

# Eric Stice

## List of Publications by Citations

**Source:** <https://exaly.com/author-pdf/6737306/eric-stice-publications-by-citations.pdf>

**Version:** 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
228	Risk and maintenance factors for eating pathology: a meta-analytic review. <i>Psychological Bulletin</i> , <b>2002</b> , 128, 825-48	19.1	1674
227	How do risk factors work together? Mediators, moderators, and independent, overlapping, and proxy risk factors. <i>American Journal of Psychiatry</i> , <b>2001</b> , 158, 848-56	11.9	1247
226	Role of body dissatisfaction in the onset and maintenance of eating pathology: a synthesis of research findings. <i>Journal of Psychosomatic Research</i> , <b>2002</b> , 53, 985-93	4.1	854
225	A prospective test of the dual-pathway model of bulimic pathology: Mediating effects of dieting and negative affect.. <i>Journal of Abnormal Psychology</i> , <b>2001</b> , 110, 124-135	7	794
224	Thin-Ideal Internalization: Mounting Evidence for a New Risk Factor for Body-Image Disturbance and Eating Pathology. <i>Current Directions in Psychological Science</i> , <b>2001</b> , 10, 181-183	6.5	784
223	Relation of reward from food intake and anticipated food intake to obesity: a functional magnetic resonance imaging study. <i>Journal of Abnormal Psychology</i> , <b>2008</b> , 117, 924-35	7	595
222	Risk factors for binge eating onset in adolescent girls: A 2-year prospective investigation.. <i>Health Psychology</i> , <b>2002</b> , 21, 131-138	5	576
221	Review of the evidence for a sociocultural model of bulimia nervosa and an exploration of the mechanisms of action. <i>Clinical Psychology Review</i> , <b>1994</b> , 14, 633-661	10.8	503
220	Development and validation of the Eating Disorder Diagnostic Scale: A brief self-report measure of anorexia, bulimia, and binge-eating disorder.. <i>Psychological Assessment</i> , <b>2000</b> , 12, 123-131	5.3	502
219	A meta-analytic review of obesity prevention programs for children and adolescents: the skinny on interventions that work. <i>Psychological Bulletin</i> , <b>2006</b> , 132, 667-91	19.1	492
218	Adverse Effects of the Media Portrayed Thin-Ideal on Women and Linkages to Bulimic Symptomatology. <i>Journal of Social and Clinical Psychology</i> , <b>1994</b> , 13, 288-308	1.6	487
217	Risk factors for body dissatisfaction in adolescent girls: A longitudinal investigation.. <i>Developmental Psychology</i> , <b>2002</b> , 38, 669-678	3.7	461
216	Prospective relations between social support and depression: differential direction of effects for parent and peer support?. <i>Journal of Abnormal Psychology</i> , <b>2004</b> , 113, 155-9	7	452
215	Prevalence, incidence, impairment, and course of the proposed DSM-5 eating disorder diagnoses in an 8-year prospective community study of young women. <i>Journal of Abnormal Psychology</i> , <b>2013</b> , 122, 445-57	7	436
214	Body-image and eating disturbances predict onset of depression among female adolescents: A longitudinal study.. <i>Journal of Abnormal Psychology</i> , <b>2000</b> , 109, 438-444	7	422
213	Body-image and eating disturbances prospectively predict increases in depressive symptoms in adolescent girls: A growth curve analysis.. <i>Developmental Psychology</i> , <b>2001</b> , 37, 597-607	3.7	416
212	Predicting onset and cessation of bulimic behaviors during adolescence: A longitudinal grouping analysis. <i>Behavior Therapy</i> , <b>1998</b> , 29, 257-276	4.8	404

211	Body mass correlates inversely with inhibitory control in response to food among adolescent girls: an fMRI study. <i>NeuroImage</i> , <b>2010</b> , 52, 1696-703	7.9	383
210	A meta-analytic review of depression prevention programs for children and adolescents: factors that predict magnitude of intervention effects. <i>Journal of Consulting and Clinical Psychology</i> , <b>2009</b> , 77, 486-503	6.5	378
209	Naturalistic weight-reduction efforts prospectively predict growth in relative weight and onset of obesity among female adolescents.. <i>Journal of Consulting and Clinical Psychology</i> , <b>1999</b> , 67, 967-974	6.5	366
208	A meta-analytic review of eating disorder prevention programs: encouraging findings. <i>Annual Review of Clinical Psychology</i> , <b>2007</b> , 3, 207-31	20.5	358
207	An 8-year longitudinal study of the natural history of threshold, subthreshold, and partial eating disorders from a community sample of adolescents. <i>Journal of Abnormal Psychology</i> , <b>2009</b> , 118, 587-97	7	348
206	Eating disorder prevention programs: a meta-analytic review. <i>Psychological Bulletin</i> , <b>2004</b> , 130, 206-27	19.1	347
205	Risk factors for onset of eating disorders: evidence of multiple risk pathways from an 8-year prospective study. <i>Behaviour Research and Therapy</i> , <b>2011</b> , 49, 622-7	5.2	339
204	Dissonance and healthy weight eating disorder prevention programs: long-term effects from a randomized efficacy trial. <i>Journal of Consulting and Clinical Psychology</i> , <b>2008</b> , 76, 329-40	6.5	338
203	Psychological and behavioral risk factors for obesity onset in adolescent girls: a prospective study. <i>Journal of Consulting and Clinical Psychology</i> , <b>2005</b> , 73, 195-202	6.5	297
202	Weight gain is associated with reduced striatal response to palatable food. <i>Journal of Neuroscience</i> , <b>2010</b> , 30, 13105-9	6.6	295
201	Attentional bias to food images associated with elevated weight and future weight gain: an fMRI study. <i>Obesity</i> , <b>2011</b> , 19, 1775-83	8	280
200	Dissonance and healthy weight eating disorder prevention programs: a randomized efficacy trial. <i>Journal of Consulting and Clinical Psychology</i> , <b>2006</b> , 74, 263-75	6.5	280
199	Are dietary restraint scales valid measures of acute dietary restriction? Unobtrusive observational data suggest not. <i>Psychological Assessment</i> , <b>2004</b> , 16, 51-9	5.3	268
198	Reward circuitry responsivity to food predicts future increases in body mass: moderating effects of DRD2 and DRD4. <i>NeuroImage</i> , <b>2010</b> , 50, 1618-25	7.9	256
197	Eating disorder diagnostic scale: additional evidence of reliability and validity. <i>Psychological Assessment</i> , <b>2004</b> , 16, 60-71	5.3	256
196	Relation of early menarche to depression, eating disorders, substance abuse, and comorbid psychopathology among adolescent girls.. <i>Developmental Psychology</i> , <b>2001</b> , 37, 608-619	3.7	253
195	Youth at risk for obesity show greater activation of striatal and somatosensory regions to food. <i>Journal of Neuroscience</i> , <b>2011</b> , 31, 4360-6	6.6	249
194	Risk factors that predict future onset of each DSM-5 eating disorder: Predictive specificity in high-risk adolescent females. <i>Journal of Abnormal Psychology</i> , <b>2017</b> , 126, 38-51	7	218

193	Age of onset for binge eating and purging during late adolescence: A 4-year survival analysis.. <i>Journal of Abnormal Psychology</i> , <b>1998</b> , 107, 671-675	7	201
192	A Meta-Analysis of Cultural Adaptations of Psychological Interventions. <i>Behavior Therapy</i> , <b>2016</b> , 47, 993-1014	6.3	196
191	The contribution of brain reward circuits to the obesity epidemic. <i>Neuroscience and Biobehavioral Reviews</i> , <b>2013</b> , 37, 2047-58	9	186
190	Dissonance prevention program decreases thin-ideal internalization, body dissatisfaction, dieting, negative affect, and bulimic symptoms: A preliminary experiment. <i>International Journal of Eating Disorders</i> , <b>2000</b> , 27, 206-17	6.3	186
189	Risk factors for binge eating onset in adolescent girls: a 2-year prospective investigation. <i>Health Psychology</i> , <b>2002</b> , 21, 131-8	5	186
188	Adverse effects of social pressure to be thin on young women: an experimental investigation of the effects of "fat talk". <i>International Journal of Eating Disorders</i> , <b>2003</b> , 34, 108-17	6.3	180
187	Development and predictive effects of eating disorder risk factors during adolescence: Implications for prevention efforts. <i>International Journal of Eating Disorders</i> , <b>2015</b> , 48, 187-98	6.3	168
186	A randomized trial of a dissonance-based eating disorder prevention program. <i>International Journal of Eating Disorders</i> , <b>2001</b> , 29, 247-62	6.3	166
185	Multiple types of dieting prospectively predict weight gain during the freshman year of college. <i>Appetite</i> , <b>2006</b> , 47, 83-90	4.5	160
184	Dissonance-based Interventions for the prevention of eating disorders: using persuasion principles to promote health. <i>Prevention Science</i> , <b>2008</b> , 9, 114-28	4	150
183	Fasting increases risk for onset of binge eating and bulimic pathology: a 5-year prospective study. <i>Journal of Abnormal Psychology</i> , <b>2008</b> , 117, 941-6	7	145
182	Relative ability of fat and sugar tastes to activate reward, gustatory, and somatosensory regions. <i>American Journal of Clinical Nutrition</i> , <b>2013</b> , 98, 1377-84	7	144
181	Risk factors and prodromal eating pathology. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , <b>2010</b> , 51, 518-25	7.9	139
180	A prospective test of the stress-buffering model of depression in adolescent girls: no support once again. <i>Journal of Consulting and Clinical Psychology</i> , <b>2004</b> , 72, 689-97	6.5	138
179	Brief cognitive-behavioral depression prevention program for high-risk adolescents outperforms two alternative interventions: a randomized efficacy trial. <i>Journal of Consulting and Clinical Psychology</i> , <b>2008</b> , 76, 595-606	6.5	137
178	Food reward system: current perspectives and future research needs. <i>Nutrition Reviews</i> , <b>2015</b> , 73, 296-307	6.4	135
177	An effectiveness trial of a dissonance-based eating disorder prevention program for high-risk adolescent girls. <i>Journal of Consulting and Clinical Psychology</i> , <b>2009</b> , 77, 825-34	6.5	131
176	Prospective relations between bulimic pathology, depression, and substance abuse: unpacking comorbidity in adolescent girls. <i>Journal of Consulting and Clinical Psychology</i> , <b>2004</b> , 72, 62-71	6.5	131

175	Healthy weight control and dissonance-based eating disorder prevention programs: results from a controlled trial. <i>International Journal of Eating Disorders</i> , <b>2003</b> , 33, 10-21	6.3	129
174	Are dietary restraint scales valid measures of moderate- to long-term dietary restriction? Objective biological and behavioral data suggest not. <i>Psychological Assessment</i> , <b>2007</b> , 19, 449-58	5.3	127
173	Prospective differential prediction of adolescent alcohol use and problem use: Examining the mechanisms of effect.. <i>Journal of Abnormal Psychology</i> , <b>1998</b> , 107, 616-628	7	127
172	Eating disorder prevention: current evidence-base and future directions. <i>International Journal of Eating Disorders</i> , <b>2013</b> , 46, 478-85	6.3	124
171	Risk factors for the emergence of childhood eating disturbances: a five-year prospective study. <i>International Journal of Eating Disorders</i> , <b>1999</b> , 25, 375-87	6.3	123
170	Risk factors for body dissatisfaction in adolescent girls: a longitudinal investigation. <i>Developmental Psychology</i> , <b>2002</b> , 38, 669-78	3.7	123
169	Subtyping binge eating-disordered women along dieting and negative affect dimensions. <i>International Journal of Eating Disorders</i> , <b>2001</b> , 30, 11-27	6.3	122
168	An fMRI study of obesity, food reward, and perceived caloric density. Does a low-fat label make food less appealing?. <i>Appetite</i> , <b>2011</b> , 57, 65-72	4.5	117
167	Testing mediators of intervention effects in randomized controlled trials: An evaluation of two eating disorder prevention programs. <i>Journal of Consulting and Clinical Psychology</i> , <b>2007</b> , 75, 20-32	6.5	117
166	Neural vulnerability factors that increase risk for future weight gain. <i>Psychological Bulletin</i> , <b>2016</b> , 142, 447-71	19.1	112
165	Are dietary restraint scales valid measures of dietary restriction? Additional objective behavioral and biological data suggest not. <i>Appetite</i> , <b>2010</b> , 54, 331-9	4.5	110
164	Reward abnormalities among women with full and subthreshold bulimia nervosa: a functional magnetic resonance imaging study. <i>International Journal of Eating Disorders</i> , <b>2011</b> , 44, 585-95	6.3	108
163	Multilocus genetic composite reflecting dopamine signaling capacity predicts reward circuitry responsivity. <i>Journal of Neuroscience</i> , <b>2012</b> , 32, 10093-100	6.6	108
162	An experimental test of the effect of weight-loss dieting on bulimic pathology: Tipping the scales in a different direction.. <i>Journal of Abnormal Psychology</i> , <b>2003</b> , 112, 166-170	7	108
161	Understanding persistence in bulimia nervosa: A 5-year naturalistic study.. <i>Journal of Consulting and Clinical Psychology</i> , <b>2003</b> , 71, 103-109	6.5	107
160	An effectiveness trial of a selected dissonance-based eating disorder prevention program for female high school students: Long-term effects. <i>Journal of Consulting and Clinical Psychology</i> , <b>2011</b> , 79, 500-8	6.5	106
159	Caloric deprivation increases responsivity of attention and reward brain regions to intake, anticipated intake, and images of palatable foods. <i>NeuroImage</i> , <b>2013</b> , 67, 322-30	7.9	102
158	Impulsivity as a risk factor for eating disorder behavior: assessment implications with adolescents. <i>International Journal of Eating Disorders</i> , <b>2004</b> , 36, 172-82	6.3	101

157	Variability in reward responsivity and obesity: evidence from brain imaging studies. <i>Current Drug Abuse Reviews</i> , <b>2011</b> , 4, 182-9		101
156	Relation of obesity to neural activation in response to food commercials. <i>Social Cognitive and Affective Neuroscience</i> , <b>2014</b> , 9, 932-8	4	99
155	A preliminary trial of a prototype Internet dissonance-based eating disorder prevention program for young women with body image concerns. <i>Journal of Consulting and Clinical Psychology</i> , <b>2012</b> , 80, 907-18	6.5	99
154	Reward Region Responsivity Predicts Future Weight Gain and Moderating Effects of the TaqIA Allele. <i>Journal of Neuroscience</i> , <b>2015</b> , 35, 10316-24	6.6	97
153	Randomized trial of a brief depression prevention program: an elusive search for a psychosocial placebo control condition. <i>Behaviour Research and Therapy</i> , <b>2007</b> , 45, 863-76	5.2	97
152	Predictors of adolescent dieting behaviors: A longitudinal study.. <i>Psychology of Addictive Behaviors</i> , <b>1998</b> , 12, 195-205	3.4	97
151	Relation of dietary restraint scores to activation of reward-related brain regions in response to food intake, anticipated intake, and food pictures. <i>NeuroImage</i> , <b>2011</b> , 55, 233-9	7.9	95
150	A Longitudinal Study of the Interactive Effects of Impulsivity and Anger on Adolescent Problem Behavior. <i>Journal of Youth and Adolescence</i> , <b>1998</b> , 27, 255-274	4.5	94
149	Prospective relations of body image, eating, and affective disturbances to smoking onset in adolescent girls: How Virginia slims.. <i>Journal of Consulting and Clinical Psychology</i> , <b>2003</b> , 71, 129-135	6.5	94
148	Efficacy trial of a brief cognitive-behavioral depression prevention program for high-risk adolescents: effects at 1- and 2-year follow-up. <i>Journal of Consulting and Clinical Psychology</i> , <b>2010</b> , 78, 856-67	6.5	90
147	Interactive and Mediational Etiologic Models of Eating Disorder Onset: Evidence from Prospective Studies. <i>Annual Review of Clinical Psychology</i> , <b>2016</b> , 12, 359-81	20.5	81
146	Frequent ice cream consumption is associated with reduced striatal response to receipt of an ice cream-based milkshake. <i>American Journal of Clinical Nutrition</i> , <b>2012</b> , 95, 810-7	7	81
145	Effects of a weight maintenance diet on bulimic symptoms in adolescent girls: an experimental test of the dietary restraint theory. <i>Health Psychology</i> , <b>2005</b> , 24, 402-12	5	81
144	Negative affect moderates the relation between dieting and binge eating. <i>International Journal of Eating Disorders</i> , <b>2000</b> , 27, 218-29	6.3	80
143	Evaluating models for partially clustered designs. <i>Psychological Methods</i> , <b>2011</b> , 16, 149-65	7.1	79
142	Greater striatopallidal adaptive coding during cue-reward learning and food reward habituation predict future weight gain. <i>NeuroImage</i> , <b>2014</b> , 99, 122-8	7.9	78
141	Relations of restraint and negative affect to bulimic pathology: a longitudinal test of three competing models. <i>International Journal of Eating Disorders</i> , <b>1998</b> , 23, 243-60	6.3	76
140	Female emotional eaters show abnormalities in consummatory and anticipatory food reward: a functional magnetic resonance imaging study. <i>International Journal of Eating Disorders</i> , <b>2009</b> , 42, 210-21	6.3	73

139	Training motor responses to food: A novel treatment for obesity targeting implicit processes. <i>Clinical Psychology Review</i> , <b>2016</b> , 49, 16-27	10.8	71
138	Evaluation of a healthy-weight treatment program for bulimia nervosa: a preliminary randomized trial. <i>Behaviour Research and Therapy</i> , <b>2006</b> , 44, 1727-38	5.2	69
137	Individual differences in striatum activity to food commercials predict weight gain in adolescents. <i>Obesity</i> , <b>2014</b> , 22, 2544-51	8	68
136	Efficacy trial of a selective prevention program targeting both eating disorders and obesity among female college students: 1- and 2-year follow-up effects. <i>Journal of Consulting and Clinical Psychology</i> , <b>2013</b> , 81, 183-189	6.5	68
135	From efficacy to effectiveness to broad implementation: Evolution of the Body Project. <i>Journal of Consulting and Clinical Psychology</i> , <b>2017</b> , 85, 767-782	6.5	66
134	Efficacy trial of a selective prevention program targeting both eating disorder symptoms and unhealthy weight gain among female college students. <i>Journal of Consulting and Clinical Psychology</i> , <b>2012</b> , 80, 164-170	6.5	65
133	An effectiveness trial of a new enhanced dissonance eating disorder prevention program among female college students. <i>Behaviour Research and Therapy</i> , <b>2013</b> , 51, 862-71	5.2	64
132	Elevated reward region responsivity predicts future substance use onset but not overweight/obesity onset. <i>Biological Psychiatry</i> , <b>2013</b> , 73, 869-76	7.9	62
131	High- and low-level dissonance-based eating disorder prevention programs with young women with body image concerns: an experimental trial. <i>Journal of Consulting and Clinical Psychology</i> , <b>2011</b> , 79, 129-34	6.5	59
130	Screening for depression prevention: identifying adolescent girls at high risk for future depression. <i>Journal of Abnormal Psychology</i> , <b>2009</b> , 118, 161-170	7	59
129	Dopamine-based reward circuitry responsivity, genetics, and overeating. <i>Current Topics in Behavioral Neurosciences</i> , <b>2011</b> , 6, 81-93	3.4	56
128	Evaluation of an Intervention Targeting Both Depressive and Bulimic Pathology: A Randomized Prevention Trial. <i>Behavior Therapy</i> , <b>2003</b> , 34, 277-293	4.8	56
127	Use of empirically supported interventions for psychopathology: can the participatory approach move us beyond the research-to-practice gap?. <i>Behaviour Research and Therapy</i> , <b>2009</b> , 47, 265-74	5.2	55
126	Neural vulnerability factors for obesity. <i>Clinical Psychology Review</i> , <b>2019</b> , 68, 38-53	10.8	53
125	Pilot test of a novel food response and attention training treatment for obesity: Brain imaging data suggest actions shape valuation. <i>Behaviour Research and Therapy</i> , <b>2017</b> , 94, 60-70	5.2	52
124	The Eating Disorder Diagnostic Scale: psychometric features within a clinical population and a cut-off point to differentiate clinical patients from healthy controls. <i>European Eating Disorders Review</i> , <b>2012</b> , 20, 315-20	5.3	52
123	Negative affect and neural response to palatable food intake in bulimia nervosa. <i>Appetite</i> , <b>2012</b> , 58, 964-70	7.9	52
122	Relation of dietary restraint scores to cognitive biases and reward sensitivity. <i>Appetite</i> , <b>2010</b> , 55, 61-8	4.5	51

121	Predicting time to recovery among depressed adolescents treated in two psychosocial group interventions. <i>Journal of Consulting and Clinical Psychology</i> , <b>2006</b> , 74, 80-8	6.5	50
120	A preliminary controlled evaluation of an eating disturbance psychoeducational intervention for college students. <i>International Journal of Eating Disorders</i> , <b>2002</b> , 31, 159-71	6.3	50
119	Testing mediators of intervention effects in randomized controlled trials: An evaluation of three depression prevention programs. <i>Journal of Consulting and Clinical Psychology</i> , <b>2010</b> , 78, 273-80	6.5	49
118	Gain in Body Fat Is Associated with Increased Striatal Response to Palatable Food Cues, whereas Body Fat Stability Is Associated with Decreased Striatal Response. <i>Journal of Neuroscience</i> , <b>2016</b> , 36, 6949-56	6.6	48
117	Validation of the Beliefs About Appearance Scale. <i>Cognitive Therapy and Research</i> , <b>2001</b> , 25, 813-827	2.7	48
116	Clinician-led, peer-led, and internet-delivered dissonance-based eating disorder prevention programs: Acute effectiveness of these delivery modalities. <i>Journal of Consulting and Clinical Psychology</i> , <b>2017</b> , 85, 883-895	6.5	48
115	Effectiveness trial of a selective dissonance-based eating disorder prevention program with female college students: Effects at 2- and 3-year follow-up. <i>Behaviour Research and Therapy</i> , <b>2015</b> , 71, 20-6	5.2	47
114	Experimental test of the affect-regulation theory of bulimic symptoms and substance use: a randomized trial. <i>International Journal of Eating Disorders</i> , <b>2007</b> , 40, 27-36	6.3	47
113	Weight suppression and risk of future increases in body mass: effects of suppressed resting metabolic rate and energy expenditure. <i>American Journal of Clinical Nutrition</i> , <b>2011</b> , 94, 7-11	7	45
112	Effect of a dissonance-based prevention program on risk for eating disorder onset in the context of eating disorder risk factors. <i>Prevention Science</i> , <b>2012</b> , 13, 129-39	4	44
111	Effectiveness of peer-led dissonance-based eating disorder prevention groups: results from two randomized pilot trials. <i>Behaviour Research and Therapy</i> , <b>2013</b> , 51, 197-206	5.2	43
110	Indicated cognitive behavioral group depression prevention compared to bibliotherapy and brochure control: acute effects of an effectiveness trial with adolescents. <i>Journal of Consulting and Clinical Psychology</i> , <b>2014</b> , 82, 65-74	6.5	43
109	Daily energy expenditure through the human life course. <i>Science</i> , <b>2021</b> , 373, 808-812	33.3	43
108	Future directions in etiologic, prevention, and treatment research for eating disorders. <i>Journal of Clinical Child and Adolescent Psychology</i> , <b>2012</b> , 41, 845-55	5.4	42
107	Meta-analytic review of dissonance-based eating disorder prevention programs: Intervention, participant, and facilitator features that predict larger effects. <i>Clinical Psychology Review</i> , <b>2019</b> , 70, 91-107	10.8	41
106	Relation of depression to perceived social support: results from a randomized adolescent depression prevention trial. <i>Behaviour Research and Therapy</i> , <b>2011</b> , 49, 361-6	5.2	41
105	Testing mediators hypothesized to account for the effects of a dissonance-based eating disorder prevention program over longer term follow-up. <i>Journal of Consulting and Clinical Psychology</i> , <b>2011</b> , 79, 398-405	6.5	41
104	Preventing eating disorders. <i>Child and Adolescent Psychiatric Clinics of North America</i> , <b>2009</b> , 18, 199-207	3.3	41

103	Ethnic differences in eating disorder prevalence, risk factors, and predictive effects of risk factors among young women. <i>Eating Behaviors</i> , <b>2019</b> , 32, 23-30	3	41
102	Neural responsivity during soft drink intake, anticipation, and advertisement exposure in habitually consuming youth. <i>Obesity</i> , <b>2014</b> , 22, 441-50	8	40
101	Elevated energy intake is correlated with hyperresponsivity in attentional, gustatory, and reward brain regions while anticipating palatable food receipt. <i>American Journal of Clinical Nutrition</i> , <b>2013</b> , 97, 1188-94	7	40
