

# Robert J Froud

## List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/6794551/robert-j-froud-publications-by-year.pdf>

Version: 2024-04-09

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

38  
papers

892  
citations

#	Paper	IF	Citations
38	Core outcome set for preventive intervention trials in chronic and episodic migraine (COSMIG): an international, consensus-derived and multistakeholder initiative. <i>BMJ Open</i> , <b>2021</b> , 11, e043242	3	4
37	The effects of supported employment interventions in populations of people with conditions other than severe mental health: a systematic review. <i>Primary Health Care Research and Development</i> , <b>2021</b> , 22, e79	1.6	1
36	Opportunities and challenges around adapting supported employment interventions for people with chronic low back pain: modified nominal group technique. <i>Disability and Rehabilitation</i> , <b>2021</b> , 43, 2750-2757	2.4	2
35	Relative Performance of Machine Learning and Linear Regression in Predicting Quality of Life and Academic Performance of School Children in Norway: Data Analysis of a Quasi-Experimental Study. <i>Journal of Medical Internet Research</i> , <b>2021</b> , 23, e22021	7.6	1
34	Development and feasibility of an intervention featuring individual supported work placements to aid return to work for unemployed people living with chronic pain. <i>Pilot and Feasibility Studies</i> , <b>2020</b> , 6, 49	1.9	1
33	Research ethics oversight in Norway: structure, function, and challenges. <i>BMC Health Services Research</i> , <b>2019</b> , 19, 24	2.9	2
32	Obstacles to returning to work with chronic pain: in-depth interviews with people who are off work due to chronic pain and employers. <i>BMC Musculoskeletal Disorders</i> , <b>2019</b> , 20, 486	2.8	6
31	The work of return to work. Challenges of returning to work when you have chronic pain: a meta-ethnography. <i>BMJ Open</i> , <b>2019</b> , 9, e025743	3	18
30	Inclusion and exclusion criteria used in non-specific low back pain trials: a review of randomised controlled trials published between 2006 and 2012. <i>BMC Musculoskeletal Disorders</i> , <b>2018</b> , 19, 113	2.8	26
29	Responsiveness, Reliability, and Minimally Important and Minimal Detectable Changes of 3 Electronic Patient-Reported Outcome Measures for Low Back Pain: Validation Study. <i>Journal of Medical Internet Research</i> , <b>2018</b> , 20, e272	7.6	13
28	The Power of Low Back Pain Trials: A Systematic Review of Power, Sample Size, and Reporting of Sample Size Calculations Over Time, in Trials Published Between 1980 and 2012. <i>Spine</i> , <b>2017</b> , 42, E680-E686	3.2	5
27	Preferred reporting items for studies mapping onto preference-based outcome measures: the MAPS statement. <i>Quality of Life Research</i> , <b>2016</b> , 25, 275-281	3.7	10
26	A Systematic Review of Outcome Measures Use, Analytical Approaches, Reporting Methods, and Publication Volume by Year in Low Back Pain Trials Published between 1980 and 2012: Respite, adspice, et prospice. <i>PLoS ONE</i> , <b>2016</b> , 11, e0164573	3.7	36
25	Primary outcome measure use in back pain trials may need radical reassessment. <i>BMC Musculoskeletal Disorders</i> , <b>2015</b> , 16, 88	2.8	13
24	Preferred Reporting Items for Studies Mapping onto Preference-Based Outcome Measures: The MAPS Statement. <i>Applied Health Economics and Health Policy</i> , <b>2015</b> , 13, 437-43	3.4	1
23	Preferred reporting items for studies mapping onto preference-based outcome measures: The MAPS statement. <i>Health and Quality of Life Outcomes</i> , <b>2015</b> , 13, 106	3	10
22	Preferred Reporting Items for Studies Mapping onto Preference-Based Outcome Measures: The MAPS Statement. <i>Pharmacoeconomics</i> , <b>2015</b> , 33, 985-91	4.4	15

21	Preferred reporting items for studies mapping onto preference-based outcome measures: The MAPS statement. <i>Journal of Medical Economics</i> , <b>2015</b> , 18, 851-7	2.4	4
20	PREFERRED REPORTING ITEMS FOR STUDIES MAPPING ONTO PREFERENCE-BASED OUTCOME MEASURES: THE MAPS STATEMENT. <i>International Journal of Technology Assessment in Health Care</i> , <b>2015</b> , 31, 230-5	1.8	3
19	The effect of journal impact factor, reporting conflicts, and reporting funding sources, on standardized effect sizes in back pain trials: a systematic review and meta-regression. <i>BMC Musculoskeletal Disorders</i> , <b>2015</b> , 16, 370	2.8	8
18	Preferred Reporting Items for Studies Mapping onto Preference-Based Outcome Measures: The MAPS Statement. <i>Medical Decision Making</i> , <b>2015</b> , 35, NP1-NP8	2.5	1
17	The MAPS Reporting Statement for Studies Mapping onto Generic Preference-Based Outcome Measures: Explanation and Elaboration. <i>Pharmacoeconomics</i> , <b>2015</b> , 33, 993-1011	4.4	45
16	A systematic review and meta-synthesis of the impact of low back pain on people's lives. <i>BMC Musculoskeletal Disorders</i> , <b>2014</b> , 15, 50	2.8	197
15	Responder analyses in randomised controlled trials for chronic low back pain: an overview of currently used methods. <i>European Spine Journal</i> , <b>2014</b> , 23, 772-8	2.7	33
14	Using ROC curves to choose minimally important change thresholds when sensitivity and specificity are valued equally: the forgotten lesson of pythagoras. theoretical considerations and an example application of change in health status. <i>PLoS ONE</i> , <b>2014</b> , 9, e114468	3.7	47
13	A systematic review of cluster randomised trials in residential facilities for older people suggests how to improve quality. <i>BMC Medical Research Methodology</i> , <b>2013</b> , 13, 127	4.7	30
12	Cascade diagrams for depicting complex interventions in randomised trials. <i>BMJ, The</i> , <b>2013</b> , 347, f6681	5.9	10
11	Systematic review of randomized controlled trials of clinical prediction rules for physical therapy in low back pain. <i>Spine</i> , <b>2013</b> , 38, 762-9	3.3	38
10	Clinicians' perceptions of reporting methods for back pain trials: a qualitative study. <i>British Journal of General Practice</i> , <b>2012</b> , 62, e151-9	1.6	9
9	Improving the reporting and interpretation of clinical trial outcomes. <i>British Journal of General Practice</i> , <b>2012</b> , 62, e729-31	1.6	9
8	Quality of cluster randomized controlled trials in oral health: a systematic review of reports published between 2005 and 2009. <i>Community Dentistry and Oral Epidemiology</i> , <b>2012</b> , 40 Suppl 1, 3-14	2.8	25
7	Reporting outcomes of back pain trials: a modified Delphi study. <i>European Journal of Pain</i> , <b>2011</b> , 15, 1068-74	3.0	
6	Methodological criteria for the assessment of moderators in systematic reviews of randomised controlled trials: a consensus study. <i>BMC Medical Research Methodology</i> , <b>2011</b> , 11, 14	4.7	73
5	Adverse events and manual therapy: a systematic review. <i>Manual Therapy</i> , <b>2010</b> , 15, 355-63	1.14	
4	Estimating the number needed to treat from continuous outcomes in randomised controlled trials: methodological challenges and worked example using data from the UK Back Pain Exercise and Manipulation (BEAM) trial. <i>BMC Medical Research Methodology</i> , <b>2009</b> , 9, 35	4.7	37

- 3 Monitoring self-reported adverse events: A prospective, pilot study in a UK osteopathic teaching clinic. *International Journal of Osteopathic Medicine*, 2009, 12, 49-55 1.9 11
- 2 Usual care in back pain trials. *British Journal of General Practice*, 2009, 59, 209-10; author reply 210-1 1.6 0
- 1 How do patients feel post-treatment? pilot study at a UK osteopathic teaching clinic of self-reported adverse events. *International Journal of Osteopathic Medicine*, 2008, 11, 151-152 1.9 4
