#	ARTICLE	IF	CITATIONS
1	Review: Lead Exposure in Battery Manufacturing and Recycling in Developing Countries and Among Children in Nearby Communities. <i>Journal of Occupational and Environmental Hygiene</i> , 2011, 8, 520-532.	1.0	129
2	Soil contamination from lead battery manufacturing and recycling in seven African countries. <i>Environmental Research</i> , 2018, 161, 609-614.	7.5	72
3	Metal exposures from aluminum cookware: An unrecognized public health risk in developing countries. <i>Science of the Total Environment</i> , 2017, 579, 805-813.	8.0	59
4	Lead exposure from aluminum cookware in Cameroon. <i>Science of the Total Environment</i> , 2014, 496, 339-347.	8.0	45
5	Lead content in household paints in India. <i>Science of the Total Environment</i> , 2008, 407, 333-337.	8.0	44
6	Silica Exposures in Artisanal Small-Scale Gold Mining in Tanzania and Implications for Tuberculosis Prevention. <i>Journal of Occupational and Environmental Hygiene</i> , 2015, 12, 647-653.	1.0	38
7	Lead emissions from solar photovoltaic energy systems in China and India. <i>Energy Policy</i> , 2011, 39, 4939-4946.	8.8	31
8	Time to Ban Lead in Industrial Paints and Coatings. <i>Frontiers in Public Health</i> , 2015, 3, 144.	2.7	25
9	Reducing Lead and Silica Dust Exposures in Small-Scale Mining in Northern Nigeria. <i>Annals of Work Exposures and Health</i> , 2019, 63, 1-8.	1.4	24
10	Reduction of Respirable Silica Following the Introduction of Water Spray Applications in Indian Stone Crusher Mills. <i>International Journal of Occupational and Environmental Health</i> , 2008, 14, 94-103.	1.2	20
11	Lead Concentrations and Labeling of New Paint in Cameroon. <i>Journal of Occupational and Environmental Hygiene</i> , 2013, 10, 243-249.	1.0	19
12	Lead in new paints in Nepal. <i>Environmental Research</i> , 2014, 132, 70-75.	7.5	19
13	Commentary health risks from climate fix: The downside of energy storage batteries. <i>Environmental Research</i> , 2019, 178, 108677.	7.5	8
14	Declining blood lead levels among small-scale miners participating in a safer mining pilot programme in Nigeria. <i>Occupational and Environmental Medicine</i> , 2019, 76, 849-853.	2.8	8
15	Plans to distribute the next billion computers by 2015 creates lead pollution risk. <i>Journal of Cleaner Production</i> , 2009, 17, 1620-1628.	9.3	7
16	Preventing tuberculosis among high-risk workers. <i>The Lancet Global Health</i> , 2018, 6, e1274-e1275.	6.3	7
17	The Lead Battery: A Growing Global Public Health Challenge. <i>American Journal of Public Health</i> , 2017, 107, 1049-1050.	2.7	4
18	Letter to the Editor Re: Andrew Turner, Emily R. Kearl, Kevin R. Solman Lead and other toxic metals in playground paints from South West England <i>Science of the Total Environment</i> 544 (2016) 460-466. <i>Science of the Total Environment</i> , 2016, 562, 996-997.	8.0	3

#	ARTICLE	IF	CITATIONS
19	Finding the Next Flint: The Need to Update the Blood Lead Reference Value. American Journal of Public Health, 2021, 111, 1746-1749.	2.7	3
20	Preventing tuberculosis with silica dust controls [Editorial]. International Journal of Tuberculosis and Lung Disease, 2011, 15, 713-714.	1.2	2
21	Blood Lead Levels among Children in Yaoundé Cameroon. Frontiers in Public Health, 2017, 5, 163.	2.7	2
22	Letter to the editor re: the CDC blood lead reference value for children. Environmental Health, 2019, 18, 32.	4.0	1
23	Urgent Need for a Comprehensive Public Health Response to Artisanal Small-Scale Mining. Annals of Work Exposures and Health, 2022, 66, 1-4.	1.4	0
24	Metal exposures from source materials for artisanal aluminum cookware. International Journal of Environmental Health Research, 2023, 33, 374-385.	2.7	0
25	All lead exposures matter. Lancet Planetary Health, The, 2021, 5, e859.	11.4	0
26	Libby Trial Ends but Asbestos Hazards Remain in Buildings. International Journal of Occupational and Environmental Health, 2010, 16, 87-88.	1.2	0
