citing authors

#	ARTICLE	IF	CITATIONS
1	Care4Parents: An Evaluation of an Online Mindful Parenting Program for Caregivers of Children with 22q11.2 Deletion Syndrome. <i>Advances in Neurodevelopmental Disorders</i> , 2024, 9, 195-212.	1.4	0
2	Psychological Interventions for Individuals with 22q11.2 Deletion Syndrome: a Systematic Review. <i>Advances in Neurodevelopmental Disorders</i> , 2024, 8, 511-523.	1.4	0
3	Effect of fractional exhaled nitric oxide (FENO)-based asthma management during pregnancy versus usual care on infant development, temperament, sensory function and autism signs. <i>European Journal of Pediatrics</i> , 2024, 183, 3199-3210.	2.3	1
4	Using Family Therapy in the Context of Autism: A Scoping Review. <i>Review Journal of Autism and Developmental Disorders</i> , 2024, , .	2.2	0
5	Autism likelihood in infants born to mothers with asthma is associated with blood inflammatory gene biomarkers in pregnancy. <i>Brain, Behavior, &amp; Immunity - Health</i> , 2024, 40, 100845.	2.5	0
6	The effectiveness of cognitive behavioural therapy for individuals with an intellectual disability and anxiety: a systematic review. <i>Journal of Intellectual Disability Research</i> , 2023, 67, 816-841.	2.1	10
7	Effects of copy number variations on brain structure and risk for psychiatric illness: Large-scale studies from the ENIGMA working groups on CNVs. <i>Human Brain Mapping</i> , 2022, 43, 300-328.	3.8	40
8	Domains and measures of social cognition in acquired brain injury: A scoping review. <i>Neuropsychological Rehabilitation</i> , 2022, 32, 2429-2463.	2.4	16
9	Experiences of non-invasive prenatal screening: A survey study. <i>Australian and New Zealand Journal of Obstetrics and Gynaecology</i> , 2022, 62, 241-249.	1.3	11
10	What parents want to know in the first postnatal year: A Delphi consensus study. <i>Child: Care, Health and Development</i> , 2021, 47, 47-56.	2.3	5
11	Prioritizing Genetic Contributors to Cortical Alterations in 22q11.2 Deletion Syndrome Using Imaging Transcriptomics. <i>Cerebral Cortex</i> , 2021, 31, 3285-3298.	2.9	8
12	Quality and Quantity: A Study of Father-Toddler Rough-and-Tumble Play. <i>Journal of Child and Family Studies</i> , 2021, 30, 1275-1289.	1.4	9
13	Gene Deletion and Sleep Depletion: Exploring the Relationship Between Sleep and Affect in 22q11.2 Deletion Syndrome. <i>Journal of Genetic Psychology</i> , 2021, 182, 304-316.	2.0	8
14	The Importance of Understanding Individual Differences of Emotion Regulation Abilities in 22q11.2 Deletion Syndrome. <i>Journal of Autism and Developmental Disorders</i> , 2021, 52, 3076-3087.	2.3	1
15	Stigma Associated with Parenting an Autistic Child with Aggressive Behaviour: a Systematic Review. <i>Review Journal of Autism and Developmental Disorders</i> , 2021, 10, 281-294.	2.2	4
16	Developmental Profiles of Infants with an Elevated Likelihood of Autism Who Were Born to Mothers with Asthma: a Case Series. <i>Advances in Neurodevelopmental Disorders</i> , 2021, , .	1.4	0
17	Early Sensory and Temperament Features in Infants Born to Mothers With Asthma: A Cross-Sectional Study. <i>Frontiers in Psychology</i> , 2021, 12, .	2.5	3
18	A First Step to Supporting the Coparenting Relationship and Reducing Child Behaviour Problems: A Delphi Consensus Study. <i>Journal of Child and Family Studies</i> , 2021, 31, 276-292.	1.4	1

#	ARTICLE	IF	CITATIONS
19	E-technology social support programs for autistic children: Can they work?. World Journal of Psychiatry, 2021, 11, 1239-1246.	3.1	4
20	Observational study of mental health in asthmatic women during the prenatal and postnatal periods. Journal of Asthma, 2020, 57, 829-841.	1.8	10
21	The temperament features associated with autism spectrum disorder in childhood: A systematic review. Research in Developmental Disabilities, 2020, 104, 103711.	2.3	19
22	Be Healthier for Your Heart: A Pilot Randomized Controlled Trial Evaluating a Web-Based Behavioral Intervention to Improve the Cardiovascular Health of Women with a History of Preeclampsia. International Journal of Environmental Research and Public Health, 2020, 17, 5779.	3.1	20
23	Using common genetic variation to examine phenotypic expression and risk prediction in 22q11.2 deletion syndrome. Nature Medicine, 2020, 26, 1912-1918.	25.6	93
24	Mapping Subcortical Brain Alterations in 22q11.2 Deletion Syndrome: Effects of Deletion Size and Convergence With Idiopathic Neuropsychiatric Illness. American Journal of Psychiatry, 2020, 177, 589-600.	10.5	53
25	"Can She" be able to live independently" as long as I"m around": The "lived" experience of parenting a child with 22q11.2 deletion syndrome in the transition to adulthood. Journal of Applied Research in Intellectual Disabilities, 2020, 33, 565-573.	2.2	10
26	Genetic contributors to risk of schizophrenia in the presence of a 22q11.2 deletion. Molecular Psychiatry, 2020, 26, 4496-4510.	8.3	89
27	The effects of maternal asthma during pregnancy on child cognitive and behavioral development: A systematic review. Journal of Asthma, 2019, 56, 130-141.	1.8	19
28	Altered white matter microstructure in 22q11.2 deletion syndrome: a multisite diffusion tensor imaging study. Molecular Psychiatry, 2019, 25, 2818-2831.	8.3	48
29	Asthma: Interrelationships with Pregnancy. , 2019, , 29-45.		0
30	Depression and anxiety symptoms during the transition to early adulthood for people with intellectual disabilities. Journal of Intellectual Disability Research, 2018, 62, 407-421.	2.1	29
31	Severity of illness and adaptive functioning predict quality of care of children among parents with psychosis: A confirmatory factor analysis. Australian and New Zealand Journal of Psychiatry, 2018, 52, 435-445.	2.7	25
32	Cardiovascular disease lifestyle risk factors in people with psychosis: a cross-sectional study. BMC Public Health, 2018, 18, .	3.3	8
33	Large-scale mapping of cortical alterations in 22q11.2 deletion syndrome: Convergence with idiopathic psychosis and effects of deletion size. Molecular Psychiatry, 2018, 25, 1822-1834.	8.3	112
34	Alternative diffusion anisotropy measures for the investigation of white matter alterations in 22q11.2 deletion syndrome. , 2018, , .		1
35	Could I, should I? Parenting aspirations and personal considerations of five young women with 22q11.2 deletion syndrome. Journal of Intellectual and Developmental Disability, 2017, 42, 364-374.	2.1	5
36	"At the end of the day, it is more important that he stays happy": an interpretative phenomenological analysis of people who have a sibling with 22q11.2 deletion syndrome. Journal of Intellectual Disability Research, 2017, 61, 888-898.	2.1	3

#	ARTICLE	IF	CITATIONS
37	Distress and Psychological Growth in Parenting an Adult Child with Autism Spectrum Disorder and Aggression. <i>Advances in Neurodevelopmental Disorders</i> , 2017, 1, 260-270.	1.4	12
38	Men and women with psychosis and the impact of illness-duration on sex-differences: The second Australian national survey of psychosis. <i>Psychiatry Research</i> , 2017, 256, 130-143.	3.4	18
39	Positive and Negative Experiences of Parenting a Pre-school Child with 22q11.2 Deletion Syndrome. <i>Advances in Neurodevelopmental Disorders</i> , 2017, 1, 63-72.	1.4	6
40	“You don’t know until you get there”: The positive and negative “lived” experience of parenting an adult child with 22q11.2 deletion syndrome. <i>Health Psychology</i> , 2017, 36, 45-54.	3.0	22
41	Social Dysfunction and Diet Outcomes in People with Psychosis. <i>Nutrients</i> , 2017, 9, 80.	4.6	12
42	Visual perception and processing in children with 22q11.2 deletion syndrome: associations with social cognition measures of face identity and emotion recognition. <i>Journal of Neurodevelopmental Disorders</i> , 2016, 8, .	3.7	24
43	An fMRI study of facial emotion processing in children and adolescents with 22q11.2 deletion syndrome. <i>Journal of Neurodevelopmental Disorders</i> , 2015, 7, .	3.7	55
44	Parents with serious mental illness: Differences in internalised and externalised mental illness stigma and gender stigma between mothers and fathers. <i>Psychiatry Research</i> , 2015, 225, 723-733.	3.4	36
45	ISDN2014_0211: An fMRI study of facial emotion processing in children and adolescents with 22q11.2 deletion syndrome. <i>International Journal of Developmental Neuroscience</i> , 2015, 47, 63-63.	1.6	0
46	High anxiety levels are associated with divergent empathising and systemising tendencies. <i>Cogent Psychology</i> , 2014, 1, 981973.	1.6	2
47	Pre-pulse inhibition and antisaccade performance indicate impaired attention modulation of cognitive inhibition in 22q11.2 deletion syndrome (22q11DS). <i>Journal of Neurodevelopmental Disorders</i> , 2014, 6, .	3.7	13
48	Psychiatric Disorders From Childhood to Adulthood in 22q11.2 Deletion Syndrome: Results From the International Consortium on Brain and Behavior in 22q11.2 Deletion Syndrome. <i>American Journal of Psychiatry</i> , 2014, 171, 627-639.	10.5	625
49	Subtypes in 22q11.2 deletion syndrome associated with behaviour and neurofacial morphology. <i>Research in Developmental Disabilities</i> , 2013, 34, 116-125.	2.3	11
50	Divergent Patterns of Social Cognition Performance in Autism and 22q11.2 Deletion Syndrome (22q11DS). <i>Journal of Autism and Developmental Disorders</i> , 2013, 43, 1926-1934.	2.3	32
51	Understanding the social costs of psychosis: The experience of adults affected by psychosis identified within the second Australian national survey of psychosis. <i>Australian and New Zealand Journal of Psychiatry</i> , 2012, 46, 879-889.	2.7	128
52	Visual scanpath abnormalities in 22q11.2 deletion syndrome: Is this a face specific deficit?. <i>Psychiatry Research</i> , 2011, 189, 292-298.	3.4	36
53	Is theory of mind related to social dysfunction and emotional problems in 22q11.2 deletion syndrome (velo-cardio-facial syndrome)?. <i>Journal of Neurodevelopmental Disorders</i> , 2011, 3, 152-161.	3.7	49
54	White matter microstructure in 22q11 deletion syndrome: a pilot diffusion tensor imaging and voxel-based morphometry study of children and adolescents. <i>Journal of Neurodevelopmental Disorders</i> , 2010, 2, 77-92.	3.7	36

#	ARTICLE	IF	CITATIONS
55	Executive Functions and Memory Abilities in Children With 22q11.2 Deletion Syndrome. Australian and New Zealand Journal of Psychiatry, 2010, 44, 364-371.	2.7	70
56	A comparative study of cognition and brain anatomy between two neurodevelopmental disorders: 22q11.2 deletion syndrome and Williams syndrome. Neuropsychologia, 2009, 47, 1034-1044.	1.8	32
57	Brain structural differences associated with the behavioural phenotype in children with Williams syndrome. Brain Research, 2009, 1258, 96-107.	2.5	71
58	Visuospatial working memory in children and adolescents with 22q11.2 deletion syndrome; an fMRI study. Journal of Neurodevelopmental Disorders, 2009, 1, 46-60.	3.7	29
59	Primary and secondary neural networks of auditory prepulse inhibition: a functional magnetic resonance imaging study of sensorimotor gating of the human acoustic startle response. European Journal of Neuroscience, 2007, 26, 2327-2333.	3.7	69
60	Brain and behaviour in children with 22q11.2 deletion syndrome: a volumetric and voxel-based morphometry MRI study. Brain, 2006, 129, 1218-1228.	8.9	161
61	Discriminating Power of Localized Three-Dimensional Facial Morphology. American Journal of Human Genetics, 2005, 77, 999-1010.	6.8	123
62	3D analysis of facial morphology. American Journal of Medical Genetics Part A, 2004, 126A, 339-348.	0.6	191
63	Parenting stress in mothers with asthma during the postpartum period. Journal of Asthma, 0, , 1-13.	1.8	1
