Version: 2024-02-01

#	Article	IF	CITATIONS
1	A Two-Year Surveillance in Five Colombian Tertiary Care Hospitals Reveals High Frequency of Non-CG258 Clones of Carbapenem-Resistant Klebsiella pneumoniae with Distinct Clinical Characteristics. Antimicrobial Agents and Chemotherapy, 2016, 60, 332-342.	1.4	82
2	CC8 MRSA Strains Harboring SCCmec Type IVc are Predominant in Colombian Hospitals. PLoS ONE, 2012, 7, e38576.	1.1	55
3	Inactivation of carbapenem-resistant Klebsiella pneumoniae by photo-Fenton: Residual effect, gene evolution and modifications with citric acid and persulfate. Water Research, 2019, 161, 354-363.	5.3	47
4	Knowledge, attitude, and practice regarding antibiotic use and resistance among medical students in Colombia: a cross-sectional descriptive study. BMC Public Health, 2020, 20, 1861.	1.2	42
5	Similar Frequencies of Pseudomonas aeruginosa Isolates Producing KPC and VIM Carbapenemases in Diverse Genetic Clones at Tertiary-Care Hospitals in MedellÃn, Colombia. Journal of Clinical Microbiology, 2014, 52, 3978-3986.	1.8	38
6	Risk factors and survival of patients infected with carbapenem-resistant Klebsiella pneumoniae in a KPC endemic setting: a case-control and cohort study. BMC Infectious Diseases, 2019, 19, 830.	1.3	35
7	Elimination of carbapenem resistant Klebsiella pneumoniae in water by UV-C, UV-C/persulfate and UV-C/H2O2. Evaluation of response to antibiotic, residual effect of the processes and removal of resistance gene. Journal of Environmental Chemical Engineering, 2020, 8, 102196.	3.3	30
8	Metagenomic analysis of urban wastewater resistome and mobilome: A support for antimicrobial resistance surveillance in an endemic country. Environmental Pollution, 2021, 276, 116736.	3.7	30
9	Livestock-associated Methicillin-Susceptible <i>Staphylococcus aureus</i> ST398 Infection in Woman, Colombia. Emerging Infectious Diseases, 2011, 17, 1970-1971.	2.0	27
10	Differences in Epidemiological and Molecular Characteristics of Nasal Colonization with Staphylococcus aureus (MSSA-MRSA) in Children from a University Hospital and Day Care Centers. PLoS ONE, 2014, 9, e101417.	1.1	27
11	A comparison of methicillin-resistant and methicillin-susceptible Staphylococcus aureus reveals no clinical and epidemiological but molecular differences. International Journal of Medical Microbiology, 2013, 303, 76-83.	1.5	25
12	High clonal diversity of multidrug-resistant and extended spectrum beta-lactamase-producing Escherichia coli in a wastewater treatment plant. Journal of Environmental Management, 2019, 245, 37-47.	3.8	25
13	Molecular epidemiology of carbapenem resistant gram-negative bacilli from infected pediatric population in tertiary - care hospitals in MedellÃn, Colombia: an increasing problem. BMC Infectious Diseases, 2016, 16, 463.	1.3	24
14	Multidrug resistance and diversity of resistance profiles in carbapenem-resistant Gram-negative bacilli throughout a wastewater treatment plant in Colombia. Journal of Global Antimicrobial Resistance, 2020, 22, 358-366.	0.9	20
15	High excess costs of infections caused by carbapenem-resistant Gram-negative bacilli in an endemic region. International Journal of Antimicrobial Agents, 2018, 51, 601-607.	1.1	16
16	In vitro susceptibility of methicillin-resistant Staphylococcus aureus isolates from skin and soft tissue infections to vancomycin, daptomycin, linezolid and tedizolid. Brazilian Journal of Infectious Diseases, 2017, 21, 493-499.	0.3	13
17	Knowledge regarding antibiotic use among students of three medical schools in Medellin, Colombia: a cross-sectional study. BMC Medical Education, 2020, 20, 22.	1.0	10
18	Irreversible inactivation of carbapenem-resistant Klebsiella pneumoniae and its genes in water by photo-electro-oxidation and photo-electro-Fenton - Processes action modes. Science of the Total Environment, 2021, 792, 148360.	3.9	10

#	Article	IF	CITATIONS
19	First reported case of an OXA-48-producing isolate from a Colombian patient. Journal of Global Antimicrobial Resistance, 2016, 6, 67-68.	0.9	9
20	Colistin Resistance in Carbapenem-Resistant Klebsiella pneumoniae Mediated by Chromosomal Integration of Plasmid DNA. Antimicrobial Agents and Chemotherapy, 2017, 61, .	1.4	9
21	High frequency of methicillin-susceptible and methicillin-resistant Staphylococcus aureus in children under 1 year old with skin and soft tissue infections. Jornal De Pediatria, 2018, 94, 380-389.	0.9	8
22	<p>Health-Related Quality of Life in Patients with Chronic Kidney Disease in Hemodialysis in MedellAn (Colombia)</p> . Patient Preference and Adherence, 2019, Volume 13, 2061-2070.	0.8	7
23	High frequency of gram-negative bacilli harboring blaKPC-2 in the different stages of wastewater treatment plant: A successful mechanism of resistance to carbapenems outside the hospital settings. Journal of Environmental Management, 2020, 271, 111046.	3.8	7
24	Staphylococcus aureus colonization increases the risk of bacteremia in hemodialysis patients: a molecular epidemiology approach with time-dependent analysis. American Journal of Infection Control, 2021, 49, 215-223.	1.1	6
25	High intermittent colonization by diverse clones of β-lactam-resistant Gram-negative bacilli suggests an excessive antibiotic use and different sources of transmission in haemodialysis patients. Journal of Hospital Infection, 2021, 107, 76-86.	1.4	6
26	A longitudinal study shows intermittent colonization by Staphylococcus aureus with a high genetic diversity in hemodialysis patients. International Journal of Medical Microbiology, 2021, 311, 151471.	1.5	6
27	Post-antibiotic era in hemodialysis? Two case reports of simultaneous colonization and bacteremia by multidrug-resistant bacteria. Jornal Brasileiro De Nefrologia: Orgao Oficial De Sociedades Brasileira E Latino-Americana De Nefrologia, 2021, 43, 597-602.	0.4	3
28	Detection of carbapenem resistance genes in Pseudomonas aeruginosa isolates with several phenotypic susceptibility profiles. CES Medicina, 2018, 32, 203-214.	0.1	3
29	Costos médicos directos de las infecciones del tracto urinario por bacilos Gram negativos resistentes a betalactámicos en un hospital de alta complejidad de MedellÃn, Colombia. Biomedica, 2019, 39, 35-49.	0.3	2
30	Climatological and Epidemiological Conditions Are Important Factors Related to the Abundance of blaKPC and Other Antibiotic Resistance Genes (ARGs) in Wastewater Treatment Plants and Their Effluents, in an Endemic Country. Frontiers in Cellular and Infection Microbiology, 2021, 11, 686472.	1.8	2
31	Brotes hospitalarios de bacterias resistentes a colistina: revisión sistemática de la literatura. Infectio, 2017, 21, .	0.4	2
32	The remarkable genetic relationship between Staphylococcus aureus isolates from hemodialysis patients and their household contacts: Homes as an important source of colonization and dissemination. PLoS ONE, 2022, 17, e0267276.	1.1	2
33	High frequency of colonization by diverse clones of beta-lactam-resistant Gram-negative bacilli in haemodialysis: different sources of transmission outside the renal unit?. Journal of Medical Microbiology 2020 69, 1132-1144	0.7	1
