#	ARTICLE	IF	CITATIONS
1	If itâ€™s information, itâ€™s not â€œbiasâ€ a scoping review and proposed nomenclature for future response-shift research. <i>Quality of Life Research</i> , 2022, 31, 2247-2257.	1.5	8
2	Drivers of caregiver impact in Duchenne muscular dystrophy: a cohort study. <i>Journal of Patient-Reported Outcomes</i> , 2022, 6, 22.	0.9	3
3	Interplay of disability, caregiver impact, and out-of-pocket expenditures in Duchenne muscular dystrophy: a cohort study. <i>Journal of Patient-Reported Outcomes</i> , 2022, 6, 21.	0.9	3
4	The impact of COVID-19 on people with multiple sclerosis: A comparison of Italian and United States cohorts. <i>Multiple Sclerosis and Related Disorders</i> , 2022, , 103888.	0.9	1
5	Response-shift effects in neuromyelitis optica spectrum disorder: a secondary analysis of clinical trial data. <i>Quality of Life Research</i> , 2021, 30, 1267-1282.	1.5	8
6	Patient Factors That Matter in Predicting Hip Arthroplasty Outcomes: A Machine-Learning Approach. <i>Journal of Arthroplasty</i> , 2021, 36, 2024-2032.	1.5	36
7	Moving toward better health: exercise practice is associated with improved outcomes after spine surgery in people with degenerative lumbar conditions. <i>Canadian Journal of Surgery</i> , 2021, 64, E419-E427.	0.5	10
8	Creating idiometric short-form measures of cognitive appraisal: balancing theory and pragmatics. <i>Journal of Patient-Reported Outcomes</i> , 2021, 5, 57.	0.9	9
9	Patient factors that matter in predicting spine surgery outcomes: a machine learning approach. <i>Journal of Neurosurgery: Spine</i> , 2021, 35, 127-136.	0.9	10
10	â€œLooking Under the Hoodâ€ of Anchor-Based Assessment of Clinically Important Change: A Machine Learning Approach. <i>Value in Health</i> , 2021, 24, 1009-1015.	0.1	1
11	What should progress in response-shift research look like?. <i>Quality of Life Research</i> , 2021, 30, 3359-3361.	1.5	2
12	No impact of Asian ethnicity on EORTC QLQ-C30 scores: Group differences and differential item functioning in paroxysmal nocturnal hemoglobinuria. <i>Health and Quality of Life Outcomes</i> , 2021, 19, 228.	1.0	2
13	Norm-based comparison of the quality-of-life impact of ravulizumab and eculizumab in paroxysmal nocturnal hemoglobinuria. <i>Orphanet Journal of Rare Diseases</i> , 2021, 16, 389.	1.2	6
14	Response-shift effects in neuromyelitis optica spectrum disorder: estimating response-shift-adjusted scores using equating. <i>Quality of Life Research</i> , 2021, 30, 1283-1292.	1.5	5
15	Characterizing the quality-of-life impact of Duchenne muscular dystrophy on caregivers: a case-control investigation. <i>Journal of Patient-Reported Outcomes</i> , 2021, 5, 124.	0.9	6
16	Measuring Duchenne muscular dystrophy impact: development of a proxy-reported measure derived from PROMIS item banks. <i>Orphanet Journal of Rare Diseases</i> , 2021, 16, 487.	1.2	4
17	Expanding the purview of wellness indicators: validating a new measure that includes attitudes, behaviors, and perspectives. <i>Health Psychology and Behavioral Medicine</i> , 2021, 9, 1031-1052.	0.8	3
18	Positive emotions despite substantial burden: The alchemy of haemophilia caregiving. <i>Haemophilia</i> , 2020, 26, 86-96.	1.0	9

#	ARTICLE	IF	CITATIONS
19	Understanding haemophilia caregiver burden: does appraisal buffer the impact of haemophilia on caregivers over time?. <i>Psychology and Health</i> , 2020, 35, 1516-1530.	1.2	3
20	Does response shift impact interpretation of change even among scales developed using item response theory?. <i>Journal of Patient-Reported Outcomes</i> , 2020, 4, 8.	0.9	10
21	Capturing patient experience: does quality-of-life appraisal entail a new class of measurement?. <i>Journal of Patient-Reported Outcomes</i> , 2020, 4, 85.	0.9	13
22	Advancing quality-of-life research by deepening our understanding of response shift: a unifying theory of appraisal. <i>Quality of Life Research</i> , 2019, 28, 2623-2630.	1.5	44
23	Patient-reported outcomes in spine surgery: past, current, and future directions. <i>Journal of Neurosurgery: Spine</i> , 2019, 31, 155-164.	0.9	81
24	Is the link between socioeconomic status and resilience mediated by reserve-building activities: mediation analysis of web-based cross-sectional data from chronic medical illness patient panels. <i>BMJ Open</i> , 2019, 9, e025602.	0.8	20
25	Longitudinal validity of the hemophilia caregiver impact measure. <i>Quality of Life Research</i> , 2019, 28, 1979-1987.	1.5	6
26	An Investigation of Occupational Therapists'™ and Physical Therapists'™ Perspectives on the Process of Change That Occurs among Clients during Rehabilitation, Including Their Use of Response Shift and Transformative Learning. <i>Physiotherapy Canada Physiotherapie Canada</i> , 2019, 71, 355-366.	0.3	2
27	Perceptions of Response Burden Associated with Completion of Patient-Reported Outcome Assessments in Oncology. <i>Value in Health</i> , 2019, 22, 225-230.	0.1	38
28	Reconsidering the minimally important difference: evidence of instability over time and across groups. <i>Spine Journal</i> , 2019, 19, 726-734.	0.6	27
29	Introduction to special section: measuring what matters. <i>Quality of Life Research</i> , 2018, 27, 1-3.	1.5	1
30	The impact of extended half-life versus conventional factor product on hemophilia caregiver burden. <i>Quality of Life Research</i> , 2018, 27, 1335-1345.	1.5	26
31	Quality of Life and Adaptation in People With Spinal Cord Injury: Response Shift Effects From 1 to 5 Years Postinjury. <i>Archives of Physical Medicine and Rehabilitation</i> , 2018, 99, 1599-1608.e1.	0.5	26
32	Risk factors for non-adherence to disease-modifying therapy in pediatric multiple sclerosis. <i>Multiple Sclerosis Journal</i> , 2018, 24, 175-185.	1.4	30
33	Health Conditions: Effect on Function, Health-Related Quality of Life, and Life Satisfaction After Traumatic Spinal Cord Injury. A Prospective Observational Registry Cohort Study. <i>Archives of Physical Medicine and Rehabilitation</i> , 2018, 99, 443-451.	0.5	92
34	Assessing reserve-building pursuits and person characteristics: psychometric validation of the Reserve-Building Measure. <i>Quality of Life Research</i> , 2018, 27, 423-436.	1.5	13
35	Development of a practical outcome measure to account for individual differences in quality-of-life appraisal: the Brief Appraisal Inventory. <i>Quality of Life Research</i> , 2018, 27, 823-833.	1.5	22
36	Reserve-building activities attenuate treatment burden in chronic illness: The mediating role of appraisal and social support. <i>Health Psychology Open</i> , 2018, 5, 205510291877344.	0.7	16

#	ARTICLE	IF	CITATIONS
37	Impact of an electronic monitoring device and behavioral feedback on adherence to multiple sclerosis therapies in youth: results of a randomized trial. <i>Quality of Life Research</i> , 2017, 26, 2333-2349.	1.5	16
38	The Performance Scales disability measure for multiple sclerosis: use and sensitivity to clinically important differences. <i>Health and Quality of Life Outcomes</i> , 2017, 15, 47.	1.0	8
39	Measuring hemophilia caregiver burden: validation of the Hemophilia Caregiver Impact measure. <i>Quality of Life Research</i> , 2017, 26, 2551-2562.	1.5	18
40	When global rating of change contradicts observed change: Examining appraisal processes underlying paradoxical responses over time. <i>Quality of Life Research</i> , 2017, 26, 847-857.	1.5	30
41	Distinguishing appraisal and personality influences on quality of life in chronic illness: introducing the quality-of-life Appraisal Profile version 2. <i>Quality of Life Research</i> , 2017, 26, 2815-2829.	1.5	30
42	Appraisal assessment in patient-reported outcome research: methods for uncovering the personal context and meaning of quality of life. <i>Quality of Life Research</i> , 2017, 26, 545-554.	1.5	30
43	Resilience to health challenges is related to different ways of thinking: mediators of physical and emotional quality of life in a heterogeneous rare-disease cohort. <i>Quality of Life Research</i> , 2017, 26, 3075-3088.	1.5	30
44	Toward mindfulness in quality-of-life research: perspectives on how to avoid rigor becoming rigidity. <i>Quality of Life Research</i> , 2017, 26, 1387-1392.	1.5	2
45	Anxiety mediates the effect of smoking on insomnia in people with asthma: evidence from the HUNT3 study. <i>Journal of Multidisciplinary Healthcare</i> , 2016, 9, 21.	1.1	2
46	Reserve-related activities and MRI metrics in multiple sclerosis patients and healthy controls: an observational study. <i>BMC Neurology</i> , 2016, 16, 108.	0.8	6
47	Using a retrospective pretest instead of a conventional pretest is replacing biases: a qualitative study of cognitive processes underlying responses to thentest items. <i>Quality of Life Research</i> , 2016, 25, 1327-1337.	1.5	11
48	Measurement and maintenance of reserve in multiple sclerosis. <i>Journal of Neurology</i> , 2016, 263, 2158-2169.	1.8	30
49	Reserve and Reserve-building activities research: key challenges and future directions. <i>BMC Neuroscience</i> , 2016, 17, 62.	0.8	26
50	An item-level response shift study on the change of health state with the rating of asthma-specific quality of life: a report from the PROMISA® Pediatric Asthma Study. <i>Quality of Life Research</i> , 2016, 25, 1349-1359.	1.5	8
51	Synergistic Effects of Reserve and Adaptive Personality in Multiple Sclerosis. <i>Journal of the International Neuropsychological Society</i> , 2016, 22, 920-927.	1.2	18
52	Introduction to special section on response shift at the item level. <i>Quality of Life Research</i> , 2016, 25, 1323-1325.	1.5	6
53	Introduction to special section on patient-reported outcomes in nonstandard settings. <i>Quality of Life Research</i> , 2016, 25, 493-495.	1.5	0
54	Distilling the essence of appraisal: a mixed methods study of people with multiple sclerosis. <i>Quality of Life Research</i> , 2016, 25, 793-805.	1.5	17

#	ARTICLE	IF	CITATIONS
55	Refining a Web-based goal assessment interview: item reduction based on reliability and predictive validity. <i>Quality of Life Research</i> , 2016, 25, 2201-2212.	1.5	8
56	When patients and surgeons disagree about surgical outcome: investigating patient factors and chart note communication. <i>Health and Quality of Life Outcomes</i> , 2015, 13, 161.	1.0	20
57	Reserve-building activities in multiple sclerosis patients and healthy controls: a descriptive study. <i>BMC Neurology</i> , 2015, 15, 135.	0.8	9
58	A new perspective on proxy report: Investigating implicit processes of understanding through patientâ€™proxy congruence. <i>Quality of Life Research</i> , 2015, 24, 2637-2649.	1.5	10
59	Method variation in the impact of missing data on response shift detection. <i>Quality of Life Research</i> , 2015, 24, 521-528.	1.5	5
60	RespOnse Shift ALgorithm in Item response theory (ROSALI) for response shift detection with missing data in longitudinal patient-reported outcome studies. <i>Quality of Life Research</i> , 2015, 24, 553-564.	1.5	37
61	Introduction to special section on patient engagement. <i>Quality of Life Research</i> , 2015, 24, 1029-1031.	1.5	0
62	Investigating the minimal important difference in ambulation in multiple sclerosis: A disconnect between performance-based and patient-reported outcomes?. <i>Journal of the Neurological Sciences</i> , 2014, 347, 268-274.	0.3	11
63	Fluctuations in appraisal over time in the context of stable versus non-stable health. <i>Quality of Life Research</i> , 2014, 23, 9-19.	1.5	24
64	Threats to the Internal Validity of Spinal Surgery Outcome Assessment: Recalibration Response Shift or Implicit Theories of Change?. <i>Applied Research in Quality of Life</i> , 2014, 9, 215-232.	1.4	17
65	Letâ€™s engage the patient within us: a personal perspective on patient engagement. <i>Quality of Life Research</i> , 2014, 23, 1045-1046.	1.5	2
66	Understanding social forces involved in diabetes outcomes: a systems science approach to quality-of-life research. <i>Quality of Life Research</i> , 2014, 23, 959-969.	1.5	25
67	Minimal evidence of response shift in the absence of a catalyst. <i>Quality of Life Research</i> , 2014, 23, 2421-2430.	1.5	24
68	Composite scores in comparative effectiveness research: counterbalancing parsimony and dimensionality in patient-reported outcomes. <i>Journal of Comparative Effectiveness Research</i> , 2014, 3, 423-433.	0.6	3
69	The role of recalibration response shift in explaining bodily pain in cancer patients undergoing invasive surgery: an empirical investigation of the Sprangers and Schwartz model. <i>Psycho-Oncology</i> , 2013, 22, 515-522.	1.0	33
70	Guidelines for secondary analysis in search of response shift. <i>Quality of Life Research</i> , 2013, 22, 2663-2673.	1.5	36
71	Changing values, changing outcomes: the influence of reprioritization response shift on outcome assessment after spine surgery. <i>Quality of Life Research</i> , 2013, 22, 2255-2264.	1.5	33
72	ISOQOL recommends minimum standards for patient-reported outcome measures used in patient-centered outcomes and comparative effectiveness research. <i>Quality of Life Research</i> , 2013, 22, 1889-1905.	1.5	613

#	ARTICLE	IF	CITATIONS
73	Philosophical perspectives on response shift. <i>Quality of Life Research</i> , 2013, 22, 1871-1878.	1.5	27
74	Altruism and health outcomes in multiple sclerosis: The effect of cognitive reserve. <i>Journal of Positive Psychology</i> , 2013, 8, 144-152.	2.6	13
75	Cognitive reserve and patient-reported outcomes in multiple sclerosis. <i>Multiple Sclerosis Journal</i> , 2013, 19, 87-105.	1.4	49
76	Cognitive Reserve and Symptom Experience in Multiple Sclerosis: A Buffer to Disability Progression Over Time?. <i>Archives of Physical Medicine and Rehabilitation</i> , 2013, 94, 1971-1981.e1.	0.5	45
77	Cognitive reserve and appraisal in multiple sclerosis. <i>Multiple Sclerosis and Related Disorders</i> , 2013, 2, 36-44.	0.9	26
78	Active Cognitive Reserve Influences the Regional Atrophy to Cognition Link in Multiple Sclerosis. <i>Journal of the International Neuropsychological Society</i> , 2013, 19, 1128-1133.	1.2	22
79	Building on Transformative Learning and Response Shift Theory to Investigate Health-Related Quality of Life Changes Over Time in Individuals With Chronic Health Conditions and Disability. <i>Archives of Physical Medicine and Rehabilitation</i> , 2012, 93, 214-220.	0.5	50
80	The Symptom Inventory Disability-Specific Short Forms for Multiple Sclerosis: Construct Validity, Responsiveness, and Interpretation. <i>Archives of Physical Medicine and Rehabilitation</i> , 2012, 93, 1617-1628.e1.	0.5	12
81	The Symptom Inventory Disability-Specific Short Forms for Multiple Sclerosis: Reliability and Factor Structure. <i>Archives of Physical Medicine and Rehabilitation</i> , 2012, 93, 1629-1636.e2.	0.5	10
82	Doing Good, Feeling Good, and Having More: Resources Mediate the Health Benefits of Altruism Differently for Males and Females with Lumbar Spine Disorders. <i>Applied Research in Quality of Life</i> , 2012, 7, 263-279.	1.4	8
83	Understanding appraisal processes underlying the thentest: a mixed methods investigation. <i>Quality of Life Research</i> , 2012, 21, 381-388.	1.5	25
84	Mixing methods and blending paradigms: some considerations for future research. <i>Quality of Life Research</i> , 2012, 21, 375-376.	1.5	3
85	Altruism and Health. , 2012, , 202-205.		2
86	Altruism and Health: Theoretical Perspectives. <i>Social Indicators Research Series</i> , 2012, , 107-124.	0.3	1
87	Using structural equation modeling to detect response shift in performance and health-related quality of life scores of multiple sclerosis patients. <i>Quality of Life Research</i> , 2011, 20, 1527-1540.	1.5	34
88	Data mining for response shift patterns in multiple sclerosis patients using recursive partitioning tree analysis. <i>Quality of Life Research</i> , 2011, 20, 1543-1553.	1.5	28
89	Using latent trajectory analysis of residuals to detect response shift in general health among patients with multiple sclerosis article. <i>Quality of Life Research</i> , 2011, 20, 1555-1560.	1.5	19
90	Response shift in patients with multiple sclerosis: an application of three statistical techniques. <i>Quality of Life Research</i> , 2011, 20, 1561-1572.	1.5	29

#	ARTICLE	IF	CITATIONS
91	The king's foot of patient-reported outcomes: current practices and new developments for the measurement of change. <i>Quality of Life Research</i> , 2011, 20, 1159-1167.	1.5	29
92	Opening the black box of cancer patients' quality-of-life change assessments: A think-aloud study examining the cognitive processes underlying responses to transition items. <i>Psychology and Health</i> , 2011, 26, 1414-1428.	1.2	8
93	Guidelines for improving the stringency of response shift research using the thentest. <i>Quality of Life Research</i> , 2010, 19, 455-464.	1.5	93
94	Do not throw out the baby with the bath water: build on current approaches to realize conceptual clarity. Response to Ubel, Peeters, and Smith. <i>Quality of Life Research</i> , 2010, 19, 477-479.	1.5	19
95	The Impact of Response Shift on Perceived Disability Two Years Following Rotator Cuff Surgery. <i>Journal of Bone and Joint Surgery - Series A</i> , 2010, 92, 2178-2186.	1.4	19
96	Applications of Response Shift Theory and Methods to Participation Measurement: A Brief History of a Young Field. <i>Archives of Physical Medicine and Rehabilitation</i> , 2010, 91, S38-S43.	0.5	65
97	Quality of Life in Light of Appraisal and Response Shift. , 2010, , 955-968.		1
98	Intellectual property rights and good research practice. <i>Quality of Life Research</i> , 2009, 18, 1279-1280.	1.5	10
99	Helping Others Shows Differential Benefits on Health and Well-being for Male and Female Teens. <i>Journal of Happiness Studies</i> , 2009, 10, 431-448.	1.9	92
100	Traditional assessment of health outcome following total knee arthroplasty was confounded by response shift phenomenon. <i>Journal of Clinical Epidemiology</i> , 2009, 62, 91-96.	2.4	41
101	Response shift and outcome assessment in orthopedic surgery: is there a difference between complete and partial treatment?. <i>Journal of Clinical Epidemiology</i> , 2009, 62, 1189-1190.	2.4	25
102	Applications of health-related quality of life for guiding health care: advances in response shift research. <i>Journal of Clinical Epidemiology</i> , 2009, 62, 1115-1117.	2.4	9
103	Continued validation of the Symptom Inventory in multiple sclerosis. <i>Journal of the Neurological Sciences</i> , 2009, 285, 134-136.	0.3	16
104	Understanding inconsistencies in patient-reported outcomes after spine treatment: response shift phenomena. <i>Spine Journal</i> , 2009, 9, 1039-1045.	0.6	39
105	Prospective evaluation of chronic pain associated with posterior autologous iliac crest bone graft harvest and its effect on postoperative outcome. <i>Health and Quality of Life Outcomes</i> , 2009, 7, 49.	1.0	105
106	Polymorphic Variation of the Comt Gene Influences Outcome in Patients Undergoing Surgical Treatment for Lumbar Degenerative Disc Disease. <i>Spine Journal</i> , 2008, 8, 66S.	0.6	2
107	P60. Response Shift in Patients Following Lumbar Spine Surgery Impact on Interpretation of Oswestry Disability Index. <i>Spine Journal</i> , 2008, 8, 130S.	0.6	1
108	Reflections on changeability versus stability of health-related quality of life: distinguishing between its environmental and genetic components. <i>Health and Quality of Life Outcomes</i> , 2008, 6, 89.	1.0	17
