

Eric Stice

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/6737306/eric-stice-publications-by-year.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
228	Enhancing efficacy of a dissonance-based obesity and eating disorder prevention program: Experimental therapeutics. <i>Journal of Consulting and Clinical Psychology</i> , 2021 , 89, 793-804	6.5	2
227	Evidence that a novel transdiagnostic eating disorder treatment reduces reward region response to the thin beauty ideal and high-calorie binge foods. <i>Psychological Medicine</i> , 2021 , 1-11	6.9	
226	Test-retest reliability of functional MRI food receipt, anticipated receipt, and picture tasks. <i>American Journal of Clinical Nutrition</i> , 2021 , 114, 764-779	7	3
225	A meta-analytic review of trials that tested whether eating disorder prevention programs prevent eating disorder onset. <i>Clinical Psychology Review</i> , 2021 , 87, 102046	10.8	6
224	Sequencing of symptom emergence in anorexia nervosa, bulimia nervosa, binge eating disorder, and purging disorder and relations of prodromal symptoms to future onset of these disorders. <i>Journal of Abnormal Psychology</i> , 2021 , 130, 377-387	7	13
223	Cost-Effectiveness Comparison of Delivery Modalities for a Dissonance-Based Eating Disorder Prevention Program over 4-Year Follow-Up. <i>Prevention Science</i> , 2021 , 22, 1086-1095	4	1
222	Feasibility of a virtually delivered eating disorder prevention program for young females with type 1 diabetes. <i>International Journal of Eating Disorders</i> , 2021 , 54, 1696-1706	6.3	0
221	In Search of the Most Reproducible Neural Vulnerability Factors that Predict Future Weight Gain: Analyses of Data from Six Prospective Studies. <i>Social Cognitive and Affective Neuroscience</i> , 2021 ,	4	2
220	Longitudinal Associations Between Taste Sensitivity, Taste Liking, Dietary Intake and BMI in Adolescents. <i>Frontiers in Psychology</i> , 2021 , 12, 597704	3.4	6
219	Daily energy expenditure through the human life course. <i>Science</i> , 2021 , 373, 808-812	33.3	43
218	Physical activity and fat-free mass during growth and in later life. <i>American Journal of Clinical Nutrition</i> , 2021 , 114, 1583-1589	7	3
217	Much Ado About Missingness: A Demonstration of Full Information Maximum Likelihood Estimation to Address Missingness in Functional Magnetic Resonance Imaging Data. <i>Frontiers in Neuroscience</i> , 2021 , 15, 746424	5.1	
216	Neural Vulnerability Factors That Predict Future Weight Gain. <i>Current Obesity Reports</i> , 2021 , 1	8.4	1
215	Dissonance-based eating disorder prevention among Brazilian young women: A randomized efficacy trial of the Body Project. <i>Body Image</i> , 2021 , 38, 1-9	7.4	3
214	Factors that predict persistence versus non-persistence of eating disorder Symptoms: A prospective study of high-risk young women. <i>Behaviour Research and Therapy</i> , 2021 , 144, 103932	5.2	1
213	Effectiveness of the Body Project eating disorder prevention program for different racial and ethnic groups and an evaluation of the potential benefits of ethnic matching.. <i>Journal of Consulting and Clinical Psychology</i> , 2021 , 89, 1007-1019	6.5	0
212	Weight suppression increases odds for future onset of anorexia nervosa, bulimia nervosa, and purging disorder, but not binge eating disorder. <i>American Journal of Clinical Nutrition</i> , 2020 , 112, 941-947	7	17

211	Multivariate neural signatures for health neuroscience: assessing spontaneous regulation during food choice. <i>Social Cognitive and Affective Neuroscience</i> , 2020 , 15, 1120-1134	4	11
210	Clinician-led, peer-led, and internet-delivered dissonance-based eating disorder prevention programs: Effectiveness of these delivery modalities through 4-year follow-up. <i>Journal of Consulting and Clinical Psychology</i> , 2020 , 88, 481-494	6.5	21
209	A randomized controlled trial of the effectiveness of virtually delivered Body Project (vBP) groups to prevent eating disorders. <i>Journal of Consulting and Clinical Psychology</i> , 2020 , 88, 643-656	6.5	12
208	Sexual orientation correlates with baseline characteristics but shows no moderating effects of dissonance-based eating disorder prevention programs for women. <i>Body Image</i> , 2020 , 32, 94-102	7.4	2
207	Group and longitudinal intra-individual networks of eating disorder symptoms in adolescents and young adults at-risk for an eating disorder. <i>Behaviour Research and Therapy</i> , 2020 , 135, 103731	5.2	9
206	A controlled trial of a dissonance-based eating disorders prevention program with Brazilian girls. <i>Psicologia: Reflexao E Critica</i> , 2019 , 32, 13	1.1	9
205	Weight gain is associated with changes in neural response to palatable food tastes varying in sugar and fat and palatable food images: a repeated-measures fMRI study. <i>American Journal of Clinical Nutrition</i> , 2019 , 110, 1275-1286	7	14
204	Disaggregating the predictive effects of impaired psychosocial functioning on future DSM-5 eating disorder onset in high-risk female adolescents. <i>International Journal of Eating Disorders</i> , 2019 , 52, 817-824	6.3	2
203	Eating Disorder Prevention. <i>Psychiatric Clinics of North America</i> , 2019 , 42, 309-318	3.1	3
202	Moderators of two dual eating disorder and obesity prevention programs. <i>Behaviour Research and Therapy</i> , 2019 , 118, 77-86	5.2	6
201	Good practice in food-related neuroimaging. <i>American Journal of Clinical Nutrition</i> , 2019 , 109, 491-503	7	28
200	Meta-analytic review of dissonance-based eating disorder prevention programs: Intervention, participant, and facilitator features that predict larger effects. <i>Clinical Psychology Review</i> , 2019 , 70, 91-107	10.8	41
199	Cognitive dissonance-based eating disorder prevention: pilot study of a cultural adaptation for the Orthodox Jewish community. <i>Eating Disorders</i> , 2019 , 1-13	3.9	1
198	Neuroimaging of compulsive disorders: Similarities of food addiction with drug addiction 2019 , 329-358		1
197	Van werkzaam in onderzoek en effectief in de praktijk naar breed ingevoerd: de ontwikkeling van het Body Project. <i>Gezinstherapie Wereldwijd</i> , 2019 , 30, 440-473	0	
196	Randomized trial of a dissonance-based group treatment for eating disorders versus a supportive mindfulness group treatment. <i>Journal of Consulting and Clinical Psychology</i> , 2019 , 87, 79-90	6.5	12
195	Randomized trial of a dissonance-based transdiagnostic group treatment for eating disorders: An evaluation of target engagement. <i>Journal of Consulting and Clinical Psychology</i> , 2019 , 87, 772-786	6.5	4
194	Neural vulnerability factors for obesity. <i>Clinical Psychology Review</i> , 2019 , 68, 38-53	10.8	53

193	Individual differences in appeal of energy dense foods predicts lower body mass change during adolescence. <i>Appetite</i> , 2019 , 133, 184-190	4.5	1
192	Ethnic differences in eating disorder prevalence, risk factors, and predictive effects of risk factors among young women. <i>Eating Behaviors</i> , 2019 , 32, 23-30	3	41
191	Eating Disorder Prevention Programs 2019 , 171-177		
190	Interactions between risk factors in the prediction of onset of eating disorders: Exploratory hypothesis generating analyses. <i>Behaviour Research and Therapy</i> , 2018 , 105, 52-62	5.2	32
189	Effects of gymnemic acids lozenge on reward region response to receipt and anticipated receipt of high-sugar food. <i>Physiology and Behavior</i> , 2018 , 194, 568-576	3.5	6
188	Using participant feedback to improve two selective eating disorder and obesity prevention programs. <i>Eating Behaviors</i> , 2018 , 30, 93-97	3	3
187	Major depression prevention effects for a cognitive-behavioral adolescent indicated prevention group intervention across four trials. <i>Behaviour Research and Therapy</i> , 2018 , 100, 1-6	5.2	14
186	Elevated Thalamic Response to High-Sugar Milkshake in Ethnic and Racial Minorities. <i>Journal of Racial and Ethnic Health Disparities</i> , 2018 , 5, 580-587	3.5	
185	Adolescents at high risk of obesity show greater striatal response to increased sugar content in milkshakes. <i>American Journal of Clinical Nutrition</i> , 2018 , 107, 859-866	7	22
184	Engaging stakeholder communities as body image intervention partners: The Body Project as a case example. <i>Eating Behaviors</i> , 2017 , 25, 62-67	3	8
183	Reply to DM Thomas and K Westerterp. <i>American Journal of Clinical Nutrition</i> , 2017 , 105, 541	7	
182	Elevated reward response to receipt of palatable food predicts future weight variability in healthy-weight adolescents. <i>American Journal of Clinical Nutrition</i> , 2017 , 105, 781-789	7	30
181	Pilot test of a novel food response and attention training treatment for obesity: Brain imaging data suggest actions shape valuation. <i>Behaviour Research and Therapy</i> , 2017 , 94, 60-70	5.2	52
180	Initial body fat gain is related to brain volume changes in adolescents: A repeated-measures voxel-based morphometry study. <i>Obesity</i> , 2017 , 25, 401-407	8	10
179	What promotes psychiatric intervention implementation?. <i>Lancet Psychiatry</i> , 2017 , 4, 828-829	23.3	
178	Eating disorders: Insights from imaging and behavioral approaches to treatment. <i>Journal of Psychopharmacology</i> , 2017 , 31, 1485-1495	4.6	5
177	Risk factors that predict future onset of each DSM-5 eating disorder: Predictive specificity in high-risk adolescent females. <i>Journal of Abnormal Psychology</i> , 2017 , 126, 38-51	7	218
176	From efficacy to effectiveness to broad implementation: Evolution of the Body Project. <i>Journal of Consulting and Clinical Psychology</i> , 2017 , 85, 767-782	6.5	66

175	Clinician-led, peer-led, and internet-delivered dissonance-based eating disorder prevention programs: Acute effectiveness of these delivery modalities. <i>Journal of Consulting and Clinical Psychology</i> , 2017 , 85, 883-895	6.5	48
174	Age effects in eating disorder baseline risk factors and prevention intervention effects. <i>International Journal of Eating Disorders</i> , 2017 , 50, 1273-1280	6.3	12
173	Training motor responses to food: A novel treatment for obesity targeting implicit processes. <i>Clinical Psychology Review</i> , 2016 , 49, 16-27	10.8	71
172	Neural vulnerability factors that increase risk for future weight gain. <i>Psychological Bulletin</i> , 2016 , 142, 447-71	19.1	112
171	Hedonic hunger prospectively predicts onset and maintenance of loss of control eating among college women. <i>Health Psychology</i> , 2016 , 35, 238-244	5	34
170	GROUP-BASED SYMPTOM TRAJECTORIES IN INDICATED PREVENTION OF ADOLESCENT DEPRESSION. <i>Depression and Anxiety</i> , 2016 , 33, 444-51	8.4	15
169	Gain in Body Fat Is Associated with Increased Striatal Response to Palatable Food Cues, whereas Body Fat Stability Is Associated with Decreased Striatal Response. <i>Journal of Neuroscience</i> , 2016 , 36, 6949-56	6.6	48
168	Interactive and Mediation Models of Eating Disorder Onset: Evidence from Prospective Studies. <i>Annual Review of Clinical Psychology</i> , 2016 , 12, 359-81	20.5	81
167	Reply to DA Schoeller. <i>American Journal of Clinical Nutrition</i> , 2016 , 104, 1486-1487	7	1
166	Low energy intake plus low energy expenditure (low energy flux), not energy surfeit, predicts future body fat gain. <i>American Journal of Clinical Nutrition</i> , 2016 , 103, 1389-96	7	28
165	Participant feedback from peer-led, clinician-led, and internet-delivered eating disorder prevention interventions. <i>International Journal of Eating Disorders</i> , 2016 , 49, 1087-1092	6.3	14
164	A Meta-Analysis of Cultural Adaptations of Psychological Interventions. <i>Behavior Therapy</i> , 2016 , 47, 993-1014	18.14	196
163	An examination of participants who develop an eating disorder despite completing an eating disorder prevention program: implications for improving the yield of prevention efforts. <i>Prevention Science</i> , 2015 , 16, 518-26	4	9
162	Effectiveness trial of a selective dissonance-based eating disorder prevention program with female college students: Effects at 2- and 3-year follow-up. <i>Behaviour Research and Therapy</i> , 2015 , 71, 20-6	5.2	47
161	Reward Region Responsivity Predicts Future Weight Gain and Moderating Effects of the Taq1A Allele. <i>Journal of Neuroscience</i> , 2015 , 35, 10316-24	6.6	97
160	Food reward system: current perspectives and future research needs. <i>Nutrition Reviews</i> , 2015 , 73, 296-307	10.74	135
159	Effectiveness of an eating disorder preventative intervention in primary care medical settings. <i>Behaviour Research and Therapy</i> , 2015 , 75, 32-9	5.2	20
158	Young woman smokers gain significantly more weight over 2-year follow-up than non-smokers. How Virginia doesn't slim. <i>Appetite</i> , 2015 , 85, 155-9	4.5	6

157	A pilot randomized trial of a cognitive reappraisal obesity prevention program. <i>Physiology and Behavior</i> , 2015 , 138, 124-32	3.5	36
156	Development and predictive effects of eating disorder risk factors during adolescence: Implications for prevention efforts. <i>International Journal of Eating Disorders</i> , 2015 , 48, 187-98	6.3	168
155	Moderators of the effects of indicated group and bibliotherapy cognitive behavioral depression prevention programs on adolescents' depressive symptoms and depressive disorder onset. <i>Behaviour Research and Therapy</i> , 2015 , 75, 1-10	5.2	9
154	Effectiveness trial of an indicated cognitive-behavioral group adolescent depression prevention program versus bibliotherapy and brochure control at 1- and 2-year follow-up. <i>Journal of Consulting and Clinical Psychology</i> , 2015 , 83, 736-47	6.5	34
153	Eating Disorders Prevention With Adolescents and Young Adults 2015 , 221-239		
152	Preventing Obesity in the Military Community (POMC): the development of a clinical trials research network. <i>International Journal of Environmental Research and Public Health</i> , 2015 , 12, 1174-95	4.6	14
151	Dissonance-Based Eating Disorder Prevention Program Reduces Reward Region Response to Thin Models; How Actions Shape Valuation. <i>PLoS ONE</i> , 2015 , 10, e0144530	3.7	26
150	Relation of the multilocus genetic composite reflecting high dopamine signaling capacity to future increases in BMI. <i>Appetite</i> , 2015 , 87, 38-45	4.5	21
149	Randomized controlled pilot trial of a novel dissonance-based group treatment for eating disorders. <i>Behaviour Research and Therapy</i> , 2015 , 65, 67-75	5.2	22
148	Moderators of two indicated cognitive-behavioral depression prevention approaches for adolescents in a school-based effectiveness trial. <i>Behaviour Research and Therapy</i> , 2014 , 53, 55-62	5.2	21
147	Food reinforcement and parental obesity predict future weight gain in non-obese adolescents. <i>Appetite</i> , 2014 , 82, 138-42	4.5	36
146	Greater striatopallidal adaptive coding during cue-reward learning and food reward habituation predict future weight gain. <i>NeuroImage</i> , 2014 , 99, 122-8	7.9	78
145	Effects of a prototype Internet dissonance-based eating disorder prevention program at 1- and 2-year follow-up. <i>Health Psychology</i> , 2014 , 33, 1558-67	5	30
144	Brain reward region responsivity of adolescents with and without parental substance use disorders. <i>Psychology of Addictive Behaviors</i> , 2014 , 28, 805-15	3.4	30
143	Relation of obesity to neural activation in response to food commercials. <i>Social Cognitive and Affective Neuroscience</i> , 2014 , 9, 932-8	4	99
142	Dissonance-based prevention of eating disorder risk factors in middle school girls: results from two pilot trials. <i>International Journal of Eating Disorders</i> , 2014 , 47, 483-94	6.3	26
141	Individual differences in striatum activity to food commercials predict weight gain in adolescents. <i>Obesity</i> , 2014 , 22, 2544-51	8	68
140	Neural responsivity during soft drink intake, anticipation, and advertisement exposure in habitually consuming youth. <i>Obesity</i> , 2014 , 22, 441-50	8	40

139	Do participant, facilitator, or group factors moderate effectiveness of the Body Project? Implications for dissemination. <i>Behaviour Research and Therapy</i> , 2014 , 61, 142-9	5.2	10
138	Indicated cognitive behavioral group depression prevention compared to bibliotherapy and brochure control: acute effects of an effectiveness trial with adolescents. <i>Journal of Consulting and Clinical Psychology</i> , 2014 , 82, 65-74	6.5	43
137	Effectiveness of a dissonance-based eating disorder prevention program for ethnic groups in two randomized controlled trials. <i>Behaviour Research and Therapy</i> , 2014 , 55, 54-64	5.2	19
136	Neural Vulnerability Factors that Increase Risk for Weight Gain: Prevention and Treatment Implications 2014 , 73-86		
135	An effectiveness trial of a new enhanced dissonance eating disorder prevention program among female college students. <i>Behaviour Research and Therapy</i> , 2013 , 51, 862-71	5.2	64
134	Eating disorder prevention: current evidence-base and future directions. <i>International Journal of Eating Disorders</i> , 2013 , 46, 478-85	6.3	124
133	Elevated reward region responsivity predicts future substance use onset but not overweight/obesity onset. <i>Biological Psychiatry</i> , 2013 , 73, 869-76	7.9	62
132	The contribution of brain reward circuits to the obesity epidemic. <i>Neuroscience and Biobehavioral Reviews</i> , 2013 , 37, 2047-58	9	186
131	Caloric deprivation increases responsivity of attention and reward brain regions to intake, anticipated intake, and images of palatable foods. <i>NeuroImage</i> , 2013 , 67, 322-30	7.9	102
130	Moderators of the intervention effects for a dissonance-based eating disorder prevention program; results from an amalgam of three randomized trials. <i>Behaviour Research and Therapy</i> , 2013 , 51, 128-33	5.2	25
129	Effectiveness of peer-led dissonance-based eating disorder prevention groups: results from two randomized pilot trials. <i>Behaviour Research and Therapy</i> , 2013 , 51, 197-206	5.2	43
128	Relative ability of fat and sugar tastes to activate reward, gustatory, and somatosensory regions. <i>American Journal of Clinical Nutrition</i> , 2013 , 98, 1377-84	7	144
127	Elevated energy intake is correlated with hyperresponsivity in attentional, gustatory, and reward brain regions while anticipating palatable food receipt. <i>American Journal of Clinical Nutrition</i> , 2013 , 97, 1188-94	7	40
126	Prevalence, incidence, impairment, and course of the proposed DSM-5 eating disorder diagnoses in an 8-year prospective community study of young women. <i>Journal of Abnormal Psychology</i> , 2013 , 122, 445-57	7	436
125	Efficacy trial of a selective prevention program targeting both eating disorders and obesity among female college students: 1- and 2-year follow-up effects. <i>Journal of Consulting and Clinical Psychology</i> , 2013 , 81, 183-189	6.5	68
124	The Eating Disorder Diagnostic Scale: psychometric features within a clinical population and a cut-off point to differentiate clinical patients from healthy controls. <i>European Eating Disorders Review</i> , 2012 , 20, 315-20	5.3	52
123	Female overweight and obesity in adolescence: developmental trends and ethnic differences in prevalence, incidence, and remission. <i>Journal of Youth and Adolescence</i> , 2012 , 41, 76-85	4.5	20
122	Efficacy trial of a selective prevention program targeting both eating disorder symptoms and unhealthy weight gain among female college students. <i>Journal of Consulting and Clinical Psychology</i> , 2012 , 80, 164-170	6.5	65

121	A preliminary trial of a prototype Internet dissonance-based eating disorder prevention program for young women with body image concerns. <i>Journal of Consulting and Clinical Psychology</i> , 2012 , 80, 907-18	6.5	99
120	Effects of three depression prevention interventions on risk for depressive disorder onset in the context of depression risk factors. <i>Prevention Science</i> , 2012 , 13, 584-93	4	17
119	Negative affect and neural response to palatable food intake in bulimia nervosa. <i>Appetite</i> , 2012 , 58, 964-70	7.9	52
118	Effect of a dissonance-based prevention program on risk for eating disorder onset in the context of eating disorder risk factors. <i>Prevention Science</i> , 2012 , 13, 129-39	4	44
117	Future directions in etiologic, prevention, and treatment research for eating disorders. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2012 , 41, 845-55	5.4	42
116	Multilocus genetic composite reflecting dopamine signaling capacity predicts reward circuitry responsivity. <i>Journal of Neuroscience</i> , 2012 , 32, 10093-100	6.6	108
115	Negative life events and substance use moderate cognitive behavioral adolescent depression prevention intervention. <i>Cognitive Behaviour Therapy</i> , 2012 , 41, 241-50	4.4	22
114	Frequent ice cream consumption is associated with reduced striatal response to receipt of an ice cream-based milkshake. <i>American Journal of Clinical Nutrition</i> , 2012 , 95, 810-7	7	81
113	Relation of dietary restraint scores to activation of reward-related brain regions in response to food intake, anticipated intake, and food pictures. <i>NeuroImage</i> , 2011 , 55, 233-9	7.9	95
112	An fMRI study of obesity, food reward, and perceived caloric density. Does a low-fat label make food less appealing?. <i>Appetite</i> , 2011 , 57, 65-72	4.5	117
111	Relation of depression to perceived social support: results from a randomized adolescent depression prevention trial. <i>Behaviour Research and Therapy</i> , 2011 , 49, 361-6	5.2	41
110	Risk factors for onset of eating disorders: evidence of multiple risk pathways from an 8-year prospective study. <i>Behaviour Research and Therapy</i> , 2011 , 49, 622-7	5.2	339
109	Attentional bias to food images associated with elevated weight and future weight gain: an fMRI study. <i>Obesity</i> , 2011 , 19, 1775-83	8	280
108	An effectiveness trial of a selected dissonance-based eating disorder prevention program for female high school students: Long-term effects. <i>Journal of Consulting and Clinical Psychology</i> , 2011 , 79, 500-8	6.5	106
107	High- and low-level dissonance-based eating disorder prevention programs with young women with body image concerns: an experimental trial. <i>Journal of Consulting and Clinical Psychology</i> , 2011 , 79, 129-34	6.5	59
106	Testing mediators hypothesized to account for the effects of a dissonance-based eating disorder prevention program over longer term follow-up. <i>Journal of Consulting and Clinical Psychology</i> , 2011 , 79, 398-405	6.5	41
105	Evaluating models for partially clustered designs. <i>Psychological Methods</i> , 2011 , 16, 149-65	7.1	79
104	A prospective test of the relation between weight change and risk for bulimia nervosa. <i>International Journal of Eating Disorders</i> , 2011 , 44, 295-303	6.3	17

103	Reward abnormalities among women with full and subthreshold bulimia nervosa: a functional magnetic resonance imaging study. <i>International Journal of Eating Disorders</i> , 2011 , 44, 585-95	6.3	108
102	Dopamine-based reward circuitry responsivity, genetics, and overeating. <i>Current Topics in Behavioral Neurosciences</i> , 2011 , 6, 81-93	3.4	56
101	Youth at risk for obesity show greater activation of striatal and somatosensory regions to food. <i>Journal of Neuroscience</i> , 2011 , 31, 4360-6	6.6	249
100	Weight suppression and risk of future increases in body mass: effects of suppressed resting metabolic rate and energy expenditure. <i>American Journal of Clinical Nutrition</i> , 2011 , 94, 7-11	7	45
99	Variability in reward responsivity and obesity: evidence from brain imaging studies. <i>Current Drug Abuse Reviews</i> , 2011 , 4, 182-9		101
98	Risk factors and prodromal eating pathology. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2010 , 51, 518-25	7.9	139
97	Reward circuitry responsivity to food predicts future increases in body mass: moderating effects of DRD2 and DRD4. <i>NeuroImage</i> , 2010 , 50, 1618-25	7.9	256
96	Body mass correlates inversely with inhibitory control in response to food among adolescent girls: an fMRI study. <i>NeuroImage</i> , 2010 , 52, 1696-703	7.9	383
95	Weight gain is associated with reduced striatal response to palatable food. <i>Journal of Neuroscience</i> , 2010 , 30, 13105-9	6.6	295
94	Effects of an indicated cognitive-behavioral depression prevention program are similar for Asian American, Latino, and European American adolescents. <i>Behaviour Research and Therapy</i> , 2010 , 48, 821-5	5.2	24
93	Are dietary restraint scales valid measures of dietary restriction? Additional objective behavioral and biological data suggest not. <i>Appetite</i> , 2010 , 54, 331-9	4.5	110
92	Relation of dietary restraint scores to cognitive biases and reward sensitivity. <i>Appetite</i> , 2010 , 55, 61-8	4.5	51
91	Efficacy trial of a brief cognitive-behavioral depression prevention program for high-risk adolescents: effects at 1- and 2-year follow-up. <i>Journal of Consulting and Clinical Psychology</i> , 2010 , 78, 856-67	6.5	90
90	Testing mediators of intervention effects in randomized controlled trials: An evaluation of three depression prevention programs. <i>Journal of Consulting and Clinical Psychology</i> , 2010 , 78, 273-80	6.5	49
