2020, 154, 104804.	1.8	9
17	Enjoying your body: The psychometric properties of an English version of the Dresden Body Image Questionnaire. <i>Australian Journal of Psychology</i> , 2020, 72, 267-275.	1.4	5
18	Potential Risk and Protective Factors for Eating Disorders in Haredi (ultra-Orthodox) Jewish Women. <i>Journal of Religion and Health</i> , 2019, 58, 2161-2174.	0.8	13

#	ARTICLE	IF	CITATIONS
19	Thankful for what? The efficacy of interventions targeting interpersonal versus noninterpersonal gratitude.. Canadian Journal of Behavioural Science, 2019, 51, 27-36.	0.5	15
20	Child and Maternal Correlates of Picky Eating in Young Children. Psychology, 2019, 10, 1249-1261.	0.3	11
21	The association between sleep disturbances of children with anxiety disorders and those of their mothers. Sleep Medicine, 2018, 43, 77-82.	0.8	6
22	The effect of marital and migrant status on the psychological distress of low socioeconomic mothers and their children in Israel. Children and Youth Services Review, 2018, 95, 254-262.	1.0	0
23	Can Recovery From an Eating Disorder Be Measured? Toward a Standardized Questionnaire. Frontiers in Psychology, 2018, 9, 2456.	1.1	15
24	Lives on the Line: The Online Lives of Girls and Women With and Without a Lifetime Eating Disorder Diagnosis. Frontiers in Psychology, 2018, 9, 2128.	1.1	17
25	A Model for the Formation of Maternal Authority Styles Starting from Attachment, and Mediated by Temperament and Character. International Journal of Psychology & Behavior Analysis, 2018, 4, .	0.2	2
26	Sex-specific effect of intranasal vasopressin, but not oxytocin, on emotional recognition and perception in schizophrenia patients. European Psychiatry, 2017, 41, S387-S388.	0.1	5
27	The EDE-Q in Hebrew: Structural and Convergent/Divergent Validity in a Population Sample. , 2017, 54, 15-20.		6
28	Editorial: New Horizons in the Classification, Biology and Management of Eating Disorders. , 2017, 54, 22-27.		0
29	My Sister Myself: A Controlled Study of the Relationship Between Women with a Lifetime Diagnosis of Anorexia Nervosa and Their Sisters. European Eating Disorders Review, 2016, 24, 466-473.	2.3	7
30	Think Yourself Thin: Concern for Appropriateness Mediates the Link Between Hypnotizability and Disordered Eating. International Journal of Clinical and Experimental Hypnosis, 2016, 64, 225-238.	1.1	5
31	The association between sexual orientation, susceptibility to social messages and disordered eating in men. Appetite, 2016, 99, 25-33.	1.8	32
32	Dopamine D4 receptor gene and religious affiliation correlate with dictator game altruism in males and not females: evidence for gender-sensitive gene × culture interaction. Frontiers in Neuroscience, 2015, 9, 338.	1.4	7
33	Virtue, values, genes, and psychological well-being. , 2015, , 114-131.		0
34	The sorting test of the DêKEFS in current and weight restored anorexia nervosa patients. International Journal of Eating Disorders, 2014, 47, 92-98.	2.1	10
35	The role of oxytocin and vasopressin in emotional and social behaviors. Handbook of Clinical Neurology / Edited By P J Vinken and G W Bruyn, 2014, 124, 53-68.	1.0	40
36	Hypnotizability Is Associated With a Protective but Not Acquisitive Self-Presentation Style. International Journal of Clinical and Experimental Hypnosis, 2013, 61, 183-192.	1.1	1

#	ARTICLE	IF	CITATIONS
37	Defensive self-presentation style is associated with reduced prepulse inhibition. <i>European Neuropsychopharmacology</i> , 2011, 21, 810-813.	0.3	2
38	The Relevance of Pathological Altruism to Eating Disorders. , 2011, , 95-106.		3
39	Exposing K-12 students to science and engineering. , 2009, , .		4
40	Association between arginine vasopressin 1a receptor (AVPR1a) promoter region polymorphisms and prepulse inhibition. <i>Psychoneuroendocrinology</i> , 2009, 34, 901-908.	1.3	59
41	Self-Monitoring in Anorexia Nervosa. <i>International Journal of Social Psychiatry</i> , 2009, 55, 170-179.	1.6	10
42	The Psychometric Properties of the Revised Self-Monitoring Scale (RSMS) and the Concern for Appropriateness Scale (CAS) in Hebrew. <i>European Journal of Psychological Assessment</i> , 2009, 25, 8-15.	1.7	15
43	The Oxytocin Receptor (OXTR) Contributes to Prosocial Fund Allocations in the Dictator Game and the Social Value Orientations Task. <i>PLoS ONE</i> , 2009, 4, e5535.	1.1	230
44	Individual differences in allocation of funds in the dictator game associated with length of the arginine vasopressin 1a receptor RS3 promoter region and correlation between RS3 length and hippocampal mRNA. <i>Genes, Brain and Behavior</i> , 2008, 7, 266-275.	1.1	303
45	Molecular genetic studies of the arginine vasopressin 1a receptor (AVPR1a) and the oxytocin receptor (OXTR) in human behaviour: from autism to altruism with some notes in between. <i>Progress in Brain Research</i> , 2008, 170, 435-449.	0.9	95
46	Hypnotizability and Blink Rate:A Test of the Dopamine Hypothesis. <i>International Journal of Clinical and Experimental Hypnosis</i> , 2008, 56, 243-254.	1.1	11
47	Anorexia nervosa, perfectionism, and dopamine D4 receptor (DRD4). <i>American Journal of Medical Genetics Part B: Neuropsychiatric Genetics</i> , 2007, 144B, 748-756.	1.1	61
48	The relationship between selflessness levels and the severity of anorexia nervosa symptomatology. <i>European Eating Disorders Review</i> , 2007, 15, 213-220.	2.3	25
49	Provisional evidence that the arginine vasopressin 1a receptor gene is associated with musical memory. <i>Evolution and Human Behavior</i> , 2007, 28, 313-318.	1.4	40
50	An Examination of Cognitive Versus Behavioral Components of Recovery From Anorexia Nervosa. <i>Journal of Nervous and Mental Disease</i> , 2006, 194, 697-703.	0.5	85
51	How Anorexic-like Are the Symptom and Personality Profiles of Aesthetic Athletes?. <i>Medicine and Science in Sports and Exercise</i> , 2006, 38, 628-636.	0.2	38
52	No evidence for association between NOTCH4 and schizophrenia in a large family-based and caseâ€“control association analysis. <i>Psychiatric Genetics</i> , 2006, 16, 197-203.	0.6	6
53	Polymorphisms in the dopamine D4 receptor gene (DRD4) contribute to individual differences in human sexual behavior: desire, arousal and sexual function. <i>Molecular Psychiatry</i> , 2006, 11, 782-786.	4.1	103
54	Association between hs-CRP, Leisure-time Physical Activity and Body Weight in Children. <i>Medicine and Science in Sports and Exercise</i> , 2006, 38, S7.	0.2	0

#	ARTICLE	IF	CITATIONS
55	The Elusive World of Personality Genes. , 2006, , 263-279.		1
56	Dopaminergic polymorphisms associated with self-report measures of human altruism: a fresh phenotype for the dopamine D4 receptor. <i>Molecular Psychiatry</i> , 2005, 10, 333-335.	4.1	102
57	Fine mapping of a region on chromosome 8p gives evidence for a QTL contributing to individual differences in an anxiety-related personality trait: TPQ harm avoidance. <i>American Journal of Medical Genetics Part B: Neuropsychiatric Genetics</i> , 2005, 132B, 104-108.	1.1	23
58	Link Between Vasopressin Receptor AVPR1A Promoter Region Microsatellites and Measures of Social Behavior in Humans. <i>Journal of Individual Differences</i> , 2005, 26, 2-10.	0.5	50
59	AVPR1a and SLC6A4 Gene Polymorphisms Are Associated with Creative Dance Performance. <i>PLoS Genetics</i> , 2005, 1, e42.	1.5	166
60	Association Between the Insulin-Like Growth Factor 2 Gene (IGF2) and Scores on the Eating Attitudes Test in Nonclinical Subjects: A Family-Based Study. <i>American Journal of Psychiatry</i> , 2005, 162, 2256-2262.	4.0	13
61	Association of the Serotonin Transporter Gene With Smoking Behavior. <i>American Journal of Psychiatry</i> , 2005, 162, 924-930.	4.0	85
62	Siblings in the context of anorexia nervosa. <i>Israel Journal of Psychiatry and Related Sciences</i> , 2005, 42, 178-84.	0.5	9
63	Hypnotic Susceptibility: Multidimensional Relationships With Cloninger's Tridimensional Personality Questionnaire, COMT Polymorphisms, Absorption, and Attentional Characteristics. <i>International Journal of Clinical and Experimental Hypnosis</i> , 2004, 52, 47-72.	1.1	78
64	Association of the dopamine D5 receptor with attention deficit hyperactivity disorder (ADHD) and scores on a continuous performance test (TOVA). <i>American Journal of Medical Genetics Part A</i> , 2004, 127B, 73-77.	2.4	50
65	Association between a vasopressin receptor AVPR1A promoter region microsatellite and eating behavior measured by a self-report questionnaire (Eating Attitudes Test) in a family-based study of a nonclinical population. <i>International Journal of Eating Disorders</i> , 2004, 36, 451-460.	2.1	34
66	Tridimensional personality questionnaire trait of harm avoidance (anxiety proneness) is linked to a locus on chromosome 8p21. <i>American Journal of Medical Genetics Part A</i> , 2003, 117B, 66-69.	2.4	50
67	Family-based and case-control study of catechol-O-methyltransferase in schizophrenia among Palestinian Arabs. <i>American Journal of Medical Genetics Part A</i> , 2003, 119B, 35-39.	2.4	43
68	Anorexia Nervosa from a Family Perspective- Why Did Nobody Notice?. <i>American Journal of Family Therapy</i> , The, 2003, 31, 39-50.	0.8	2
69	No Link between Hypnotizability and the Self-Monitoring Scale. <i>American Journal of Clinical Hypnosis</i> , 2002, 45, 21-30.	0.3	5
70	Family-based and association studies of monoamine oxidase A and attention deficit hyperactivity disorder (ADHD): preferential transmission of the long promoter-region repeat and its association with impaired performance on a continuous performance test (TOVA). <i>Molecular Psychiatry</i> , 2002, 7, 626-632.	4.1	118
71	The short DRD4 repeats confer risk to attention deficit hyperactivity disorder in a family-based design and impair performance on a continuous performance test (TOVA). <i>Molecular Psychiatry</i> , 2002, 7, 790-794.	4.1	133
72	Freud's Relevance to Hypnosis: A Reevaluation. <i>American Journal of Clinical Hypnosis</i> , 2001, 44, 37-50.	0.3	13

#	ARTICLE	IF	CITATIONS
73	Exploratory association study between catechol-O-methyltransferase (COMT) high/low enzyme activity polymorphism and hypnotizability. American Journal of Medical Genetics Part A, 2000, 96, 771-774.	2.4	60
74	No association between the dopamine D3 receptor Bal I polymorphism and schizophrenia in a family-based study of a Palestinian Arab population. American Journal of Medical Genetics Part A, 2000, 96, 778-780.	2.4	18
75	An Interaction between the Catechol O-Methyltransferase and Serotonin Transporter Promoter Region Polymorphisms Contributes to Tridimensional Personality Questionnaire Persistence Scores in Normal Subjects. Neuropsychobiology, 2000, 41, 48-53.	0.9	59
