#	Paper	IF	Citations
361	Looking back: Body mass index as a measure of body fatness: age- and sex-specific prediction formulas. Thirty years later.. <i>British Journal of Nutrition</i> , 2022 , 1-5	3.6	
360	Overgewicht en obesitas bij volwassenen en kinderen 2022 , 29-56		0
359	Association of dietary intake and dietary habits with risk of cardiovascular disease among immigrant Pakistanis living in the Netherlands.. <i>JPMA the Journal of the Pakistan Medical Association</i> , 2021 , 71, 219-228	0.4	
358	Negen kernelementen die volgens betrokken professionals bijdragen aan het succes van Zwolle Gezonde Stad. <i>TSG: Tijdschrift Voor Gezondheidswetenschappen</i> , 2021 , 99, 61-69	0.2	
357	Involving Children in Creating a Healthy Environment in Low Socioeconomic Position (SEP) Neighborhoods in The Netherlands: A Participatory Action Research (PAR) Project. <i>International Journal of Environmental Research and Public Health</i> , 2021 , 18,	4.6	1
356	Preferences on how to measure and discuss health related quality of life within integrated care for children with obesity. <i>Journal of Patient-Reported Outcomes</i> , 2021 , 5, 106	2.6	0
355	Children's, Parents' and Healthcare Professionals' Preferences for Weight-Based Terminology in Health Care. <i>Health Communication</i> , 2021 , 36, 1805-1809	3.2	4
354	How healthy and processed are foods and drinks promoted in supermarket sales flyers? A cross-sectional study in the Netherlands. <i>Public Health Nutrition</i> , 2021 , 24, 3000-3008	3.3	2
353	Psychological distress and lower health-related quality of life are associated with need for dietary support among colorectal cancer survivors with overweight or obesity. <i>Supportive Care in Cancer</i> , 2021 , 29, 7659-7668	3.9	1
352	What Do Secondary Schools Need to Create Healthier Canteens? The Development of an Implementation Plan. <i>Frontiers in Public Health</i> , 2021 , 9, 683556	6	1
351	Dietary Patterns in Early Childhood and the Risk of Childhood Overweight: The GECKO Drenthe Birth Cohort. <i>Nutrients</i> , 2021 , 13,	6.7	2
350	Supporting parents and healthy behaviours through parent-child meetings - a qualitative study in the Netherlands. <i>BMC Public Health</i> , 2021 , 21, 1169	4.1	1
349	Towards OPTimal Timing and Method for promoting sUstained adherence to lifestyle and body weight recommendations in postMenopausal breast cancer survivors (the OPTIMUM-study): protocol for a longitudinal mixed-method study. <i>BMC Women's Health</i> , 2021 , 21, 268	2.9	0
348	The Healthy Supermarket Coach: Effects of a Nutrition Peer-Education Intervention in Dutch Supermarkets Involving Adolescents With a Lower Education Level. <i>Health Education and Behavior</i> , 2021 , 48, 150-159	4.2	2
347	The perspectives of parents and healthcare professionals towards parental needs and support from healthcare professionals during the first two years of children's lives. <i>International Journal of Qualitative Studies on Health and Well-being</i> , 2021 , 16, 1966874	2	1
346	Feeding patterns and BMI trajectories during infancy: a multi-ethnic, prospective birth cohort. <i>BMC Pediatrics</i> , 2021 , 21, 34	2.6	2
345	Perspectives into the experience of successful, substantial long-term weight-loss maintenance: a systematic review. <i>International Journal of Qualitative Studies on Health and Well-being</i> , 2021 , 16, 1862481		6

344	Greening the room: A quasi-experimental study on the presence of potted plants in study rooms on mood, cognitive performance, and perceived environmental quality among university students. <i>Journal of Environmental Psychology</i> , 2021 , 73, 101557	6.7	3
343	Change in visceral fat and total body fat and the effect on cardiometabolic risk factors during transgender hormone therapy. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2021 ,	5.6	5
342	Improving local food environments and dietary habits in adolescents by engaging with stakeholders in the Netherlands. <i>Proceedings of the Nutrition Society</i> , 2021 , 1-12	2.9	
341	The Impact of Obesity and Lifestyle on the Immune System and Susceptibility to Infections Such as COVID-19. <i>Frontiers in Nutrition</i> , 2020 , 7, 597600	6.2	26
340	Improving dietary intake during lunch through the provision of a healthy school lunch at Dutch primary schools: design of a pretest-posttest effectiveness study. <i>BMC Public Health</i> , 2020 , 20, 662	4.1	1
339	The "Stages Towards Completion Model": what helps and hinders children with overweight or obesity and their parents to be guided towards, adhere to and complete a group lifestyle intervention. <i>International Journal of Qualitative Studies on Health and Well-being</i> , 2020 , 15, 1735093	2	6
338	The relationship of prenatal antibiotic exposure and infant antibiotic administration with childhood allergies: a systematic review. <i>BMC Pediatrics</i> , 2020 , 20, 312	2.6	14
337	Youth perspectives on weight-related words used by healthcare professionals: A qualitative study. <i>Child: Care, Health and Development</i> , 2020 , 46, 369-380	2.8	6
336	Greening the classroom: Three field experiments on the effects of indoor nature on students' attention, well-being, and perceived environmental quality. <i>Building and Environment</i> , 2020 , 171, 106675	6.5	15
335	A free-produce stand on campus: impact on fruit and vegetable intake in Dutch university students. <i>Public Health Nutrition</i> , 2020 , 23, 924-934	3.3	2
334	Overgewicht en obesitas bij volwassenen en kinderen 2020 , 29-56		
333	Key elements of a successful integrated community-based approach aimed at reducing socioeconomic health inequalities in the Netherlands: A qualitative study. <i>PLoS ONE</i> , 2020 , 15, e0240757	2.7	2
332	Waist circumference as a vital sign in clinical practice: a Consensus Statement from the IAS and ICCR Working Group on Visceral Obesity. <i>Nature Reviews Endocrinology</i> , 2020 , 16, 177-189	15.2	270
331	The relationship of prenatal and infant antibiotic exposure with childhood overweight and obesity: a systematic review. <i>Journal of Developmental Origins of Health and Disease</i> , 2020 , 11, 335-349	2.4	8
330	Nature in the indoor and outdoor study environment and secondary and tertiary education students' well-being, academic outcomes, and possible mediating pathways: A systematic review with recommendations for science and practice. <i>Health and Place</i> , 2020 , 66, 102403	4.6	15
329	Can Healthy Checkout Counters Improve Food Purchases? Two Real-Life Experiments in Dutch Supermarkets. <i>International Journal of Environmental Research and Public Health</i> , 2020 , 17,	4.6	1
328	Changes in the Health-Related Quality of Life and Weight Status of Children with Overweight or Obesity Aged 7 to 13 Years after Participating in a 10-Week Lifestyle Intervention. <i>Childhood Obesity</i> , 2020 , 16, 412-420	2.5	2
327	A System Dynamics and Participatory Action Research Approach to Promote Healthy Living and a Healthy Weight among 10-14-Year-Old Adolescents in Amsterdam: The LIKE Programme. <i>International Journal of Environmental Research and Public Health</i> , 2020 , 17,	4.6	10

326	Parental Perspectives and Experiences in Relation to Lifestyle-Related Practices in the First Two Years of a Child's Life: A Qualitative Study in a Disadvantaged Neighborhood in The Netherlands. <i>International Journal of Environmental Research and Public Health</i> , 2020 , 17,	4.6	3
325	The Effect of Supportive Implementation of Healthier Canteen Guidelines on Changes in Dutch School Canteens and Student Purchase Behaviour. <i>Nutrients</i> , 2020 , 12,	6.7	5
324	National and Local Strategies in the Netherlands for Obesity Prevention and Management in Children and Adolescents. <i>Obesity Facts</i> , 2020 , 13, 418-429	5.1	6
323	Social norm nudges in shopping trolleys to promote vegetable purchases: A quasi-experimental study in a supermarket in a deprived urban area in the Netherlands. <i>Appetite</i> , 2020 , 151, 104655	4.5	8
322	Impact of nutrition education on nutritional knowledge and intentions towards nutritional counselling in Dutch medical students: an intervention study. <i>BMJ Open</i> , 2020 , 10, e034377	3	0
321	Can unhealthy food purchases at checkout counters be discouraged by introducing healthier snacks? A real-life experiment in supermarkets in deprived urban areas in the Netherlands. <i>BMC Public Health</i> , 2020 , 20, 542	4.1	9
320	Key elements of a successful integrated community-based approach aimed at reducing socioeconomic health inequalities in the Netherlands: A qualitative study 2020 , 15, e0240757		
319	Key elements of a successful integrated community-based approach aimed at reducing socioeconomic health inequalities in the Netherlands: A qualitative study 2020 , 15, e0240757		
318	Key elements of a successful integrated community-based approach aimed at reducing socioeconomic health inequalities in the Netherlands: A qualitative study 2020 , 15, e0240757		
317	Key elements of a successful integrated community-based approach aimed at reducing socioeconomic health inequalities in the Netherlands: A qualitative study 2020 , 15, e0240757		
316	What's for lunch? The content and quality of lunches consumed by Dutch primary schoolchildren and the differences between lunches consumed at home and at school. <i>BMC Public Health</i> , 2019 , 19, 1365	4.1	3
315	Development and Evaluation of the Implementation of Guidelines for Healthier Canteens in Dutch Secondary Schools: Study Protocol of a Quasi-Experimental Trial. <i>Frontiers in Public Health</i> , 2019 , 7, 254	6	5
314	Early Life Exposure to Antibiotics and Autism Spectrum Disorders: A Systematic Review. <i>Journal of Autism and Developmental Disorders</i> , 2019 , 49, 3866-3876	4.6	16
313	Are intestinal parasites associated with obesity in Mexican children and adolescents?. <i>Parasitology International</i> , 2019 , 71, 126-131	2.1	2
312	Socioeconomic and ethnic differences in the relation between dietary costs and dietary quality: the HELIUS study. <i>Nutrition Journal</i> , 2019 , 18, 21	4.3	13
311	Fruit and vegetable intakes, associated characteristics and perceptions of current and future availability in Dutch university students. <i>Public Health Nutrition</i> , 2019 , 22, 1951-1959	3.3	10
310	Visceral and ectopic fat, atherosclerosis, and cardiometabolic disease: a position statement. <i>Lancet Diabetes and Endocrinology</i> , 2019 , 7, 715-725	18.1	296
309	Implementation of Guidelines for Healthier Canteens in Dutch Secondary Schools: A Process Evaluation. <i>International Journal of Environmental Research and Public Health</i> , 2019 , 16,	4.6	2

308	Prospective associations of age at complementary feeding and exclusive breastfeeding duration with body mass index at 5-6 years within different risk groups. <i>Pediatric Obesity</i> , 2018 , 13, 522-529	4.6	6
307	Health-Related Quality of Life in Children and Adolescents with Severe Obesity after Intensive Lifestyle Treatment and at 1-Year Follow-Up. <i>Obesity Facts</i> , 2018 , 11, 116-128	5.1	22
306	Agreement between parent and child report of physical activity, sedentary and dietary behaviours in 9-12-year-old children and associations with children's weight status. <i>BMC Psychology</i> , 2018 , 6, 14	2.8	24
305	Food Futures: Developing effective food systems interventions to improve public health nutrition. <i>Agricultural Systems</i> , 2018 , 160, 124-131	6.1	24
304	Towards the measurement of food literacy with respect to healthy eating: the development and validation of the self perceived food literacy scale among an adult sample in the Netherlands. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2018 , 15, 54	8.4	42
303	Tools for a systematic appraisal of integrated community-based approaches to prevent childhood obesity. <i>BMC Public Health</i> , 2018 , 18, 189	4.1	5
302	Greenery in the university environment: Students' preferences and perceived restoration likelihood. <i>PLoS ONE</i> , 2018 , 13, e0192429	3.7	29
301	Energy Balance-Related Behavior and Anthropometric Measures Among Adolescents Across Three Educational Levels: A Cross-Sectional Study in Dutch Schools. <i>Health Education and Behavior</i> , 2018 , 45, 349-358	4.2	5
300	Een verzorgde lunch op de basisschool: wat kost dat en wat mag dat volgens ouders kosten?. <i>TSG: Tijdschrift Voor Gezondheidswetenschappen</i> , 2018 , 96, 234-237	0.2	
299	Development of the 'Canteen Scan': an online tool to monitor implementation of healthy canteen guidelines. <i>BMC Public Health</i> , 2018 , 18, 1109	4.1	13
298	Toward the optimal strategy for sustained weight loss in overweight cancer survivors: a systematic review of the literature. <i>Journal of Cancer Survivorship</i> , 2017 , 11, 360-385	5.1	22
297	Energy balance and obesity: what are the main drivers?. <i>Cancer Causes and Control</i> , 2017 , 28, 247-258	2.8	268
296	¶Eat the Vegetables because I Have Grown them with My Own Hands¶Children's Perspectives on School Gardening and Vegetable Consumption. <i>Children and Society</i> , 2017 , 31, 429-440	1.4	14
295	The association of self-regulation with weight loss maintenance after an intensive combined lifestyle intervention for children and adolescents with severe obesity. <i>BMC Obesity</i> , 2017 , 4, 13	3.6	6
294	Dietary acculturation among the South-Asian Surinamese population in the Netherlands: the HELIUS study. <i>Public Health Nutrition</i> , 2017 , 20, 1983-1992	3.3	9
293	Economic Evaluation of Intensive Inpatient Treatments for Severely Obese Children and Adolescents. <i>Obesity Facts</i> , 2017 , 10, 458-472	5.1	1
292	Aanbevelingen voor de evaluatie van de integrale wijkgerichte aanpak van overgewicht. <i>TSG: Tijdschrift Voor Gezondheidswetenschappen</i> , 2017 , 95, 326-334	0.2	1
291	Comparison of cardiovascular risk factors and dietary intakes among Javanese Surinamese and South-Asian Surinamese in the Netherlands. The HELIUS study. <i>BMC Research Notes</i> , 2017 , 10, 23	2.3	4

290	Comparison of general health status, myocardial infarction, obesity, diabetes, and fruit and vegetable intake between immigrant Pakistani population in the Netherlands and the local Amsterdam population. <i>Ethnicity and Health</i> , 2017 , 22, 551-564	2.2	6
289	Verspreiding en implementatie van de kennis en eindproducten van het CIAO-onderzoek. <i>TSG: Tijdschrift Voor Gezondheidswetenschappen</i> , 2017 , 95, 335-339	0.2	
288	Water Consumption in European Children: Associations with Intake of Fruit Juices, Soft Drinks and Related Parenting Practices. <i>International Journal of Environmental Research and Public Health</i> , 2017 , 14,	4.6	9
287	Sowing Seeds for Healthier Diets: Children's Perspectives on School Gardening. <i>International Journal of Environmental Research and Public Health</i> , 2017 , 14,	4.6	11
286	An exploration of needs and preferences for dietary support in colorectal cancer survivors: A mixed-methods study. <i>PLoS ONE</i> , 2017 , 12, e0189178	3.7	11
285	Kwaliteit van leven als uitkomstmaat in de zorg voor kinderen (4-19 jaar) met obesitas. <i>TSG: Tijdschrift Voor Gezondheidswetenschappen</i> , 2016 , 94, 300-304	0.2	2
284	One-year effects of two intensive inpatient treatments for severely obese children and adolescents. <i>BMC Pediatrics</i> , 2016 , 16, 120	2.6	7
283	Identifying developmental trajectories of body mass index in childhood using latent class growth (mixture) modelling: associations with dietary, sedentary and physical activity behaviors: a longitudinal study. <i>BMC Public Health</i> , 2016 , 16, 1128	4.1	28
282	Package size and manufacturer-recommended serving size of sweet beverages: a cross-sectional study across four high-income countries. <i>Public Health Nutrition</i> , 2016 , 19, 1008-16	3.3	8
281	The association of eating styles with weight change after an intensive combined lifestyle intervention for children and adolescents with severe obesity. <i>Appetite</i> , 2016 , 99, 82-90	4.5	13
280	The role of systemic inflammation linking maternal BMI to neurodevelopment in children. <i>Pediatric Research</i> , 2016 , 79, 3-12	3.2	70
279	Recommendations and Improvements for the Evaluation of Integrated Community-Wide Interventions Approaches. <i>Journal of Obesity</i> , 2016 , 2016, 2385698	3.7	9
278	Barriers to and Facilitators of the Evaluation of Integrated Community-Wide Overweight Intervention Approaches: A Qualitative Case Study in Two Dutch Municipalities. <i>International Journal of Environmental Research and Public Health</i> , 2016 , 13, 390	4.6	6
277	Optimizing Tailored Health Promotion for Older Adults: Understanding Their Perspectives on Healthy Living. <i>Gerontology and Geriatric Medicine</i> , 2016 , 2, 2333721415625293	2.3	11
276	Inequalities in energy-balance related behaviours and family environmental determinants in European children: changes and sustainability within the EPHE evaluation study. <i>International Journal for Equity in Health</i> , 2016 , 15, 160	4.6	8
275	The 2015 Dutch food-based dietary guidelines. <i>European Journal of Clinical Nutrition</i> , 2016 , 70, 869-78	5.2	184
274	Obesity: The obesity epidemic in the USA - no end in sight?. <i>Nature Reviews Endocrinology</i> , 2016 , 12, 499-500	5.0	24
273	PortionControl@HOME: results of a randomized controlled trial evaluating the effect of a multi-component portion size intervention on portion control behavior and body mass index. <i>Annals of Behavioral Medicine</i> , 2015 , 49, 18-28	4.5	29

272	The global burden of obesity and the challenges of prevention. <i>Annals of Nutrition and Metabolism</i> , 2015 , 66 Suppl 2, 7-12	4.5	372
271	The home food environment of overweight gatekeepers in the Netherlands. <i>Public Health Nutrition</i> , 2015 , 18, 1815-23	3.3	6
270	Associations between active video gaming and other energy-balance related behaviours in adolescents: a 24-hour recall diary study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2015 , 12, 32	8.4	4
269	Home environmental determinants of children's fruit and vegetable consumption across different SES backgrounds. <i>Pediatric Obesity</i> , 2015 , 10, 134-40	4.6	24
268	Inequities in energy-balance related behaviours and family environmental determinants in European children: baseline results of the prospective EPHE evaluation study. <i>BMC Public Health</i> , 2015 , 15, 1203	4.1	11
267	Replacing Non-Active Video Gaming by Active Video Gaming to Prevent Excessive Weight Gain in Adolescents. <i>PLoS ONE</i> , 2015 , 10, e0126023	3.7	19
266	Design of CIAO, a research program to support the development of an integrated approach to prevent overweight and obesity in the Netherlands. <i>BMC Obesity</i> , 2014 , 1, 5	3.6	12
265	Gallstone disease in severely obese children participating in a lifestyle intervention program: incidence and risk factors. <i>International Journal of Obesity</i> , 2014 , 38, 950-3	5.5	9
264	Behavioural strategies to control the amount of food selected and consumed. <i>Appetite</i> , 2014 , 72, 156-65	4.5	25
263	Het Evaluatie Raamwerk voor de Integrale Aanpak van Overgewicht. <i>TSG: Tijdschrift Voor Gezondheidswetenschappen</i> , 2014 , 92, 75-76	0.2	1
262	Overweight and obese adults have low intentions of seeking weight-related care: a cross-sectional survey. <i>BMC Public Health</i> , 2014 , 14, 582	4.1	10
261	Negotiated media effects. Peer feedback modifies effects of media's thin-body ideal on adolescent girls. <i>Appetite</i> , 2014 , 73, 172-82	4.5	37
260	Promoting health equity in European children: design and methodology of the prospective EPHE (Epoque for the Promotion of Health Equity) evaluation study. <i>BMC Public Health</i> , 2014 , 14, 303	4.1	11
259	Active and non-active video gaming among Dutch adolescents: who plays and how much?. <i>Journal of Science and Medicine in Sport</i> , 2014 , 17, 597-601	4.4	20
258	Hydration and obesity prevention. <i>Obesity Facts</i> , 2014 , 7 Suppl 2, 37-48	5.1	8
257	Counteracting Media's Thin-Body Ideal for Adolescent Girls: Informing Is More Effective Than Warning. <i>Media Psychology</i> , 2014 , 17, 154-184	2.9	25
256	Weight related health status of patients treated by dietitians in primary care practice: first results of a cohort study. <i>BMC Family Practice</i> , 2014 , 15, 161	2.6	2
255	Dietetic treatment lowers body mass index in overweight patients: an observational study in primary health care. <i>Journal of Human Nutrition and Dietetics</i> , 2014 , 27, 426-33	3.1	13

254	Active video games as a tool to prevent excessive weight gain in adolescents: rationale, design and methods of a randomized controlled trial. <i>BMC Public Health</i> , 2014 , 14, 275	4.1	14
253	Dutch teachers and parents about overweight prevention in pre-vocational schools. <i>Health Promotion International</i> , 2014 , 29, 15-25	3	2
252	Personal, social, and game-related correlates of active and non-active gaming among dutch gaming adolescents: survey-based multivariable, multilevel logistic regression analyses. <i>JMIR Serious Games</i> , 2014 , 2, e4	3.4	3
251	Effects of different discount levels on healthy products coupled with a healthy choice label, special offer label or both: results from a web-based supermarket experiment. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2013 , 10, 59	8.4	33
250	Cardiometabolic risk factors and quality of life in severely obese children and adolescents in The Netherlands. <i>BMC Pediatrics</i> , 2013 , 13, 62	2.6	30
249	The role of self-regulating abilities in long-term weight loss in severely obese children and adolescents undergoing intensive combined lifestyle interventions (HELIOS); rationale, design and methods. <i>BMC Pediatrics</i> , 2013 , 13, 41	2.6	10
248	The development and evaluation of an Internet-based intervention to increase awareness about food portion sizes: a randomized, controlled trial. <i>Journal of Nutrition Education and Behavior</i> , 2013 , 45, 701-7	2	15
247	The effect of a counselling intervention on weight changes during and after pregnancy: a randomised trial. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2013 , 120, 92-9	3.7	62
246	Characterizing the EPODE logic model: unravelling the past and informing the future. <i>Obesity Reviews</i> , 2013 , 14, 162-70	10.6	54
245	Association between TV viewing, computer use and overweight, determinants and competing activities of screen time in 4- to 13-year-old children. <i>International Journal of Obesity</i> , 2013 , 37, 47-53	5.5	130
244	Price discounts significantly enhance fruit and vegetable purchases when combined with nutrition education: a randomized controlled supermarket trial. <i>American Journal of Clinical Nutrition</i> , 2013 , 97, 886-95	7	113
243	Obesity and cardiovascular disease risk factors among the indigenous and immigrant Pakistani population: a systematic review. <i>Obesity Facts</i> , 2013 , 6, 523-35	5.1	13
242	Modelling of usual nutrient intakes: potential impact of the choices programme on nutrient intakes in young dutch adults. <i>PLoS ONE</i> , 2013 , 8, e72378	3.7	29
241	The process evaluation of two interventions aimed at portion size in worksite cafeterias. <i>Journal of Human Nutrition and Dietetics</i> , 2012 , 25, 180-8	3.1	9
240	Short-term oral nutritional intervention with protein and vitamin D decreases falls in malnourished older adults. <i>Journal of the American Geriatrics Society</i> , 2012 , 60, 691-9	5.6	75
239	Introducing taxes, subsidies or both: the effects of various food pricing strategies in a web-based supermarket randomized trial. <i>Preventive Medicine</i> , 2012 , 54, 323-30	4.3	54
238	EPODE approach for childhood obesity prevention: methods, progress and international development. <i>Obesity Reviews</i> , 2012 , 13, 299-315	10.6	158
237	The effects of a 25% discount on fruits and vegetables: results of a randomized trial in a three-dimensional web-based supermarket. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2012 , 9, 11	8.4	52

236	Weight information labels on media models reduce body dissatisfaction in adolescent girls. <i>Journal of Adolescent Health</i> , 2012 , 50, 600-6	5.8	19
235	The effect of a comprehensive lifestyle intervention on cardiovascular risk factors in pharmacologically treated patients with stable cardiovascular disease compared to usual care: a randomised controlled trial. <i>BMC Cardiovascular Disorders</i> , 2012 , 12, 71	2.3	18
234	Survival of cognitively impaired older hospitalized patients at risk of malnutrition. <i>European Geriatric Medicine</i> , 2012 , 3, 330-335	3	1
233	A trial of sugar-free or sugar-sweetened beverages and body weight in children. <i>New England Journal of Medicine</i> , 2012 , 367, 1397-406	59.2	557
232	Resting energy expenditure in malnourished older patients at hospital admission and three months after discharge: predictive equations versus measurements. <i>Clinical Nutrition</i> , 2012 , 31, 958-66	5.9	33
231	Obesity and cardiovascular disease risk among Turkish and Moroccan migrant groups in Europe: a systematic review. <i>Obesity Reviews</i> , 2012 , 13, 2-16	10.6	35
230	Age standardization in mapping adult overweight and obesity trends in the WHO European Region. <i>Obesity Reviews</i> , 2012 , 13, 174-91	10.6	65
229	Influences on body weight of female Moroccan migrants in the Netherlands: a qualitative study. <i>Health and Place</i> , 2012 , 18, 883-91	4.6	22
228	Oral nutritional support in malnourished elderly decreases functional limitations with no extra costs. <i>Clinical Nutrition</i> , 2012 , 31, 183-90	5.9	59
