#	Paper	IF	Citations
72	Risk factors for squamous cell carcinoma of the oral cavity in young people--a comprehensive literature review. <i>Oral Oncology</i> , 2001 , 37, 401-18	4.4	337
71	Evaluating the effectiveness of health belief model interventions in improving adherence: a systematic review. <i>Health Psychology Review</i> , 2014 , 8, 253-69	7.1	186
70	An analysis of risk factors for oral cancer in young people: a case-control study. <i>Oral Oncology</i> , 2004 , 40, 304-13	4.4	182
69	Can we predict which head and neck cancer survivors develop fears of recurrence?. <i>Journal of Psychosomatic Research</i> , 2008 , 65, 525-32	4.1	107
68	Illness and treatment beliefs in head and neck cancer: is Leventhal's common sense model a useful framework for determining changes in outcomes over time?. <i>Journal of Psychosomatic Research</i> , 2007 , 63, 17-26	4.1	98
67	Squamous cell carcinoma of the oral cavity in patients aged 45 years and under: a descriptive analysis of 116 cases diagnosed in the South East of England from 1990 to 1997. <i>Oral Oncology</i> , 2003 , 39, 106-14	4.4	98
66	Sexual orientation disclosure in health care: a systematic review. <i>British Journal of General Practice</i> , 2018 , 68, e187-e196	1.6	83
65	The Illness Perceptions and Treatment Beliefs of Individuals with Severe Haemophilia and their Role in Adherence to Home Treatment. <i>Psychology and Health</i> , 2003 , 18, 185-200	2.9	81
64	How satisfied are head and neck cancer (HNC) patients with the information they receive pre-treatment? Results from the satisfaction with cancer information profile (SCIP). <i>Oral Oncology</i> , 2006 , 42, 726-34	4.4	68
63	Associations between quality of life, coping styles, optimism, and anxiety and depression in pretreatment patients with head and neck cancer. <i>Head and Neck</i> , 2011 , 33, 65-71	4.2	67
62	Are psycho-social and behavioural factors related to health related-quality of life in patients with head and neck cancer? A systematic review. <i>Oral Oncology</i> , 2005 , 41, 440-54	4.4	67
61	The impact of stomatological disease on oral health-related quality of life. <i>European Journal of Oral Sciences</i> , 2003 , 111, 297-304	2.3	65
60	Human papillomavirus and vaccine-related perceptions among men who have sex with men: a systematic review. <i>Sexually Transmitted Infections</i> , 2014 , 90, 515-23	2.8	60
59	Assessing the psychological predictors of benefit finding in patients with head and neck cancer. <i>Psycho-Oncology</i> , 2013 , 22, 97-105	3.9	53
58	Factors associated with delay in presentation among younger patients with oral cancer. <i>Oral Surgery Oral Medicine Oral Pathology Oral Radiology and Endodontics</i> , 2004 , 97, 707-13		49
57	Obtaining self-samples to diagnose curable sexually transmitted infections: a systematic review of patients' experiences. <i>PLoS ONE</i> , 2015 , 10, e0124310	3.7	44
56	Head and neck cancer: to what extent can psychological factors explain differences between health-related quality of life and individual quality of life?. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2006 , 44, 351-7	1.4	41

55	Factors associated with good adherence to self-care behaviours amongst adolescents with food allergy. <i>Pediatric Allergy and Immunology</i> , 2015 , 26, 111-8	4.2	39
54	Conducting oral examinations for cancer in general practice: what are the barriers?. <i>Family Practice</i> , 2010 , 27, 77-84	1.9	37
53	A systematic review of the effectiveness of interventions using the Common Sense Self-Regulatory Model to improve adherence behaviours. <i>Journal of Health Psychology</i> , 2016 , 21, 2709-2724	3.1	35
52	Syndemics of stigma, minority-stress, maladaptive coping, risk environments and littoral spaces among men who have sex with men using chemsex. <i>Culture, Health and Sexuality</i> , 2018 , 20, 411-427	2.5	34
51	Explaining adherence to self-care behaviours amongst adolescents with food allergy: a comparison of the health belief model and the common sense self-regulation model. <i>British Journal of Health Psychology</i> , 2014 , 19, 65-82	8.3	31
50	The relationship between the Patient Generated Index (PGI) and measures of HR-QoL following diagnosis with head and neck cancer: are illness and treatment perceptions determinants of judgment-based outcomes?. <i>British Journal of Health Psychology</i> , 2007 , 12, 421-37	8.3	31
49	Development and preliminary validation of a new measure to assess satisfaction with information among head and neck cancer patients: the satisfaction with cancer information profile (SCIP). <i>Head and Neck</i> , 2006 , 28, 540-8	4.2	30
48	Perceptions of HPV and attitudes towards HPV vaccination amongst men who have sex with men: A qualitative analysis. <i>British Journal of Health Psychology</i> , 2017 , 22, 345-361	8.3	29
47	Home sampling for sexually transmitted infections and HIV in men who have sex with men: a prospective observational study. <i>PLoS ONE</i> , 2015 , 10, e0120810	3.7	29
46	"Cancer doesn't mean curtains": benefit finding in patients with head and neck cancer in remission. <i>Journal of Psychosocial Oncology</i> , 2010 , 28, 666-82	2.8	24
45	Home sampling kits for sexually transmitted infections: preferences and concerns of men who have sex with men. <i>Culture, Health and Sexuality</i> , 2011 , 13, 343-53	2.5	20
44	Striking the right balance: A qualitative pilot study examining the role of information on the development of expectations in patients treated for head and neck cancer. <i>Psychology, Health and Medicine</i> , 2005 , 10, 180-193	2.1	17
43	Acceptability of artificial intelligence (AI)-enabled chatbots, video consultations and live webchats as online platforms for sexual health advice. <i>BMJ Sexual and Reproductive Health</i> , 2020 , 46, 210-217	1.9	16
42	Preferences for HIV testing services among men who have sex with men in the UK: A discrete choice experiment. <i>PLoS Medicine</i> , 2019 , 16, e1002779	11.6	15
41	Men who have sex with men who do not access sexual health clinics nor disclose sexual orientation are unlikely to receive the HPV vaccine in the UK. <i>Vaccine</i> , 2018 , 36, 5065-5070	4.1	15
40	Public attitudes towards opt-out testing for HIV in primary care: a qualitative study. <i>British Journal of General Practice</i> , 2014 , 64, e60-6	1.6	15
39	Understanding patient choices for attending sexually transmitted infection testing services: a qualitative study. <i>Sexually Transmitted Infections</i> , 2012 , 88, 504-9	2.8	15
38	A systematic review of patient acceptance of screening for oral cancer outside of dental care settings. <i>Oral Oncology</i> , 2014 , 50, 956-62	4.4	14

37	Assessing user preferences for sexually transmitted infection testing services: a discrete choice experiment. <i>Sexually Transmitted Infections</i> , 2012 , 88, 510-6	2.8	14
36	Testing for sexually transmitted infections among students: a discrete choice experiment of service preferences. <i>BMJ Open</i> , 2013 , 3, e003240	3	13
35	Talking about links between sexually transmitted infections and infertility with college and university students from SE England, UK: a qualitative study. <i>Reproductive Health</i> , 2013 , 10, 47	3.5	12
34	Que(e) rying undergraduate medical curricula: a cross-sectional online survey of lesbian, gay, bisexual, transgender, and queer content inclusion in UK undergraduate medical education. <i>BMC Medical Education</i> , 2021 , 21, 100	3.3	12
33	A cross-sectional comparison study of cognitive and emotional well-being in oral cancer patients. <i>Oral Oncology</i> , 2008 , 44, 124-32	4.4	11
32	Vaccine acceptability, uptake and completion amongst men who have sex with men: A systematic review, meta-analysis and theoretical framework. <i>Vaccine</i> , 2021 , 39, 3565-3581	4.1	11
31	Medical students' awareness of health issues, attitudes, and confidence about caring for lesbian, gay, bisexual and transgender patients: a cross-sectional survey. <i>BMC Medical Education</i> , 2021 , 21, 56	3.3	11
30	A systematic review of patients', parents' and healthcare professionals' adrenaline auto-injector administration techniques. <i>Emergency Medicine Journal</i> , 2017 , 34, 403-416	1.5	10
29	Sexual healthcare professionals' views on HPV vaccination for men in the UK. <i>British Journal of Cancer</i> , 2015 , 113, 1599-601	8.7	9
28	Are home sampling kits for sexually transmitted infections acceptable among men who have sex with men?. <i>Journal of Health Services Research and Policy</i> , 2009 , 14, 35-43	2.4	8
27	Is the Satisfaction with Cancer Information Profile (SCIP) valid for tailoring information for patients with head and neck cancer?. <i>BMC Cancer</i> , 2008 , 8, 164	4.8	7
26	Sexual risk reduction interventions for patients attending sexual health clinics: a mixed-methods feasibility study. <i>Health Technology Assessment</i> , 2019 , 23, 1-122	4.4	6
25	Patients' perspectives on the development of HIV services to accommodate ageing with HIV: a qualitative study. <i>International Journal of STD and AIDS</i> , 2018 , 29, 483-490	1.4	5
24	The relative clinical effectiveness and cost-effectiveness of three contrasting approaches to partner notification for curable sexually transmitted infections: a cluster randomised trial in primary care. <i>Health Technology Assessment</i> , 2015 , 19, 1-115, vii-viii	4.4	5
23	Sexual health promotion in people with severe mental illness: the RESPECT feasibility RCT. <i>Health Technology Assessment</i> , 2019 , 23, 1-136	4.4	5
22	Patient sexual orientation and gender identity disclosure. <i>Clinical Teacher</i> , 2020 , 17, 669-673	1.1	5
21	Designing a brief behaviour change intervention to reduce sexually transmitted infections: a discrete choice experiment. <i>International Journal of STD and AIDS</i> , 2018 , 29, 851-860	1.4	5
20	HIV self-tests for men who have sex with men, accessed via a digital vending machine: a qualitative study of acceptability. <i>International Journal of STD and AIDS</i> , 2020 , 31, 420-425	1.4	4

19	Multicentre RCT and economic evaluation of a psychological intervention together with a leaflet to reduce risk behaviour amongst men who have sex with men (MSM) prescribed post-exposure prophylaxis for HIV following sexual exposure (PEPSE): a protocol. <i>BMC Infectious Diseases</i> , 2012 , 12, 70	4	4
18	Healthcare provider and service user perspectives on STI risk reduction interventions for young people and MSM in the UK. <i>Sexually Transmitted Infections</i> , 2020 , 96, 26-32	2.8	4
17	Understanding HIV-positive patients' preferences for healthcare services: a protocol for a discrete choice experiment. <i>BMJ Open</i> , 2016 , 6, e008549	3	3
16	What is the extent of repeat prescriptions for post-exposure prophylaxis for HIV after sexual exposure among men who have sex with men in the UK?. <i>Sexual Health</i> , 2016 , 13, 595-596	2	3
15	A randomised controlled trial of a telephone administered brief HIV risk reduction intervention amongst men who have sex with men prescribed post-exposure prophylaxis for HIV after sexual exposure in the UK: Project PEPSE. <i>PLoS ONE</i> , 2019 , 14, e0216855	3.7	2
14	The NHS England Fundamental Information Standard for Monitoring Sexual Orientation. <i>British Journal of General Practice</i> , 2019 , 69, 94-95	1.6	1
13	P109 The Santif project: Attitude towards STI risk assessment, preferences for STI behavioural risk reduction interventions: Service Users Perspectives. <i>Sexually Transmitted Infections</i> , 2016 , 92, A56.4-A57	2.8	1
12	O13 I was struggling to feel intimate, the drugs just helped chemsex and HIV-risk among men who have sex with men (MSM) in the uk: syndemics of stigma, minority-stress, maladaptive coping and risk environments. <i>Sexually Transmitted Infections</i> , 2017 , 93, A5.1-A5	2.8	1
11	Nonclinical Sexual Health Support for HIV, Viral Hepatitis, and Other Sexually Transmitted Infections in Gay, Bisexual, and Other Men Who Have Sex With Men: Protocol for a European Community Health Worker Online Survey (ECHOES). <i>JMIR Research Protocols</i> , 2020 , 9, e15012	2	1
10	Sexual healthcare professionals' views on the rapid provision of remote services at the beginning of COVID-19 pandemic: A mixed-methods study. <i>International Journal of STD and AIDS</i> , 2021 , 32, 1138-1148	1.4	1
9	O025 Behavioural factors associated with HPV vaccine acceptability amongst men who have sex with men in the United Kingdom. <i>Sexually Transmitted Infections</i> , 2016 , 92, A9.3-A10	2.8	
8	O013 Understanding the sexual appetites of men who have sex with men (MSM) taking part in a sexual risk reduction intervention after being prescribed post exposure prophylaxis for HIV after sexual exposure (PEPSE). <i>Sexually Transmitted Infections</i> , 2016 , 92, A5.2-A5	2.8	
7	P110 The Santif Project: a mixed-methods assessment of opportunities and challenges for the delivery of brief risk reduction interventions in sexual health clinics in England - a healthcare provider's perspective. <i>Sexually Transmitted Infections</i> , 2016 , 92, A57.1-A57	2.8	
6	U2 What do men who have sex with men (MSM) taking post-exposure prophylaxis (PEP) for hiv following sexual exposure report about their recent sexual risk-taking behaviour?. <i>Sexually Transmitted Infections</i> , 2015 , 91, A14.2-A14	2.8	
5	P105 Sexual healthcare professionals' attitudes towards HPV vaccination for men in the united kingdom. <i>Sexually Transmitted Infections</i> , 2015 , 91, A50.3-A51	2.8	
4	P117 A qualitative assessment of UK sexual healthcare professionals' views on targeted vaccination against human papillomavirus (HPV) for men who have sex with men (MSM). <i>Sexually Transmitted Infections</i> , 2015 , 91, A54.3-A54	2.8	
3	P25 Investigating factors for increased gonorrhoea re-infection in msm attending a gu clinic: a qualitative study. <i>Sexually Transmitted Infections</i> , 2015 , 91, A24.1-A24	2.8	
2	U7 Factors contributing to repeat pepse in msm. <i>Sexually Transmitted Infections</i> , 2015 , 91, A15.3-A15	2.8	

- 1 A decline in patient disclosure of heterosexuality in the English General Practice Patient Survey: a longitudinal analysis of cross-sectional data. *Family Practice*, **2020**, 37, 661-667 1.9
