citing authors

| #  | ARTICLE  | IF  | CITATIONS |
|----|--|-----|-----------|
| 1  | Discrepancies Between Beliefs and Practices on Sleep as a Factor of Insomnia and Negative Feelings. Psychological Reports, 2021, , 003329412110126.  | 0.9 | 0         |
| 2  | Counteracting effect of verbal ratings of sleepiness on dual task interference. Industrial Health, 2020, 58, 443-450.  | 0.4 | 0         |
| 3  | Tracking intermediate performance of vigilant attention using multiple eye metrics. Sleep, 2020, 43, .   | 0.6 | 9         |
| 4  | Positive associations of optimism and pessimism orientation with pro-environmental behavior and subjective well-being: a longitudinal study on quality of life and everyday behavior. Quality of Life Research, 2019, 28, 3323-3332. | 1.5 | 33        |
| 5  | Hearing own or other's name has different effects on monotonous task performance. PLoS ONE, 2018, 13, e0203966.  | 1.1 | 4         |
| 6  | Attentional lapses are reduced by repeated stimuli having own-name during a monotonous task. PLoS ONE, 2018, 13, e0194065.   | 1.1 | 9         |
| 7  | Wake up for the environment: An association between sleepiness and pro-environmental behavior. Personality and Individual Differences, 2017, 104, 12-17.   | 1.6 | 14        |
| 8  | Interactive effects of visuomotor perturbation and an afternoon nap on performance and the flow experience. PLoS ONE, 2017, 12, e0171907.  | 1.1 | 5         |
| 9  | Pro-environmental behavior correlates with present and future subjective well-being. Environment, Development and Sustainability, 2016, 18, 111-127.   | 2.7 | 89        |
| 10 | Safety and efficacy of treatment with liposomal amphotericin B in elderly patients at least 65 years old with hematological diseases. Journal of Infection and Chemotherapy, 2016, 22, 287-291.                                      | 0.8 | 9         |
| 11 | Facilitating Pro-environmental Behavior: The Role of Pessimism and Anthropocentric Environmental Values. Social Indicators Research, 2016, 126, 1243-1260.   | 1.4 | 37        |
| 12 | Role of sleep for encoding of emotional memory. Neurobiology of Learning and Memory, 2015, 121, 72-79.   | 1.0 | 34        |
| 13 | Spillover effect of congestion charging on pro-environmental behavior. Environment, Development and Sustainability, 2015, 17, 409-421.   | 2.7 | 25        |
| 14 | Total sleep deprivation decreases flow experience and mood status. Neuropsychiatric Disease and Treatment, 2014, 10, 19.   | 1.0 | 14        |
| 15 | Dopamine D2-like Receptor Activation Wipes Out Preferential Consolidation of High over Low Reward Memories during Human Sleep. Journal of Cognitive Neuroscience, 2014, 26, 2310-2320.   | 1.1 | 74        |
| 16 | The effects of short afternoon nap and bright light on task switching performance and error-related negativity. Sleep and Biological Rhythms, 2013, 11, 125-134.   | 0.5 | 18        |
| 17 | The Relationship between Flow, Sleepiness and Cognitive Performance: The Effects of Short Afternoon Nap and Bright Light Exposure. Industrial Health, 2012, 50, 189-196.   | 0.4 | 17        |
| 18 | Can a short nap and bright light function as implicit learning and visual search enhancers?. Ergonomics, 2012, 55, 1340-1349.  | 1.1 | 10        |

| #  | ARTICLE   | IF  | CITATIONS |
|----|---|-----|-----------|
| 19 | Performance prediction by sleepiness-related subjective symptoms during 26-hour sleep deprivation. <i>Sleep and Biological Rhythms</i> , 2008, 6, 234-241.                    | 0.5 | 3         |
| 20 | Use of Subjective and Physiological Indicators of Sleepiness to Predict Performance during a Vigilance Task. <i>Industrial Health</i> , 2007, 45, 520-526.                    | 0.4 | 55        |
| 21 | Sickness Absence in Relation to Psychosocial Work Factors among Daytime Workers in an Electric Equipment Manufacturing Company. <i>Industrial Health</i> , 2007, 45, 224-231. | 0.4 | 20        |
| 22 | A Short Nap and Natural Bright Light Exposure Improve Positive Mood Status. <i>Industrial Health</i> , 2007, 45, 301-308.   | 0.4 | 54        |
| 23 | The effects of asking for verbal ratings of sleepiness on sleepiness and its masking effects on performance. <i>Clinical Neurophysiology</i> , 2007, 118, 1324-1331.          | 0.7 | 28        |
| 24 | Psychosocial Work Characteristics Predicting Daytime Sleepiness in Day and Shift Workers. <i>Chronobiology International</i> , 2006, 23, 1409-1422.                           | 0.9 | 39        |
| 25 | Validation of the Karolinska sleepiness scale against performance and EEG variables. <i>Clinical Neurophysiology</i> , 2006, 117, 1574-1581.                                  | 0.7 | 683       |
| 26 | Indoor Exposure to Natural Bright Light Prevents Afternoon Sleepiness. <i>Sleep</i> , 2006, 29, 462-469.  | 0.6 | 69        |
| 27 | Self-Awakening, Sleep Inertia, and P3 Amplitude in Elderly People. <i>Perceptual and Motor Skills</i> , 2006, 102, 339-351.   | 0.6 | 11        |
| 28 | Perceived Sleepiness of Non-Shift Working Men in Two Different Types of Work Organization. <i>Journal of Occupational Health</i> , 2006, 48, 230-238.                         | 1.0 | 7         |
| 29 | Self-Awakening Prevents Acute Rise in Blood Pressure and Heart Rate at the Time of Awakening in Elderly People. <i>Industrial Health</i> , 2005, 43, 179-185.                 | 0.4 | 8         |
| 30 | The effects of self-awakening on heart rate activity in a short afternoon nap. <i>Clinical Neurophysiology</i> , 2003, 114, 1896-1901.  | 0.7 | 31        |
