#	ARTICLE	IF	CITATIONS
1	COVID-19 length of hospital stay: a systematic review and data synthesis. BMC Medicine, 2020, 18, 270.	5.5	430
2	Behavioral Change Towards Reduced Intensity Physical Activity Is Disproportionately Prevalent Among Adults With Serious Health Issues or Self-Perception of High Risk During the UK COVID-19 Lockdown. Frontiers in Public Health, 2020, 8, 575091.	2.7	115
3	Trust and transparency in times of crisis: Results from an online survey during the first wave (April) Tj ETQq1 1 0.784314 rgBT /Overlo 2.5 87	2.5	87
4	How immunity from and interaction with seasonal coronaviruses can shape SARS-CoV-2 epidemiology. Proceedings of the National Academy of Sciences of the United States of America, 2021, 118, .	7.1	18
5	Spatiotemporal Heterogeneity in the Distribution of Chikungunya and Zika Virus Case Incidences during their 2014 to 2016 Epidemics in Barranquilla, Colombia. International Journal of Environmental Research and Public Health, 2019, 16, 1759.	2.6	16
6	Competition between RSV and influenza: Limits of modelling inference from surveillance data. Epidemics, 2021, 35, 100460.	3.0	14
7	Tooling-up for infectious disease transmission modelling. Epidemics, 2020, 32, 100395.	3.0	9
8	Estimating the duration of seropositivity of human seasonal coronaviruses using seroprevalence studies. Wellcome Open Research, 0, 6, 138.	1.8	5
9	Evidence for influenza and RSV interaction from 10 years of enhanced surveillance in Nha Trang, Vietnam, a modelling study. PLoS Computational Biology, 2022, 18, e1010234.	3.2	4
10	Estimating the duration of seropositivity of human seasonal coronaviruses using seroprevalence studies. Wellcome Open Research, 2021, 6, 138.	1.8	3
11	Estimating the duration of seropositivity of human seasonal coronaviruses using seroprevalence studies. Wellcome Open Research, 0, 6, 138.	1.8	3
