

Dawn P Gill

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/6633476/dawn-p-gill-publications-by-year.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
26	The Benefits of High-Intensity Interval Training on Cognition and Blood Pressure in Older Adults With Hypertension and Subjective Cognitive Decline: Results From the Heart & Mind Study. <i>Frontiers in Aging Neuroscience</i> , 2021 , 13, 643809	5.3	2
25	Memory Function and Brain Functional Connectivity Adaptations Following Multiple-Modality Exercise and Mind-Motor Training in Older Adults at Risk of Dementia: An Exploratory Sub-Study. <i>Frontiers in Aging Neuroscience</i> , 2020 , 12, 22	5.3	9
24	Systolic blood pressure dipping may be associated with mobility impairment and brain volume in community-dwelling older adults: An exploratory study. <i>Experimental Gerontology</i> , 2020 , 141, 111100	4.5	2
23	Innovative Exercise as an Intervention for Older Adults with Knee Osteoarthritis: A Pilot Feasibility Study. <i>Canadian Journal on Aging</i> , 2019 , 38, 111-121	1.6	1
22	Process evaluation of the HealthSteps lifestyle prescription program. <i>Translational Behavioral Medicine</i> , 2019 , 9, 32-40	3.2	3
21	Multiple-modality exercise and mind-motor training to improve mobility in older adults: A randomized controlled trial. <i>Experimental Gerontology</i> , 2018 , 103, 17-26	4.5	12
20	Results From a Feasibility Study of Square-Stepping Exercise in Older Adults With Type 2 Diabetes and Self-Reported Cognitive Complaints to Improve Global Cognitive Functioning. <i>Canadian Journal of Diabetes</i> , 2018 , 42, 603-612.e1	2.1	10
19	P1-626: DUAL-TASK GAIT AND CARDIORESPIRATORY FITNESS, BUT NOT VASCULAR HEALTH, PREDICT COGNITIVE FUNCTION IN COMMUNITY-DWELLING OLDER ADULTS WITH SUBJECTIVE COGNITIVE COMPLAINTS 2018 , 14, P580-P581		
18	The Impact of Blood Pressure Dipping Status on Cognition, Mobility, and Cardiovascular Health in Older Adults Following an Exercise Program. <i>Gerontology and Geriatric Medicine</i> , 2018 , 4, 2333721418770333	2.3	2
17	Long-Term Maintenance of Executive-Related Oculomotor Improvements in Older Adults with Self-Reported Cognitive Complaints Following a 24-Week Multiple Modality Exercise Program. <i>Journal of Alzheimers Disease</i> , 2017 , 58, 17-22	4.3	4
16	Combined Dual-Task Gait Training and Aerobic Exercise to Improve Cognition, Mobility, and Vascular Health in Community-Dwelling Older Adults at Risk for Future Cognitive Decline ¹ . <i>Journal of Alzheimers Disease</i> , 2017 , 57, 747-763	4.3	29
15	Optimization of the Hockey Fans in Training (Hockey FIT) weight loss and healthy lifestyle program for male hockey fans. <i>BMC Public Health</i> , 2017 , 17, 916	4.1	8
14	HealthSteps Study Protocol: a pragmatic randomized controlled trial promoting active living and healthy lifestyles in at-risk Canadian adults delivered in primary care and community-based clinics. <i>BMC Public Health</i> , 2017 , 17, 173	4.1	10
13	Multiple-modality exercise and mind-motor training to improve cardiovascular health and fitness in older adults at risk for cognitive impairment: A randomized controlled trial. <i>Archives of Gerontology and Geriatrics</i> , 2017 , 68, 149-160	4	8
12	Hockey Fans in Training (Hockey FIT) pilot study protocol: a gender-sensitized weight loss and healthy lifestyle program for overweight and obese male hockey fans. <i>BMC Public Health</i> , 2016 , 16, 10964.1	4.1	19
11	The Healthy Mind, Healthy Mobility Trial: A Novel Exercise Program for Older Adults. <i>Medicine and Science in Sports and Exercise</i> , 2016 , 48, 297-306	1.2	30
10	Group-based exercise combined with dual-task training improves gait but not vascular health in active older adults without dementia. <i>Archives of Gerontology and Geriatrics</i> , 2016 , 63, 18-27	4	14

9	Associations between heart rate variability, metabolic syndrome risk factors, and insulin resistance. <i>Applied Physiology, Nutrition and Metabolism</i> , 2015 , 40, 734-40	3	18
8	Effect of eprosartan-based antihypertensive therapy on coronary heart disease risk assessed by Framingham methodology in Canadian patients with diabetes: results of the POWER survey. <i>Diabetes, Metabolic Syndrome and Obesity: Targets and Therapy</i> , 2015 , 8, 173-80	3.4	1
7	Effect of eprosartan-based antihypertensive therapy on coronary heart disease risk assessed by Framingham methodology in Canadian patients: results of the POWER survey. <i>Vascular Health and Risk Management</i> , 2014 , 10, 63-74	4.4	1
6	Differences in rate of functional decline across three dementia types. <i>Alzheimer's and Dementia</i> , 2013 , 9, S63-71	1.2	22
5	Brain health and exercise in older adults. <i>Current Sports Medicine Reports</i> , 2013 , 12, 256-71	1.9	45
4	Using a single question to assess physical activity in older adults: a reliability and validity study. <i>BMC Medical Research Methodology</i> , 2012 , 12, 20	4.7	43
3	Risk of decline in functional activities in dementia with Lewy bodies and Alzheimer disease. <i>Alzheimer Disease and Associated Disorders</i> , 2011 , 25, 17-23	2.5	7
2	Comparison of regression models for the analysis of fall risk factors in older veterans. <i>Annals of Epidemiology</i> , 2009 , 19, 523-30	6.4	25
1	Injurious falls are associated with lower household but higher recreational physical activities in community-dwelling older male veterans. <i>Gerontology</i> , 2008 , 54, 106-15	5.5	19
