|----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | Psychometric Testing of the Defense and Veterans Pain Rating Scale (DVPRS): A New Pain Scale for Military Population. <i>Pain Medicine</i> , 2016, 17, 1505-1519.                                                                                                                                   | 0.9 | 96        |
| 2  | American Society for Enhanced Recovery and Perioperative Quality Initiative-4 Joint Consensus Statement on Persistent Postoperative Opioid Use: Definition, Incidence, Risk Factors, and Health Care System Initiatives. <i>Anesthesia and Analgesia</i> , 2019, 129, 543-552.                      | 1.1 | 91        |
| 3  | American Society for Enhanced Recovery and Perioperative Quality Initiative Joint Consensus Statement on Patient-Reported Outcomes in an Enhanced Recovery Pathway. <i>Anesthesia and Analgesia</i> , 2018, 126, 1874-1882.                                                                         | 1.1 | 73        |
| 4  | The ACTIONâ€‘APSâ€‘AAPM Pain Taxonomy (AAAPT) Multidimensional Approach to Classifying Acute Pain Conditions. <i>Pain Medicine</i> , 2017, 18, 947-958.                                                                                                                                             | 0.9 | 42        |
| 5  | The ACTIONâ€‘APSâ€‘AAPM Pain Taxonomy (AAAPT) Multidimensional Approach to Classifying Acute Pain Conditions. <i>Journal of Pain</i> , 2017, 18, 479-489.                                                                                                                                           | 0.7 | 38        |
| 6  | Benefits of the Restorative Exercise and Strength Training for Operational Resilience and Excellence Yoga Program for Chronic Low Back Pain in Service Members: A Pilot Randomized Controlled Trial. <i>Archives of Physical Medicine and Rehabilitation</i> , 2018, 99, 91-98.                     | 0.5 | 27        |
| 7  | Fascia Iliaca Blockade With the Addition of Liposomal Bupivacaine Versus Plain Bupivacaine for Perioperative Pain Management During Hip Arthroscopy: A Double-Blinded Prospective Randomized Control Trial. <i>Arthroscopy - Journal of Arthroscopic and Related Surgery</i> , 2019, 35, 2608-2616. | 1.3 | 23        |
| 8  | Perioperative Pain Management Strategies for Amputation: A Topical Review. <i>Pain Medicine</i> , 2017, 18, pnw110.                                                                                                                                                                                 | 0.9 | 16        |
| 9  | Ambulatory continuous peripheral nerve blocks to treat postamputation phantom limb pain: a multicenter, randomized, quadruple-masked, placebo-controlled clinical trial. <i>Pain</i> , 2021, 162, 938-955.                                                                                          | 2.0 | 15        |
| 10 | Fascia iliaca blockade with the addition of liposomal bupivacaine vs. plain bupivacaine for perioperative pain management following hip arthroscopy. <i>Knee Surgery, Sports Traumatology, Arthroscopy</i> , 2018, 26, 2536-2541.                                                                   | 2.3 | 10        |
| 11 | A Longitudinal Comparison of Patient-Reported Outcomes Measurement Information System to Legacy Scales in Knee and Shoulder Arthroscopy Patients. <i>Arthroscopy - Journal of Arthroscopic and Related Surgery</i> , 2021, 37, 185-194.e2.                                                          | 1.3 | 7         |
| 12 | Immediate Effects of a Continuous Peripheral Nerve Block on Postamputation Phantom and Residual Limb Pain: Secondary Outcomes From a Multicenter Randomized Controlled Clinical Trial. <i>Anesthesia and Analgesia</i> , 2021, 133, 1019-1027.                                                      | 1.1 | 6         |
| 13 | Safety in Acute Pain Medicineâ€‘Pharmacologic Considerations and the Impact of Systems-Based Gaps. <i>Pain Medicine</i> , 2018, 19, 2296-2315.                                                                                                                                                      | 0.9 | 4         |
| 14 | The ACTIONâ€‘APSâ€‘AAPM Pain Taxonomy (AAAPT) Diagnostic Criteria for Acute Pain Conditions: An Introduction. <i>Journal of Pain</i> , 2019, 20, 743-745.                                                                                                                                           | 0.7 | 2         |
| 15 | Caregiver Patient Reported Outcomes Measurement Information System (PROMIS) profiles in patients undergoing total joint arthroplasty and spine surgery: a prospective observational cohort study. <i>Regional Anesthesia and Pain Medicine</i> , 2019, , rapm-2019-100380.                          | 1.1 | 1         |
| 16 | Trends in multimodal analgesics among end-stage renal disease patients undergoing lower extremity amputation in the US from 2009 to 2018. <i>British Journal of Anaesthesia</i> , 2021, , .                                                                                                         | 1.5 | 1         |
| 17 | Custom procedure logging application facilitates real-time accurate data entry for fellowship programs. <i>Pain Medicine</i> , 0, , .                                                                                                                                                               | 0.9 | 0         |
