

Gil-Jae Yim

List of Publications by Citations

Source: <https://exaly.com/author-pdf/6727345/gil-jae-yim-publications-by-citations.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
28	Comparative effectiveness of mixed organic substrates to mushroom compost for treatment of mine drainage in passive bioreactors. <i>Chemosphere</i> , 2011 , 83, 76-82	8.4	41
27	Pilot-scale passive bioreactors for the treatment of acid mine drainage: efficiency of mushroom compost vs. mixed substrates for metal removal. <i>Journal of Environmental Management</i> , 2012 , 111, 150-158	7.9	39
26	Treatment of acidic coal mine drainage: design and operational challenges of successive alkalinity producing systems. <i>Mine Water and the Environment</i> , 2008 , 27, 12-19	2.4	29
25	Study on electrocoagulation parameters (current density, pH, and electrode distance) for removal of fluoride from groundwater. <i>Environmental Earth Sciences</i> , 2016 , 75, 1	2.9	23
24	Performance of Mixed Organic Substrates during Treatment of Acidic and Moderate Mine Drainage in Column Bioreactors. <i>Journal of Environmental Engineering, ASCE</i> , 2012 , 138, 1077-1084	2	18
23	An engineered cover system for mine tailings using a hardpan layer: a solidification/stabilization method for layer and field performance evaluation. <i>Journal of Hazardous Materials</i> , 2011 , 197, 153-60	12.8	18
22	Field application of selective precipitation for recovering Cu and Zn in drainage discharged from an operating mine. <i>Science of the Total Environment</i> , 2016 , 557-558, 212-20	10.2	17
21	The influences of the amount of organic substrate on the performance of pilot-scale passive bioreactors for acid mine drainage treatment. <i>Environmental Earth Sciences</i> , 2015 , 73, 4717-4727	2.9	16
20	Water defluorination using granular composite synthesized via hydrothermal treatment of polyaluminum chloride (PAC) sludge. <i>Chemosphere</i> , 2020 , 247, 125899	8.4	11
19	Applicability of electrochemical wastewater treatment system powered by temperature difference energy. <i>Journal of Hazardous Materials</i> , 2018 , 351, 108-116	12.8	11
18	ARD generation and corrosion potential of exposed roadside rockmass at Boeun and Mujoo, South Korea. <i>Environmental Geology</i> , 2007 , 52, 1033-1043		11
17	Efficiency assessment of cascade aerator in a passive treatment system for Fe(II) oxidation in ferruginous mine drainage of net alkaline. <i>Environmental Earth Sciences</i> , 2015 , 73, 5363-5373	2.9	9
16	Zirconia-Assisted Pyrolysis of Coffee Waste in CO Environment for the Simultaneous Production of Fuel Gas and Composite Adsorbent. <i>Journal of Hazardous Materials</i> , 2020 , 386, 121989	12.8	8
15	Study on distribution characteristics of some water parameters properties of mine drainage in an oxidation pond, Hwangji-Yuchang coal mine, South Korea. <i>Environmental Earth Sciences</i> , 2013 , 68, 241-249	2.9	8
14	Evaluation of design factors for a cascade aerator to enhance the efficiency of an oxidation pond for ferruginous mine drainage. <i>Environmental Technology (United Kingdom)</i> , 2016 , 37, 2483-93	2.6	7
13	Performance and bacterial communities of successive alkalinity-producing systems (SAPs) in passive treatment processes treating mine drainages differing in acidity and metal levels. <i>Environmental Science and Pollution Research</i> , 2014 , 21, 3722-32	5.1	7
12	Water quality changes of a closed underground coal mine in Korea. <i>Environmental Monitoring and Assessment</i> , 2012 , 184, 503-13	3.1	6

11	Evaluation of net acid generation pH as a single indicator for acid forming potential of rocks using geochemical properties. <i>Environmental Monitoring and Assessment</i> , 2017 , 189, 165	3.1	6
10	Seasonal effects of rainwater infiltration on volumetric water Content and water quality in mine wastes at the Gyopung mine, South Korea. <i>Journal of Geochemical Exploration</i> , 2012 , 116-117, 8-16	3.8	5
9	Longevity of organic layers of vertical flow ponds for sulfate reduction in treating mine drainages in South Korea. <i>Environmental Geochemistry and Health</i> , 2012 , 34 Suppl 1, 115-21	4.7	4
8	Assessment of the potential occurrence of acid rock drainage through a geochemical stream sediment survey. <i>Environmental Earth Sciences</i> , 2015 , 73, 3375-3386	2.9	3
7	An investigation into precipitate behaviour for effective operation of settling tanks through selective precipitation. <i>Water and Environment Journal</i> , 2018 , 32, 527-536	1.7	3
6	Reliability improvement for predicting acid-forming potential of rock samples using static tests. <i>Environmental Monitoring and Assessment</i> , 2017 , 189, 207	3.1	2
5	Treatment of Selective Sequential Precipitation for Recovering Fe and Al From Mine Water an Abandoned Coal Mine. <i>Journal of the Korean Society of Mineral and Energy Resources Engineers</i> , 2017 , 54, 215-222	0.2	2
4	Computational study on flow characteristics of acid mine drainage in oxidation pond with asymmetric and inclined shape. <i>Environmental Earth Sciences</i> , 2014 , 72, 757-766	2.9	1
3	Water Quality and Methane Emission Characteristics of Aerobic Wetlands Constructed in Coal Mine Area. <i>Journal of the Korean Society of Mineral and Energy Resources Engineers</i> , 2018 , 55, 371-382	0.2	1
2	A Review of the Regeneration Models using a Closed Stone Quarry Area through Domestic and Overseas Cases. <i>Journal of the Korean Society of Mineral and Energy Resources Engineers</i> , 2021 , 58, 237-248	0.2	1
1	Fabrication of aluminum beads derived from selectively recovered Al-rich precipitates and their application into defluoridation. <i>Environmental Science and Pollution Research</i> , 2021 , 1	5.1	0
